VIRGINIA POLYTECHNIC INSTITUTE

A STATE COLLEGE OF AGRICULTURE, ENGINEERING, AND BUSINESS, ESTABLISHED IN 1872, AS A LAND-GRAIN COLLEGE, ON THE SITE OF THE DRAPER'S MEADOWS MASSACRE OF 1755. ITS FOUNDING MARKED THE BEGINNING OF SCIENTIFIC AGRICULTURAL AND INDUSTRIAL INSTRUCTION IN VIRGINIA. THE COLLEGE INCLUDES AGRICULTURAL AND ENGINEERING EXPERIMENT STATIONS.

ANNUAL PUBLICATION OF THE SENIOR CLASS
VIRGINIA POLYTECHNIC INSTITUTE
Our Purpose...

As each new freshman sets foot on our campus here at Virginia Tech, he is taking a step forward in life. So it is through each of his succeeding years until finally graduation day arrives. Here he takes the largest step forward of his entire life. It is with this thought in mind that we have chosen as our theme, the simple phrase—"A Step Forward." Throughout this book we have tried to show, in words and pictures, the transformation of a Tech student from the meek, unknowing freshman to the confident, mature individual who emerges at the end of a successful college career, ready to face the future and make his mark in the world.

Virginia Polytechnic

\[\text{VA TECH}\]
We Dedicate...

As we progress through our college years we realize we have had our share of tests and quizzes, bluebooks, parties and classes. All along the way we have had help from our teachers, classmates and friends—but most of all from you. You are responsible for our graduation, whether this year or in the years to come. You have instilled in us since early childhood, the desire to learn and to achieve—Now as young men and women we shall endeavor to reward you by being the persons you have inspired us to be.

With deepest appreciation for the interest, cooperation and love that has been such a vital part of our college life, we dedicate the 1953 BUGLE to you, OUR BELOVED PARENTS.
PRESIDENT'S MESSAGE

The 1953 Bugle has as its theme “A Step Forward.” This is a pertinent theme and likewise the college must always be conscious of its objective. Certain basic emphases are inherent in all institutions of higher learning and perhaps must always be adhered to. All colleges, however, must recognize the fluctuations in social and economic conditions.

Our objective as an institution is primarily to serve Virginia in technical and scientific fields. At the same time, our graduates, faculty and alumni must contribute to the strengthening of the moral and Christian aspects of our social order and democratic form of government. I believe that all proposed improvements should be evaluated in terms of this overall objective. We attempt to achieve our objectives by the improvement of our resident instruction, our research and our extension programs.

Everyone closely associated with V. P. I., students, faculty, administration, board members and alumni, have an important role to perform in realizing the goal of greater service by V. P. I.
BOARD OF VISITORS

First Row: Mrs. R. L. McConnel, W. E. Wine, Honorary Rector; Mrs. R. G. Baldwin, Secretary; V. G. Eberwine, Rector; Mrs. R. G. Boatwright, Dr. Mary Phlegar Smith.

Missing: Dr. D. J. Howard, S. D. Preston, Mrs. H. H. Walton.

ACADEMIC COUNCIL

Seated: Gen. J. M. Devine, Commandant of Cadets; L. B. Dietrick, Dean of Agriculture; S. K. Cassell, Business Manager; Dr. P. H. Farrier, Director of Admissions; A. V. Morris, Director of Summer School; Dr. W. S. Newman, President; Dr. L. A. Pardue, Vice-President; J. W. Gutheridge, Director of Student Affairs; G. B. Johnston, Dean of Applied Science and Business Administration, F. J. Maher.

Military
Commandant of Cadets

The Virginia Tech Corps of Cadets is an integral part of V, P. I. It is an organization of students, by students, and for students, and is designed to make a major contribution to the educational process here at this institution. The Corps itself provides the structure and the opportunity to develop in its members self-reliance and a sense of responsibility, to teach that subordination is a part of life, and that leadership and followership are but opposite sides of the same coin. The Corps organization lends itself readily to the development of student government that really governs, and offers endless opportunities for the training of well-rounded citizens prepared to play their part in peace or in war.

Since the Corps is a student organization, its functioning depends upon the cadets themselves, the primary responsibility devolving upon the senior class. It is the senior class that must, by precept and example, set the standards and cherish the traditions of the Corps.

I congratulate the Class of '53 upon the progress that has been made under its leadership.

JOHN M. DEVINE
Commandant

Military Counselors

Corps of Cadets

C. H. Jennings  President
R. E. Huband  First Vice-President
J. G. Fleenor  Second Vice-President

C. H. Jennings  President

We, the members of the Cadet Student Government, have tried to work more closely this year with the Civilian Student Body and the Administration; we feel that we have succeeded. Our hope is for the future, for the students to handle more and more of their own affairs. In this way student government really lives up to its name. We thank the Corps of Cadets for helping us so ably and for putting their faith in us.
Cadet Executive Committee

“It shall be the duty of the Executive Committee to guard and protect the reputation and name of the Corps of Cadets and recommend punishment for offenders who bring discredit upon the Corps of Cadets in matters not involving the Honor System in accordance with the provisions contained in V. P. I. Military Regulations. The Executive Committee shall consist of two members from the Senior Class, and one each from the Junior, Sophomore, and Freshman Classes. The Vice-President of the Corps of Cadets shall serve as chairman of the Committee.”

R. E. Herland  Chairman  W. K. Childress  Junior
H. B. Fitchett  Senior  J. L. Gallimore  Sophomore
E. H. Mitchell  Senior  R. W. Raabe  Freshman

In this school year of 1952-1953, there have been many constructive changes in the Corps of Cadets. The Regimental Staff hopes that, in its own way, it has helped to carry out these changes for a better Corps at Y. P. L. The Staff will always remember, though, that no organization is any better than the men behind it; and the Staff had the best possible men behind it—the Cadets of Y. P. L.

“Mise” Beverly S. “Guiding Light” Parrish has been helped (?) by: H. Dudley “The Shadow” Dewhirst; Guy D. “Don’t give a damn what anyone thinks” Mattox; Charles H. “Yum-Yum” Jennings; Jeffery R. “Space-Cadet” Stewart; Alvis S. “Alice” Hardy; Tim J. “Parson” Roberts; W. Byrum “Undecided Now” Woodrum. What a crew!

Mrs. B. S. Parrish, Sr.

B. S. Parrish, Jr.  
Colonel
The rifle companies of V. P. I. claim spirit, cooperation, and ability to work as a unit. The Regimental Band, however, has an additional claim; its members are further united by a deep-rooted interest in music. The combining of many individual instruments into a harmonious whole symbolizes the mingling of band members into a smooth-running company.

Beginning this year, the "Highty Tighties" added precision drill to the more customary formations at football game half-times. The success of this drill and the figures associated with it was a result of diligence and earnest effort on the part of every member. On concert trips, the band was equally well received.

Industrious leaders within the band have provided the incentive for advancement, thus assuring a bright future for the "Highty Tighties."

These qualities are the very pulse of the organization, and they carry the band a long way in fulfilling its purpose: that is, to bring fame to our Alma Mater in more and more cities and states of the nation.

J. W. Mayhew  
**Captain**
First Battalion Staff

Lieutenant Colonel R. E. Huband

Major R. J. Hajek

Captain H. B. Sivils

Captain H. B. Fitchett

First Lieutenant S. H. Butler

Sgt. Major J. R. Murray

Battalion Commander

Executive Officer

Adjutant, S-1

Supply Officer, S-4

Liaison Officer

Sergeant Major

We, the members of the first battalion staff (four “Flyboys” and two “Big-guns” from the Artillery) would like to express our thanks and appreciation for the cooperation we have received during the past year.

In spite of being the “grand-daddies” of four rat companies, we can honestly say we have no gray hairs, rheumatism, or heart-trouble, and we hardly ever need our canes. However, “Hoss” Fitchett fell by the way-side when he staggered the last mile to the altar.

