FOREWORD

FROM EDUCATION comes knowledge; from knowledge comes power; from power comes achievement. Our graduation from college is an achievement of which we are justly proud. As a monument to this achievement we present this year's Bugle.

In accomplishing the purpose of the Bugle, we have selected the Teaching and Administration Building as a symbol signifying all that Tech life represents. In viewing the Teaching and Administration Building, we are impressed with its quiet dignity; we are conscious of a conservative but progressive element; we receive the impression of the great power of knowledge available to all. This most imposing structure on the campus combines all the elements essential to a college. It includes offices of the Administration and Faculty, classrooms, and facilities for many student activities.

In presenting this year's Bugle, we have attempted to record faithfully the many enjoyable hours spent on the Virginia Tech campus. By doing this we hope to keep vivid our memories of student life and the debt of gratitude we owe to our Alma Mater.
EDICATION

Knowledge, the synonym of power and the gateway to truth, is not obtained easily and is not given to keep. Knowledge must be worked for, studied for, and thought for; its true value is realized only when it is put into circulation in one form or another. After four years of formal education, the Class of 1939 emerges into the world where the true worth of knowledge will be demonstrated.

As we embark upon our careers we may well hold in mind the example set forth by one of our distinguished faculty, who has become one of the most learned men in his profession. In recognition of his success in the pursuit of his vocation, his high standards and ideals, his long years of service to the college, his patient tolerance as a teacher, and his fine qualities as a man, we consider it a distinct privilege to dedicate this forty-fifth volume of The Bugle to

Professor William Henry Rasche
Head of the Department of Graphics
When we speak of college, we immediately think of two things: the students and the administration. In this book we present the administrative officials, who are responsible for our education and training, and the students, who are seeking the essentials of leadership and character so necessary in life.

BOOK ONE
The President's Home

THE COLLEGE
Dedicated to those Classmates who unfortunately were unable to remain with the Class of 1939 through the four years
The theme of the administration can well be expressed as "a bigger and better V. P. I." The continuous growth of the Virginia Polytechnic Institute, both in physical facilities and in academic standing, can be attributed to the unswerving and unceasing endeavors of

PRESIDENT JULIAN A. BURRUSS, Ph.D., LL.D.
THE DEANS

John Edward Williams
Dean of the College

Earle Bertram Norris
Dean of Engineering

Harvey Lee Price
Dean of Agriculture

The Deans, in cooperation with the President, are responsible for the development of their own schools as well as the rapid growth of the college as a whole. Daily, problems must be solved by these men which shape the policy and future of V. P. I. They are directly responsible for a unified faculty and a balanced and standardized academic program.

MILITARY

A Tech Landmark
SENIOR CLASS HISTORY

Entering Tech with the largest group ever to assemble as a class at V. P. I, the '39 Freshmen followed the involuntary path of all freshmen and were soon initiated into the ways and means of the so-called "Misters."

The class became more organized as the "Thirty-Niners" learned to loosen up and congenialize with fellow classmates; a set of officers were elected to form the figurehead to guide the youngsters in their stormy Freshman year. J. W. Ruby was given the honor of heading the class with J. R. Belcher, Vice President; W. E. Leckie, Secretary; S. F. Barnes, Treasurer; and J. S. Hill, Sergeant-at-Arms, assisting him in his managerial role.

Spring turned to summer and the eyes of the '39 crew turned to black belts and no more "Misters." Grown-up Freshmen began to assume sophisticated airs and, with pained boredom, unbended enough to instruct the wide-eyed '40's in the life of being a Techman. This year, Jack Ruby again held the reigns for the '39 band wagon, having as his subordinates S. F. Barnes, Vice President; W. E. Leckie, Secretary; and P. A. Sykes, Treasurer.

Halting its impetuous dash to graduation at the halfway mark, the class of '39 stopped to revive and prepare. Almost half of its original members had dropped out; shadows of new and pleasurable experiences loomed in the foreground. Ring Dance, R. O. T. C. Camp, the responsibilities and leadership of Seniordom, all merged from the infinite future into near actualities.

A new set of officers, headed by Neil Wood, took charge as follows: J. R. Belcher, Vice President; F. L. Oliver, Secretary; Guy MacLaughlin, Treasurer; M. O. Bradshaw, Assistant Treasurer; and A. S. Miller, Sergeant-at-Arms.

Plans for a perfect ring dance were formulated and achieved. Don Bestor and his orchestra were secured for the occasion. Coordinating the Military Juniors and the Civilian Juniors in a beautiful figure, resplendent in glistening white and silver, the young Seniors passed through their arch of expectation, received their ring from their chosen one, took their reward, and marched slowly back to the strains of "Tech Triumph," as one of the greatest events in the history of young manhood at Tech passed into memories. No doubt, the 1939 Ring Dance was the best and will be the longest remembered of any in that gala series of festive sets.

Passing into capes and gold bands, our group reached its fourth and final year at V. P. I. Stories of a wild and enjoyable camp life circulated from all corners; loud and emphatic commands issued from the newly appointed commanders; and life began to assume a status of superiority and domination.

New class officers were: J. A. Gaugler, President; N. E. Goldblatt, Vice President; E. C. Compton, Secretary; W. M. Land, Treasurer.

For the entire four years we weren't beaten by a V. M. I. team on Thanksgiving. Each year we beat the "Flying Squadron" by a margin of six points, with the exception of last fall which ended with the famous two to two tie.

As winter snows melted, as sun peeped timidly from its almost forgotten haven, worries of the forthcoming responsibilities darkened the hours of Seniors. Campus activities passed to Juniors as interviews and letters of application, coupled with heat power and cost accounting, bent the cape-worn shoulders of the job-seekers.

At last, Senior Week... passed!... finals... commission... and the coveted "skin you love to touch"—from years gone—now, a grad... class of '39, if you please!

CLASSES

CIVILIAN

Civilian Students Board of Governors
CIVILIAN SENIORS

The Civilian Seniors constituted a considerable larger percentage of the Senior class this year than they have in the past. As a result they have received a great deal more recognition in student circles. This was pointed out by the fact that Civilian Seniors were chosen to lead several of the well known organizations on the campus.

Although the Civilian Seniors include in their numbers the men who have transferred from other schools and those who have left the ranks of the Corps of Cadets, they also include a group of men who started out as civilian students four years ago. This last mentioned group, as well as the Military Seniors, watched the Civilian Students Union grow from a small body of men, who were scarcely able to fill one section of the Stone Dormitory, to the ever-increasing body which now represents one-third of the student body. These men have realized during the past four years that they must cooperate wholeheartedly with the Corps of Cadets in order to create a greater Virginia Tech. In carrying out this end, the Civilian Seniors have participated in all types of campus activities, including scholastic, athletic, and social.

The 1939 Civilian Seniors all proudly point out their friends in the Corps of Cadets, and trust that the friendships they have kindered with both Civilians and Cadets during their stay here will always remain steadfast.

Although military training has been an integral part of Virginia Tech since 1872, the present Reserve Officers Training Corps was established here in 1919, and has consistently received the highest possible rating from the War Department. In this book we present that phase of training that prepares the student to better fulfill the duties of citizenship.

The Colors
The Corps of Cadets

Time marches on. The Class of 1939, as a unit, passes into history. You, as individual members, go forth to take your places in the world; some to achieve success; all to struggle with life. In struggle or achievement each of you will depend upon the things, spiritual, moral and academic, which V. P. I. has bestowed upon you. These have been yours for the taking. If you have grasped them, they will aid you much. If you have ignored them, the loss is yours.

Then too, you of the graduating class have made your contribution to V. P. I. and to the Corps of Cadets. As to whether this is a better college and as to whether this is a better Corps because of that contribution, you yourselves and the classes which follow you are the best judges.

Irrespective of opportunity grasped or of contribution rendered, you now become Alumni of V. P. I. with all that the term implies. To each individual of the Class of 1939 the Commandant of Cadets and the members of the Military Department with good-speed and a full measure of success in life.

J. H. Cochran

Lieutenant-Colonel J. H. Cochran, C.A.C.
Commandant of Cadets

Second row: Captain W. J. Wolfe, C.A.C.; Captain J. N. Kroeger, C.E.; Captain T. W. Munford, C.A.C.; Captain W. F. M. Longwell, C.E.

