DONATED BY:
MAJOR J. S. SCHAEFFER
DIRECTOR, REGIMENTAL BAND
ANNUAL PUBLICATION OF
THE
SENIOR CLASS
OF
FOREWORD

The purpose of this annual is to present to you a collection of memories that you will wish to preserve through the coming years and to be a reference book of "the good old days at Tech." We have endeavored to give you just that, in this book, through careful selection of material that we thought representative of the past school year.

The Book congratulates you, the graduating class, and we wish you success in all the tasks that you undertake.

JAMES E. McClary, Jr.          JAMES L. Bullock
Editor                        Business Manager

PROFESSOR G. T. Baird
Faculty Advisor

FEATURES
to a real friend!

James S. Schaeffer, the leader of our band, it is with grateful hearts and worthy praise that we dedicate this 1951 Braille to you.

Through thirty-five years of untiring efforts and loyal service as bandmaster of the "Highty-Tighties," you have carried the Spirit of Tech from New York to New Orleans. Under your leadership, our band has received honors and acclaims for its performances. During this time, you and your boys have played before four Presidents of the United States, one of which proclaimed your band "The President's Own."

It is with pride that we salute one who has so unselfishly dedicated himself and his time to his band and V. P. I.—our own "Major Jim."
TO THE STUDENTS

Last year just before graduation a senior student made the statement: “I am just beginning to realize that there are many things going on on this campus for the benefit of Virginians, and I did not know about them soon enough for them to be of maximum benefit to me.”

V. P. I. is attempting to serve the State through resident instruction, through research in Agriculture, Science and Engineering, and through Extension Activities in Agriculture.

Tech enrolls students from every county in Virginia, and there are also representatives on the campus from each of the cities of the State. In cooperation with William and Mary College, basic engineering instruction is offered in extension branches in Norfolk and Richmond, and we are maintaining an independent branch at Danville.

Research in Agriculture is conducted on the Blacksburg campus and at ten sub-stations throughout the State. Research in Science and Engineering, while not as extensive as the research in Agriculture, is being conducted for the benefit of industry and business in the Commonwealth.

As the senior student stated, perhaps students should take advantage of the opportunity while here to become acquainted with the various types of activities in which we are engaged, even though all of them do not touch upon the particular curriculum in which the student is enrolled.

As Tech progresses and extends its services, you, as a future alumnus, will benefit by its improvements. By becoming conversant with its many activities at present you will be in a better position to call upon us for services after you leave college and, at the same time, be of greater assistance in helping to acquaint the public with the service that is being rendered.
DEANS

EARLE B. NORRIS
Dean of Engineering

DR. G. BURKE JOHNSTON
Dean of Applied Science and Business Administration

DR. H. N. YOUNG
Dean of Agriculture

Top Row: Dr. I. D. Wilson, Biology; Dr. T. W. Knote, Business Administration; Dr. J. W. Watson, Chemistry; Dr. M. C. Harrison, English and Foreign Language; Dr. T. W. Hatcher, Mathematics; Prof. W. L. Younger, Physical Education; Dr. F. L. Robeson, Physics; Dr. B. Harshbarger, Statistics.

Bottom Row: Dr. H. L. Dunton, Agronomy; Prof. R. E. Hunt, Animal Husbandry; Dr. P. H. McGauhey, Civil Engineering; Prof. C. W. Holdaway, Dairy Husbandry; Dr. H. M. Love, Economics and Rural Sociology; Dr. Mildred Tate, Home Economics; Dr. W. D. Judkins, Horticulture; Prof. H. L. Moore, Poultry Husbandry.

Top Row: Prof. H. W. Sanders, Vocational Education; Dr. S. A. Wingard, Plant Pathology and Physiology; Prof. C. E. Seitz, Agricultural Engineering; Prof. A. E. Rowland, Aeronautical Engineering; Prof. D. H. Pietta, Applied Mechanics; Prof. C. H. Cowgill, Architectural Engineering; Prof. J. W. Whittemore, Ceramic Engineering; Prof. W. A. Murray, Electrical Engineering.

Bottom Row: Dr. B. N. Cooper, Geology; Prof. J. R. Castelman, Graphics; Prof. H. L. Manning, Industrial Engineering; Prof. J. B. Jones, Mechanical Engineering; Prof. H. V. White, Metallurgical Engineering; Prof. C. T. Holland, Mining Engineering; Dr. E. G. Stern, Wood Engineering.

TECH
TO THE CORPS

As you cadets of the class of 1951 approach the day when you "fall in" at the end of the long line of graduated cadets who have preceded you, the world is full of uncertainties just as, by coincidence, it was exactly ten years ago when the class of 1941 approached its graduation day. Most of you will be called upon to serve your country either as members of the armed forces or in some other important capacity, as were not only those graduates of 1941 but many who had preceded them and many who followed them—more than 7000 in the armed forces alone. They were and still are—wherever they may be—members of the Corps just as you are and always will be. The lessons they learned and the character they developed while undergraduate members of the Corps carried them to the establishment of a glorious record of service to their country and their Alma Mater. The class of 1951, sustained by that same Corps Spirit, cannot fail to maintain that record.

The members of the Military Department wish you Godspeed with utmost confidence that you will succeed.

W. R. MERRITT
Colonel, Artillery
Commandant

P. A. Jordan, III ............................................... Major

The Regimental Staff—seven men combining their efforts to form a team for the achievement of their two-fold purpose—an outstanding V. P. L, with an outstanding Corps of Cadets. If any measure of success has been attained, the credit lies with the men of the Corps. The Staff is proud and feels it a privilege indeed to have served these men who were ready, willing, and able to help with the year’s problems. The members of the Staff are grateful for the opportunities of learning made possible by their contacts with the individuals of the Cadet Corps.

It is with regret that the members of the Staff look at the end of the year, for they are leaving V. P. I. and the Cadet Corps; however, cherished forever will be the memories they gained at V. P. I.

The V. P. I. Cadet Regimental Band in 1950-51 continued to enhance its reputation as the best military band in the South.

During the fall quarter, the Highty-Tighties brought cheers from thousands of spectators at football games and parades in Blacksburg, Roanoke, and Washington with their precision marching and figure formations.

Most of the winter quarter was spent in practicing music and getting ready for the concert season.

Concert appearances during the spring quarter included Burruss Hall, Radford Women's College, and several other women's colleges.

A very successful year was brought to a close with participation in several full-dress parades on the campus.

Corps Trip

(1) All-a-board! (2) Bye-Bye B'burg. (3) Singin' along with Monty's uke. (4) Pass. (5) Dreaming of home—or her? (6) Now fix my cape, will ya? (7) Watch your step! (8) The mad rush to get to formation. (9) Well, here we are. (10) That long wait outside the stadium. (11) So this is Roanoke! (12) After the game—Who Won? (13) It's all over now. (14) Conductors—of what? (15) Just think, in only eight more hours we'll be pulling into Blacksburg!
First Battalion Staff

OFFICERS

Lt. Colonel Allison G. Glover  
Battalion Commander

Major David P. Minichan  
Executive Officer

Captain Elwood H. Richardson, Jr.  
Adjutant

Captain Eugene O. Showalter  
Supply Officer

Sgt. Major Charles R. Raugh  
Sergeant Major

The First Battalion Staff, composed of the five best looking, most efficient men in the Corps (incidentally, we wrote this article) have tried to guide its companies across the drill field,—this due to the slit-trenches and other obstacles in the construction of the Mall—and other serious matters such as parties, brawls, and other wild, but friendly social functions.