Commanding the “Punchy Six” was Ray “Bubba” Huband, the Ruth (less) commandant of the first battalion nursery. Next in line we have Dick “Hay-Jack” Hajek, (you can spell it but you can’t pronounce it), a boy from the wrong side of the Potomac.

Behind the maze of Q. C. ribbons was the adjutant Howard “The Little Soldier” Sivils who proved that size is inversely proportional to grades. As S-4 we had Horace “Hoss” Fitchett who had the audacity to forsake our love for the love of a woman. The battalion liaison officer was Steve “the Quiet Man” Butler, a Suffolk lad who proves that “actions speak louder than words,” especially with the women. Bringing up the rear was our Sgt.-Major Ross “Pots” Murray holding up his end.
Through its long history, "A" Company, the oldest company in the corps, has maintained an enviable record of leadership and honor in all fields of endeavor. During the past six years the men of "A" Company have won three battalion citation cords, the Krohler Cup, and the intramural championship award. The teamwork and winning spirit of "A" Company was immediately captured by the incoming freshmen, thus tying the company together with unbreakable bonds.

With the leadership of "Bill" Lewis and a staff of tireless senior officers, the past year has been successful in every respect. In the years to come, we shall be proud to say, "yes we were in Company A."

Company “B” lives on in the history of V. P. I. and in the hearts of all men who have been within its ranks. Never shall the officers and their impartial leadership; the underclassmen and their fellowship; be forgotten. The unmistakable sternness of Captain Lee Taylor, the geniality of our First Lieutenant Eugene Mitchell, the easy going “sack in” attitude of our Second Lieutenants, “Bennie,” “Skippy,” and “Beb;” the fair play and “good nature” (?) of our ranking Junior, Frank Fiorini, III; the even cadence of our First Sergeant “Hoggie” Marshall, the likeableness of our Supply Sergeant Hoback, and the cheerful helpfulness of all our other officers shall live forever in the hearts of the men of Company “B.” These qualities have led to the development of one of the best co-ordinated and most outstanding Companies on the campus of V. P. I. May the Company be as fortunate in all the years to come.

Company D

OFFICERS

E. G. Germain ... Captain
G. L. Lewis ... First Lieutenant
D. W. Lacy ... Second Lieutenant
G. W. Mills ... Second Lieutenant
J. W. Paeplow ... Second Lieutenant
P. S. Nekrosow ... Second Lieutenant
C. E. Milewski ... First Sergeant
A. R. Curtis ... Supply Sergeant

This year Company D has established a splendid record in spirit, originality, initiative, and cooperation that cannot be challenged by any other company in the long history of V. P. I.

Looking back with pride upon our achievements in every phase of college life; scholastic, military, athletic, and social, we have learned the value of teamwork, friendship, and cooperation with everyone.

Our able leaders, past and present, have strived to achieve "esprit de corps," based on voluntary rather than compulsory efforts of each individual.

As the academic year comes to a close, we seniors look back with regret at having to leave so many friends made at V. P. I. The recollection of our college life so quickly spent brings only sadness to our hearts. Yet we must remember that four years together has left each of us with a wealth of memories that will remain a cherished part of us forever.

Second Battalion Staff

OFFICERS

Lt. Colonel N. J. Andre ........................................ Battalion Commander
Major R. A. Downing ........................................ Executive Officer
Captain G. L. Page ........................................ Battalion Adjutant, S-1
Captain A. B. Ward ........................................ Battalion Supply Officer, S-4
First Lieutenant E. L. Kirkley ................................ Liaison Officer
Sgt. Major N. D. Street ....................................... Sergeant Major

We, the officers of the Second Battalion Staff, wish to express our appreciation to the cadets of the Second Battalion companies for their cooperation and support in making this first year under the new basic policy a successful indoctrination period.

The Second Battalion is made up primarily of Freshmen, thus, presenting the officers with many problems not present in the upperclassmen battalions. Without the proper solution to these problems as provided by the company officers, the staff's efforts towards accomplishment would have been useless.
OFFICERS

J. D. Harrover  Captain
B. E. McCauley  First Lieutenant
J. G. Baker  Second Lieutenant
R. E. Comerford  Second Lieutenant

D. W. Hunter  Second Lieutenant
F. S. Jennings  Second Lieutenant
E. L. Clark  First Sergeant
B. T. Butcher  Supply Sergeant

We, the men of Company E, appreciate the privilege of being members of one of the greatest institutions of education—V. P. I.—and members of one of the greatest organizations—The Corps of Cadets.

Ably commanded by “Jim” Harrover, we realize that even though we may never gain corps-wide recognition, we have worked together toward an ideal goal—a better Corps of Cadets. To those that leave—Godspeed, to those that remain—Keep our reputation unstained. Friendships made this year, within this company, will live forever, as we hope, will the memories of a successful year in a successful company.

Company "F" is composed of fifty-six freshmen and is staffed with twelve juniors and fourteen seniors. The upper-classmen are from the R, O, T, C, Signal Corps Company that was "K" company last year and "H" company the year before.

These men, though burdened with highly technical studies, have given their time and effort to create a high-spirited and highly efficient, as well as friendly, military organization. As members of such a company we reserve the right to be proud and a little "cocky."

Our principle objective as a freshman company is to train ourselves as men to take our places of leadership in the Corps and the world of the future.

Company "G," third letter Company, Second Battalion, is a Company comprised of a cadre of upperclassmen ably headed by Buck Combs and whose ranks are filled entirely by Freshmen. Since this Company is a completely new organization there are no precedents to equal; however it is the task of the present Company to set such precedents as will never be forgotten. This we must not and will not fail to do. Keep your eye on Company "G"!

We of Company H are justly proud of the organization of which we are a part. It is one composed entirely of men with no place for "chickens," finatics, or babies. Here men are treated as men. For boys not on scholarship, the prerequisites for this, the Athletic Company, are—good grades, leadership ability, recommendation from a coach, and a Monogram for Juniors or Seniors. Our Company Spirit and "Fraternity" atmosphere are envied by other companies and all classes alike here at Virginia Tech. The policy, as successfully enacted here in the Company, has not been based on the traditional threat and whip method but rather on the co-operation of men working together for better academic standing, better living circumstances, and better athletics.

CAPTAIN HARRY J. SKINNER

Supply Officer, S-4

FIRST LIEUTENANT A. KENNETH KAR, JR.

Liaison Officer

Sgt. MAJOR WALTER E. MILLER

Sergeant Major

The Third Battalion Staff returned to the campus last fall faced with the problem of assisting in the reorganization of the Corps of Cadets and the formation of companies composed entirely of the three upper classes. After much confusion and hard work, we achieved the high degree of unity which we sought. The splendid cooperation received from the newly organized upperclassman companies was the most important factor contributing to our success.

Our staff, sometimes known as "Swisher Swisher’s Insignificant Six," is composed of four ardent Artillerymen, an ordinary Ordnance grease-monkey, and flag-waver from the Signal Corps. The "Six" are led by "Swisher" Swisher from Clarksburg, West “By-God” Virginia. The “exec” is “Burlap” Baggerly who claims Danville, Virginia as his home. “Bee’s Knees” Evans, our adjutant, hails from the harbor city of Norfolk, Virginia. We are sadly and seldom supplied by “Stinker” Skinker, our S-4 officer, who descended upon us from Fredericksburg, Virginia. Our “lazylon” officer is “Clug” Kar who originated as another “Shoeless Mountaineer” from Charleston, West Virginia. Out of Dodgeville, U. S. A. reluctantly emerged “Yasha, the Owl Hunter” Miller to act in the capacity of our Sergeant Major.

MRS. C. V. SWISHER

G. T. SWISHER

Lieutenant Colonel
The Personages so gaily splattered about this page represent the gentlemen of “I” Company. We are one-hundred men representing a cross-section of these United States, although some claim to be Confederates.

Like all people, we hate being called average, but then, that’s just being such. In being average, we realize that we represent something. Something called America. Something that includes boosting the home team, laughing, and loving.

