THE BUGLE

nineteen hundred and sixty-two
This is V.P.I.

... and this is your Bugle.

It has been a big year for Virginia Tech. We have seen the fruition of man's dreams. For the seniors it is the end of one of life's chapters and the beginning of another. In a few months a new "crop" of Techmen will begin making a name for themselves.

The College's physical appearance has also changed a great deal this year. The opening of the Coliseum, the beginning of work on new dormitories, a new dining hall, and new academic buildings, all of which, when completed, will add to Virginia Tech's stature as an institution of higher learning.

This year saw the beginning of two new schools at Tech—School of Business, and School of Science and General Studies. These changes indicating the growth, both in physical size and academic stature, of the College's academic life.

The announcement of the retirement of Dr. Walter S. Newman, Tech's president, marked this year as the end of one of the most productive administrations that Tech has seen.

The appointment of Dr. T. Marshall Hahn as president-elect brought promise of continued growth of the College; however, all of the changes at Tech this year have not been so obvious. There seems to be a sense of urgency developing within each Techman. This urgency prompted many Techmen, both students and faculty, to ask some very searching questions about himself, his school, and his future. The answers they came up with were not all pleasant; but, for the most part these answers caused them to begin to do something about them. Perhaps we are "crystal-ball gazing," but we believe that the Techman of tomorrow will be much better off because of work done by those who have asked themselves questions, and have done something about the answers they got.

It is impossible to cover every phase of Tech's activity in a volume the size of the Bugle. We believe, however, that this book presents a fair picture of what Tech is today and gives an indication of what it will be tomorrow.

CONTENTS
DEDICATION

Virginia's former governor, J. Lindsay Almond Jr., has described Dr. Walter S. Newman as "one of the most able and profound educators who has ever served the cause of higher education in Virginia. Dr. Newman's great vision and his fine sense of dedication have made him a great servant to the Commonwealth."

Dr. Newman's fifteen years at VPI have been memorable ones. Great progress has been made during his presidency, the College's third longest administration. The physical campus has changed significantly since the time of his arrival. New academic buildings, dormitories, equipment, and a fabulous fieldhouse have been but a few of the projects accomplished under Dr. Newman's leadership. The future will also bring completion of a new dining hall, the engineering quadrangle, and the dormitories on the lower quadrangle—all projects supported by Dr. Newman.

Equally important have been the tremendous advances in the quality of instruction. VPI has taken a role as a leader in the field of education and now ranks nationally as a center of higher learning. New degrees are being conferred, particularly in the graduate fields, and new courses and methods continually being adopted to keep pace with technological development.

It is to Dr. Newman that these advances may be contributed. His untiring and unselfish desire to see VPI recognized at the highest level have produced such progress. His conscientious devotion to his established goals have resulted in these and many other achievements.

In accepting Dr. Newman's retirement request, the Board of Visitors voted to retain him on the VPI faculty in a consulting capacity—a great tribute to a great man.

We express our appreciation for his long service to the college and to the state. Dr. Newman will inevitably be remembered as one of the very great presidents of Virginia Polytechnic Institute. It is to him that we most humbly dedicate the 1962 Bugle.
A teacher who can arouse a feeling for one single good action, or for one single good poem, accomplishes more than he who fills our memory with rows on rows of natural objects, classified with name and form.

—Goethe
In this the 90th year of our college, it is appropriate that the theme of the 1962 Bugle should be, "What is VPI"—its past, present, and future. We are not old as some colleges and universities in the eastern part of the United States measure their age. We came into being in 1872 when the South was making valiant attempts to overcome the aftermath of the War Between the States. VPI was born, therefore, in the time of great economic distress and, likewise, during a period of rapid agricultural and industrial growth throughout the nation.

We were called upon, through instruction, to contribute directly to the economic welfare of our State and to do this without neglecting classical studies. Our governing board has not forgotten its responsibility of service to young men and women and to the adult population of the State. Its service has been enhanced through research in many areas and through its wide extension service reaching the farms and farm homes of Virginia.

At present, major emphasis is upon teaching and research in agriculture, engineering, science, business, and home economics. There is a growing realization that we are supplementing training in these areas by more emphasis upon languages and the social sciences so that we as educated people will not be deluded by the philosophy of the Hitlers and Krushchevs and, likewise, in not being taken in by false utterances among the citizens of our own or friendly nations.

The challenge of this and the approaching era is to contribute to the scientific break-throughs and, also, to recognize that all of us have an important part to play in aiding the emerging nations of the world in their effort to achieve freedom and to bring about peace throughout the world.

—DR. WALTER S. NEWMAN

Dr. Newman welcomes Governor Harrison to the Tech campus.
THE VICE-PRESIDENT

As an educator and physicist, Doctor Pardue has had an active career. Besides teaching at his alma maters, the University of Kentucky and Yale, he taught at Lehigh University. At the University of Chicago, and at Oak Ridge during the war, he worked as a research associate and senior physicist on the Manhattan Project.

In his list of honors are Omicron Delta Kappa, Phi Beta Kappa, Phi Kappa Phi, and Sigma Xi. Doctor Pardue is a member and Vice President of the Board of Directors of Oak Ridge Institute of Nuclear Studies and is also a member of the Regional Advisory Council on Nuclear Energy.