“Twinkle-toes” Glover, “Lover” Minichan, “Handsome” Richardson (laughs), “S-1” Showalter, and “Rookie” Raugh worked assiduously their first three years and, shall I say, played the last—this being the primary reason for their return to B-burg next year, not because they are in love with some woman at the “Skirtbarn.”

Seriously though, it’s just about time for us to say good-bye to the best bunch of guys in the world. It has been swell knowing all of you and we hope individually and collectively that each of you succeed in everything that you contemplate.

Throughout its long history, A Company, the oldest company in the Corps, has maintained an enviable record of leadership and honor in all fields of endeavor. The winning of the Kohler Trophy last year and the Battalion Citation Cord in the two preceding years is recent evidence of the prominent part that the company has upheld in college activities. Each of us is proud to have been in the company and to have helped strive for our aim of a greater A Company for a greater Corps of Cadets.

Company B is proud to take its place in the ranks of Air Companies at V. P. I. Our most capable predecessors have always maintained a place of distinction for Company B among the Companies of the V. P. I. Corps of Cadets. We shall endeavor to uphold the dignity and prestige which has always been characteristic of this Company.

Instilling within its members a spirit of unity and fellowship, the Company is enthusiastically participating in athletic, social, and military activities about the campus.

This year, for the first time in its history, our spirited company is organized as an all air unit.

The men of our company have learned many things through their active participation in all phases of academic and military life at V. P. I. We have found that by working together under able leaders, toward high goals, we can contribute much to the corps as a whole; to our company; and finally, to ourselves.

We, the men of "Cat" Company, have now to look back upon our good times, good fellowship, and high achievements to see that we have made a valuable contribution to the history of our unit.

Last September, the men comprising Company D began to uphold the traditional military efficiency with which the "Pride of the Corps" had been operating during the two years that had elapsed since its reactivation.

As we approach the end of the school year, the "Doggies" realize that, while we have had our good times, we have upheld those fine Corps traditions which have been expected of the men of D Company.

The fact that all of us were in the Air Force R. O. T. C. unit greatly increased our company spirit, and, to top it off, a fine and able staff of officers made our efforts very successful.

This Cadet Life

The Second Battalion Staff acted as an administrator of orders received from higher staffs, and as a coordinator and advisor of the companies under it. We, the members of the staff, could not have wished for a better year at Tech. We have enjoyed the company and fellowship that comes with working and associating as a unit.

And now as our time at Tech is running out, it is with deep feeling that we say “so long” to the school that we love and to its men, our classmates, whom we have come to know and respect.

In a review of the history of Company E, we find that it has always been steeped with a winning spirit. It has been a rather "feathery" organization, a little on the "chicken" side, but at all times there existed an atmosphere of friendliness and deep respect for superiors. Company E has established a tradition which is to be envied. With this background behind us and with the spirit which has resulted from this year's stationary organization of the company we'll climb to a greater height.

Company F, capably led by "Wild Bill" Colonna, is for the first time in its long and enviable history composed of one solid unit of the fighting men from the Artillery. Chiefly because of the friendly atmosphere prevalent throughout the company, its men have secured many honors in the academic, athletic, social, and military fields. We have proved that it is possible to mix business with pleasure and still have a company that ranks with the best in the Corps of Cadets.

Company H marks the first appearance of a Signal Corps unit on the V. P. I. campus, although the company embodies some twenty-five men of the Artillery Unit. Company H has successfully demonstrated its unit spirit and cooperation by its high standing in the Corps; however, the development of the individual has been its primary aim. The men of Company H have learned—learned from their academic work, from Corps traditions, and from the rewards of victories and the humiliation of defeats in spirited competition—they can face a troubled world with the confidence that comes from the harmonious effort of the group and the initiative of the individual.

Company I, with a past record for spirit and cooperation that cannot be challenged, can look back now at a year which will long be remembered by all. Nowhere in the Corps of Cadets has so much been accomplished through voluntary rather than compulsive efforts of each individual.

A sincere understanding between the officers and men has paid off richly as shown by the enthusiasm and the will to win.

We have enjoyed and benefited by the friendly all-for-one and one-for-all atmosphere, and we can truly say and remember that “those Ordnance guys” were the best ever.

Third Battalion Staff

OFFICERS

R. D. WEBSTER .......................................................... Lieutenant Colonel
R. M. PINKHAM .......................................................... Major and Executive
R. D. HUGHES .......................................................... Captain and Adjutant
C. C. BEAZLEY .......................................................... Captain and Supply Officer
T. J. HAMPTON .......................................................... Sergeant-Major

Composed of both Infantrymen and Engineers, the 3rd Bn. Staff is rapidly taking its well earned place as the leading staff on the campus. Already known as Col. Webster’s Raiders, the spirit of interest, cooperation, and congeniality shown by the staff is equaled only by that of the companies in the battalion.

The staff is led by Chief Raider “Feathers” Webster of Baltimore, Md., who is known particularly for his ability to produce anything, particularly grilled cheese sandwiches. The “Exec.” is “Bubbles” Pinkham of Orange, Va., a man well noted about the campus for his “breadth” of interest. “Carolina” Hughes, the Adjutant, hails from Durham, N. C., and is the official staff Romeo. The Supply Officer, “Sleepy” Beazley of Covington, Va., finds the after-tape social functions too strenuous. “Crying Boy” Hampton of South Hill, Va., is a Sergeant-Major with more troubles than the rest of the Corps put together.

It will be noted by all that the year 1950-51 was one which saw great changes in the Corps of Cadets. This renaissance of the old unit system has combined our individual efforts under one title, "The Engineers," a symbol of prestige given to those who make perfection their utmost achievement.

Looking back with pride upon our energetic participation in athletic, scholastic, social and military activities, the credit for a job well done belongs to—not one, but all the men of Company L. We have learned the meaning of friendship, cooperation, and teamwork. Now as the college year comes to a close, each of us feels justifiably proud of the organization of which he is a member.

The aims of the engineer unit have been high in the past, the future is a challenge to even greater goals.

Envied by all and envious of none, Captain "Gene" Autry's Troopers, ably aided by numerous "co-captains," rose to new heights in spirit and drill.

Consistently high in company competition since its reactivation, every man in the company from rat to senior has his eye on winning that blue Infantry citation cord. The company has greatly benefited from the assistance of members of the Transportation Corps ROTC.

Still a young company in the organization of the “new corps,” Company “N” has established for itself a tradition of teamwork and efficiency. The ever-proud doughsfeet still have reason to be proud.

The men of Company “N” have found their year’s work to be a rich experience in progress and cooperation. Our memories will always be warmed by reliving the spirit and snap which are characteristic of the Infantry.

The 1951 Bugle has operated under severe handicaps this past year. Due to the drop in enrollment caused by the conflict in Korea, the Bugle has had a smaller staff and less operating capital than in the past several years. However, the members of the staff have worked hard and done an excellent job to publish this book for you.