Maybe we’re just a little prouder because we’re “I” Company. Just a little prouder because we’re Techmen.

Just a group of men, together in victory and defeat, but together, and proud to be so. Look around this page. You will see these men again, leading America in war and peace, and proudly so.

Supply Sergeant

If the old axiom "nothing succeeds like success" is true, we are certainly bound for another victorious year. For the past two years the nucleus of this company were together to win both the Kohler Cup (highest drill award in the Corps) and Citation Cords for maintaining the best-appearing company in our battalion.

Not only do we boast of our military achievements. We are equally proud of our extra-curricular activities such as Intramurals, our many leaders in various campus organizations, and our high Esprit de Corps.

Keep your eye on King Company. We're out to win!

The basic part of L Company comes from last year’s Citation Cord winning ordnance group. However, since it was not chosen to be one of the so-called freshman companies, L Company has inherited all the freshmen from last year’s K Company plus a motley assortment of upperclassmen, the likes of which will probably never be seen again assembled in one company. So, the situation could be summarized in an equation something like this: L Company = Citation Cord winners + a group consisting of practical jokers, poker players, musicians, athletes, and just plain characters. The result is never a dull moment in a company which still maintains its high military position in the Corps of Cadets.

We, the six of the Fourth Battalion Staff, being God’s gift to women, have fulfilled our duties to the V. P. I. Corps of Cadets and American Womanhood to the best of our abilities. For the past four years the women east of the Mississippi have been thrilled by the “Dashing Six.” We extend our apologies, however, to those unfortunate few located in isolated areas.

Through the year our motto has been, “we don’t take no stuff off nobody.”

At this time we wish to express our appreciation to our commissioned and non-commissioned officers who have helped make this battalion the best.

M Company, for years an Engineer Company, was this year converted to an Air Company. In the past “M” Company has been regarded as an outstanding member of the V. P. I. Corps of Cadets. This year it shall earn the same distinction.

Under the leadership of Bert Pierce and his staff of senior officers, “M” Company has been coordinated into a company with ambition, cooperation, and spirit. “M” Company’s ambition is to attain not only military honors, but academic and athletic as well. These aims could not be realized without the cooperation of every man. The spirit of “M” Company is in the true spirit of V. P. I.—that is Ut Prosim.

We're sure that everyone will remember the "N" Company of '52-'53. It was the one that stood alone as the best Company of the Corps. Under the able leadership of our officers, Company "N" displayed practical "know-how" in every situation. Yes, we the men of Company "N" have enjoyed plenty of spirit, fellowship, and company "characters."

The "Big Brass" of V. P. L. assigned a wide cross section of the best men from the "Old Corps" to the newly organized Company "O." Company "O" is comprised mainly of "fly boys" under the leadership of Captain Mike Chesson and his Cheesemen. Although Company "O" closes the curtains on a Corps parade, it is first with men of spirit, loyalty, teamwork, and leadership. Company "O," although a newly organized company, is paving the way to a new and better Corps and its guide to success is UNITY.

Those of us who stay behind would like to express to the Class of 1953 our appreciation for the contribution it has made to V. P. I. and its way of life. Your enthusiasm throughout the four years you have been here has lifted our spirit, the energy you have exhibited has created in us a desire to work harder, your loyalty has engendered in us a stronger feeling for the College.

With your continued help in the future we trust that V. P. I. will grow in a manner that will make you proud to speak of your Alma Mater.

For helping us in so many ways we want to say, “THANK YOU VERY MUCH.”

The Virginia Tech Agricultural Economics Club was first established in 1940 as the Agricultural Economics and Rural Sociology Society. It later withdrew from the Society and set up an independent club. It was not until 1950 that it received a charter as the Virginia Student Section of the American Farm Economic Association. Since that time it has functioned very successfully in promoting interest and understanding in the field of agricultural economics and in developing a closer relationship between the faculty and students of the curriculum.

The Dairy Club was organized in the spring quarter of 1921. In the Spring of 1938, the club was granted a charter by The American Dairy Science Association and has since been known as The Virginia Tech Chapter of The American Dairy Science Association.

The objectives of the club are: To develop and encourage leadership in the field of dairying; To bring the dairy students closer to the problems in the field of dairying by having educational programs; To promote fellowship among its members; To encourage activity by sponsoring both dairy cattle and dairy products judging teams; and To bring students and Dairymen of the state closer together by sponsoring Dairy Day.

Rural Sociology is that branch of social science which seeks to know and understand rural society through scientific methods.

The Rural Sociology Club of V. P. I. is composed of students in the Rural Sociology curriculum. The club's purpose is to create more interest in Rural Sociology as a field of study and service and to promote a closer relationship among the students in this curriculum.

The Home Economics Club was established for the benefit of those students in the field of Home Economics in order to encourage an appreciation of art and science and to broaden their outlook on the Home Economics field. The club provides for the development of leadership and teamwork by social, business, and professional experience through the various aspects of club life. The organization is affiliated with the National Home Economics Association, and the requirements for membership are those maintained by the national group.

The primary objective of the club is to promote educational and social fellowship among its members, both faculty and student. The club annually presents an award to the outstanding horticulturist in Virginia. The main events of the year are Horticulture Shows on the campus and in Roanoke. Club members annually participate in a public speaking contest at the State Horticultural Society meeting held during the winter quarter.

Any student presenting a profound interest in Horticulture may become a member of the organization.

The club is enthusiastically supported by the professional and commercial interests of the state.

The Executive Council of the Association for the Advancement of Engineering is a representative body whose purpose is to promote the best interests of the School of Engineering; to represent the various engineering curricular clubs and to coordinate their efforts. To date the main efforts of the council have been directed toward the presentation of the annual engineering conference. This annual conference which has done much to build up the V. P. I. Engineering School in the eyes of industry is planned solely by the students on the council and is presented with the aid of the engineering organizations on the campus.

The American Ceramic Society is a student branch of the national organization. Its purpose is to acquaint the students with the various branches of Ceramic Engineering and to give them a wider knowledge of the problems and opportunities in the field of Ceramics. The society offers the students in Ceramic Engineering an added incentive to develop leadership, scholarship, and the art of working together. The various activities of the society tend to form a closer correlation between the students and their future work in the Ceramic industries.

The V. P. I. Chapter of Student Affiliates of the American Chemical Society, the second oldest chapter in the country, was organized in 1938 to enable students majoring in chemistry to become better acquainted with their chosen field. Guest speakers, motion pictures, and plant inspection trips help to further an interest in the various aspects of chemistry. Through the Student Affiliate Chapter, chemistry majors are urged to participate in the activities of the American Chemical Society, and they acquire a better understanding of the applications of chemistry in industry.

The V. P. I. Student Section of the American Institute of Architects is an organization which keeps its members up to date with current advances and interests of the architectural profession. It also provides fellowship among the architectural students of V. P. I. and the architectural students of other schools.

As a result of its affiliation with the national organization, it receives many of the advantages that a member of the national organization is entitled to.

The student chapter of the American Institute of Chemical Engineers serves a twofold purpose to its members. Of primary importance is the training received in dealing with professional associates during the four years in college which comprise the junior professional apprenticeship of the young Chemical Engineer's career. The organization also provides a medium of fellowship for those engaged in a common effort by its presentations of smokers, picnics, and dances.

The chapter is an invaluable source of training by which V. P. I's Chemical Engineers may become better professional men, better citizens, and better servants of humanity.

The Va. Tech chapter of the American Institute of Industrial Engineers was established on the campus to band together, with a common interest in their profession, the students of Industrial Engineering. The purposes of the organization are to promote acquaintances, to further the general knowledge and interest in the curricula, and to establish departmental participation in campus activities. It further broadens the students knowledge of his chosen field through motion pictures and guest speakers from industry throughout the country.