The supreme commander of the Regiment is Donald Glenn, affectionately called "Duck" by his classmates. There have been many fine Cadet Colonels at Virginia Tech, but never one who worked harder to maintain the high standard of the Corps.

Neil Wood, the pride of Hampton, is second in command. This popular lad has always performed his duties ably and justly.

Bristol, who sent Dave Braddock to the regimental staff to be a natty and deep-voiced adjutant, should be proud of her son's fine record.

"Righteous Joe" Belcher, the Regimental Supply Officer from Petersburg, has done much to further the fame of the Corps.

George Worthington, from the Nation's Capitol, is an efficient Plans and Training Officer and a great favorite with the ladies.

Roy Ben Farrell, the "Boy Wonder" from Portsmouth and Sergeant-Major, has improved administration by many long hours of work.

The Regimental "Wit," who is really the Supply Sergeant, is Silas Dann, whose ready tongue and keen mind have enlivened many dull moments.

These varied personalities have worked together throughout the year and compose one of the most efficient staffs the Corps has ever had.

The "Highty Tighties," as the Band is familiarly known to the Corps, numbered 115 men this year, the largest in its history. As a unit it bettered its record for music and appearance both on parade and in concert work.

Under the direction of J. S. Schaefer, with John S. Hill as captain, a trip was made in the fall to Durham, North Carolina, for the game between Virginia Tech and the University of North Carolina. Near the end of the fall quarter the band provided the music for the Land Grant Broadcast from coast to coast over the N. B. C. Network. During the winter quarter a seminar was held and concerts were given every Sunday in May during the spring quarter.

Officers of the Band did a very good job and it was only through their whole-hearted cooperation that such a success was made of the organization.

Out in front as usual is the Infantry Battalion Staff, the leaders of the so-called "Lost Battalion," the pride of the Regiment. Their leader, Tiny Court House's gift to V. P. I., commonly termed "Chicken Compton," plays a vital part in the efficient organization of the staff. First on your left is Ernie Vaughan, our Adjutant, whose eloquent vocal strains snaps the battalion to attention. Next in line is Jim Coleman, the battalion Supply Officer, who normally answers to the name of "Goat." The invisible man in the center is Gus (Wimpy) Downs, who was so busy looking for someone who would marry him that he couldn't be here for the picture. Wiley Trivett, the Sergeant-Major, hails from the hills of the Cumberland, and his one ambition is to be a great surgeon. The tall boy on the right is Mrs. Grizzard's little son, Sam Billy, who also hopes to become a surgeon.

OFFICERS AND PLATOONS

"Outstanding"—That is the characteristic of our organization in one word. Company "A" has been the leader at V. P. I. from the very first. We were the first company to be organized at V. P. I., the first to volunteer its services in the World War, and the first in every parade. The past record will ever be held up as a standard of achievement.

The ever-prevailing Company "A" spirit is hard to define but easy to understand. Once a boy has lived with its men, has absorbed its spirit, and has learned the long outstanding customs, it is very difficult for him to change. Friendliness is the theory that gained us our reputation as the "BEST," and friendliness is the theory that will keep their reputation. It is easy to understand why those who have gone before us request their friends to join our organization.

Company B

To an outsider, the boys of Company B may be only a precise group of cadets, but to one who knows us, we are infinitely more than that. Our company is a fraternity of men welded into an inseparable body of friendship. We cherish the glorious traditions of Company B Cadets; we look with pride to our past records; we point to the men who have left us to carry our characteristic spirit into the various walks of life.

This year, the work of the Company goes steadily on toward the creation of an even better organization. Our officers, "Cap'n" Barnes, Lieutenants Dollins, Gaunt, and Brown, supply us with real leadership and positive ability. The new men have quickly grasped the requisites of a Company B cadet; the old men carry on.

This year, with the graduation of the Class of '79, the first freshman class ever to live in the New Stone Barracks will be leaving V. P. I. During the period that our Company has been living in the new barracks, the military bearing of the company as a whole has constantly improved. This year, under the leadership of our Captain, "Soup" Campbell, we have remained a well disciplined, a well drilled, and a neatly dressed company.

The standards set by "C" Company should serve as a challenge to every other company in the regiment, and when all of the companies have attained these standards, then every man in every company in the V. P. I. Corps of Cadets will be worthy of the honor.

TECHMAN.

Second Battalion

P. A. Sykes
Major

Well, here they are—or perhaps we should say, there they were! This staff can well be called the “first line of defense,” at least the Army thinks so when they decide to take someone’s pretty stripes off his manly arms.

The head of these “Buzzets” is “Buzzard” Sykes, who, in addition to his military prowess, is head of the Southern Colonels. Misfortune trod the tracks of our Adjutant, “Oochie” Jeffries, and he was replaced by “Married-man” Nichols. The ambition of “Cueball” Heard, our Supply Officer, is to read the orders in the Hollins messhall. Misfortune also rode herd on our Plans and Training Officer, and Jack Ruby was replaced by “Lover” Leckie. If our athletic Sergeant-Major, “Sunny” Powers, doesn’t lose his nerve, he intends defending his wrestling title at Vassar this spring. The most studious of all the “Buzzets” is our Color-Sergeant, Martin Jones, who must have been studying very hard to miss this picture.

M. C. Jones.......................... Color-Sergeant
When we think of "E" Company, we think of a closely knit organization whose only thought in its endeavor is to be the top. Placing five out of the six men on the battalion staff at the opening of the year, we felt quite proud only to have "Yakum" Ruby and "Oochie" Jeffries returned to us . . . what a mortality rate!

We listened for a full quarter to the booming voice of "Bal" Battison emanating from the second platoon, but we lost "Bal's" three stripes to Christiansburg. From the first platoon, Harvel Knight has scored the course of this unit with a quiet determination, and there were few tricks missed in this half of the company. Out in front we have Captain "Ghullie" Hrasty, whose staccato voice and sharp eye have made many underclassmen fall into line. This political "bigwig" was assisted on the company staff by Jake Kirkman, whose quiet whisperings at drill often saved the day, and by Tom Farrar, who, as First Sergeant, kept "E" Company on the straight and narrow.

Company F

In placing a few words about "F" Company in this Bugle we realize what a task we have in trying to capture the words to picture the underlying spirit which has prevailed in this organization for so many years. There has always been the tradition of friendship and the genuine interest which each member takes in his fellow cadet. A cordial greeting and rejoicing in each other's success has done much toward binding eternal friendship among us, and consequently has brought glory to Company F. The result has always been a harmony of high minded and honorable boys, much like a large fraternity, in which every member has the sustaining sense of a friendly duty and cooperation to inspire him.

To our officers this year we owe our deepest gratitude for having done so much to uphold and perpetuate our traditions.

Many and varied have been the experiences of us who are the class of '39 in Company "G". In the beginning we numbered thirty-nine "Rats" but the inevitable forces moved and now of the original group but eleven remain. However, we have been bolstered by the addition of three transfer students. True indeed were the words of the prophet who at the beginning of our first year said, "The man on your right and the man on your left will not graduate with you."

The even temer and high efficiency of the Company is a credit to the impersonal leadership of the company commander and his able staff of commissioned and non-commissioned officers. We leave with a feeling of pride in a task well done and in parting express our appreciation of the loyalty and cooperation shown us by the underclassmen and wish to them the best of luck and success as they assume command.

For military perfection and drill precision, these six men are outstanding. However, their personal lives are also outstanding. For instance, that individual on the right is Billy Austin of Farmville, who is head cheerleader this year. Next to Billy is his "ole," Stan Rush, the gay Romeo who spends his time between Roanoke and R.-M. W. C. Next to Stan is that lovable, likable, "Poppa" Gee. Next is Willie Watts, an honorary member of the V. M. I. football team. "Bill" Heard is the married man on the staff, and out in front is the one and only "Cho Cho" McLaughlin. This staff represents the largest battalion in the Corps and has established a reputation for its neatness, efficiency, and military bearing.

OFFICERS AND PLATOONS

Battery I

Three times winner of the coveted citation cord awarded to the best drilled battery in the Coast Artillery each year, Battery "I" has a record that is envied by all of the corps.