We sincerely hope that this edition of our yearbook will always be a collection of those memories that you never wish to forget.
Because of the sudden decrease in enrollment at Tech this year the business staff has had a tremendous job financing the Bugle. Through hard work and cooperation from every business staff member this obstacle, along with any others, was overcome. The whole staff deserves praise for doing a great job.

Widely known as "The Official Organ of the Student Body," The Virginia Tech has constantly attempted to present news and features of interest to the student body, and to give the students a chance to express their opinions and ideas.

The success enjoyed by The Virginia Tech, both on our campus and throughout the state, cannot be attributed to any one or two individuals. Rather the credit must be given to the members of the staff listed on this page, who worked tirelessly and generously throughout the year.

The financial success of The Virginia Tech depends entirely on the work done by the student members of the business staff. Therefore, it is necessary that the group be an efficient and aggressive body. Although the staff does not make the headlines, there would be no headlines without it. The business staff gives a group of students much valuable training in the field of business management. The financial success of The Virginia Tech can be attributed to the constant and untiring efforts of the entire staff pictured on this page.

The school's engineering magazine, The Virginia Tech Engineer, presents the most recent trends of interest in the fields of science and engineering both on and off the campus. Articles of general interest written for the Engineer by students and faculty members from many departments of the school give a broad picture of modern developments to campus readers. Published five times a year, the magazine exhibits a good cross-section of the progress made at V. P. I.

The Business Staff of Radio Station WUVT endeavors to promote cooperation between the college and the community. Through commercial sales WUVT is able to maintain its high standards of broadcasting. It is hoped that in the future, Radio Station WUVT will expand to newer and greater accomplishments.
The Sentinel is unique in being the only publication of its type in Virginia. The first Sentinel was based on the idea of the Naval Academy's Trident Calendar. Many changes have been made since the Sentinel first appeared on our campus in 1941.

Photographs were found for the first time in the 1951 Sentinel and cartoons submitted by students other than staff members were found through the efforts of the cartoon contest started last year.

The 1951 Sentinel was dedicated to the vast alumni of V. P. I. in hopes that it would serve as a reminder of days gone by and to enable the Techmen of yesteryear, to join forces with the Techmen of today, to work for a greater V. P. I. of tomorrow.

The Honor Society of Phi Kappa Phi is a national society, and the Virginia Polytechnic Institute chapter is the oldest honorary society on the campus. It is the purpose of Phi Kappa Phi to emphasize scholarship and character in the thought of college students, and to foster the significant purposes for which institutions of higher learning have been founded. Phi Kappa Phi has tended to stimulate mental achievement by recognition through election to membership. This membership is limited to those students who are among the upper one-eighth of their class, but is open to students in all departments of the college. Only one-tenth of any class, however, may be elected. The resident membership is made up almost entirely of faculty members.

T. M. Smith  Recording Secretary
Miss M. E. Smith  Editor

Phi Sigma, national honorary biological science society, was founded on March 17, 1915, at Ohio State University, and the Alpha Psi chapter was installed at V. P. L. on May 24, 1949. Before its affiliation with the national society, the campus organization was known as Biotech.

The purpose of the society is to promote interest in biological research and to afford opportunities for fellowship between students and faculty members in agronomy, animal husbandry, biology, dairy husbandry, and poultry husbandry. Although originally designated as an honorary biological research society, it is now considered as a working guild of biologists interested in research. In effect, election to Phi Sigma is an opportunity for better work, rather than merely election to an honor society.

Pi Delta Epsilon, national honorary journalism fraternity, strives to encourage participation in undergraduate publications and to elevate the cause of college journalism. The chapter is the second oldest honorary on the campus, having been active since May 1, 1930, with the exception of the war years. This year the chapter had the honor and pleasure of being host for the National Convention. Membership in Pi Delta Epsilon is bestowed upon those juniors and seniors who have distinguished themselves by outstanding ability while serving in responsible staff positions on their campus publications.

The Tau Beta Pi Association was founded at Lehigh University in 1885. The Association was founded for the purpose of marking in a fitting manner all engineering students who have conferred honor upon their Alma Mater by distinguished scholarship and exemplary character as undergraduates, or by their attainments as alumni in the field of engineering. The Association also seeks to foster a spirit of liberal culture in the engineering colleges of America.

Alpha Zeta recognizes achievement by the undergraduate and graduate student in all fields of agriculture. Members are chosen on the basis of their qualities of scholarship, leadership, character, and personality. The organization's services include establishment of a closer bond between the many branches of agriculture, the promotion of agriculture as a science, and the further development of the qualities necessary to a modern agriculturist. Alpha Zeta strives for improvement of agriculture, both on the campus and in the outside world, by the development of a better qualified graduate.

Scabbard and Blade is a national military honor society with local chapters, called companies, located in eighty-nine leading colleges and universities which have Reserve Officer Training Programs. Membership is by election only. Active members are chosen from outstanding cadet officers of the advanced course of the institution in which a company of this society is located.

Scabbard and Blade strives to raise the standard of military education in American colleges and universities; to encourage and to foster the essential qualities of good and efficient officers; and to promote friendship and good-fellowship among the cadet officers.

Eta Kappa Nu, founded in October, 1904, at the University of Illinois, was installed on the V. P. I. campus in May, 1940. While membership in the Association is a badge of distinction for those electrical engineers who, by their attainments in college or in practice, have manifested a deep interest and marked ability in their chosen life work; the aim of Eta Kappa Nu is to promote fellowship among electrical engineers in order to maintain the close union necessary for the advancement of the profession.

Chi Epsilon, a national honorary fraternity, places a mark of distinction on the undergraduate civil engineer who is selected on the basis of scholarship, character, practicality, and sociability. To contribute to the improvements of the engineering profession, Chi Epsilon fosters the development and exercise of fundamentally sound traits of character and technical ability among engineers which will work toward a higher standard of service offered to humanity by the profession.

The Block and Bridle Club is an honorary organization whose objectives are to promote a higher scholastic standing among students of Animal Husbandry, to promote more interest in Intercollegiate Judging Contests, to bring about a closer relationship among the men pursuing some phase of Animal Husbandry as a profession, and to encourage students to take up a study of Animal Husbandry.

Although the Block and Bridle Club is primarily an Animal Husbandry organization, there are included in the membership men in many other curriculums.

The local chapter of the Block and Bridle Club received its charter in December, 1935.

The Alpha Mu Chapter of Sigma Gamma Epsilon, national, honorary, Earth Science Fraternity, was installed at V. P. I. in 1942. Its objects are the scholastic, scientific, and social advancement of its members; the extension of friendship and assistance between colleges and universities; and the advancement of the Earth Sciences in general.

The Gamma Alpha Rho honorary aeronautical society was founded at Rensselaer Polytechnic Institute in the fall of 1945. The Beta Chapter was organized at V. P. I. on May 14, 1947, when the first official meeting was held.

The Gamma Alpha Rho society was founded in recognition of the need of distinguishing those who by their scholarship, integrity, and achievements in aeronautics have conferred honor on their Alma Mater. Additional aims of the society are to promote better understanding between students and faculty, and to develop a high plane of professional attitude, producing among undergraduates especially, a better code of professional ethics.