DR. LOUIS A. PARDUE
Vice President

BUSINESS MANAGER

After considerable discussion in 1945, persons immediately involved agreed that for the most effective operation the entire business of the college should be headed by one man. Appointed to this important position of Business Manager was Mr. Stuart K. Cassell; a member of Alpha Zeta and Phi Kappa Phi honorary fraternities, Mr. Cassell secured his B.S. degree with honors from VPI in 1932 and his M.S. degree in agriculture economics in 1933.
BOARD OF VISITORS

Under the control of the General Assembly, the Board of Visitors has various duties including appointing the President of the college and employing such agents as necessary, fixing salaries of professors and tuition fees, and receiving and holding in trust all donations to the college. Other general duties are the care, preservation, and improvement of college property, awarding of scholarships and prescribing values of loans to students.

STUDENTS FIND TRUE ESSENCE

"My work shure is piling up on me."

Although every curriculum requires much technical work, each one in addition, contains a number of general or cultural courses, the aim being to give the student a practical and theoretical knowledge of the fields related to the profession he expects to follow and at the same time to fit him for discharging intelligently the duties of citizenship.

In the School of Science and General Studies the curriculums are designed primarily for students who desire to prepare themselves for technical work in various scientific fields, particularly those which require for their best development close association with technical departments represented in agriculture and engineering.

Characterized by its rapid absorption of scientific and technical advances, the industry of agriculture is marked...
OF COLLEGE LIFE THROUGH PARTICIPATION IN CLASSROOM

Midnight in Patton Hall

A white rat is examined in the constant temperature incubation room of the new Biochemistry building.

Move that bridge a little to the left.

ACTIVITIES, AND BY MEANS OF STUDIES IN LABORATORY

A graduate student in the new Biochemistry Building works on an indicator standardization procedure.
Left: A student in the zoology lab discovers the microscopic world.

Right: Cooperation is the watch word in the wonderful world of the chemistry lab.

AND PRACTICAL WORK IN THE FIELD.

A group of cadets experiment in the physics lab.

by great increases in mechanization, efficiency and size of the farm business, and its related industries and business firms. The programs offered by the School of Agriculture provide education in line with these changes which have taken place and now are occurring.

In the School of Engineering and Architecture the resident instruction is organized to meet the needs of various types of students. It includes sixteen programs leading to the degree of science in particular engineering and architectural fields, specially arranged programs for graduate study, an engineering cooperative program with industry in certain curricula. Because of an industrial demand, the degree of master of science in nuclear science and engineering is offered.

A portion of the million dollar wind tunnel.
THE MANY PHASES OF EDUCATION

Steve Emick works on his project in Patton Hall.

In this program, experimental training is given in the nuclear laboratories of the Department of Physics which include a 10 KW Argonaut type critical reactor; a natural uranium, graphite-moderated, exponential assembly; a nuclear reactor simulator; and a two-million volt nuclear accelerator.

In response to a demand for scientific and technical college training in business, the curricula in the School of Business is arranged so as to give the student liberal opportunity to prepare for specialized positions in commerce and industry and for independent business activity.

Three coordinated Home Economics programs: research, extension, and resident instruction are maintained by the School of Home Economics. Not only are the courses of study planned for those whose main interest is to study for family living, but also, for those students who desire training in various special fields.

Work consists of whatever a body is obliged to do, and Play consists of whatever a body is not obliged to do.
—MARK TWAIN
The 1962 Ring Dance will live forever in the memories of more than 900 members of the class of 1962 who attended.

"Some Enchanted Evening" was the theme for this, the Silver Anniversary Ring Dance at VPI. Upon entering the War Memorial Hall one found himself in front of the manor house of a Southern plantation. In the position of honor to be viewed by all was an outdoor garden with a formal gazebo in the center. In the gazebo was a large brightly lighted fountain—a very unusual fountain, for it had a large replica of the 1962 ring in the fountain bowl. With beautiful girls under a romantic full moon in the star-lighted sky, the class danced to the dynamic music of Woody Herman.

The evening was highlighted by the Civilian and Cadet figures. The Civilians
Dance

formed block figure of 1962 and a three tier heart enclosed by a frame. The Cadets
with their sash and sabers formed their traditional figure, with their dates entering
under crossed sabers.

For the highlight of this fabulous weekend everyone congregated on the front lawn
of the manor house for a concert featuring one of America’s favorite vocal groups,
The Four Lads. The Four Lads entertained with some of their record releases: "Standing
on the Corner," "Who Needs You?," "No, Not Much," and "Moments to Remember."

The 1962 Ring Dance was brought to a close with everyone dancing to the music
of "Some Enchanted Evening," as the moon set on the horizon. This was a weekend
that will hold lasting memories for all.
Fall

The appearance of hundreds of beautiful girls on the VPI campus, once more marked the arrival of the VPI Fall Formals. Virginia Tech, known through the south for its fine formals, found the Fall Formals of 1961 no exception.

The Cotillon Club began their dances with music by Buddy Morrow and his orchestra, keeping in pace with their theme of "Night Train." Ted Sims and his orchestra provided the entertainment for Saturday night's dance. The Cotillon dances were held in the War Memorial Hall in which the theme of "Night
Formals

"Train" was presented by decorations in red, blue, black, and white.

The German Club presented their "Mood Indigo," which opened the 30th anniversary of the German Club at VPI. Duke Ellington and his great orchestra opened the German dances on Friday night, while Ned Guthrie and his band provided the Saturday night's entertainment. The Germans were held in Squires Hall, which was bustling with attractive decorations of dark-blue, light-blue and silver.
February 9th and 10th. Once again the V.P.I. campus found itself under invasion by a host of some of the world's best looking girls. The occasion? Winter Formals sponsored by the German and Cotillion Clubs of VPI.