It is not, however, in military alone that Battery "I" stands out. Many of the leaders of the social and honorary clubs wear the red cord. The president of the Corps of Cadets, the captain of the 1939 football team, and officers of two classes are from our ranks. Battery "I" has always been well represented in athletics and this year is no exception.

It is with justifiable pride that we are able to say that from the Captain to the last freshman in the rear rank of the last platoon, "the 'Ts' have it."

Battery K

Within the ranks of Battery "K" are men who are outstanding in military, scholarship, and athletics. Battery "K" furnishes more than her share of officers and leaders in extra-curricula, sectional, and dance clubs. Fourteen men from Battery "K" have won for themselves the distinction of wearing scholarship decorations, but we are not all bookworms—we proudly submit our Intramural Sport record. Our intramural teams won first place in football, basketball, swimming, and bowling.

IRGINIA POLYTECHNIC INSTITUTE

OFFICERS AND PLATOONS

The composer of “Tech Triumph” must have had Battery “L.” in mind when he penned the last line of the first verse, because it fits the battery well. “You’re the pride of old V. P. L.” Nowhere in the school is friendship more evident, because from the very start we were taught by our Captains the value of friendship in a school where every one looks out for himself. Because of this helpful and common-sense advice given by our Captains, there has developed a spirit of loyalty and understanding, which, in turn, has engendered an indomitable spirit of comradeship and congeniality for which Battery “L.” is known and respected all over the campus. All of the fine qualities and noble attributes found in the members of Battery “L.” can point with pride to only one thing... “We are one ‘L.’ of a good battery.”

Battery M

Although "M" Battery does not wear the citation cord we are still recognized as one of the best all-round batteries on the quadrangle.

Battery "M" is led by a very capable group of officers which carry the spirit as well as discipline. Captain Jimmie Powell has done much to raise the military standing of the Battery. Our lieutenants, Jack Powers, Mel Butler, and M. T. Ball, have been very capable leaders and have assisted greatly in the development of the Battery. "Porky" Riley has proven himself to be one of the best First Sergeants in the Corps. The boys cooperate in every way for the advancement of the battery in military, sports, and social functions.

Page 209
We're the boys from Battery "N": all one hundred and sixty of us, the largest company in the regiment... and we're proud of it, too. Not an organization, but a real family of good fellows and good friends, one for all and all for one. Nowhere on the quadrangle is there found so much disregard for class distinction as in Battery "N". It was the first Battery to adopt a suitable song, and with this song and good fellowship Battery "N" has built a spirit that will never die.

Battery O

When batter Battalions are built, Battery "O" will drive them. That is our proud prediction based on modest appreciation of what Battery "O" now can do. We soon learned that the letter "O" differed from other letters not only in its place in the alphabet, but at V. P. I. as a battery designation, it stands for traditions and customs that are unique and enduring. Happy-go-lucky, humorous, slightly sarcastic, and often showing their exuberance in strange antics aptly describes the members of this organization. With the capable guidance of "Hitler" Snow and his able lieutenants, Dodd, Roberts, and Spivey, Battery "O" has had another most successful scholastic, military, and athletic year.

WE WISH to express our appreciation to Mr. Cecil B. de Mille for selecting the following pages of beauties. Although the task was a difficult one, Mr. de Mille devoted considerable time and attention to personally judging the qualifications of each candidate. Our only regret is that all candidates in the Vanity Fair Contest could not have won.

Since the year 1892, which saw the first team to represent Virginia Tech in an intercollegiate contest, athletics have occupied an increasingly important place in student activities. Virginia Tech is proud of the many records made by her athletes, but she is even more proud of the traditional "Tech Spirit" that has grown with her athletics.

The new season was eagerly anticipated although the prospects were none too bright. Graduation last June took such stars as Captain Shockey, Doxey, Henry, Davis, Murray, Vecelio, Cregger, Robinson, and Mast. The gaps left by these men were filled by only a few lettermen, with much of this year's team to be made of many promising sophomores and juniors. The season was a rather nip and tuck affair. Victories were won from Emory and Henry, William and Mary, and North Carolina State. Tech lost to powerful teams representing Duke, Army, Virginia, W. and L., and the University of North Carolina. There was a scoreless tie with the University of Richmond and the famed 2-2 tie with our traditional Turkey Day rivals, V. M. I. Throughout all these games—win, lose, or draw—the Gobblers never lost their football tradition, fighting spirit.
The Tech line was the strong point on defense this season. The end positions were held by Pierce, Oliver and Henderson. Archie Cameron started the season with great promise, but an ankle broken during practice badly crippled both himself and the team. Despite this, however, both outposts were veritable block-houses against the savage attacks of fierce opponents. The team was well supplied with two sets of superb tackles, Pitts, Coleman, Gosney, and the veteran Gaugler. The guards were the seasoned gladiators Worthington, Devlin, and the ever-present King. The center position was almost unanimously occupied by the versatile Neil Wood.

Backfield positions were filled with the veterans DeMuro, Belcher, Powers, and Miller as anchormen. Less seasoned but equally spirited sophomores and juniors made the season’s backfield a light but fast one.

The Gobblers defeated Emory and Henry in Miles Stadium in the first of their encounters. The always scrappy little college had twelve of its finest players on the injured list. The Gobblers shoved over three touchdowns in the first quarter. The reserves were substituted for the second quarter attack. Emory and Henry held them scoreless during this period.

The third and fourth periods each yielded a score to the heavier V. P. I. team. Al Miller, the senior halfback, was responsible for three of the five touchdowns. The other two scores were made by Jimmy Fixx, sophomore halfback. The passing game was represented by several combinations of the DeMuro-Woolwine duet.

On September 24 the battling Gobblers were beaten back by the powerful Duke team. These boys, who were later to become Rose Bowl contestants, defeated Tech eighteen to nothing. The
tearing Techmen were on the defensive most of the time, battling against the pounding back of Duke’s massive legions. Three separate teams were used to pummel the Gobblers into defeat by crashing over touchdowns in the first, third and fourth periods. The only scoring threat V. P. I. offered was at the end of the third period. Gosney, tackle, broke through Duke’s line on her own thirty and blocked the great Tipton’s punt. Frank Oliver recovered the ball on the twenty-three. A pass from DeMuro to Cameron netted a first down, the ball on Duke’s ten-yard ribbon. The Duke Blue Devils braced their backs and held the Gobbler attack to the five-yard stripe. The rest of the game was a mêlée of bruises and line defensive football against fresher players.

October 1 saw the Techmen battling it out with Army on West Point’s home ground. The service boys punched through a twenty-six-point lead in the first few minutes of play. The Gobblers held the Army second team scoreless during the second quarter though the half found Army on V. P. I.’s two-yard line. Army pounced across another score in the third period. DeMuro’s superb kicking put the Blacksburg men in scoring position. The ball was lost on downs on the Army ten-yard stripe. The fourth period again showed an Army score. The final tally was Army, 39; V. P. I., 0.

In Richmond, October 8, the Gobblers defeated William and Mary 27 to 0. The game opened with a vicious attack which netted seven points in the first three minutes of play. The Braves held back a second Gobbler scoring opportunity when Coleman blocked a quick kick and V. P. I. recovered. William and Mary rallied in the second period and began an accurate passing attack. The Gobbler reserves were finally able to stop them on their own ten-yard line. A second advance of run and pass netted Tech another seven points. Two more touchdowns were amassed by a combination of interception, passing, and clever running.

The colorful Homecoming program was climaxd by a game with the powerful University of Virginia team. The men from Charlottesville upset a 16-year precedent by defeating V. P. I. 14 to 6. No Virginia team had ever before downed V. P. I. in Miller Stadium. Virginia amassed fourteen points during the first fifty-eight minutes. Tech, battling to the end, thrust over a touchdown with a long pass to Pierce. The try for the extra point failed.

The game October 22 was with Washington and Lee on their home field. The Techmen played their finest football to date. Heavily outweighed, they blocked and tackled with authority and outgained the Generals both on the ground and through the air. Sophomore Jim Coleman and Senior Bill Devlin outplayed their teammates, who in turn were outplaying themselves in the fighting Gobbler tradition. Tech opened with a power-equipped attack, driving down to the Generals’ four-yard line. The ball was lost when a W. and L. man intercepted a pass. The Tech line stopped the Lexington advance after an exchange of punts. At the beginning of the second half the Gobblers again made a dangerous threat to the W. and L. zero yard stripe when DeMuro and Fixx slashed their way to the W. and L. eight. The ball was lost in passing into the end zone. The game was about even until deep in the third quarter, DeMuro punted into Pinck’s arms. The elusive back was off
with the suddenness of lightning. Turning and twisting behind beautiful blocking, Pinck ran 88 yards for the only score of the game.