R. H. Wilson  Treasurer
H. R. Forkner  Faculty Adviser
I. J. McKeand  Herald

The active chapter of Keramos, "father of professional engineering fraternities," was installed at V. P. I. on March 2, 1940.

The organization was established to provide a professional fraternity open to the outstanding students in Ceramic Engineering at V. P. I. Its principal object is to promote and emphasize scholarship and character in the thoughts of Ceramic Students, to stimulate mental achievement, and to promote interest in Ceramic art, technology, and engineering.

As secondary objects it seeks to bind more closely the alumni to the Alma Mater and to the alumni of other colleges and universities, and to furnish an additional tie of college friendship.

The Eta Gamma Cast of Alpha Psi Omega, national honorary dramatic fraternity, was organized on the Tech campus in 1939. Its purpose is to provide an honor society for those doing a high standard of work in dramatics. Since its founding, Alpha Psi Omega has striven to increase dramatic interest at Tech.

Phi Lambda Upsilon, honorary Chemistry-Chemical Engineering Society, was founded in March, 1899, in order to promote “high scholarship and original investigation in all branches of pure and applied Chemistry.” The Alpha Theta Chapter was installed at V. P. I. in February, 1933. Election into Phi Lambda Upsilon is based strictly on high scholastic standing and good character. The membership is drawn from the Chemistry, Chemical Engineering, and Biochemistry curricula.

W. R. Wiseman .................................... Treasurer
M. B. Blair ................................ Faculty Adviser

Sigma Delta Psi, national honorary athletic fraternity, encourages health and symmetrical bodily development. Before election, every member must pass a series of all-around tests of physical ability. The national fraternity was founded in 1912 and the V. P. I. Chapter was installed in 1938. In 1940-41, competing against sixty leading colleges and universities of the country, the V. P. I. Chapter won the national award. The very rigid entrance tests present a challenge to any athlete and provide for development of the body along with intellectual growth.

Tau Sigma Delta provides a national collegiate honor society for advanced students majoring in Architecture and its Allied Arts. The immediate objectives are to emphasize scholarship, leadership, and character; to stimulate mental achievement and effort; and to reward high scholastic ability.

The local chapter of Tau Sigma Delta annually awards a prize to the sophomore student in Architecture, Architectural Engineering, and Light Building Construction who turns in the outstanding work in design or in structural design. In addition, the chapter is active in seeking improvements in the facilities and the curriculum of the Architectural Department.

R. F. Adams  Treasurer
M. V. Nevitt  Faculty Adviser

The Gamma Chapter of Alpha Sigma Mu, national honorary metallurgical fraternity, was founded at V. P. I. on November 26, 1911. The name Alpha Sigma Mu signifies the Arts and Sciences of Metals. The purposes of the fraternity are to further the things for which its title stands, to promote and recognize scholastic attainments among students in metallurgy, to aid in bringing its members more closely together so that they may help each other both in college and after graduation, and to further friendly relations among the colleges offering metallurgical engineering. Junior and senior students who have a scholastic standing in the upper third of metallurgical engineering are eligible for membership in the fraternity.

This organization was established at the first Air R. O. T. C. summer camp at Langley A. F. B. under the name of the Arnold Society of Air Cadets. A V. P. I. chapter was formed on this campus in January, 1949. In May, 1950, the name was changed to the Arnold Air Society.

Its purpose is to further the ideals of the U. S. Air Force and to recognize those students enrolled in Advanced Air R. O. T. C. who have distinguished themselves by their academic and military achievements.

Sigma Pi Sigma is the only national physics honor society. Its chapters are restricted to colleges and universities of recognized standing which offer a strong physics major. The chapters receive into membership physics students and a few others in closely related fields, irrespective of their membership in other organizations, when such students attain high standards of scholarship, professional merit and academic distinction. Membership is conferred upon no basis of selection other than scholastic or professional record. Both men and women students are eligible for membership. Reception into the society is consummated without formal pledge or secret-order training.

Alpha Phi Omega is a Service Fraternity, whose primary purpose is to render service to campus, community and nation. A definite program is maintained that directs the activities of members and pledges toward the benefit of their fellowmen.

The stated purpose of the fraternity is to assemble college men in the fellowship of the Scout Oath and Law, to develop friendship and to promote service to humanity. To successfully follow this purpose, four fields of activities are entered: service to the student body and faculty, service to youth and community, service to members of the fraternity and service to the nation as participating citizens.

The wide variety of activities sponsored by the V. P. I. Agriculture Club provides training for each member in leadership, parliamentary law, public speaking, community activities, and cooperation among members and faculty in the school of agriculture. All members are constantly reminded of the latest advances in agriculture through books, magazines, and speakers secured by the club. With an organization designed for the development of the individual, all members upon graduation feel that they are much better equipped to serve their country as agriculturists.

The V. P. I. Student Chapter of A. S. C. E. has a three-fold purpose. First, it seeks to round out the Civil Engineering students' education by acquainting them with topics of engineering interest through talks by competent engineers and through movies and field inspection trips. Second, it offers students and faculty members the opportunity of becoming acquainted. Third, the chapter strives to promote a professional spirit among the students.

All Civil Engineering students are eligible for membership and are urged to join the society.

The V. P. I. Student Branch of the A. S. M. E. holds the distinction of being the oldest student branch in Region IV of the National Society. It has been actively supplementing the curriculum in mechanical engineering since its inception in 1925. The student branch welcomes the membership of students in all engineering curricula.

The principal objectives of A. S. M. E. are:

To broaden the student’s acquaintance with the practical phases of mechanical engineering.

To inform him of engineering progress.

To develop the student’s initiative and ability to speak in public and to familiarize him with the organization of Technical societies.

To enable the student to establish fraternal contact with his fellow students in mechanical engineering.

The Student Section of the American Society of Agronomy presents to Agronomy students, as well as students in other agricultural curricula who choose to be members of this club, an educational program and also a program that will promote fellowship and leadership.

Some of the club's major activities during the year are a banquet, picnic, educational field trip, and the awarding of a Freshman Scholarship to an outstanding Virginia High School student enrolling in Agronomy at V. P. I.

The American Ceramic Society is a student branch of the national organization. Its purpose is to acquaint the students with the various branches of Ceramic Engineering and to give them a wider knowledge of the problems and opportunities in the field of Ceramics. The society offers the students in Ceramic Engineering an added incentive to develop leadership, scholarship, and the art of working together. The various activities of the society tend to form a closer correlation between the students and their future work in the Ceramic industries.

The V. P. I. Chapter of Student Affiliates of the American Chemical Society, second oldest in the country, was organized in 1938 to enable students majoring in chemistry to become better acquainted with their field. Guest speakers, motion pictures from different chemical firms, and plant inspection trips help to further an interest in various aspects of chemistry. Through the Student Affiliate Chapter, chemistry majors are urged to participate in the activities of the American Chemical Society.

The V. P. I. Student Section of the A. I. A. is an organization with the two-fold purpose of keeping the architectural student in constant contact with the architectural profession and providing a medium of fellowship with other students.