The Cotillion Club presented its "Winter Fantasy" in the War Memorial Hall, which was transposed into a winter wonderland. The Bandstand was an unique replica of a castle, from which the orchestra of Glenn Miller, under the direction of Ray McKinley, provided the music for the Friday night dance; and from which Ned Guthrie's Band
Formals

played for Saturday night’s dance.

The German Club presented its “Rendezvous with Paradise” featuring the versatile Richard Matlby orchestra on Friday night, and the Lester Lanin Orchestra with Chubby Slivers on Saturday night. The German Formals were held in Spires Hall, where amid the beautiful colors of black, gold, and white, the Techmen were sure to discover paradise in a special way.

Every great weekend must come to an end, but this was a weekend that will long be remembered by all.
The 1961 Homecoming, honoring the classes of 1911, 1931, and 1936 was by far the best ever held at VPI. This Homecoming commemorated the centennial of land-grant colleges, and the 90th anniversary of VPI's founding.

The weekend included a concert featuring "Fats Domino," a full dress Corps Review, the Homecoming float parade with Dr. Newman as marshall, the football game between Florida State and VPI, and other activities sponsored by different departments of the college. The highlight of the weekend was the crowning of Virginia Tech's 1961 Home-
Coming

coming Queen, Miss Sue Sheppard. The ceremony took place during half time of the Homecoming game. Included in the Queen’s Court of Princesses were Miss Phyllis Marie Auvis, the Maid of Honor; Miss Freddie Need; Miss Carolyn Wright; and Miss Rose Marie Erdelyi.

The Virginia Tech football team, getting into the spirit of the weekend, beat Florida State 10 to 7. At the end of this wonderful Homecoming, the Alumni were honored at two informal dances, sponsored by the Monogram Club, in Squires Hall and in the Memorial Hall on Saturday night.

The VPI German Club, since 1892, has had as its aim fine dances and social functions. Its members have continually strived to present for the students of VPI a social life which is in keeping with the highest ideals.

It is the earnest hope of the German Club to furnish the basis for a rewarding social life at VPI by sponsoring three dance weekends a year. Our tradition of providing a setting for the introduction of students to the benefits of on-campus social activities has made every member feel that the German Club is serving a worthwhile purpose.

Today as in the past the German Club is ever mindful of its tradition. It has been our desire to always provide a warm congenial atmosphere for our formal dances. This year, as in the past, it has been our pleasure to extend a cordial invitation to all VPI students and special friends.

The Cotillion Club has been in existence on the campus of VPI since 1913. Since its founding, the club has constantly endeavored to improve social conditions on the campus and the social relations between the student body and the faculty. Through the efforts of a congenial and representative group of men, the Cotillion Club has realized a significant achievement toward raising the standards of this phase of campus life.

It is the hope of the Cotillion Club to continue in its efforts to further advance the importance as well as the quality of the social relations and activities on the campus of Virginia Tech.
The Southern Colonels having completed another successful season following in the fine heritage of Tech's oldest and most popular dance band, The Colonels have become known throughout the state for their smooth, danceable sound and a constant effort has been made to include the latest advancements in the field of music. In keeping with their constant effort for improvement the Colonels have enlarged to become the largest band on campus. The Colonels will continue in their efforts to provide the best in dance music on the V.P.I. campus.
**THE COLLEGIATES**

The Collegiates were organized in 1953 and soon became known as "VPI's own dance band." The band remains in this honored position year after year by upholding its excellent reputation for providing fine music for listening and dancing.

This year the band is made up of exceptionally talented Tech students with previous dance band and concert experience. In the trumpet section we have Walt Brown from Balboa, Canal Zone, playing lead, with Jim Ritter from Marion, Gene Fife from Hinton, W. Va., and Bruce Burgess from Newport News in round out the section. Jim Davis of Waynesboro plays top trombone, sharing the spotlight with Curt Tompkins of Roanoke and Doug Montgomery of Radford. This year's director and lead alto sax man is Alan Beamor from Alexandria. Dave Hearn of Roanoke on first tenor sax, with John Tellier of Alexandria, Welford Coutts of Richmond, and Jerry Moore of Appalachia complete the rich, full tones associated with the big band styles. With Blaine Gibbs from Richmond on piano, Hal Schad from Amityville, N. Y., on bass, and Bill George from Richmond on drums, providing the rhythm and drive for swinging up-tempo numbers and the solitude and depth for lush ballads. A little touch representing all of the big name bands is blended to produce the COLLEGIATES own delightful style and sound. Our theme, "Moonlight and VPI," as well as many other familiar numbers will make your evening of enjoyable music one that for many years will be treasured in the memories of all who attend.

Married students attending college, while taking part in most all of the activities offered, are still in need of programs furnishing recreation on the family level.

The Association of Married Students was organized in 1955 with the goal of providing for the social welfare of the VPI married student and his wife. This goal has been very successfully attained through quarterly dances, banquets, and a myriad of classes (bridge, hostessing, golf, etc.) designed to quickly absorb the wives, into the college community.

The AMS, since its inception, has grown to be the largest organization on campus with a membership in excess of 400 persons. The highest tribute that could be paid to the VPI AMS has come in the form of numerous requests from other colleges interested in establishing similar organizations.