October 24 saw a Gobbler team victorious over the powerful N. C. State gridmen in our own Miles Stadium. The fine spirit of the corps backing the hard-fighting team cut down the odds and put Tech in the lead 7 to 0 when the final whistle blew.

In this game Al Miller at last got a chance to come into his own. After two and a half years of injuries, Miller was at last well enough to play. With the aid of three braces and yards of adhesive tape, he turned the tide on the confident North Carolina boys. In the first quarter the Gobblers reached the N. C. State five-yard line. Here Captain Pierce tried a field goal without success. The second quarter again showed the Gobblers consistently in the N. C. territory. With the beginning of the second half Tech marched for the lone touchdown of the game. The battling Techmen, led by Miller, plowed their way across the deadline. The final whistle found the Gobblers straining on the North Carolina six-inch line.
The next week showed the game Gobblers in a losing battle against the University of North Carolina in Chapel Hill. Despite the wet field, the game resolved itself into a punting duel between Hudson and U. N. C.'s Sternweiss. The Tar Heel touchdown came through a blocked punt on Tech's twenty. The last Tech threat was stopped by a fumble on the Carolina 18.

On Armistice Day, the University of Richmond battled Tech to 0-0 tie. The ding-dong gridiron war was characterized by the tenseness both teams displayed. The Techmen reached the Spiders' twelve during the first half but lost the ball on an intercepted pass. The third quarter was mostly in mid-field section. The fourth quarter allowed the Gobblers to advance to the University of Richmond's five-yard line. Captain Pierce tried for a field goal. This strategy barely missed, leaving the scoreboard unmarrined.

The annual V. P. I.-V. M. I. military classic ended in the strange score of 2-2. Winter descended on Roanoke and smothered it in a blanket of snow just before the game started. Mahr field was a sea of mud before the snow added a colder torture to those already before the players.

V. M. I. kicked off with Rose returning to the thirty-two. Hudson, desirous of letting V. M. I. handle the wet ball, punted on the first down to the V. M. I. 26. After an exchange of fumbles V. M. I. was in possession on their own 15. Shu's punt was blocked by Tech's sophomore tackle, Jim Coleman. The ball bounded into the end zone for an automatic two-point score. Late in the quarter Hudson fumbled the wet ball through his frozen fingers in trying to punt from his own goal line.

SAMUEL BASCOM DUNN, Center

SAMUEL B. ROSE, JR.  HERBERT JOSEPH THOMAS

Halfback  Halfback
The score was then 2-2. The Tech strategy was one of defensive waiting. Gosney blocked a punt which Ernie King recovered on the V. M. I. five. A few plays later, after a penalty, the last V. P. I. threat in the form of a field goal proved futile. The second half was a nip and tuck affair with Tech punting on the first and second down while V. M. I. waited until the third or fourth to kick. V. M. I. recovered a fumble on the 18. The incident was repeated with V. M. I. fumbling on their first down. The game ended with the ball in mid-field after an exchange of runs and punts.

After the game, Coach “Puss” Redd said of his team, “It is the greatest team I have ever coached. Few, if any of them, were great football players. Their ability as players did not come up to that of some other squads I have coached. But from the standpoint of courage, spirit and determination, this is the greatest team of them all. They gave everything they had every minute. They never knew when they were beaten. I want them all to know how I feel about them. I hate to think that I will never have another chance to work with the eleven seniors on this club again. Boys like these provide the greatest thrill in a coach’s life. I shall never forget how these boys played up to the hilt of their abilities with unflinching courage and determination. They are great boys.”

The eleven seniors on the squad were Captain Frank Pierce, Frank Oliver, Archie Cameron, Jim Gaugler, George Worthington, Bill Devlin, Ernie King, Neil Wood, Al Miller, and Jim Belcher. Equal credit should be given to Marvin Inge for his capable managership of this spirited eleven.

J. L. Simon
Manager

Three days after Thanksgiving, at the end of football season, the supply room in the Virginia Tech gymnasium was a scene of bustle and clamor as last-minute preparations were being made for the '38-'39 basketball season. Managers were busy dragging practice uniforms out of moth flakes and issuing them to the anxiously waiting line, putting the proper amount of air in the balls and cleaning and shining for the untold season just beginning.

As usual, the newspapers began their propaganda about Tech's team and star players along with other teams and players in the State and Southern Conference. Most of the "blow-ups" ended with the boldly stated words "light, green and inexperienced material," expressions carried over from the football season.

After about three weeks of practice, the coach, turning from his favorite position in the center of the court and scratching his head, mumbled, "Hmmm. I wonder where and how I'll get a team and five substitutes." The Christmas holidays gave him time to think and formulate plans for the season opening officially Friday, January 13.

The William and Mary Indians visited Blacksburg for the opening game. Although the Gobblers put up a game fight, the superior Indians kept a safe lead throughout the game. The follow-

ing day the strong University of Richmond Spiders met the Tech five on the V. P. I. court. The game was a thriller from beginning to end, with the Gobbler five following the Spiders by one point until the last few breathless moments when Captain Sonny Powers sank a beautiful one-handed shot from the corner of the court at full speed to make the final score 32-31.

The Techmen traveled into foreign territory next to meet Duke University and the University of North Carolina. Tommy Ingram, forward, opened up on his pivot shots against Duke, sinking five out of seven, but the Duke quintet capped the game. The Gobblers began against the U. N. C. boys to chalk up their second win. Again Tommy Ingram was in the groove making 18 points, until an accident left him on the floor with a battered foot that kept him out of the game for several weeks.

The loss of Ingram was apparent in the next game when the Tech five met the Washington and Lee Generals in Lexington. Keith Haff and Frank Pierce
put their last bit of energy into a good fight, but it seemed nothing could stop Dick Pyneck from sinking the basket from all angles.

In the following game Captain Powers led the fighting five against V. M. L. Sundberg, replacing Ingram, played a good defensive game but the squad left Lexington with the Keydets holding the honors.

At Charlotteville the team again failed to click and the University Cavaliers ran up the score by a margin of twenty points. The Gobblers put all the pep and stamina they had into the play but the all-important baskets were missing.

Virginia Tech put up a marvel scrap against the powerful five from Marshall College. The Gobbler guards prevented the six-foot West Virginians from getting a single rebound, offensive or defensive, or from using their famous time-controlled passing. Frank Pierce made his way to the basket to sink six shots, and Powers marked up five long ones, to brighten the Techmen's best game of the season.

The Tech basketeers took a slump for three weeks on mostly return games. Although outplayed in every contest, the team never lost their scrap and determination. Mast came off the bench to start a rally in his favorite position as guard, and Fleshman started in at forward for a few good games.

Captain Sonny Powers led his team with pep and vigor. He was the main player on the floor, and whenever he was out of the game the team was lost. He, along with Frank Pierce, Sonny Sundberg and Bill Fleshman will be lost because of graduation. Next year frosh players will step up to fill the shoes of those who do not return and the season will not open on the unlucky Friday the thirteenth.

Pep and talent abounded to great extent in the 1939 edition of the Gobbler's boxing squad. The team can best be characterized in the words of Coach Tom Slusser, "The best varsity squad since I've been at V. P. I." Following are the boys who wore the "Orange and Maroon" for Coach Slusser. Billy Austin, 120-pound batter, had a very successful season. In his first year of varsity competition Billy won four and lost one. His loss was an unpopular decision in his first fight at the conference. Wally Alexson, 127 pounds, fought the best three fights of the year, taking Freddy Jackson's place. Alexson, just a sophomore, lost two and won one but shows great promise for next year. Joe Obrohta, 135, took up this weight after Graniger's injury. This was his first year of varsity boxing, and, although his record carries only one win, he shows great promise. Jimmy Evans, the sophomore 145-pound fighter, showed the greatest improvement of any on the team. Jimmy won three and lost two this year, and at the conference gave the champion the best fight he had but lost a close decision. Jimmy has a good chance for conference championship next year. Jimmy Woolwine, another sophomore, held down the 135-pound class. He is a hard and fast hitter, scoring one K. O. in 47 seconds. He won three and lost two. Frank Oliver again held the 165-pound class and had a good record of three wins, one draw and one loss. This was his last year of boxing. John Sowder fought three fights as the 175-pound boxer and came through with a fair record. Sowder is one of the most clever boxers on the team and should go places next year. Dave Pitts fought three fights as 175-pounder then fought his last as a heavy weight. He scored three wins, two by K. O.'s and lost one decision. Jim Gaugler, the 1939 Southern Conference champ, finished up his season with a bang. His previous record of the year wasn't very favorable since he won one and lost three, but then he came back and won the championship. This was the first champion Tech had had in boxing since 1934.