By its connection with the national organization and cooperative activities carried on with many schools of the nation, the club accomplishes its purpose and establishes a social unity among its members.

The Student Chapter of the American Institute of Chemical Engineers was organized in October, 1935, for the purpose of providing opportunities for professional and social development of students majoring in Chemical Engineering. It is recognized that the professional associations made during student days are frequently valuable in later years, and that the professional attitudes acquired at this time set the pattern for later life. A technical curriculum leaves something to be desired in the individual development of the student. It is the aim of the student chapter to fill in some measure this need.

The American Institute of Mining and Metallurgical Engineers is an association organized to promote the arts and sciences connected with the mineral industries and to elevate the welfare of those employed in those industries. These purposes are stressed in business meetings through the reading and discussion of professional papers, while greater understanding and friendship are created through the social activities of the chapter.

The membership of the Burkhardt Chapter of the AIME is composed principally of students from the Mining Engineering and Geology Departments of Y. P. I.

Through the efforts of Prof. C. E. Seitz, the oldest Agricultural Engineering Department east of the Mississippi River was established at V. P. I. in 1922. Since that time, this department has continued to function and grow through the services which it has rendered to Virginia and the Nation.

The American Society of Agricultural Engineers is a national organization which endeavors to bring all Agricultural Engineers, both student and graduate, together into a closer union of mutual understanding and brotherhood.

Active participation in this society develops personal characteristics such as leadership, personality, character and a better understanding of the men who make this society a growing organization of brotherhood and lasting friendships.

The Business Club was organized in 1931 to foster the growth of its individual members, and to create a feeling of fellowship among those students in the Department of Business Administration. The members are kept abreast of current developments in the business world through the professional programs of the club, which present many outstanding speakers in the field of business.

Band together in fellowship with a common goal in mind, the members of the Biology-Science Club strive to promote interest in the biological and related sciences. As the second collegiate chapter of the Virginia Academy of Science, we feel that a broader field of endeavor has been opened to us—the promotion of this cause. And with a spirit of determination we shall avail ourselves of every opportunity to enhance the names of our organization and our Alma Mater.

Wright, R. A.
The Dairy Club was organized in the spring quarter of 1921. In the spring quarter of 1938 the club was granted a charter by the American Dairy Science Association and has since been known as the Virginia Tech Chapter of the American Dairy Science Association.

The objectives of the club are: to develop and encourage leadership in the field of dairying; to bring the dairy students closer to the problems in the field of dairying by obtaining speakers and movies for the club; to encourage activity by sponsoring both dairy cattle and dairy products judging teams; and to bring students and dairymen of the state closer together by sponsoring Dairy Day.

The V. P. I. Debate Club is an organization composed of the students of the college who are interested in intercollegiate debating. The purpose of this organization is to stimulate interest in debating and to aid students in their public speaking and presence of mind. Debates are held with other colleges throughout the year. All students are urged to join this club, and to share in its benefits. The V. P. I. Debate Teams rank ninth in the nation. This high position was gained last year when the National Tournament was held at the University of Kentucky, with all major colleges throughout the nation participating.

The Forestry Club, a comparatively young organization, has grown rapidly in many ways. Much of this growth may be attributed to the fine spirit of cooperation and fellowship among the members, and the interest and assistance of representatives of various related fields, such as the Federal and State Forest Service, private industry, and experiment stations.

Believing in a close association of students and faculty, the Forestry Club holds a monthly social in addition to regular meetings. Other permanently established social functions are the 'possum hunt, the Annual Woodchoppers Ball, and a Spring picnic.

The V. P. I. Collegiate Chapter of the Future Farmers of America is an organization which is primarily for those students majoring in agricultural education, but it also welcomes as members those agricultural students who were formerly F. F. A. members in high school.

The highlights of last year's work were a fish fry; Father and Son field day and banquet; and an F. F. A. annual which was published by the chapter and distributed to each local F. F. A. chapter in the state.

The Holden Society, an organization of the student geologist, has as its
object the promotion of further understanding between the geology students
and their geology instructors by the presentation of discussions beyond the
scope of classroom instruction. By this contact with additional phases of the
gologic sciences, it is hoped that a desire is fostered among the members for
a higher scholastic and scientific achievement.

The Home Economics Club was established for the benefit of those students in the Home Economics field in order to encourage an appreciation of art and science and to broaden their outlook on the Home Economics field. The club provides for the development of leadership and teamwork by social, business, and professional experience through the various aspects of club life. The organization is affiliated with the National Home Economics Association, and the requirements for membership are those maintained by the national group.

The I. A. S., then known as the Aeronautics Club, had its beginning in October, 1935. In April, 1940, the club's application for membership in the National Organization of the I. A. S. was accepted. The objectives of the Institute of Aeronautical Sciences are: (1) the advancement and dissemination of knowledge of the theory and practice of the aeronautical sciences, and (2) the fostering of professional consciousness and fellowship.

Rural Sociology is that branch of social science which seeks to know and understand rural society through scientific methods.

The Rural Sociology Club of V. P. I. is composed of students in the Rural Sociology curriculum. The club's purpose is to create more interest in Rural Sociology as a field of study and service and to promote a closer relationship among the students in this curriculum.

The Society of American Military Engineers was organized to advance the science of military engineering, and to foster a better spirit of cooperation between military and civilian engineers in an effort to provide a reserve of trained personnel from which to draw in time of war. Each year in recognition of his outstanding achievements, an ROTC student of the Corps of Engineers is awarded a medal by the National Society. Important parts of the functions are discussions, visiting speakers, and films made available from the Department of the Army Film Library.

Prior to 1947, the building industry was without technically trained personnel for the field of production and distribution of building materials and equipment, and for the erection of buildings of light construction. V. P. I. was one of the first colleges to set up a curriculum in Light Building Construction based on the recommendations of the leading building materialists throughout the nation.

It is the aim of our club to promote fellowship and good will among the members, to encourage student interest in this curriculum, and to enlighten the building industry in regards to the qualifications that a Light Building Construction graduate has to offer.

The Apple Club was organized to promote good fellowship among the V. P. I. students from Warren, Clarke, Fauquier, Frederick, Loudoun, Page, and Shenandoah counties. The club was originally founded in 1911 after separating from the Shenandoah Valley Club. It was inactive from the outbreak of World War II until the fall of 1947. In addition to giving dances and parties during vacations, the club participates in many college-sponsored programs.

"To Make the Best Better" is the motto of all 4-H Club members. The V. P. I. Alumni Club is composed of former 4-H Club members and extension club agents on the campus. Our aim is to further the 4-H Club interest of all former members. We strive to continue the spirit of fellowship, and achievements characteristic of 4-H boys and girls, of all ages.

The Baptist Student Union is the connecting link between the college campus and the local Baptist Church. The purpose of the B. S. U. is the promotion of Christian principles and activities among Baptist students and others who may be interested in the program. Worship, fellowship, spiritual growth, and wholesome recreation are encouraged through the Sunday School, the Training Union, Young Woman’s Auxiliary, prayer services, study courses, picnics, banquets, and other Christian activities which the B. S. U. sponsors.