The Burkhart Mining Society, Student Chapter, American Institute of Mining and Metallurgical Engineers is an organization that brings the mineral industries' students closer to the Mineral industries. Movies of mining, metallurgy, and allied fields are the highlights of the bimonthly social and business meetings. The climax of the year's program comes at the annual A. I. M. M. E. Banquet, which the students and many prominent leaders in the mineral industries attend.

A curriculum in Agricultural Engineering, leading to a Bachelor of Science degree was first offered at V. P. I. in 1913. The Agricultural Engineering curriculum was approved by the Engineer’s Council for Professional Development in 1951.

The student branch of the A. S. A. E. endeavors to develop personal characteristics such as leadership, personality, character, and a better understanding of the men who make the National Society a growing organization of brotherhood and lasting friendship.

The purpose of the student chapters of the American Society of Civil Engineers is to afford the beginning of professional associations for the civil engineering student, and to help him prepare himself for entry into the profession.

The American Society of Civil Engineers gives the student a chance to see his chosen field in a light other than that of the classroom, never failing however, to emphasize the importance of the classroom and the values obtained therein.

Prior to 1947, the building industry was without technically trained personnel for the field of production and distribution of building materials and equipment, and for the erection of buildings.

V. P. I. was one of the first colleges to set up a curriculum in Building Construction based on the recommendations of the leading building materialists throughout the nation.

It is the aim of our club to promote fellowship and good will among the members, to encourage student interest in this curriculum, and to enlighten the building industry in regards to the qualifications that a Building Construction graduate has to offer.

The purpose of the Society of American Military Engineers is to advance knowledge of the science of military engineering and to encourage and develop a spirit of cooperation between military and civilian engineers.

Important parts of the function are: discussions, socials, visiting speakers, participation in publications, and films made available from the Department of the Army Film Library.

Each year at graduation, the outstanding ROTC student of the Corps of Engineers is awarded a medal by the National Society.

The purpose of the V. P. I. branch of the A. S. M. E., oldest student
branch of this organization in the South, is to familiarize its members with the
latest trends and practices in Mechanical Engineering. The society keeps
each student informed about engineering progress, develops his initiative and
ability to speak in public, establishes fraternal contact with his fellow students,
and enables him to meet graduates who are actively engaged in this profession.

The Industrial Arts Education Club was organized in 1947, and has been very active this year trying to form better social and professional contacts with persons engaged in education. Our objectives are directed toward the discussions and evaluations of current educational problems and practices. We encourage the members to participate in professional activities which will promote a better society in which to live.

The members of the club are those students who are majoring in Industrial Arts education, honorary members who were former students or contributors to the field of Industrial arts, and faculty advisers who are members of the Department of Vocational Education.
Extra-Curricular
Publications Board

The Publication Board is the administrative body governing all of the recognized publications at V. P. I. The student membership is composed of all publication heads, the president of Pi Delta Epsilon, and a representative from each of the student bodies. The faculty is represented by the Director of Student Affairs, and three other members selected by the board.

The purpose of the Board is to govern the major policies of each of the publications, to direct and coordinate their activities, and to select the publication heads for each year.

The Board wishes to thank all of those who have made it possible to again have publications at V. P. I.

Here is your 1953 Bugle. In it we have tried to give you a picture story of your years here at Tech. Many long hours have been spent getting it ready. We've probably seen the sun rise more than anyone on the campus. Even though this year's staff is small, a more capable and cooperative group of people couldn't be found. It's been a long hard struggle but we think after you've seen it, our efforts will have been worthwhile. Our thanks will also have to go to the business staff who supplied the money and the photographic staff who supplied the pictures. Many thanks also go to the one who is pictured on this page.
THE VIRG

BUSINESS STAFF

H. B. Sivils, Jr.         Accountant
H. W. Pannell            Advertising Manager
T. C. Moore              Circulation Manager

These are the boys behind the stage who make it possible to print The Virginia Tech. Working in conjunction with the editorial staff, they provide the publication with advertising and circulation services.

Very few people realize the importance of the staff and yet their service is just as much a part of the success as is the service of those who toil with their brains and pencils.

The loyalty and integrity of each of the men on the staff has made it possible to publish The Tech with success.

In twenty-five words or less we could not sum up a year of sweating printer's ink to get that familiar "sheet" out each Friday. However, we can always remember the good and bad times we had working together, and then the hard work is mostly forgotten.

Our fight for more student opinion, news coverage, and new members continued throughout the year. Always we maintained that although it was "our" paper it was "yours" too, and we tried to improve each issue with the pride only young journalists can experience.

Yes, The Virginia Tech continued its campus leadership, and the unaltering few maintained a college paper "of the students, by the students, and for the students." So our copy reads as always—"Good luck and go!"

The Virginia Tech Engineer is an engineering journal published five times a year by the students in the School of Engineering and Architecture. Its purposes are: to present, in a useful manner, material on engineering; to publicize V. P. I. engineers, graduate and undergraduate, and the things they are doing; to foster interest in technical writing, not only for the members of the staff, but for any student engineer who has a worthwhile contribution.

An effort has been made by this year's staff to serve these purposes and to regain the high position once enjoyed by this publication. As a result the magazine won Second Place in the Virginia Intercollegiate Press Association judging.

The history of WUVT is one of painful growth. Financially, WUVT has never been very successful. This year, with the aid of an effective and efficient business staff, the financial outlook is brighter than ever before. Encumbered with reconstruction debts, this bright future can only be attributed to the hard working staff members named on this page.

November 17, 1932 saw WUVT officially return to the air after its almost fifteen months absence due to a fire. In returning to the air, WUVT brought to life one of the largest and finest student owned and operated stations of any American college or university. With its modern studios, elaborate equipment, efficient staff, and a well organized program schedule, WUVT continues to serve Virginia Tech, Blacksburg, and the nation. To accomplish this it took untold hours of work, heartaches, and disappointments. But, as Winston Churchill said in 1941 . . . “Never have so many owed so much to so few.”

The 1953 Sentinel, with its cartoons, witticisms, photographs, and college-activities calendar, is presented for the enjoyment of all Techmen. We of the staff hope that through our efforts the college year of 1953 will be made brighter.
This year for the first time, the photographic staff was made a separate and independent section of Publications. Naturally there were many problems to overcome in setting up this new section. Nevertheless, the work was accomplished and the pictures were taken. The pictures in this book are evidence of the work of this staff.

The Honor Society of Phi Kappa Phi was founded in 1897. There are 60 chapters in the United States. Its purpose is to emphasize scholarship and character in the thought of college students. It is to foster the significant purposes for which institutions of higher learning have been founded. Phi Kappa Phi is intended to stimulate mental achievement and scholarship through election to membership. This membership is limited to those students who are among the upper one-eighth of their class. Only one-tenth of any class, however, may be elected. The V. P. I. Chapter was installed in 1921 with fourteen charter members. Since that time there have been 1473 members elected.

The Omicron Delta Kappa Society is an honorary leadership society, recognizing achievement in the five phases of campus life—Scholarship, Athletics, Social and Religious Affairs; Publications, Speech, Music and the Dramatic arts. The circle is composed of those students who have been outstanding in some of these fields, and who have lived up to the highest standards of character. Besides recognizing outstanding students, the circle strives for the improvement of campus life. This year the circle had the honor of being co-host to the National Convention of the ODK.

Pi Delta Epsilon is our national honorary journalistic fraternity. The V. P. H. Chapter is the second oldest honorary fraternity on the campus, having received its charter May 1, 1930. Members are selected from those juniors and seniors who have distinguished themselves by outstanding ability as staff members of campus publications. The fraternity has as its objectives the promotion of student participation in undergraduate publications and the elevation of the cause of journalism.

The Tau Beta Pi Association was founded at Lehigh
University in 1885 by Rowland Rigginson Williams, Jr.,
to mark in a fitting manner those who have conferred honor
upon their Alma Mater or distinguished scholarship and
exemplary character as undergraduates in engineering, or
by their attainments as alumni in the field of engineering,
and to foster a spirit of liberal culture in the engineering
colleges of America.