MAROON MASK

Under the new directorship of R. F. Mandis, the Maroon Mask presented for the first time on Tech's campus a "production-in-the-round." *Man in the Dog Suit* was presented in the SAB Ballroom. The production played to capacity crowds both nights on which it was presented.

On February 28 and 29 the Maroon Mask moved back into its "home theatre" for the presentation of three one act plays. It is certainly to the credit of its members that the Maroon Mask has done much towards achieving its goal of presenting fine drama to the Techmen.

FIRST ROW: R. Mandis, Director; B. D. Page; T. A. Socha, Treasurer; D. R. Faulkner, President; C. Furtosch, Secretary; C. P. Schnek. SECOND ROW: G. Jynkin, R. Loughlin; E. W. Johnson; B. L. Gibbs.
VIRGINIA TECH
GLEE CLUB

The Virginia Tech Glee Club is an organization comprised of students from many different parts of the country. Although each of these young men are pursuing his interest in his own particular curriculum, they all have at least one common interest. The all love to hear the sound of good music.

Under the inspiring direction of Mrs. Helen Rose Holland, the club strives to spread good will and musical pleasure as far across this country as song can resound. A great deal of practice and hard work is necessary to prepare for a concert, but the results are always rewarding. Proudly representing its school, the club travels far and near to render its best to audiences of all types. The club has built what it feels to be a well-rounded repertoire of music, whether it be a moving anthem or the sweet sound of "Gigi." The biggest hope of the Virginia Tech Glee Club is that the audience will enjoy listening to the concert just as much as the club always enjoys giving it.

ENGINEERING CONFERENCE

Through the years, since the first Engineering Conference in 1950, it has become one of the outstanding events on the college calendar, providing an excellent way for the Tech engineer to keep up with the latest changes in his field and industry.

Feature speakers for the 12th Annual Engineering Conference held at VPI on the 27, 28, and 29 of April, 1961 were W. E. Blemett, Jr. and G. E. Mullin. After opening the conference with registration, industrial and student exhibits were open to all in War Memorial Hall. There were also 15 curricula club symposia, conducted by the student chapters of the national engineering societies. To highlight the event Miss Jeanie Lazenby was crowned queen at the Engineer’s Ball in the Squires Hall Ballroom.
AGRICULTURAL EXPOSITION

The V.P.I. Agriculture Exposition was organized to combine the efforts of all agriculture curricular clubs into the staging of an annual Spring Exposition. It provides an opportune time for students to invite parents and friends to V.P.I., also to publicize Tech and agriculture throughout Virginia. One of the highlights of this year's exposition was the crowning of Miss Jeanett Iroker (center picture) as the Exposition Queen. The Exposition serves its main purposes in creating a closer tie between students and faculty of individual departments and between students of different departments, and to establish a better relationship between industry and V.P.I.

The V.P.I. Agriculture Exposition was first organized and sponsored by the Virginia Chapter of Alpha Zeta Fraternity in 1954. Since 1959 it has been a separate organization governed by its own constitution and by-laws.
Cultural entertainment has been outstanding at Tech this year. Through the efforts of Social and Cultural Programs Committee and the Blacksburg Community Concert Association, Burruss Auditorium has been the scene of an enlightening series of convocations and concerts.

On October 18th, Tech celebrated the centennial of the land-grant colleges and universities and the beginning of its own 90th academic year. Benjamin M. McKelway, editor of "The Washington Star" and president of the Associated Press, and Governor Albertis S. Harrison, Jr. were the main speakers at the convocation.

Both men spoke on the advantages of land-grant college system, and Governor Harrison spoke specifically on "The Role of VPI as Virginia’s Land-Grant College."

The Blacksburg Community Concert Association began its series on November 6 with a concert by Lorin Hollander, a 16-year-old piano prodigy.

Hollander made his Carnegie Hall debut at the age of 11 and since then has appeared with nearly every major symphony orchestra in the country.

Later in November, a concert was given by Michael Rabin, a young violin virtuoso whose fame had preceded him from the major symphony orchestras of the Western hemisphere, Europe and Australia.

Some of Rabin’s side trips have included recording the sound track for the MGM film "Rhapsody" and numerous television appearances.

Our November convocation was inspired by Dr. Hudson Strode’s lecture "Discovering the Real Jefferson Davis."

Dr. Strode has published two volumes of a three volume biography of Jefferson Davis and expects to publish the third volume in late 1963. Aside from his literary skills, Dr. Strode has been an English professor at the University of Alabama since 1916 and is well known as a lecturer, both in this country and abroad.

Mary McMurray, an American mezzo-soprano, was the feature of the Blacksburg Community Association’s third concert.

Miss McMurray’s repertoire includes not only an extensive and varied recital fare, but also an impressive listing of the important mezzo roles in opera and oratorio.

In February, a concert was given by the Chicago Opera Ballet, one of the finest companies of its kind in the world. Featured were the Bulgarian ballerina Sonia Arova and her American partner Kenneth Johnson.

The company, which boasts lavish settings and a complete five-opera repertoire, includes fifty dancers under the choreography of Ruth Page and a complete orchestra under the direction of Neal Kayan.