The B. T. U. Club is a club for graduate students holding a fellowship in Power and Fuel Engineering. It was formed in 1931 when the Power and Fuel Engineering program was started with the aid of the coal operators of the district. The club functions as a social organization to promote better understanding and a feeling of fellowship among the members. Until this year the club also maintained a B. T. U. House for recreational purposes and as living quarters for some of its members.

E. W. Hood, Jr.  Treasurer
J. W. Owen  Faculty Advisor

The Black Diamond Club is one of the youngest sectional clubs on the V. P. I. campus. It was organized in the spring of 1947.

Our organization is composed of students from Mercer, McDowell, Bland, and Tazewell counties—the heart of a great coal empire.

The purpose of our club is to provide a stronger fellowship and a greater unity among students from this area while in school and after leaving.

G. P. Frazer ........................................ Faculty Advisor

The V. P. I. Capital Club strives to create unity, develop friendship, and stimulate good will among the students from the metropolitan area. Although it was organized in 1929, the Capital Club made its greatest gain in 1947 when the sectional clubs of Arlington and Alexandria were amalgamated with it to form the present large and progressive organization.

To further its objectives, the Capital Club each year promotes many smokers, parties, and dances, in addition to the holding of frequent, regular meetings. Also, at least one social per quarter is held in conjunction with the Capital Club of Radford. Through these activities, the lives of the student members are enriched.

The V. P. I. Grotto of the National Speleological Society, known on the campus as the Cave Club, was founded in 1942. It has the distinction of being the first student grotto of the national organization.

This group exists for the purpose of promoting and advancing interest in the underground, and the fellowship among those engaged in spelunking. Both exploratory and scientific projects are undertaken.

Club activities consist of meetings and field trips. At the meetings rope rigging and safety procedures are demonstrated, pictures on caving are shown, and talks are given by guest speakers. Field trips are sponsored weekly to the numerous caves in this vicinity.

The Eastern Shore Anchor Club was organized on November 6, 1904 by the students of the Eastern Shore of Virginia and Maryland attending V. P. I. Following World War II, the club expanded to include students' wives and students from the Eastern Shore of Delaware as members. This club endeavors to promote good fellowship among the boys and girls of that locality. Each year the club awards a scholarship to a "worthy high school graduate of the Eastern Shore." Several social functions were sponsored during the past year, the successful Annual Christmas Dance held at Wilkins Beach Hotel being the highlight of them all.

Social Director

The Hampton Roads Club is the oldest and most active of V. P. I. sectional clubs. The club is composed of students from Newport News, Hampton, Phoebus, Bull Island, Williamsburg and surrounding territory.

The club annually sponsors five dances at home as well as its formal, private Christmas Ball in conjunction with the Peninsula Alumni Chapter.

The purpose of the Hampton Roads Club is to promote good will and fellowship among its members, to aid new students in becoming acclimated to college life, to promote a better understanding between the Corps of Cadets and Civilian Student Body, and to foster a closer relationship between the alumni and students of the Hampton Roads area.

The Virginia Tech Life Saving Corps is primarily a service organization. Its members, trained in Red Cross Water Safety and First Aid, serve as life guards for the college pool and are available at all times for emergency and rescue work. The L. S. C. is a charter member of the Virginia Association of Rescue Squads as well as an associate with the International Association of Rescue Squads.

The Lonesome Pine Club, composed of students from the border counties of Virginia and Kentucky, derives its name from "The Trail of the Lonesome Pine," and it is one of the oldest sectional clubs on the Tech campus. The object of the club is to promote goodwill and fellowship among all members of the Lonesome Pine Club, to aid new students in becoming acclimated to college life, and to promote a deeper understanding between the Corps of Cadets and the Civilian Student Body. Friendship fostered in the club is strengthened thus while developing today the leaders of tomorrow.

The Lord Reading Club, a B'nai B'rith Unit, functions to promote fellowship among Jewish students on the campus. It was established shortly after World War I as an independent religious organization and later became affiliated with Hillel. The club's main efforts are directed toward keeping its members in contact with the rich Jewish heritage through religious, cultural, and social activities.

The purpose of the Lynchburg Club is to foster a closer relationship among the students of Lynchburg and vicinity.

The Lynchburg Club has long been an active organization on the campus. In September 1947, the club was reactivated after an inactive period during the war. The club sponsors several activities during the year, the principal ones being the annual Thanksgiving Dance, Christmas Party, and the annual picnic in June. Smokers during the quarter, and between-quarter parties are very popular.

Almost since the beginning of V. P. I. there has been a strong interest in
dramatics on the campus. Plays are better attended than in many liberal arts
colleges. The club responsible for most drama activity has operated since
1936 as the Maroon Mask, producing many laboratory plays and two to five
public productions. The club's purpose is to provide an outlet for avocational
theatre interests, entertainment for town and campus, and fellowship of
kindred minds.

The Newman Club of V. P. I. is a representative organization of Catholic students which strives to foster the spiritual, intellectual, and social interests of the Catholic students, and to assist the entire student body whenever possible. The club is a member of the Newman Club Federation, a union of similar organizations from other colleges.

The Northern Neck Club is made up of students attending V. P. I. from Northumberland, Lancaster, Westmoreland, and Richmond counties. The club was formed to provide aid to boys coming to Tech from this area. By the little things that have been done to make the "long four" a bit easier, and to promote friendliness among students, we feel that we have achieved our goal.

The Peanut Club is one of the many sectional clubs on the Tech campus. Any student residing in the cities of Suffolk, Smithfield, and Franklin, and in the counties of Nansemond, Isle of Wight, and specified sections of Surry and Southampton counties is eligible for membership. The club operates on a non-profit basis and the business of the club is of a strictly social nature. Meetings are held bi-monthly at which time the business of the day is discussed, with smokers and general get-togethers being held several times each quarter.

The Petersburg-Hopewell Club was formed in 1947 to reactivate the Petersburg Club which functioned on the campus before World War II.

The purposes of the club are to provide social activities and promote good fellowship among the students both at Tech and at home, and to promote closer harmony between the club and the Alumni Association of the two cities and the surrounding area.

The Portsmouth Club is composed of students whose homes are in the Portsmouth, Virginia, area. It is the goal of the club to promote goodwill and fellowship among its members through an active social program both at home and on the campus. A scholarship is maintained by the club and awarded to a worthy high school graduate from the Portsmouth area each year.

Since the year 1894 when the Richmond Club was organized on the V. P. I. campus, it has been noted for its outstanding social events and for the \textit{esprit de corps} which it has established among the students from Richmond. However, these activities have not been the extent of the Richmond Club's contribution to the college and its home community, Richmond, Virginia. In 1940 the club sponsored a school song contest, the winner of which was the "Alma Mater" which we sing today. Each year the Richmond Club contributes time, effort, and energy as well as financial assistance to the Richmond Christmas Mothers' program. The Richmond Club was the first sectional club to be reactivated after World War II.

The Shenandoah Valley Club was organized to promote goodwill and fellowship among the students of the Shenandoah Valley region. The club seeks to aid new members to become acclimated to college life and to promote a deeper understanding between the Corps of Cadets and the Civilian Student Body. The organization is purely social in nature and non-profit.