Alpha Zeta recognizes achievements by the undergraduate and graduate students in all fields of Agriculture. Members are chosen on the basis of the qualities of scholarship, leadership, character, and personality. The organization's services include establishment of a closer bond between the many branches of Agriculture, the promotion of Agriculture as a science, and the further development of the qualities necessary to a Modern Agriculturist. Alpha Zeta strives for improvement of Agriculture, both on the campus and in the outside world, by the development of a better qualified graduate.

Scabbard and Blade, national honorary military fraternity, was founded in 1904. The society is composed of the outstanding senior officers in the Cadet Corps in the different colleges and universities of the nation. It seeks to encourage and develop those attributes of military appearance, ability and personality combined with that breadth of interest necessary to make an officer and a gentleman. Company I, Second Regiment, was installed on the V. P. I. Campus in 1917. Its membership is restricted to those who show exceptional capacities of leadership. The purpose of the society is to perpetuate ideals which might contribute to the development of Cadets, and preservation and development of the essential qualities of good and efficient officers.

The youngest fraternity on the University campus is the National Professional Fraternity of Pi Omega Pi. It was organized in the rapidly growing Business Administration Department in December of 1960. The objectives of P.O.P. are: "To encourage, promote, extend, and create a scholarship in business education, to encourage and to reward achievements both in business and professional life; to stress efficient service as the basis of all worthy enterprise; to further the spirit of fellowship among students and graduates in the School of Education Department of Virginia Polytechnic Institute and among graduates of other institutions."

Eta Kappa Nu, the electrical engineering honor society, was founded in 1914 at the University of Illinois, and in 1924 Beta Lambda chapter was installed. E. K. Membership in the Association is best graded by the attainment of those who, by their attainments and practice, have manifested a deep interest and capability in their chosen profession. The aim of Eta Kappa Nu is to promote fellowship among electrical engineers in order to maintain the close union necessary for the advancement of the profession.

Chi Epsilon, a national honorary civil engineering fraternity, was founded at the University of Illinois in 1922, based on those characteristics of the individual engineer deemed fundamental to the successful pursuit of the engineering career. The Virginia Tech Chapter was installed on April 15, 1947.

The fraternity fosters the development and exercise of fundamentally sound traits of character and technical ability among engineers which will win for them the high standard of service offered to humanity by the engineering profession.

Pershing Rifles, named in honor of General John J. Pershing, is recognized throughout the United States as a national Honor's military academy dedicated to the encouragement, development, and recognition of the highest ideals of the military profession.

Company E-7 of Pershing was organized at Virginia Polytechnic Institute July 1, 1953 under a charter granted by the National Headquarters of Pershing Rifles. The company has participated in the Roanoke and Apple Blossom Festivals and attended the President's and Governor's inaugurations.

Annually, the organization provides a color guard for Armistice Day Ceremonies, operates a rifle corps uniform exchange, and holds a military dance.

THE BLOCK AND BRIDLE CLUB was founded on December 12, 1919 and the VIRGINIA TECH Chapter received its charter in December, 1935. The objectives of this honorary organization are to promote a higher scholastic standing among students of Animal Husbandry, to promote Animal Husbandry, especially all phases of student Animal Husbandry work in colleges and universities and to bring about a closer relationship among the men pursuing some phases of animal husbandry as a profession. Although the Block and Bridle Club is primarily an Animal Husbandry organization, there are included in the membership men from many other curricula.

Tau Kappa Alpha, national honorary ceramic fraternity, is dedicated to the cultivation of scholarship. It recognizes that like many other good things, scholarship has been abused by charlatans and misused by seers. Tau Kappa Alpha seeks to preserve it as an instrument for free people to perfect their freedom and to quicken their ideas and ideals. To these ends, the national organization, in cooperation with the local chapters, strives to encourage and promote good speaking.

Members are elected on basis of scholarship, character and sustained effort to perfect themselves as speakers.

Gamma Alpha Rho, National Honorary Aeronautical Society, was founded at Rensselaer Polytechnic Institute in the year 1943. The Beta Chapter was founded at Virginia Tech in May, 1947.

The Society was founded in recognition of the need of distinguishing those who, by virtue of scholarship, integrity, and achievement in the field of Aeronautics, have contributed honor upon their Alma Mater.

The objectives of the Society are to promote better understanding between students and faculty, to develop a better spirit of professional attitude by organizing aeronautical activities of both a scientific and social nature, to encourage undergraduate research, and to furnish theses aids in developing aeronautical engineering students.

Keramos is an honor society consisting of alumni in Ceramic Engineering who have shown exceptional qualities of leadership, ingenuity, and scholar ability. His principal objective is to promote and emphasize scholarship and character in the profession of Ceramic students; to stimulate mental achievement and to promote interest in ceramic art, technology, and engineering. As a secondary objective, it seeks to bind more closely the alumni to the Alma Mater and to the alumni of other universities and colleges having schools, departments, and divisions of Ceramics and Ceramic Engineering.

Phi Lambda Upsilon was founded as an honorary chemistry society in March, 1899, at the University of Illinois. The chapter at V. P. I. is the Alpha Chapter, which was installed in 1933.

The aims and purposes of the society are: "the promotion of high scholarship and original investigation in all branches of pure and allied chemistry. Theoretical or practical courses are held throughout the academic year. The organization presents an annual award to that sophomore student enrolled in chemistry or chemical engineering who has the highest quality credit average for his first five quarters.

MRS. J. N. Miflin  Sponsor
R. C. Sluss  Secretary
G. T. Swisher  President

Tau Sigma Delta, was organized to provide a national collegiate honor society open to students at all American colleges and universities where an accredited college or Department of Architecture, Landscape Architecture, and Allied Arts is established. Its prime object is to encourage scholarship and character; to stimulate mental achievement, and to reward those students who attain high scholastic standing in Architecture, Landscape Architecture, and Allied Arts. It is done by the prize of membership.

The local chapter of Tau Sigma Delta annually awards a prize to the sophomore student in Architecture, Architectural Engineering, and Light Building Construction who turns in the most outstanding work in design or in structural design.

Sigma Pi Sigma is the only national physics honor society. The
chapters receive into membership physics students and a few
others in closely related fields, irrespective of their membership
in other organizations, when such students attain high standards
of scholarship and professional merit, and academic distinction.
Membership is conferred upon the basis of selection other than
scholastic or professional record.

This organization was established at the first Air R. O. T. C. summer camp at Langley A. F. B. under the name of the Arnold Society of Air Cadets. A V. P. L. chapter was formed on this campus in January, 1949. In May, 1950, the name was changed to the Arnold Air Society.

Its purpose is to further the ideals of the U. S. Air Force and to recognize those students enrolled in Advanced Air R. O. T. C. who have distinguished themselves by their academic and military achievements.

Alpha Phi Omega is a service fraternity, whose primary purpose is to render service to
campus, community and nation. A definite program is maintained that directs the activities of
members and pledges toward the benefit of their fellowmen.

The stated purpose of the fraternity is to assemble college men in the fellowship of the
Scout Oath and Law, to develop service to the student body and faculty, service to youth
and community, service to members of the fraternity and service to the nation as participating
citizens.

Y. M. C. A. Senior Cabinet

Founded by Sir George Williams in London in 1844, the Young Men's Christian Association came to the United States seven years later. In 1872, when the Virginia Polytechnic Institute was established, the Y. M. C. A. was the first Christian society of students and professors to be organized on the campus. For eighty years, it has operated effectively, seeking to enrich the spiritual life of many thousands who have attended Virginia's land-grant college.

Affiliated with the National Council of the Y. M. C. A., Tech's Christian Association attempts to integrate its program with the total educational process through democratic procedures; recognizing worship, study, and action as essential to spiritual growth.

Y. W. C. A. Cabinet

The Y. W. C. A. is a Christian Organization of which every girl at V. P. I. has the privilege of becoming a member. The organization cooperates with the Y. M. C. A. on many of its projects and provides an opportunity for its members to enjoy Christian fellowship.