Tech students are grateful for these outstanding cultural programs which add so much to campus life.
Genius begins great works; labor alone finishes them.
—Joubert
Publications

Publications play a vital role on any college campus. These publications and their staffs are charged with keeping the Techmen well informed and at the same time giving entertainment. No story of Virginia Tech would be complete without including the story of publications.
PUBLICATIONS BOARD

OFFICERS

ROGER A. SHAW, JR. ................................................................. Chairman
ALLAN A. COMPTON ................................................................. Vice-Chairman
D. BRUCE CAHILLY ................................................................. Secretary
R. T. LAIRD JR. ......................................................................... Treasurer

The Publications Board is composed of the editors and business managers of all student publications, three faculty members, a representative from the Civilian and Corps Student Bodies, a presidential appointee, and a financial adviser.

This board is charged with the co-ordination and direction of the five student publications at Virginia Tech. These publications are: The Virginia Tech, Bugle, The Tech-ique, The Virginia Tech Engineer, and radio station WUVT.

The Board has attempted by various means to prepare the individual publications under its control to meet the greater demands of a ever growing Virginia Tech Student Body.

SEATED: Thea Secha, Roger A. Shaw, Allan A. Compton, Ralph T. Laird. STANDING, FIRST ROW: Jenkins M. Robertson, Dean G. Burke Johnston, R. H. McNeil, Jerry Benson. SECOND ROW:

The Editor is the “boss.” His many duties range from solving publication problems to arranging for the photography, printing and binding of the volume. This huge job culminates in taking the final responsibility for the months of work put in by the office, business and editorial staffs.

An awful lot of hard work has gone into the 1962 Bugle to make it the best one yet. There have been some changes made but the purpose remains the same—to give you the complete story, in pictures and words, of a great year at Tech. The Editor and the managers and their staffs have done everything in their power to give you the yearbook you deserve—the best.

Now the late hours have passed, the hills have been paid, the deadlines have been met and the ’62 Bugle is in your hands. We hope that you like and are proud to own it, because we enjoyed working on it and are proud to have published it.
"Business Manager" is a job filled with many harrowing financial experiences. While operating inside the budget, the Business Manager must make financial arrangements for photography and printing and is responsible for publicity and sales. One of his lesser duties is keeping the hard-working office staff supplied with cokes.

The office staff is headed by the Office Manager. He sees to it that all the typing is done, all of the lists are correctly compiled and all office business is properly taken care of.

The job of procuring advertisers, who are essential to every yearbook, is done by the Advertising Manager. It is also his responsibility to design the advertising section of the book. The typing, listing, filing, proof reading, and record keeping is accomplished by the members of the office staff. This is the group that comes in the afternoons and evenings to do the mountains of work that it would be impossible for the managers to do.
Jerry Benson, editor-in-chief, of The Virginia Tech, is responsible for the over-all operation and production of the eight page weekly newspaper. He must co-ordinate the work of his assistant editors and see that their work is carried out effectively and is done on time.

The making of a good newspaper story requires the work and ideas of many people. The group to the right is working with Ernie Evans, the Tech’s sports editor, on the sports page.
Allen Compton, *The Virginia Tech's* Business Manager is responsible for all of the financial affairs of the *Tech*. It is also his responsibility to see that all of the advertising is sold and that it is inserted correctly in the *Tech*.

**INIA TECH**

**CIRCULATION:** J. Layne, R. Dennismore, F. Burchatte, B. Griffin, C. Campbell, C. Crigler.

**COPY:** D. Finkleman, D. Hagen, D. Price, B. Lee.
George Gautney, General Manager, is responsible for the overall operation of the student radio station. WUVT broadcasts 14 hours of live programming to the Virginia Tech campus each day. It provides entertainment, news, and sports information on a "round the clock" basis.

Judy Ranson and Steve Kent during their hour-long evening broadcast.
Ray Conner, Business Manager is responsible for handling all of the financial affairs of the radio station and for selling its advertising. Ray has a staff of salesman and copy writers which help him in his work.

The Virginia Tech Engineer is a student magazine published five times during the academic year. It contains material concerning all of the engineering curriculums.

Business Staff

Editorial Staff

RICHARD CULPEPPER
Business Manager

The Virginia Tech Engineer is devoted to helping the engineering student to see in a more graphic way the applications of his profession in day-to-day activity. It also serves to inform outside industries of the working being done in the engineering fields, and to bring to the students articles of interest in their fields of study.
TECH-NIQUE

The Tech-ique is a student Agricultural magazine published four times a year. Its contents are directed toward the students in the school of agriculture and are designed to create a greater interest in their curriculum.

D. BRUCE CAHILLY
Editor

Editorial Staff

GEORGE McCAIN
Business Manager

Business Staff

The Tech-ique has a circulation of well over 900. The magazine is sent to many high schools throughout the state of Virginia, in addition to its large campus circulation. Through articles written by faculty and students the Tech-ique keeps the student informed as to what is being done in the School of Agriculture.
PHOTOGRAPHIC STAFF

The Photographic Staff is responsible for providing photographs for the student publications. They have their own darkroom in which they process all of the photographs which they take. Despite its small size the staff can, on request, turn out a relatively large amount of quality work in a reasonably short time.

Dick Park, Frank Smith, Mike Lowry, and Jimmy Powell take a look at some of their work as it will appear in the Bugle.