The Southwest Virginia Club of V. P. I., reactivated in the fall of 1947, is composed of students residing in the Mountain Empire of Southwest Virginia, Eastern Tennessee, and Western North Carolina. As our aim, we strive to promote goodwill and fellowship among Tech students from our area. The club operates on a non-profit basis and the business of the club is of a strictly social nature.

Our annual Thanksgiving and Christmas dances are the outstanding social events of the year. Smokers, private parties, and spring outings are the other social events enjoyed by its members during the year.

The Tech Photo Club is an association of students at V. P. I. interested in photography. Regular bi-monthly meetings are held, where the members discuss their individual problems, criticize each other's work, or listen to a speaker. The club has a darkroom available for those who desire to do their own processing or enlarging. In addition, planned field trips are taken to various picturesque locations in order to apply some of the principles and techniques learned.

Concurrently with the founding of the Virginia Polytechnic Institute in 1872, the Young Men's Christian Association was born. Since its inception this Christian organization has experienced growing pains along with the college itself. Yet, along with the growth there has always been an undeniable emphasis on the importance of Christian character as a prerequisite for success in business and professional life. Students from all parts of the United States and students from other lands serve in official capacities of leadership. They bring to the Association a variety of religious experience which the Association staff seeks to improve in terms of community leadership and churchmanship.

The Young Women's Christian Association is a Christian organization of which every girl at V. P. I. has the privilege of becoming a member. The purpose of this organization is to unite in the desire to realize full and creative life through a growing knowledge of God; to have a part in making this life possible for all people and in seeking to understand Jesus and to follow Him in carrying out this task.

Underclassmen make up the membership of the Y. M. C. A.'s Junior Cabinet. These younger students learn by practice the ways in which the Christian Association serves the campus and the community. One can observe them directing games on the playgrounds of public schools near Blacksburg, or teaching children in the Mission on Brush Mountain. Not infrequently they will be found promoting a party for freshmen, leading a Vesper Service, participating in a Bible Class, or taking part in a barracks discussion led by a member of the faculty. Those who give evidence of leadership are usually chosen to fill vacancies on the Senior Cabinet, which directs the religious affairs from year to year at Virginia Tech.

The Lutheran Student Association on the campus is a division of the United Lutheran Church of America and is governed by the Lutheran Student Council of America.

On the campus the aims and emphases are to strengthen and sustain Christian students in their faith through the use of the Bible, privately and in groups, through prayer, through regular church attendance, through frequent reception of Holy Communion, and through fellowship in the Lutheran Student Association of America, to encourage appreciation of the Church and its teaching in our world today and to afford the opportunity for cultivating friendships and social life on a Christian level.

The Cadet Waiters' Association was formed to enable students to earn a part of their college expenses by working in the college dining hall. All classes are represented, and the close harmony that prevails is a tribute to the ability of the leaders and to the students' desire to help themselves. We are proud of the outstanding scholastic records that have been made by Cadet Waiters, and Waiters can be found among the ranks of almost every club and organization on campus. In view of our achievements, we sincerely hope that no one will object to our dedicating this, our first appearance in the Bugle, to ourselves.

(11) Daily trek across the mud flats. (12) Happy-go-lucky! (13) At least we still have Burruss Hall.
Football 1950

The 1950 Virginia Tech football season left much to be desired. From the first game, when the Quantico Marines battered the Gobblers to their knees, Hokie football was in the doldrums.

After seeing his team absorb three lopsided defeats in as many starts, Head Coach Robert C. McNeish, showing every quality of a true sport and gentleman, stepped down. McNeish said that he had done his best to give VPI students, alumni, and friends the kind of team they deserved and, since he had failed, he felt some one else should be given the chance to find that elusive something that was lacking.

Freshman Coach Allen Learned was called upon to pilot the varsity gridders for the remainder of the season. Learned launched into his new job with his singular fire and spirit. He was giving his all to an already lost cause and it soon became apparent that even the indomitable Al was losing the spring in his step as the opponents’ scores kept mounting.

Upper Left: The Coaching Staff, 1950.
Upper Right: Tech’s Co-Captains witness the toss.
Lower Left: All-American LeBarrom shows his stuff.
Lower Right: All the way Wings!
The Gobblers finished the season with a record of no wins and ten losses while being among the nation’s leaders in kickoffs received and kickoff return yardage.

There were a few bright spots, however, when individual players showed flashes of brilliance for a minute or two, or even a series of downs, but they did not keep it up and they could not get together. So went the season.

With the coming of 1951, a new regime set in. Frank O. Moseley, backfield coach for the Sugar Bowl Champion Kentucky Wildcats, came to Blacksburg with the grim determination to bring with him a new era in Tech Football. Moseley inspired new confidence in all who met him and, once again, Techmen were beginning to smile when they talked of V. P. I. football prospects.
Freshman Football

The Freshman football Tigers laid claim to the State championship by going undefeated through five games, including the first year teams of Virginia, Washington and Lee, and V. M. I.

It was against the V. M. I. Rats that the Little Technicians rose to the peak of perfection. The Gobbler defeated a greatly favored team from Lexington from the starting whistle to the final gun; the final score of 19 to 14 hardly gives an indication of the decisiveness of the victory.

Much credit is due Al Learned, Freshman mentor, and Harry Bushkar, who took over the reins when Learned moved up to the varsity, for the all-triumphant season.

Hopes are high that the healthy bunch of 1950 yearlings will prove to be what it takes to start varsity football back on the road to recovery in 1951.

First Row: Jim Williams, Grizzard, Kulakowski, Hughes, Elderidge, Ingram.

Third Row: King, Lilley, Tedrick, Bing, Doming, Jack Williams, Olsen, Drobnshikho.

Fourth Row: Coach Learned, Coach Meriwether, Florence, Prater, Howell, Burleson, Hensley, Coach Bushkar, Coach Beard.
Tennis

Tech's tennis team came up with an undefeated season to post the best record and the only perfect season for a 1959 Gobbler athletic team.

Led by Captain Pressly Coker, the Jones-Buchanan coached netters took 9 wins in 9 matches in earning a 17 won and 1 lost overall count for the '49 and '50 seasons.

Basketball 1950-51

The eager of Coach G. F. Laird enjoyed one of the best seasons in the history of V. P. I. The basketball Gobblers finished the campaign with a record of 19 wins and 9 losses, not including a hard fought encounter which was dropped to Duke University in the Southern Conference Tournament.

The 1950-51 basketball team was a senior outfit: the only underclassmen to start a game was Johnny Cantrell, who opened on several occasions. The team featured the sensational hook-shot of center Tex Tilson; the deadly accuracy of forward Gene Jones; the all-around playing of guard Dick Sayre; the dependable and consistent floor game of guard Harry Davis; and the backboard sweeping and follow shots of the year’s surprise, forward Bill Sampson.

The season saw the setting of several new school records. Against Roanoke College and Hampden-Sydney the most points to be scored by a single team, 91, were dumped through the hoops by the Techmen; Tex Tilson chalked up 35 points against Virginia for an individual mark; and the Gobblers averaged a fraction over 74 points per game for a new team record.

The Techmen, as a team, and Dick Sayre as an individual ranked high nationally in foul shot accuracy which proved to be the margin of victory for the Gobblers on several occasions.