The Gobblers won three meets of a five-meet schedule, winning over N. C. State, University of North Carolina, and Western Maryland. The strong University of Virginia pugsters turned back the fighting Gobblers with a 5-3 score for Tech's opening match of the season. After Tech won the opening 120-pound clash by a technical knockout administered by Billy Austin over Platon Gailey, the only one of the evening, Virginia won four straight matches. Frank Oliver, middleweight, and Jim Gaugler, heavyweight, both veterans, won by decision over Roy Bowman and Raymond Hawkins.
The next Saturday found the Tech squad in Chapel Hill where they gave the N. C. State boys the short end of a 6½ to 1½ score. In the opening bout Billy Austin won a decision over Betts of State to give the Techmen the lead of one point which was quickly nullified in the second bout when Freddie Jackson stepped into a terrific right delivered by Eddie Young of State about midway of the second round and went down for the count. Means of State took the next bout by decisioning Granniger, but the Carolinians failed to produce an opponent for Evans and forfeited the 145-pound bout to even the score at 2-2. Woolwine took the next bout for the Gobblers, and Oliver drew with Abrams in the following match to give Tech a one-point margin of safety once more. Punching hard and fast, Dave Pitts decisioned State's Smart in the 175-pound bout to cop the meet for the Gobbler boys.

The Tech varsity scored three decisions and two knockouts to pile up a 7-2 margin in the first seven bouts against the North Carolina Tarheels. Jim Gaugler dropped an unpopular decision to Eddie Hubbard in the final match. The quickest kayo of the evening was scored by Tech's hard-hitting sophomore, Jimmy Woolwine, in the 155-pound scrap. The Techman showed lightning-fast punching with both fists as he dropped Claude Sapp in less than one minute. Dave Pitts, light-heavy, landed a series of hard rights to stop Bob Hermson in the second round. Billy Austin and Joe Ohrocita outboxed their Tarheel opponents to win by decisions.

A classy Catholic University team administered a terrific 7-1 dubbing to the Techmen in their visit to Washington. But the strong Tech sophomore, Jimmy Evans, the only Gobbler who made the least impression on the University's sluggers, won the 135-pound class via the decision route.

The next week-end found the tables turned for the Gobblers when they won a convincing 7-1 victory over a game Western Maryland team. Billy Austin, Wally Alexson, Jimmy Evans and Dave Pitts floored their opponents one or more times. Referee Ed Brockman stopping Evans’ match in the first round and the others in the second. Billy Austin, 120-pounder, landed hard rights and lefts on Joseph Roux until the referee stopped the match. Wally Alexson floored Don Beck in the first stanza and was battering his adversary with both hands when Brockman again stopped hostilities just before the bell in the second round. Jimmy Evans belted his opponent, Bob Lambert, in little more than a minute. Woolwine was too fast for Captain Bill Bender, Western Maryland’s ace, gaining the decision after three rounds. Steady boxing by Frank Oliver and John Sowder enabled these veterans to capture the next two bouts by decision. Dave Pitts in the heavyweight berth, knocked his opponent to the canvas twice before the bout was halted.

On journeying to Columbia, South Carolinas, for the Southern Conference tournament, Coach Slusser took seven of his eight regulars. Out of the seven contestants from Tech, Jim Gaugler proved himself by emerging with the Southern Conference Unlimited crown.

William Randolph Austin, 120; Wallace Gordon Alexson, 127; Frederick Lewis Jackson, 127; Howard Joseph Granniger, 135; Joseph Andrew Ohrocita, 135; Jimmy Evans, 145; James Walter Woolwine, Jr., 155; Frank Lovitt Oliver, 165; John Grady Sowder, 175; David Marion Pitts, 175; James Anthony Gaugler, Heavyweight.
The usual display of Tech spirit climaxed a season that was none too bright; the Gobbler team scored a lone team victory over the Apprentice School of Newport News, and lost to four conference foes. With six lettermen available, the season's prospects appeared bright to Coach Earl Tilson. These men included George Cocorus in the 121-pound class, Billy Holland in the 135-pound class, Charley Magill and Jack Ruby in the middle-weight division, and Henry Alexander wresting the 155-pound class, with Captain Ernie King, who weighs 155 pounds and wrestled that weight here-tofore, going to the 175-pound class.

George Cocorus, sophomore 121-pounder, has gamely tried this season, but in every case he has been opposed by a veteran whose experience was too much for "Coco." The 128-pound class was filled by sophomore Lyman Brothers who unfortunately cracked his rib in the second meet. Billy Holland is a truly scientific wrestler and will probably captain next year's team. Billy has suffered but one defeat, that being by V. M. L., the Southern Conference champions. In the 143-pound class, Charlie Magill and Jack Ruby have been fighting it out for this position all season. The two of them have broken even in the win and lose columns. Harry Alexander, an up-and-coming sophomore, got points for the Gobbler at the University of North Carolina and the Apprentice School at Newport News before losing his first match. The 165-pound class was held down by DeMuro. "Phantom Phil" started off like a whirlwind, pinning his first two opponents and then losing the third one to N. C. State. Phil had to depend on his speed in lieu of experience. Captain Ernie King, a true Techean with a fighting heart, represented the 175-pound class. Ernie wrestled three times in a class twenty pounds beyond him and is still ahead of his opponents on points. Heavyweight Simpson pinned the U. N. C. heavy and then dropped one to Newport News Apprentice. After these two matches he was lost to the squad because of injuries. Nicholas replaced Simpson who put up a courageous but losing fight against N. C. State in his first effort. The last of the season the heavyweight's shoes were filled alternately by "Goose" Gosney and Nichols.

George Cocorus, 121; Frank Kelby Jones, 128; William Shakespeare Holland, 136; George Page Jones, 136; Charles Arthur Magill, 145; Ernest Stuart King, 153; Harry Benjamin Alexander, 165; Garland Walker Nichols, 175; Claud Fulton Simpson, Unlimited; H. Woodrow Gosney, Unlimited.
Sporting one of the best wrestling teams in the history of the school, V. M. I., always famous for the excellency of their grapplers, overwhelmed the Gobblers. The score was greatly unbalanced but all matches were closely contested.

On February 25, the Washington and Lee wrestling team maintained their supremacy over the Virginia Tech matmen. Only two matches were taken by the Gobblers. George Jones wrestled smartly all the way in beating Rudy Hanna by decision. Charley Magill gave a fine performance in securing a decision over Jack Broome, who was second ranking man in his weight in the conference last year. The Washington and Lee wrestlers ran up a score of 26 points against Tech's 6.

In addition to Captain Ernie King, Jones, Magill and Ruby are all seniors and will be lost upon graduation in June.
With only four letter-men returning to the baseball squad, our prospects for the coming season looked slim. Most of the men now on the squad are those with only freshman experience. However, these new men, led by Captain Frank Pierce, show that with some more outside practice they will give the Techmen some good ball-playing as the season progresses. The weatherman has given us only a few days of infield practice, thus handicapping the men greatly.

The team has made very good showings against the strong batteries of the teams of Richmond, Maryland, and William and Mary. The four letter-men, Martin Cobb, Gurley Barlow, Bill Bennett, and Captain Frank...
Pierce, have shown that their varsity experience has helped them a great deal. Martin Cobb, the little man who holds down the "hot corner," has proven the spark-plug of the infield. Gun­ley Barlow began the season as an outfielder until the Maryland game when he was called to the mound. In his first start of the season as a hurler, he pitched eight innings of good baseball against Richmond. He shows promise of an unexpected addition to the pitching staff. Bill Bennett, the hard-hitting outfielder, has driven a number of the Tech runs across the plate to prove his ability at the bat. Captain Frank Pierce, also an outfielder, has proved to be a worthy leader for the Tech nine.