Dick Park, Raleigh Powell, and Mike Lowry make use of their spare time.
Pi Delta Epsilon, the oldest national honorary collegiate journalism fraternity was founded at Syracuse University in 1909. The Virginia Polytechnic Institute chapter was established in 1930, the second oldest fraternity on the campus. The local chapter was instrumental in establishing the ODK leadership fraternity on the campus in 1933 and has many worthwhile projects to its credit. To the workers on student publications who sacrifice the lighter pleasures of college life to labor upon a worthy campus publication for the sake of the student body, the student body owes much, and it is as a reward to those student workers that Pi Delta Epsilon operates.
Honoraries

The Techman's prime aim and purpose is to get an education. Those organizations included in this section recognize outstanding accomplishments in academics and service to Virginia Tech. The contributions of these organizations are a part of Tech's story.

Alpha Phi Omega is a national service fraternity founded in 1925 at Lafayette College, Easton, Pennsylvania, by Frank R. Horton. It is an organization recognized by the officials, of the over 300 colleges on whose campuses chapters have been established, as an outstanding organization of young men dedicated to aiding the college, the community and the nation through unselfish service.

There are two fundamental requirements for active membership: First—the students must have had previous experience in the Boy Scouts of America; second—the students must prove an earnest desire to render service to others.

Alpha Zeta, the national agricultural honorary fraternity, was founded at Ohio State University on November 4, 1897. Its purpose is to recognize outstanding work done in the agricultural curricula. The chapter was founded on May 28, 1932, and has been one of the most active organizations in the agricultural school since that time. The fraternity presents a scholarship to an outstanding junior in the school and presents an award to the freshman with the highest QCA at the end of Spring Quarter. The fraternity also sponsors several dances during the year.

Penn State University organized the first ROTC Company of the Association of the United States Army in 1956. The VPI Company of AUSA was formed in 1958. The VPI Company is composed of Cadet Army ROTC Seniors who have shown a sincere and lasting interest in the military work of the college, and who furthermore possess qualities which will make them good and efficient officers in the United States Army.

The purposes of AUSA are the following: to find incentives for increasing military skills, to attend meetings which will add to general Army background, to acquire information about the place of the Army in the defense of the nation that can be passed on to other students and to citizens generally, and to associate under favorable circumstances with fellow cadets and military personnel who consider patriotism an important attribute to character.

The Arnold Air Society is a national honorary military society for cadets enrolled in advanced Air Force ROTC who have distinguished themselves by their academic, military, and leadership achievements. The Society, along with the Air Force Association with which it is strongly affiliated, is dedicated to the advancement of air power, and has as its purpose to further the ideals of the United States Air Force.

The Arnold Air Society is named in honor of the late General H. H. "Hap" Arnold, Commander of Allied Air Forces in World War II and late five-star general in the U. S. Army Air Corps. This organization was started by a group of AFROTC cadets during summer camp at Langley AFB in 1947. A squadron was formed on the VPI campus in January, 1949, and has the distinction of being the second such squadron in the nation; thus the designation Squadron A-2.

Scabbard and Blade, a national honorary military society, was organized at VPI in May of 1938. Company "I", 7th Regiment, as the company is now designated, seeks to promote ideals that might contribute to the development of those qualities necessary in an officer and a gentleman; to prepare the members to take a more active part and to have a greater influence in the military affairs of the communities in which they may reside; and to spread intelligent information concerning the military affairs of our country. Its membership is restricted to those senior officers in the Corps of Cadets having an advanced ROTC contract and have demonstrated proficiency in academics and leadership.

Pi Tau Sigma is the National Honorary Mechanical Engineering Fraternity. It was founded to establish a closer bond of fellowship, which will result in mutual benefit, to those men in the study and profession of Mechanical Engineering. These men, by their academics or practical achievements, manifest a real interest and marked ability in their chosen work.

The aim of the organization is to foster the high ideals of the engineering profession, to stimulate interest in co-ordinated departmental activities, to promote the mutual professional welfare of its members, and to develop in students of mechanical engineering the attributes necessary for effective leadership and the assumption of the responsibilities of a citizen in a democracy.

Omicron Delta Kappa, National Leadership Honor Society for college men, was founded December 3, 1914, and the Alpha Omicron Circle at VPI received its charter on June 2, 1923.

The Society encourages and recognizes achievement and leadership in scholarship, athletics, student government, social and religious affairs, publications, and speech, music and the other arts. Qualifications for membership are exemplary character, leadership and service in campus life, scholarship, and consecration to democratic ideals. Through its recognition of these qualities, ODK brings together members of the student body and the faculty in a cooperative effort of service and leadership in campus activities and for the general welfare of the college.

On December 12, 1919, the Block and Bridle Club was founded and the Virginia Tech Chapter received its charter on December 1935. The objectives of this honorary organization are to promote a higher scholastic standing among students of Animal Husbandry in colleges and universities, and to bring about a closer relationship among the men pursuing some phase of animal husbandry as a profession.

The Block and Bridle Club is composed of students in agriculture who are interested in some phase of animal husbandry. As one of the most active organizations on campus, the club supports the VPI livestock and meats judging teams, two dances, a student livestock and meat judging contest, and several barbecues annually. Scholarships to deserving members and to outstanding freshmen are awarded. The Little International, a student livestock show, is the highlight of the club's year.

Eta Kappa Nu is the national Electrical Engineering honor society. It was founded in 1904 at the University of Illinois to honor those who have shown a deep interest and exceptional ability in electrical engineering, and to bring them into closer union that they may foster a spirit of liberal culture in the engineering colleges.

Beta Lambda Chapter was chartered in 1940 and seeks as members those who possess the qualifications of outstanding scholarship, leadership and exemplary character.