We unite in the desire to realize full and creative life through a growing knowledge of God; to have a part in making this life possible for all people and in seeking to understand Jesus and to follow him in carrying out this task.

Baptist Student Union

The Baptist Student Union is the youth organization that serves as a connecting link between the V. P. I. campus and the Blacksburg Baptist Church. The purpose of the B. S. U. is to serve the college community by promoting spiritual development of students through Christian comradeship, witnessing, Bible study, prayer, church membership, denominational loyalty, and kingdom advancement. It seeks to make college life Christian, spiritually pre-eminent, student friendships happy, and student Christianity maximum.

Newman Club

The Newman Club is an organization of Catholic culture and fellowship. Its purpose is threefold: religious, intellectual, and social. The practice of religion is not something that can be "shelved" during a student's college years but must be continually studied and used if the student is to show any spiritual growth. By discussing present day affairs, a student grows intellectually; and by meeting and talking with Catholics, a student becomes acquainted with other students of his own faith.

Cantebury Club

The Cantebury Club is a world-wide fellowship of Episcopal college students. Our chapter here at V. P. I. is basically designed to provide a way whereby we may learn more about the real meanings of the doctrines and beliefs upon which our church is founded. We augment our program, however, by the addition of socials with Episcopal groups at Radford and Hollins College. One of the year’s high points is the annual Retreat which is held in cooperation with the Radford group at nearby Clator Lake.

Wesley Foundation Council

The Wesley Foundation is the Methodist Church at work on the Virginia Tech campus. Seeking to make Christianity real and vital to the college student, the organization is directed by a full time minister to students, and serves through the local Methodist Church. A student center is provided for use by Wesley Foundation members. The program is student centered, including worship, service, and recreation. All Methodist students at Virginia Tech are considered members of the Wesley Foundation, and are invited to participate in its program.

The V. P. I. Debating Society is an organization composed of the students of the college who are interested in intercollegiate debating. The purpose of this organization is to stimulate interest in debating and to aid students in their public speaking and presence of mind. Debates are held with other colleges throughout the year. Before each debate, elimination contests are held to select the most capable persons to participate in that debate. This method of selecting debaters creates equal opportunity and greater interest for all and is an outstanding attribute of this Society. All students are urged to join the club and to share in its benefits.

Representing the nation's largest apple growing area, the Apple Club consists of the students from the northern counties of Virginia and the West Virginia panhandle. The club was founded in 1941, was inactive during the war, and reorganized in the fall of 1947.

The Apple Club strives to promote good-will and fellowship among its members, and to aid new students in becoming adjusted to college life. Regular meetings and smokers are held on the campus. The highlights of the year's activities are the annual Christmas dance and a picnic in June honoring the graduates.

The Black Diamond Club is one of the youngest sectional clubs on the V. P. I. campus. It was organized in the spring of 1947.

Our organization is composed of students from Mercer, McDowell, Bland, and Tazewell counties—the heart of a great coal empire.

The purpose of our club is to provide a stronger fellowship and a greater unity among students from this area while in school and after leaving.

The Capital Club is one of the largest and most active sectional clubs on the campus. The main objective of the club is to promote lasting friendship and fellowship among the students of V. P. I. The club was organized in 1929 and since the absorbing of the Alexandria and Arlington Clubs in 1947, it has drawn its members from the greater Metropolitan Washington area.

Activities include: at least one social per quarter with the Capital Club of Radford, smokers, parties, and dances, aside from the regular bi-weekly meetings. Through these club activities the members are drawn closer together.

The Cosmopolitan Club of Virginia Polytechnic Institute is an intellectual as well as a social organization. Many nations, including the United States, are represented in this group. The greatest part of its activities is directed to better understanding among the different nations of the world. Having an extensive public speaking program, many members of other organizations as well as its own gain the opportunity to become better acquainted with the various customs, ideas and traditions of other nations.

The Danville Club is one of the newest of the sectional clubs on the Tech campus. Students from Danville and vicinity, and former extension students of V. P. I. at Danville, organized this club to promote goodwill and fellowship. The club provides entertainment for its members, aids new students, provides closer harmony between the club and the Alumni Association at Danville.

Bulce, C. J. ............... Hardy, W. D. ........
The Eastern Shore Anchor Club was organized on November 6, 1904, by the Students of the Eastern Shore of Virginia and Maryland attending V. P. I. Following World War II, the club expanded to include students from the Eastern Shore of Delaware and all member's wives. Each year the club awards a scholarship to a worthy high school graduate of the Eastern Shore entering V. P. I.

Among the club's activities are the Christmas and Summer Dances, its annual oyster roast, and its old member's aiding the freshmen from the Eastern Shore to become accustomed to college life.

The purpose of the Fredericksburg Club is to foster a closer relationship among the students in the surrounding counties of King George, Spotsylvania, Stafford, and Caroline. This club endeavors to promote good fellowship among the boys and girls of that locality.

Our outstanding social event of the year is the Annual Christmas Dance.

Other objectives of the club include aid to students in their social and academic life.

The Lonesome Pine Club of Virginia Polytechnic Institute was formed in 1947. It is a social sectional club with its membership restricted to those students residing in the counties of Wise, Lee, Scott, Dickenson and Buchanan of Virginia; and those residing in the bordering counties of Kentucky and Tennessee.

The purpose of this club is to promote goodwill and fellowship among all members of the Lonesome Pine Club, to aid new students in becoming acclimated to college life, and to promote a deeper understanding between the Corps of Cadets and the Civilian Student Body.

The Maryland Free State Club is one of the newest of the sectional clubs on the Tech campus. The main object of the club is to promote lasting fellowship among students and alumni of V. P. I. who are from “The Old-Line State.” Although our club has just been organized, we have great expectations for the future.

The Mid-Tidewater Club of V. P. I. is comprised of students who live in the Mid-Tidewater section of Virginia between the Rappahannock and the York rivers. We are organized as a social club to promote a bond of friendship between ourselves, the alumni of our section, and prospective students from our section. Our objective is accomplished by social meetings at school and such functions as dances and picnics at home.

The Norfolk Club, formed in the fall of 1945, consists of students from the Norfolk area. The club operates on a non-profit basis, and its main purpose is to broaden the students social and campus life. Sectional clubs contribute greatly toward giving students a well rounded education here at V. P. I.

The Northern Neck Club is made up of students attending V. P. I. from Northumberland, Lancaster, Westmoreland, Richmond, and Essex counties. The club was formed to provide aid to students coming to Tech from this area. By the little things that have been done to make the “long four” a bit easier, and to promote friendliness among students, we feel that we have achieved our goal.

The Peanut Club is one of the many sectional clubs on the Tech campus. Any student residing in the cities of Suffolk, Smithfield, and Franklin and in the counties of Nansemond, Isle of Wight, and specified sections of Surry and Southampton counties is eligible for membership. The club operates on a non-profit basis and the business of the club is of a strictly social nature. Meetings are held every other week at which time the business of the day is discussed, with smokers and general get togethers being held several times each quarter.

The Richmond Club is one of the few really social organizations here at V.P.I. It furnishes a medium through which boys from the Richmond area can meet together in a carefree atmosphere and really get to know each other. In addition to the refreshments, movies, and parties sponsored by the club at school; the club holds dances and parties at home over the holidays.

The club has done exceptionally well this year. It sponsored a dance after the U. of Richmond—V. P. I. football game in Richmond and over the Thanksgiving holidays held a dance at the Jefferson Hotel. During the Christmas holidays two dances were held; the most notable of which occurred New Year's Eve. A banquet held during the winter quarter helped to celebrate the club's 59th year at V.P.I. A small private party for members was also held in the spring and a big picnic at the end of the school year helped to start the summer off right.

The Roanoke Club is composed of students living in the Roanoke area. It was organized for the purpose of promoting fellowship and goodwill among the Roanoke area students both at home and on the campus.

The club sponsors four dances annually, which includes the one following the V. P. L.—U. Va. game, the Thanksgiving Dance, the Christmas Dance, and the Spring Dance. Through these and other activities, we hope that we have added a bit of enjoyment to the long year of academic work.