Although it had its stars, the Tech team made its fame showing through balance and strength in all positions and the ability of Coach Laird to get the most out of his material.

Here's one that Trammell didn't get.

Front Row: Budge, Cline, Green, Olson, Parker.
Second Row: Davis, Lankford, Hedrick, Steingasser, Davisen.
Inset: Coach Bushkar.

Green pops one in.
Baseball

The varsity baseballers climaxd a highly successful season by winning the championship of the northern half of the Southern Conference.

The sluggers of Coach “Red” Laird won 13 games and lost 7 while collecting 8 of the wins and 2 of the losses in regular season Conference play.

Three Techmen received first-string All-State and All-Southern Conference honors: Cal Schadel for his work on the mound; Sterling Wingo in center field; and Dick Goodman at third base.

The 1950 edition of the Gobbler nine showed pep and hustle in the field to go with power at the plate in posting their excellent record.

Board covers first.

Track 1950

For the second year in a row, the thinclads of Coach Lou Onesty swept over all State opponents and copped the State Meet, to keep the Old Dominion crown at V. P. I.

The only time a Virginia foe even came close was in the State Meet when the University of Virginia pushed the Gobblers all the way to the wire as four records fell, two to the Techmen. Don Cochran shaded the javelin mark with a heave of 194 feet 1½ inch and Stu Johnson lowered the 440-yard dash time to 48.8 seconds.

The only defeat suffered by the barriers was an upset to N. C. State on Ring Dance weekend.

Besides the regular season's activities, representatives to the Washington Evening Star Meet, the Maryland Invitational Meet, and the Florida Relays brought honor and glory from far and wide to V. P. I. by their deeds.

Led by Co-Captains Bob Monroe, a record breaking high jumper, and Oney Meriwether, a stellar sprinter, the cindermen gave performances that will be hard to equal in years to come.

*Top:* Over the bar.
*Bottom, Left:* Heave ho!
*Bottom, Right:* Ruffin throws the discus.
SEASON'S RESULTS
V.P.I. 87\(\frac{1}{2}\) William and Mary 38\(\frac{3}{4}\)

V.P.I. 79 Virginia 47
V.P.I. 73\(\frac{1}{2}\) V. M. I. 47\(\frac{1}{2}\)
V.P.I. 61\(\frac{1}{2}\) N. C. State 66\(\frac{1}{2}\)
1. Wings by a hair.
2. Another 440 win for Stu Johnson.
3. Co-Captain Bob Monroe,
   Coach Lou Honesty, and
   Co-Captain Otis Meriwether.
4. Gale in a breeze.
5. State record holder, Cochran.

Freshman Track 1950

The Freshman Trackmen helped
Tech make a clean sweep of the
State outdoor meet by winning
handily over the rest of the field.
Sporting a well rounded team, the
fresh thinclads won two out of three
dual meets as well as the State event.

The Gobblets of 1950-51 took up
where the 1949-50 freshmen left off
and took a surprise championship of
the State indoor meet for 1951.

First Row: Hoback, Kavanagh, Brown, Mocha, Dickerson,
Grizzard, Hardy, Miller, Davis.

Second Row: Hauff, Dailey, Hall, Hartman, Fisher, Loving,
Rubush, Parson, Richards.

Third Row: Cobb, King, Henderson, Shradler, Blankenship,
Merrill, Sorenson, Matheny.

Fourth Row: Voddie, Coach Honesty, Cook, Shumate.
Wrestling

Despite a "building year" the Tigers, led by Coach Allen Learned, turned up with a fair season of four wins and five losses. Two of the losses were to the Southern Conference champion, V. M. I., and runner-up, Washington and Lee; another was to non-Conference Virginia, who beat both V. M. I. and W. & L.; while a fourth was to the powerful and loaded Camp LeJeune Marines. The other defeat was at the hands of a strong North Carolina State Wolfpack.

On the right side of the ledger were four Conference victories. Wins over Davidson, West Virginia, and the two that Coach Learned is particularly proud of, Duke and North Carolina, both for the second consecutive year, show that the wrestlers were better than the record indicates.

Next year is looked toward with good possibilities of a better season, since only four experienced grapplers will be leaving by the graduation path: Captain Bob Wachtter, John Baker, Jim Tilson, and Dave Prongay. Reinforcements from the Freshman team, which showed well under the tutelage of Frank Teske, are expected to strengthen next year's varsity line-up.
Rifle Team

First Row: Garthoff, Harris, Cooper, Kerr.

Second Row: Major Katherman, Coach;
Bains, Bryan, Meyers, Hoeck, Sgt.
Birdwell, Asst. Coach.

Absent From Picture: Burton, Johnson, Harnsberger.

Cross-Country

The Cross-Country team dropped its only dual meet to V. M. I. by the very narrow margin of 28 to 29. The runners were also second to the Keydets in the state meet and finished eighth in the conference run.

Upper Left: Cal Matheny warms up.
Lower: The team: Vicellio, Finley, Evan, Moore, N. Taylor, B. Loving, Blankenship, Mocha, Matheny.
Swimming

Although they won three out of eight meets, the swimmers of Coach Lou Oneesty consider themselves as having a rather successful season. The boys made good showings in several of the losses against such outstanding aggregations as North Carolina, N. C. State, and Virginia.

The swimming of Mac Jones, who set school records in the 220 and 440 yard freestyle events, was the bright light of the Tech season. Jones also took first place in 1500 meters in the Southern Conference Meet.

The best performance of the year for the tankmen was against William and Mary when the Oneestymen copped firsts in eight of the nine events and tied for first in the other.

Top: Hard at work.
Center: I need a drink.
Bottom: Don't 'em off the ceiling.

*First Row*: Miller, Murie, Harmon, Emmons, Jones, Albee, Bragg, J. Haydon, Wood.
*Second Row*: Everly, Hughes, E. James, Cox, Ellison, C. Dennis, Coach Oneesty.
*Third Row*: W. Haydon, Varner, Sanderson, Ro'artson.
Golf

The Tech Golf team had not quite the success that it has experienced in the previous two years. The linksters won three while dropping seven and tying one. In the Southern Conference Tournament, Coach Preston Newman’s charges finished in seventh place; while in the State Tourney, they came in third behind Washington and Lee and William and Mary.

Many of the matches were close and the Techmen put up a battle before they went down in defeat, but this fails to show up in the won and lost records.

Lacrosse

The spring of 1950 saw the first V. P. I. lacrosse team take the field and give an unexpectedly good account of itself. Although they went winless, the stickmen, coached by Charlie Hickey, were one of the few lacrosse teams to score in every game of its first season. Interest was high among the students and this old Indian game could grow to be a very popular sport at V. P. I.

DETOUR ROTOGRATE
STOKER

Selected for Virginia Polytechnic Power Plant. The most economical method of burning coal. Detroit RotoGrate is an improved type of spreader stoker with forward moving grates that automatically discharges the ash at the front. Economically burns all grades of bituminous coal or lignite. Higher burning rates produce more capacity per foot of furnace width, keeping down investments in both steam generating equipment and building. Thermal efficiency is exceptionally high with either steady or fluctuating loads.