Alpha Sigma Mu was founded in 1932 at the Michigan College of Mining and Technology to honor metallurgy students of high scholastic standing. Following this first chapter, a second was started at the University of Illinois and a third was started here at Virginia Tech. Since then the fraternity has grown and is now being supported by the American Society for Metals.

The purposes of this Honorary Fraternity are: The furtherance of the arts and sciences of metals; the promotion and recognition of scholarship, professional attainment, and high social and moral culture of its members; the maintenance of the highest and best objectives of the profession to which they (the students) aspire; and the furtherance of the free relations among schools and colleges of metallurgy.
SASH AND SABER SOCIETY

The Sash and Saber Honorary Military Society was formed at VPI. There were six charter members: C. R. Dix, R. G. Durkovic, R. G. Hermann, K. H. Johnson, C. R. Schindler, L. Zapar. The faculty advisor is Captain Van Deusen.

The society was developed with the purpose to provide organization among those cadets who have shown leadership and interest in the Corps of Cadets. The society limits its membership to “military only” cadets of the junior and senior classes, who are exempt from the ROTC program at Tech.

The Duck Pond in Mid-winter.

**ALPHA PI MU**

Alpha Pi Mu is the national honorary Industrial Engineering Society. It confers recognition upon the student in industrial engineering who have shown exceptional academic interests and abilities. Membership is composed of the top one-third of the senior class and the top one-fifth of the junior class in industrial engineering.

R. C. CARTER ........................................ Chairman Membership Committee

The Honor Society of Phi Kappa Phi was founded in 1897. There are 80 chapters in the United States. Its purpose is to emphasize scholarship and character in the thought of college students, and to foster the significant purposes for which institutions of higher learning have been founded. Phi Kappa Phi has tended to stimulate mental achievement by recognition through election to membership. This membership is limited to those students who are among the upper one-eighth of their class. Only one-tenth of any class, however, may be elected. The Virginia Tech Chapter was installed in 1921 with fourteen charter members. Since that time there have been 2,125 members elected.
WHO'S WHO
IN AMERICAN COLLEGES AND UNIVERSITIES

One of the highest honors a senior can be awarded is to be named to Who's Who. The number of students selected for this honor is determined by the enrollment of the college. These people are selected by a committee composed of members of both student bodies and certain members of the faculty. The list submitted by the committee is then presented to the college administration and the two student body Senates for final approval and certification.

There are certain minimum qualifications that each student must meet—he must have at least a C average overall and must be an academic senior. After that, the qualities looked for are interest in the school, participation in activities, personality and leadership. The people on this page represent the best of the Senior class at Virginia Tech.

Someone has said that “a man without convictions is tramp on the road that leads to the land of nowhere.” The organizations in this section are dedicated to giving the Virginia Tech student a facility through which he can maintain and strengthen his convictions while at Tech.
WESLEY FOUNDATION

As the educational arm of the Methodist Church on the VPI Campus, the Wesley Foundation seeks to make Christianity real and vital to the college students. The organization serves through the local Methodist Church. It strives through various committees and programs to provide training for college students in mature churchmanship. It offers students the opportunity to know the Church as the Body of Christ. The programs, which include worship, service, and recreation, are student-centered.

All Methodist students at Va. Tech are invited to become members of the Wesley Foundation. Membership is not restricted to this group since students of other faiths, and lands find spiritual fulfillment within the group and enjoy the benefits of the "always open door" at the Wesley Foundation.

BAPTIST STUDENT UNION

Baptist Student Union's main objective is to win students to faith in Christ as Savior and to deepen their Christian understanding and commitment through church membership, worship and devotional experiences, including study programs and mission emphasis.

Membership is composed of active Baptist students.

DISCIPLE STUDENT FELLOWSHIP

The Disciple Student Fellowship promotes Christian fellowship and serious discussion of topics important to college men and women.

Membership is open to anyone of college age who attends the Blacksburg Christian Church.

FIRST ROW: W. V. Mossett, A. C. Huffman Jr., Vice-President and Treasurer; R. R. Poehler, President; R. L. Henderson, Secretary.

THE NEWMAN CLUB

The Newman Club is composed of Catholic students enrolled at VPI. Its purpose is to instruct and help maintain contact between students and their church.

THE V. P. I. HILLEL CLUB

The purpose of the Hillel Club is to promote and carry out the religious, cultural, and social programs of the Hillel Organization, and through its efforts foster friendships, cooperation, and tolerance among the religious groups and students on campus.

Membership is composed of the Jewish students on campus.

Y. M. C. A.

An office in the SAB, a reading room, a chapel . . . conferences, retreats, meetings . . . speakers, seminars, discussions, bull sessions . . . projects . . . cabinet, councils, committees . . . special interest groups . . . films, plays . . . this is the YMCA of VPI.

Guided by the belief that religious convictions are important only if they find expression in the totality of life, the YMCA exists to provide opportunity—for finding a meaningful faith, for analyzing convictions, for discovering a sense of purpose, through a program of activities that deals with questions of personal faith and goals as well as the larger questions facing our society and civilization, the questions to which our personal faith should apply.
The sphere of "religion" is conceived of so broadly that standards of international justice no less than standards of personal conduct, the setting of national goals no less than the determination of personal ambitions, the goal of a world community no less than our campus life, are within its domain. Y activities furnish the life of the academic community an important counterpoint.

The YWCA gave several luncheons at which outstanding leaders spoke and lead enlightening discussions afterwards.