The Virginia Tech Monogram Club is composed of men who have been awarded a monogram in one of the varsity sports. Letters and sweaters are given to the members by the club in recognition of their achievement in sports. The purpose of the Organization is to maintain a close bond of fellowship among varsity athletes at Virginia Tech; to foster and promote athletics in every way possible, and to encourage prospective athletes of good character to attend the institution.

Athletic Director

After being at V. P. I. for only two years, Athletic Director and Head Football Coach Frank O. Moseley is raising Tech to new heights in the world of athletics.

Winning only one game in 1951, the Gobblers grid team came back this past season and posted five victories. One of these wins came at the expense of V. M. I.

Much credit should be given to Moseley for this improvement in the fall sport here at V. P. I. He has worked hard in building up a football team and has coached them tirelessly. The future is bright for football and all athletics at Tech. Athletic Director Moseley has shown the students and alumni that Tech will have top teams in the future.

Board of Directors of the Athletic Council

First row, left to right: Burnett, Pardue, Dear, Herring.
The 1952 edition of the V. P. I. football gobbles picked up five wins, which were more than Tech had seen in four years. It was the most victories that a Hokie team had achieved in a single season since 1942.

Even though the Gobblers lost six times, they had a far better than average team. The backs and linemen showed a new fight and spirit, and the entire season was climaxed with a 26-7 victory over the Keydets; the first win over our rivals since 1946.

Tech opened the season with three straight victories over Marshall College, Davidson, and The Citadel. Stronger teams from the University of Virginia, and Orange Bowl bound Alabama, broke this victory streak. George Washington spoiled Homecoming with a thrilling 6-0 victory.
Washington and Lee won a close battle in the closing minutes of the game, and the Hokies broke their losing streak with a decisive victory over Richmond. William and Mary took an exciting game and West Virginia overpowered the Gobblers. Perhaps the greatest win of the season came on Thanksgiving Day when V. M. I. was defeated.

The entire team played very well this year. Backs Johnny Dean, Don Boothe, Don Welsh, Billy Harrison, Leo Burke, and Dickie Beard proved their worth. Jackie Williams’ punting was sensational. Linemen Tom Hughes, George Preas, Jim Haren, “Baby” Seal, Tom Richards, Harold Grizzard, and Bob Luttrel played sound ball all season. Howie Wright and Bill Anderson starred on defense.

All three seniors had great seasons. Madison Nutter, Chad White, and Frank Kwiatkowski will be greatly missed. All of these boys received post season honors this year and Nutter was drafted by the Washington Redskins.
Maddox of W&M makes it look easy.

1952 SEASON RECORD

A—Action against UR.
B—A Goliath goes over the VMI goal.
C—Ducky pursues Tata.

Dean fades to pass.
Top:

A—Big time football.

B—Burke is stopped by an Indian.

C—W&L stops Harrison.

D—All-American Bobby Marlow scores for Tide.

Bottom:

E—Don Boothe scores.

F—Welsh runs through Wahoos.

G—Jackie blocks for Beards.
Top:
A—Cavaliers surround Don.
B—Tom Petty makes a gain.
C—Nutter gets Charlie Harding.

Coaches—
First row, left to right: McEver, Satterfield, Chapman.

Button:
A—An eight yard gain.
B—The Generals surround Leo.
C—Dickie bumps into Cavalier.
Basketball

The Tech basketball team just couldn't get started this season. The Hokies had won only three games and had lost nineteen at press time. The results of the Davidson game were not in. They lost eight straight before W. & L. fell, and there were seven more losses before they defeated V. M. I.

V. P. I.'s trouble this year was a lack of experienced players. The green Gobblers took their wins from Washington and Lee, V. M. I., and William and Mary. They gave several good teams close games before going down to defeat.

Again this year, Johnny Cantrell and Charlie Eaton led the Gobblers. The fine all around play of Cantrell made him one of the top guards in the state. Cantrell also contributed a fair share of the Hokie points. Charlie Eaton again was high point man for the team.
Several new faces were seen in the lineup this past season. Tops among these first year men were Bill “Moose” Matthews and Bob Crouch. Matthews turned out to be Coach Laird’s starting center and the tall freshman was high point man in several games. Crouch, a local boy, also dumped in his share of points as he developed into a star in several games. Seniors Dick Ellis and Charlie Hall played sound ball as did John Steingasser, Bob Kennerly, and Dickie Routh.

Right:
A—The team works out.
B—Cantrell drops one in.
C—Eaton drives.
D—“Whitney” hits for two.
An undefeated record for the second straight season featured the 1952 V. P. I. track team. They won five consecutive dual meets. In their encounter with William and Mary, Tech scored 120 points, which is the most a Hokie cinder team has ever compiled in a single meet. Coach Lou Onesty also maintained his enviable record of never losing to a Big Six team.

The Gobbler tracksters also won their fourth straight Big Six championship. Tech piled up 54 points to V. M. I.'s 51 1/2. In the Southern Conference Meet, Tech was fourth with 27 1/6 points.

Seniors Don Cochrane and Stu Johnson won events in the SIC Meet. Cochrane won the javelin with a near record throw and Johnson took the 440. "Bee" Lankford tied for first in the high jump. The mile relay team of Jimmy Baker, Ashton Violette, Al Hardy, and Johnson also won and were the top quartermilers on the team. All of the above won in the State Meet.
A new star was discovered in Dave Shafer. He ran the two mile and was undefeated up until the State Meet. In this he lost in a heart break finish. Dave, however, set a record in the indoor meet.

Seniors Brad Peaseley, Harry Mottley, and John Mills also had a successful season. Junior, Lynn Moore, and freshman, Leon Pleasants were outstanding point winners.

(State Meet)

Fourth place in SIC Meet
When Stuart Johnson graduated from V. P. I. last June, Tech lost one of the greatest, if not the greatest, trackman ever to don the Orange and Maroon. Stu was also ranked nationally.

Johnson was never defeated in the 440. He won it three times in the State Meet, and set a record in 1950. In 1952 he won the SIC 440, and also won the Conference indoor 440 during the same season. He was anchor man for the relay team that set several records.

In the winter of 1952, Stu ran in the Baltimore Invitational Indoor Meet and won the 600 yard run. During the spring he ran one of the fastest 440's in the nation. Then during the past summer he competed in the Olympic trials on the west coast and was barely defeated.
Baseball—1952

Tech's baseball suffered its second straight losing season as they won only four games while losing nine. Seven games were postponed due to weather conditions.

Their four wins included victories over Virginia, Richmond, and two over V. M. I. Their biggest win was over Richmond, the Northern Division of the Southern Conference champions. Richie Fishburn's homer sparked this game. In their other game with UR, Tech was barely edged out.

Outfielder Tommy Bryant achieved honors as he was named to the All-Conference team. Bryant, a slugging outfielder led the team in homers.

Eddie Pierce
Richie Fishburn and Eddie Pierce made up a top notch keystone combination. They also were pretty handy with the bat. These men were seniors.

Jim Beard was the team's leading pitcher as he won all four of Tech's games. Beard was a sophomore. Football men Jackie Williams, Julian King, and Johnny Dean also did some hill work after spring practice was over.

Several other new standouts were discovered. Howie Wright was a better than average catcher. Don Mitchell and Mitch Tedrick turned out to be steady performers.
Wrestling

This year’s wrestling team proved to be one of the better athletic teams on the campus as they won six, lost one, and tied one during the season. This was the best record since 1928.

For the first time in many years, Tech defeated Washington and Lee and Virginia. Both of these matches were close, but the Gobblers came out on top at the finish.

Coach Frank Teske guided the grapplers again this year, and coached them to their second straight successful season. He deserves much praise for the long hours he put in with the team without pay.