The newcomers to our squad are showing what it takes to be ball-players. Bill Durvin, Mac MacLeod, Clyde Mast, and Bill Trice compose the remainder of the fielders. Bert Sampson and Ward Boswell show their stuff as men behind the plate.

The pitching staff seems to be steadily improving. It is now composed of Gurley Bar­low, "Buck-eye" Warriner, "Lefty" Owen, Joe Beville, "Ace" Becker, Tommy Spain, and Jay Horne.

Coach McEver is working on the team, and, with a break from the weatherman, will develop it enough to win our share of the remaining games this season.
Opening the season with only seven lettermen, and woefully weak in several events, the outlook did not look bright for Tech's cinder- men, but under the careful tutelage of Dr. J. C. Harrar, the Gobblers took rapid strides in the right direction. Dr. Harrar watched the track team this year, while Coach Tex Tilson devoted his time to spring football practice.

Co-captains "Jud" Ellis and "Mo" Bradshaw ably led the wearers of maroon and gold this season. Ellis specializes in the pole vault and high jump, while Bradshaw runs the 220-yard dash, the quarter mile, and the hurdles.

Letterman "Poopy" Draine handles the two-mile run for V. P. I., and has proven to Tech supporters on many occasions that he can be counted on to bring in his share of points.

"Chicken" Dennis and "Huey" Long, two well-known senior Gobblers, have done justice to the mile run this year, invariably turning in good performances.

Veterans Al Miller and Archie Cameron have been greatly aided in the weights this season by "Vic" Monta, brawny sophomore "dark horse," who has turned in a highly creditable performance with the discus, javelin, and shot put. This trio of weight men have done much to boost Tech's score in every meet.

Gobbler spirits were dampened temporarily during mid-season when Co-Captain "Jud"
Dr. J. C. Harrar  
Acting Coach

Ellis received a leg injury which took him out of active competition for several weeks, but Tech hopes again rose when Phil DeMuro, V. P. I.'s Jack-of-all-trades, stepped into the wide breach left by Ellis and ably handled the pole vault until Ellis returned to the line-up.

The cindermen opened the season against Emory and Henry, but the meet was rained out after the completion of only three events. Tech was leading at the time by the score of 14-13, because of the brilliant performance of Dennis and Bradshaw.

The harriers next encountered the team from the University of Maryland. Although defeated 81-41, the wearers of the maroon and gold gave the "Terp power-house" stiff competition. Co-captain Ellis vaulted well to win the event at 12 feet, while Monta copped the discus throw at 119 feet, 2 inches.

Misfortune took certain victory from the Techmen the following Saturday, when Ellis was injured and the Davidson Wildcats placed heavily in the high jump and pole vault, winning the meet 70-55. Co-Captain Bradshaw was the high-point man however, with second honors going to Monta.

The remaining schedule for the cindermen includes V. M. I., Washington and Lee, N. C. State, the state meet at Richmond, and the Southern Conference meet at Durham. Although not outstanding, the 1939 Tech track team improved rapidly, won its share of events in most of the meets, and bore itself graciously in victory and defeat. If for no other reason than this, the 1939 season may be termed a success, and our cindermen may hang up their spikes with a feeling of a job well done.
SWIMMING

This year, for the first time in its history, the swimming team was organized as other athletic teams at Virginia Tech. The members of the team attended daily practice and followed to the letter the instructions of the coach. The results of this new system were highly satisfactory, for much more was accomplished with the available material than in the years past. Coach Scherer was able to devote more of his time to the team, and the little success the swimming team had is due to the untiring efforts of "Doc," one of the ablest coaches in the state.

In ten meets the Techmen were victorious only three times. However, the team always gave their best efforts. The few men who had outstanding ability were consistent winners; Billy Cowart was undefeated in fancy diving, and Jimmy Hammock was beaten only once in the 440.

The members of the 1939 swimming team are to be commended for their fine spirit and undying efforts in the face of overwhelming odds. Their cooperative spirit has made the new policy possible and will have a part in the successes which future Tech swimming teams will enjoy.

TELEINIS

Tennis activities during the past season have been hampered in that the new tennis courts which were to have been constructed for the current season will not be available until next year. However, despite this handicap, Tech's netmen have practiced on the few available courts, and have engaged in a number of encounters that were not regularly scheduled.

Such a spirit as that exhibited by this year's netmen indicates that great things should come from the Gobbler camp in this field of athletics next year. The veterans who will form the nucleus for next year's team are Sid Linas, "Sonny" Ellison, Walts, Archer, Hancock, and Tommy Green.

It is predicted that next year will find Tech with one of the finest teams that it has had in years. It is felt that good courts upon which to practice will aid our representatives in this sport in developing and improving their brand of tennis immensely. It is also felt that the material coming up from the present Freshman class should prove a strong asset to the veterans who will return to form the foundation of our team.

INTRAMURAL SPORTS

"Athletics for all," is not merely a slogan at Virginia Polytechnic Institute. It is an actuality, because more than 1,200 different students took part in the intramural program conducted last year.

The Department of Physical Education at V. P. I. supports this program to assist the student in discovering some interest in exercise which will help him keep fit in years to come. Intramural sports come close to the ideal in athletics of "Sports for Sport's sake." Its program is designed to stimulate the interest of students in all types of sports. Its aim is "sports for all and all for sports."

It is safe to say that wise participation in mass athletics has beneficial effect on scholarship as well as on physical development of the individual. Intramural athletics have for their objectives recreation, group spirit, social benefits, better health, development of interest in sports, development of varsity material, bodily prowess, sportsmanship, and scholarship.

DEAN E. B. NORRIS .................. MR. W. L. YOUNGER

Sigma Delta Psi, national honorary athletic fraternity, was organized in 1912 at Indiana University. The purpose of the fraternity is to encourage health and symmetrical bodily development. To be eligible for membership in this fraternity a student must have passed a series of all-round tests of physical ability and must have a satisfactory academic record. The tests are designed to require thorough and systematic training on the part of the individual who seeks membership.

Virginia Tech's chapter was organized during the spring of 1937 through the efforts of Professors M. B. Blair and J. G. Harrar of the Vanderbilt and Oberlin chapters, respectively. For the past two years the Tech chapter has finished third in the national meet.

Fencing Team

W. R. A. KLEYSTEUER ........................................ Co-Captain
A. GAGARINE ............................................. Co-Captain
M. B. BLAIR ........................................... Coach

In the third year of intercollegiate competition, Virginia Tech's fencing team has met some of the strongest fencing teams in the South. The season opened with a close match with the University of North Carolina, with the final score 9½ to 7½ in favor of Carolina. The next match on the schedule was with the Southern Conference Champions, William and Mary, at Williamsburg. The epee men, Co-Captain Kleystueber and Dmitri Gagarine, were particularly strong in taking all the bouts in that weapon. The crack Charleston team from West Virginia won 11½ to 5½, but the experience was invaluable to the improving Tech team. The University of South Carolina was overwhelmed 11 to 2 as the Gagarine brothers and Kleystueber swept all of their eight bouts.
In this book we present the numerous activities with which we punctuate the monotony of regimented lives. Social and extra-curricular activities are as important in giving the student a well-rounded education as his classroom activities.

J. W. Woolwine, Jr.
Sergeant-at-Arms

The Corps of Cadets was established in 1872 with an enrollment of 132 members. Each year since that time the Corps has increased in size. This year the enrollment has reached an all time high of over 1,500 Cadets.

The influence of the Corps in student affairs is predominant. Social life centers around the Corps, scholastic standards are set by it, and athletic teams are chosen from its ranks. Student government is equitably divided between the Corps and the remaining student body.

This year the Corps, functioning as a unit has supported with the best of spirits all new measures introduced by the Commandant. Many fruitful suggestions have arisen out of the ranks of the Corps; many of these, by agreement between the Corps and the proper authorities, have been put into use. Such whole-hearted support by its individual members of all plans, principles, and policies can best show what an effective influence the Corps has in moulding and building men of character. Its members leave, but the Corps continues as the Standard for the undergraduates at Virginia Polytechnic Institute.

The Senate

OFFICERS

J. R. Belcher ....................... President  U. F. Earp ................... Vice-President

The 1939 V. P. I. Senate, under the leadership of J. R. Belcher and U. F. Earp, was composed of fifty-two military senators and nineteen civilian senators. The chief function of the Senate is to serve as a legislative body wherein the problems concerning the welfare of the student body can be discussed and corrective legislation formulated. Among the problems discussed and acted on by the senate this year were the following: eating conditions in the cadet mess hall, the effectiveness of the honor system, the status of the present identification card system, changes in the cadet uniform, lack of some very necessary college walks, and other matters concerning the general welfare of the student body as a whole.

MEMBERS

The Honor Court

The V. P. I. Honor Court, composed of elected and appointed members, is the supreme judicial organization of the student body. The chief function of the Honor Court is to try all cases pertaining to the violation of the Honor System. The decisions of the court are final.

The Honor Court is presided over by a judge who is appointed by the president of the Corps of Cadets. He is assisted by an associate judge who is appointed from the Civilian Students. The jury is composed of twelve men, three elected from each class.

The Student Finance Board

The members of the Student Finance Board have as their purpose the supervision of all financial matters that may arise in the student organizations and activities. Each year the Board publishes a report of the Auditor of the student organizations in order that the students may know the financial standing of each organization and how the money for the previous year was used.

Y. M. C. A.

While religion is an “elective” at V. P. I., it is an active one and decidedly an influence. The Y. M. C. A., of course, is not the only factor in Christian work on the campus, but it is the central agency. The planning of Y. M. C. A. work is a democratic procedure which is carried on through the “Y” Cabinet, consisting of fifty members. It is a tribute to the work of Paul Derringer and the “Y” Cabinet that visiting speakers declare that Christian work on this campus is better organized than on many other college campuses. During the coming years the Cabinet hopes to continue this worthy tradition.

The German Club of the Virginia Polytechnic Institute was founded in 1892, and it is the oldest organization of its kind on the campus. Today it still possesses the fine qualities and heritage of the past years. The Club's original purpose was to provide worthwhile social life for the entire student body, and it has adhered to the high aims set forth at its founding.

Although the German Club, necessarily, has a modern viewpoint, the purpose today remains essentially the same, and it is considered a very conservative organization. Its members are of the highest personal integrity and outstanding ability; membership is limited but nevertheless cosmopolitan.

Founded in 1913, the Cotillion Club, for the past twenty-six years, has endeavored to improve the social life of the V. P. I. student body by sponsoring formal dances on the campus at certain intervals throughout the college year.

The picturesque World War Memorial Hall, in which the club dances are held, furnishes an excellent floor and other facilities for the enjoyment and convenience of its guests. Even though the dances are formal, there is an air of congeniality and informality on the dance floor which is seldom found on any other campus, and, for this reason, the Cotillion dances at V. P. I. have become famous. The club extends a cordial invitation to the past, present, and future students of V. P. I. to be its guests at its formal sets.

The Bachelor Club of V. P. I. is an active organization composed of seniors whose congeniality and social activities assist in making this club an important campus feature. Rivalry and slight differences are transformed into deep and lasting friendships, and one bachelor is always ready to give any assistance to a fellow member.

Primarily a social organization, several private dances have been held this year for the members and their guests. For many years these dances have been highlights in the member’s last year at school, and they augment the many pleasant memories he will hold forever.

EDITORIAL STAFF

The Editorial Staff has endeavored to present in this, the forty-fifth edition of THE BUGLE, a pictorial cross-section of student life at Virginia Tech. We are grateful for the aid rendered by various members of the student body and the faculty, and we appreciate their fine spirit of cooperation. Through the excellent work of the Editor, David Hambrick, and the wholehearted cooperation of his Staff, we are able to present a more comprehensive edition of THE BUGLE than ever before.

THE BUGLE

BUSINESS STAFF

Under the capable management of R. L. Clements, the Business Staff of the 1939 Bugle has been able to operate as a more systematic and efficient organization in increasing the circulation and advertising value of THE BUGLE. The greatest possible value has been obtained from the income of THE BUGLE in order that a bigger and better annual might be presented to the student.

The Virginia Tech Engineer is the student engineering journal of V. P. I. It is published four times a year by a staff of students in the School of Engineering who are interested in technical writing and editorial work. It has as its purpose the presentation of current engineering information in a form attractive to students. Experience gained in writing and editing the Virginia Tech Engineer is invaluable to engineering students in later life. An effort has been made by this year's staff to maintain the high standards that have characterized the Virginia Tech Engineer since its founding.

Only through the effective cooperation of both the editorial staff and the business staff was this year's Virginia Tech Engineer made possible. Though often unnoticed by outsiders, every member of this year's business staff did his best toward the realization of their common goal: to make the Tech Engineer a larger and better engineering magazine. Their reward is the satisfaction of seeing their labor materialize into a worth-while publication. The entire business staff worked with a faithfulness and a sincerity of purpose worthy of much praise.

Publication Board

The Publication Board is the governing body of the student publications on the Virginia Tech campus. Members of the Publication Board are the Editors and Business Managers of the Bugle, the Virginia Tech, and the Virginia Tech Engineer, with Professors Baird, McNeil, and Price acting as faculty advisers. The Editors and Business Managers of the various publications are selected by the Publication Board. Each candidate has an opportunity to present his qualifications and his plans for the forthcoming year to the Board, and selection is made on the basis of ability and merit.

Agricultural Club

The Virginia Polytechnic Institute Agricultural Club has just concluded one of the most fruitful years in the history of the organization. Under the able leadership of our officers and faculty advisor, the students of the various agricultural curricula have been more closely united than ever before.

The club has fostered interest in the field of agriculture and has given its members broader and more comprehensive training intellectually, morally, and socially which cannot be procured from classroom study.

At our meetings, held three Thursday nights each month, members have given brief talks on subjects related to agriculture; also from time to time, outside speakers have discussed current problems which are also related to agriculture. Valuable training in speaking, leading discussions, and general instruction regarding our curriculum have been the accomplishments of our meetings.

Student Branch Of The
American Ceramics Society

The V. P. I. Student Branch of the American Ceramics Society was organized in 1935 to develop a spirit of cooperation among the ceramic students and to form contacts with men in the ceramic industries. At the bi-weekly seminars, short talks by the students and guests, and occasionally films broaden the interests of the students. Smokers and the annual picnic offer welcome recreation. Inspection trips to plants in the state supplement classroom work.

American Institute Of Electrical Engineers

The Virginia Polytechnic Institute branch of the American Institute of Electrical Engineers is composed of those students pursuing the course of Electrical Engineering.

The purpose of this branch are: to give the future electrical engineer an insight into the problems he may have to face after graduation; to become better acquainted with the electrical and associated industries through various inspection trips conducted by the branch; to sponsor educational motion pictures and lectures.

Architectural Club

The Architectural Club is a club made up of students in Architectural Engineering. Composed of over forty members, the group has been active throughout the year in its weekly meetings with lectures presented by guest speakers and by students. For the first time the Architectural Club was put on the basis of a seminar in which college credit is given for meritorious work.

Biology Club

The V. P. I. Biology Club is a curricular Club for students enrolled in Biology, General Science, Pre-Medicine, and Pre-Pharmacy. Since its organization in 1932, it has grown steadily in size and prominence until it now ranks as one of the most important curricular organizations on the campus. The purpose of the Biology Club is to give the students a broader and more comprehensive view of the field of biological science than can be gotten in the classroom.

Chemical Club

The Chemical Club was organized in February, 1936, and became a charter member of the American Chemical Society the following year. The purpose of the club is to promote good-will and friendship among chemistry students, and to give instruction other than that of the classroom by means of discussion meetings, lectures, and motion pictures.

Engineering Council

The Engineering Council is the only student group which deals directly with the Dean of the Engineering School concerning problems which might arise in any of the Engineering curricula. It serves to knit together more closely the relationships of the students with the dean and faculty. The president and secretary of each Engineering curriculum club and the Dean of the Engineering School constitute the council.

Horticultural Club

The Horticultural Club of V. P. I. was organized mainly to promote interest in the profession and to furnish a medium for obtaining horticultural information through group discussions and outside sources. Literature on the latest phases of horticulture, results of the latest experiments, and various other items of interest are discussed during meetings of the Club.