Jack McNicol captained the Hokies and wrestled very well in the heavy weight class. Veterans Howie Wright and Al Motley again had successful seasons, each losing one. Several new stars were discovered in Sammy King, Frank Brinn, Billy Keerfoot, and “Baby” Seal. Whitey Lemmond, Dick Harmon, and Bill Blalock showed promise.
The Hokie musclemen finished third in the Southern Conference Meet behind Maryland and West Virginia. Al Motley and Jack McNicol each cupped SIC championships. Both of these lads made a good showing in the National Tournament.

Swimming

Tech showed an improvement in swimming this year. The Gobbler tankmen defeated Davidson and Washington and Lee. They were the victims of N. C. State, U. N. C., V. M. I., and U. Va. All of these teams were power packed.

Mac Jones and Captain Ben Miller led the Techmen this year. Jones was outstanding all year in the breaststroke and the medley. He took three firsts in the Big Six Meet in these events and was named the outstanding swimmer.

Miller led V. P. I. in the sprints. He took a first in the State Meet in the hundred. Other outstanding swimmers were Phil Emmons, John Little, Bob Sheetz, Bob Porter, Bob Murie, and John Lineweaver.
Rifle Team

Once again Tech’s rifle team had a good season and lost only a few matches. Such schools as Davidson, George Washington, Georgetown fell and they lost to Maryland, W. V. U., and Navy. The Navy defeated Tech by one point.

Major Katherman coached the team and was aided by Major Meyers. Top individual performers were Gilligan, Garthoff, Hoeck, Harnsberger, Strang, and Windler.

Lacrosse 1952

Lacrosse at V. P. I. is on the upgrade even though the Hokies went without a victory, being defeated four times. The sticksters showed much improvement, and the matches were close.
Tennis

The tennis team could muster only two wins during the past season, defeating Albright and Hampden-Sydney. They lost eight times. Outstanding courtmen include Dick Quigg, Tom Swan, Jerry Collier, and Phil Lingamfelter.

Golf

Coach Preston Newman's golfers had a fair season, winning three, losing four, and tying one. This was an improvement over last year's record. Wins came at the expense of Richmond, W. & L. and V. M. I. The Hokie linksters finished third in the State Meet. Harold James, Billy Deemer, and Tommy Fox were third in the State Meet, while Gene James took fourth.
Managers

Behind the scenes of any athletic team at Tech are the managers. These are the men who perform the various tasks that keep the teams going. Little credit is given to them for the long hours that they put in.

Luke Lindon, Trainer Motley, and Assistant Davis also deserve credit. Luke keeps the squads equipped, while the trainers take care of the aches and pains.
Features
The Cotillion Club has been in existence on the campus of Virginia Polytechnic Institute since 1913. Since its founding, the club has constantly endeavored to improve social conditions on the campus and the social relations between the student body and the faculty. Through the efforts of a congenial and representative group of men, the Cotillion Club has realized a significant achievement toward raising the standards of this phase of campus life.

It is the hope of the Cotillion Club to continue in its efforts to further advance the importance as well as the quality of the social relations and activities on the campus of Virginia Tech.

The Virginia Polytechnic Institute German Club was founded sixty-one years ago with the primary intent to promote dancing at VPI. During that time the German Club has helped to achieve national recognition for VPI dances. The nation's leading orchestras are brought to the Tech campus for the three formal dances which the German Club sponsors during the school year. Among other activities the club also sponsors the annual Freshman Dance, which initiates the new student into VPI social life.

Service and pleasure are two important reasons why the 50 members of this semi-social, semi-cultural organization meet every Monday and Thursday night for regular rehearsals. Under the inspiring direction of Mrs. Helen Rose Holland, the hard-working, music-loving members of this group gave time and effort to learn the fine art of singing, striving earnestly through every stage from sight-reading to the memorized, finished product to make their music beautiful. Not only do they find joy in song but also give pleasure to others and serve their college and community whenever needed. These are the goals which constantly challenge the combined abilities of the members ... a challenge which they gladly accept and at the close of the year pass on to the next generation of Glee Clubbers.

The Gobleteers Quartet was organized in the fall of 1950 from members of the V. P. L. Glee Club and is still affiliated with the glee club. Although appearing on most glee club programs, the quartet gives many performances on its own. The Gobleteers feature music of the barbershop, novelty, and popular variety; they like to be considered a typical college quartet.

Appearances at V. P. L., at other colleges, on local radio and television programs, and at various other meetings and conventions have increased the Gobleteers' popularity considerably. It is the hope of the present members that the Gobleteers Quartet will become a permanent organization at V. P. L.
The Maroon Mask, which has operated since 1936, produces laboratory plays and public productions. Its main purpose is to provide an outlet for talent in dramatics both on stage and back stage. Loyalty, friendship, and cooperation are essential for such creative work. With these aims in mind, the Mask proudly presents each production.

The Southern Colonels reorganized in February, 1951, and is known as the oldest dance orchestra on the V. P. I. campus, having first been organized in 1924. Since its beginning and its recent reorganization, the Colonels have played excellent dance music here at Tech and at other schools all over Virginia and neighboring states. The orchestra has been at all times progressive and has kept abreast of the changing trends in modern dance music. As a means of giving talented Techmen an opportunity to play with a professionally styled musical outfit and by providing their fellow students with a source of recreation, the Southern Colonels Orchestra has been a real asset to V. P. I.
The 1953 Ring Dance

Some worked sitting...

To most people

The band played...

Music by McKinly

And everybody danced

But it was well worth it.
THE SKIRT BARN GALS WORK ON THEIR FLOAT

WHILE BARRACKS DISPLAYS ARE PREPARED

ANYONE FOR MARSHMALLOWS?

THE DORMS DISPLAYED THEIR SPIRIT...

THE ONLY POINT G-W WILL GET"

THEN CAME THE PARADE...

WITH FLOATS GALORE...

THE PRIZE WINNER
AN ESSENTIAL IN OUR COLLEGE LIFE...

...AND MADE MISTAKES...

AND LETTING PLANES FLY US

IT WAS A YEAR FULL OF GOOD TIMES...

TO "MOONLIGHT BAY"

FROM THE GRIDIRON...

...AND OF COURSE THE CABIN PARTIES
OPPORTUNITY

awaits top technical men in the world's largest factory of its kind

It's not the kind of opportunity that assures the most mediocre man a rocket-like rise to the "top". But it is the kind of opportunity that recognizes merit and offers steady progress to any ambitious, willing-to-learn, intelligent VPI Graduate who wants a future in a great Southern industry fast coming into its own.

Engineering, Chemistry, Selling, Advertising, General Business Administration—in these and other fields at The Lane Company, there are sturdy and much-used "ladders to the top" awaiting the right men.

VPI colors fly today at a number of key posts in the Lane organization: President, Plant Manager, Production Control Manager, Assistant Plant Engineer, Territorial Sales Representative... these to mention a few. Thus, the VPI Graduate now launching his career in the Company finds an especially congenial "Alma Mater" atmosphere to make him feel at home right from the start.

Don't judge opportunity by its distance... sometimes the biggest opportunities are closest to home!

LANE'S MODERN FURNITURE PLANT
symbolizes the brilliant future for one of the South's youngest, fastest growing industries.
These modern departments keep the highly geared LANE organization functioning at peak efficiency:

MORE than ever before, quality has become an important factor in College Annuals.

Everything to express skill, technique, artistry, is revealed in our prints.

They are the only material proof of our ability, the only visible evidence of the value of our photographs and workmanship.

OFFICIAL PHOTOGRAPHER FOR 1953 "BUGLE"
Designers and engravers of the South's finest school publications

LYNCHBURG, VIRGINIA
Creating
YEAR BOOKS
of Distinction

It takes more than "good printing" to create outstanding Year Books.

The J. P. Bell Company specializes in Year Books. First, by maintaining a Department of trained and experienced personnel that devotes its entire time to the planning and servicing of Year Books. Secondly, by maintaining a plant equipped with the most modern machinery, manned by skilled, efficient workmen. There is a certain mark of Distinction on all J. P. Bell publications.