Short Wave Club

The Short Wave Club was organized in 1934 for the purpose of offering to those Virginia Tech students interested in amateur radio a place to carry on discussions and experiments in that field. Since then, rapid progress has been made, and the club now maintains a high-power radio transmitter and facilities for instructing new men who desire to obtain licenses. The club not only encourages the student to exercise initiative in design and construction, but gives him practice in conducting short technical discussions on current radio achievements.

OTHER CLUBS

Second Academic Building
4-H Alumni Club

Under the competent leadership of its officers and faculty advisors, the eighth year of the 4-H Alumni Club's existence has been the most outstanding in its history. The purposes of the club are to bring former 4-H Club members together in one group in order that they may become better acquainted, develop better friendship, keep in touch with the activities of the 4-H organization, and to help students adapt themselves to college life so as to obtain the ultimate benefit from their studies and extra-curricular activities.

The Nineteen Thirty-Nine Bugle

The Guidon

The Guidon, presented to the incoming freshmen this year, has been published for the forty-third consecutive time by the Y. M. C. A. for the purpose of giving the new men timely advice on what is considered the best way to go through college and gain the most from that experience. Contained in the book was information concerning the history of Virginia Tech, the honor system, campus organizations, the aims and programs of the Y. M. C. A., customs traditions, Tech terminology, and many other things pertaining to the new student.

Glee Club

The V. P. I. Glee Club, organized last year, has made musical progress during its brief duration. Concerts, choral work, and assistance at student gatherings have been among its many activities during the 1938-39 session. An able director, Mr. Donald McKibben of Roanoke, has worked long and tirelessly to improve the quality of the glee club until it has reached a high degree of musical achievement. This organization holds an integral part in the campus life of those boys who enjoy singing, and who wish to improve their ability.

Life Saving Corps

The V. P. I. Life Saving Corps, organized in the fall of 1933 by Professor M. B. Blair, director of Physical Education, is composed of twenty active members, consisting of students and faculty members of V. P. I. Members must have passed the American Red Cross Life Saving and First Aid requirements, in addition to serving three months as a probationary member, before being admitted into the corps.

The purpose of the organization is to safeguard the swimming pool; to be prepared to render assistance in case of emergencies at all times; to promote swimming for health, safety, and recreation; and to maintain a high degree of proficiency in life saving and first aid methods of the American Red Cross among the members of the V. P. I. Life Saving Corps.

The V. P. I. Life Saving Corps is a charter member of the Virginia Association of Rescue Squads which now has a membership of twelve life saving and first aid crews throughout the state.

Lord Reading Club

The Lord Reading Club was organized in the Fall Quarter of 1933 by students of V. P. I. who belonged to the Jewish Faith. The club was named after Lord Reading, England’s Jewish statesman. Many activities have been undertaken that would aid the characters of the students at this Institution. The club has attempted to provide in its own way a substitute for the weekly Jewish religious services.

Maroon Mask

In September, 1937, the V. P. I. dramatic club reorganized, and adopted a name which includes one of the school colors, "The Maroon Mask." The rejuvenated organization has since given six highly successful full-length plays, including "The Bishop Misbehaves," "Jonesy," and "Seven Keys to Baldpate," all of which had previous long runs on Broadway.

"The Maroon Mask" is composed of V. P. I. students who have taken part actively either in cast, stage crew, or committee work of the various productions. The increasing number of people who attended each succeeding play and the rising enthusiasm which greeted each final curtain are ample proofs that dramatics has been accepted by the students as a valuable campus activity.

Monogram Club

The Monogram Club is one of the oldest organizations on the Virginia Tech campus. This club is an honorary organization whose members are chosen from the field of athletics and whose purposes are to promote athletics at Virginia Tech, and to provide suitable recognition for the athletes of the school. In the past two years the club has initiated the plan of awarding sweaters and letters to the men winning their monograms for the first time, and to all seniors who have won two or more letters for club awards a gold monogram key.

Newman Club

The Newman Club is a Catholic Club of Catholic culture and fellowship, whose purpose is to foster the spiritual, intellectual, and social interests of the Catholic students of V. P. I. It is named for John Henry Cardinal Newman, the great English Catholic and Scholar, who once defined a gentleman as "one who never gives pain." During the past year the club has enjoyed the cooperation of Father Walter and Captain Longwell in carrying out various programs.

Order Of DeMolay

The Zorobabel Chapter of the Order of DeMolay was granted its charter in 1929 by the National Council. Sponsored by the Blacksburg Commandery No. 32 of the Knights Templar, this chapter is the local branch of the great fraternal organization for men between the ages of 16 and 21, whose aims are toward clean and manly living.

Two club rooms in the Blacksburg Masonic Temple are available to all club members and afford an excellent place to meet and chat. Meetings are held every Wednesday night in the lodge room of the Masonic Temple, where the formal ritual of DeMolay is carried out, and followed by all business transactions.

MAJOR F. W. HALSEY

CAPTAIN H. C. AHALT

SERGEANT M. W. BIRDWELL

The purpose of the Rifle Club is to promote rifle shooting at V. P. L. and to sponsor a rifle team that has repeatedly brought national recognition to this institution. The Rifle Club boasts a membership of two hundred and twenty students, making it the largest organization on the campus other than the Athletic Association. The finances of the club are used to equip the rifle range, which is now the finest in the state, and to promote both varsity and freshman rifle teams. The Rifle Club has repeatedly proven itself a worthwhile organization. It has produced fine teams, and at the same time it has afforded valuable marksmanship experience to the students, especially to those in the Corps of Cadets.

E. G. Spyridakis
President

Miss Maria Spyridakis
Sponsor
**Rifle Team**

By winning three-fourths of its matches against the best of competition, the Rifle Team has established a very enviable record during the last few years. Much credit is due the coaching staff for giving their invaluable assistance to the team. Last year the Varsity team climaxed a very successful season by taking second place in the Third Corps Area ROTC match, and reached a still greater peak when the team representing the Engineer Battalion of V. P. I. placed second to the State College of Washington in the national match between all engineer ROTC units. Several fine trophies have recently been presented the Rifle Team, and at the end of the season the best shot in the various matches has his name inscribed on the appropriate trophy.

Coeducation at V. P. I. began in September, 1921, with twelve women students enrolled for that year, although the Women's Student Union is one of Virginia Tech's youngest organizations. The group has been gradually growing since that time until it has reached the present number of eighty-eight members. The organization has its own separate self-government; the officers are elected for a term of one school year to carry out their executive functions. Women students are very active in dramatics, sectional clubs and various other activities on the campus.

Southern Colonels

The Southern Colonels, an old organization and quite an institution on the Tech campus, is recognized as one of the finer representatives of Collegiate music. This past year the orchestra enjoyed an enviable reputation throughout the state for swing and sweet music styled in modern manners. Being well rehearsed, well trained, and well talented, the members of the Southern Colonels were able to interpret the current swing arrangements played by Dorsey, Goodman, and others. During the school session the Southern Colonels played in and out of state dances, and during the Christmas holidays they made an extensive tour of the leading Virginia cities.

LYNCHBURG ENGRAVED ANNUALS ARE BUILT UPON YEARS OF EXPERIENCE AS SPECIALISTS IN THE FIELD OF SCHOOL PUBLICATIONS

IN successfully fulfilling the requirements of the modern College Annual Staff we have combined a comprehensive and systematic servicing program with that high standard of quality so essential in the production of fine yearbooks. Lynchburg engraved annuals are built by an organization specializing on school annuals exclusively, thereby assuring each stall of the personal and intelligent assistance so necessary in the planning and designing of a truly satisfactory book.

LYNCHBURG ENGRAVING COMPANY
LYNCHBURG, VIRGINIA
Builders of Better Annuals
Creating YEAR BOOKS of Distinction

It takes more than "good printing" to create outstanding Year Books.

The J. P. Bell Company specializes in Year Books. First, by maintaining a Department of trained and experienced personnel that devotes its entire time to the planning and servicing of Year Books. Secondly, by maintaining a plant equipped with the most modern machinery, manned by skilled, efficient workmen.

There is a certain mark of Distinction on all J. P. Bell publications.