Jeanette Iroer, YWCA president, and Nancy DeJournett discuss a coming Y-Conference.
The ties of home are binding. These organizations seek to encourage and coordinate sectional spirit at Tech. Through social events and service-to-school projects these Techmen bring about a better VPI. They too are a part of the Virginia Tech story.
A non-profit organization, the VPI Apple Club consists of students from Shenandoah, Warren, Frederick, Clarke, Faquier, Page, Loudoun counties in Virginia; Washington County in Maryland, and Jefferson County in West Virginia. Business meetings, smokes, and banquets are held to promote good will and fellowship among members.

Since the principal aim of all VPI students is to secure an education, the club awards the "Apple Club Scholarship" to an entering freshman from the area.

Membership requirements consist of coming from the club area and completing the initiation program.
RICHMOND CLUB

The VPI Richmond Club promotes social activities for the Techman from the Richmond area. The activities consist of dances held during school holidays and after Tech's sports events in the Richmond area. The highest ideals of partying are always upheld at the Richmond Club parties.

One of the most looked forward to events of the Richmond Club is the annual banquet. Members of the club always enjoy the banquet because it comes at the end of the year.

ROANOKE CLUB

OFFICERS

LAWRENCE D. JOHNSON JR. ........................................ President
WILLIAM E. DRESSLER ............................................. Vice-President
GEORGE A. LORCH ...................................................... Secretary
SAMUEL W. DRESSLER ............................................... Treasurer

The purpose of the Roanoke Club is to promote good will and fellowship between all students of V. P. I. living in Roanoke, Va., and to give aid in adjusting to college life. Business is strictly of a social and non-profit nature.

This year the Roanoke Club sponsored Tech's Homecoming Queen, Miss Sue Shepard. The Club also awarded a scholarship to a Freshman from the Roanoke area. The scholarship is based on academic performance, character, and financial need.

Membership is composed of students of V. P. I. who are residents of Roanoke, Va., or who are listed in the Roanoke telephone directory.

FIRST ROW: J. E. Smith, H. W. Stockton, P. A. Miller, S. W. Dressler, Treasurer; G. A. Lorch, Secretary; L. D. Johnson Jr., President; W. E. Wertz, J. R. Eanes, R. C. Perez, SECOND ROW; D. J. Peny, C. E. Swartz, J. T. Reed, S. C. Lomberger, J. A. Conner,

EASTERN SHORE ANCHOR CLUB

The Eastern Shore Anchor Club is open to all boys from the Eastern Shore of Virginia and Maryland. The purpose is to bring Eastern Shore boys together and promote better relationships. The club raises $150 per year toward a scholarship awarded annually to a worthy Eastern Shore student.

SOUTHWEST VIRGINIA CLUB

The purpose of the Southwest Virginia club is to provide students from Southwest Virginia the opportunity to get acquainted. We try, through meetings and social events, to weave the students of our area into a strong group to benefit all.

The club has a Thanksgiving and Christmas party each year. It sponsors an informal dance after Winter Formals each year. Between quarters we have dances at Abingdon and at the end of spring quarter we have a party at Hungry Mother Park.
NORTHWEST NECK CLUB

The Northern Neck Club of V. P. I. is an organization of college students from the Northern Neck and Tidewater Areas. Its purpose is to create a better school spirit among Tech students through social functions and service to members from that area.

CAPITAL CLUB

The object of this club shall be to promote goodwill and fellowship among all members of the Capital Club, to aid new students in becoming acclimated to college, and to promote a deeper understanding between the Corps of Cadets and the Civilian Student Body.

The membership shall be restricted to students living in and around Northern Virginia and D. C. and alumni of the area.

DANVILLE CLUB

The Danville Club is organized for the purpose of bringing together those Techmen from the Danville area for social activity. The Club sponsors several dances, both at Tech and in the Danville area, during the year.

FIRST ROW: W. P. Hodges, W. C. Moore, R. C. Sinclair, 2nd Vice-President; R. P. Tilghman, President; J. T. Hartman, 1st Vice-President; Gares. SECOND ROW: J. A. Branscome, E. C. Stanley,

HAMPTON ROADS CLUB

The purpose of the Hampton Roads Club is to promote social activities for the students from the Hampton-Newport News area and to help freshmen from the area get acquainted with Tech. Membership is composed of VPI students from the Hampton-Newport News area.

LYNCHBURG CLUB

The Lynchburg Club of VPI is an organization that consists of VPI students from Lynchburg and surrounding areas. The club's purpose is to provide social activities for its members and to bring people of the area together to know each other.

We have three dances a year; one at Thanksgiving, Christmas, and spring vacation. There are various informal gatherings during the school year.

FIRST ROW: W. A. Jones, Treasurer; B. H. Thompson, Secretary; E. H. Simmons, President; R. L. Parker, Vice President. SECOND ROW: W. H. Pearcy, C. A. Sabo Jr., W. A. Joyner, H. B. Cox, W. N. Holb, S. E. Pope.

EMPORIA CLUB

The Emporia Club is composed of the students from Emporia and the surrounding area. The purpose is to provide a social organization for the Tech Student of this area.
CIRCLE K CLUB

The purposes of the Circle K Club are to perform services, both for the college, the community, and to work with the Kiwanis Club of Blacksburg. Membership is composed of full time upperclassmen at VPI.

4-H ALUMNI CLUB

The 4-H Alumni Club, an organization of former 4-H club members, has as its purpose the furtherance of the 4-H program on and around the VPI campus.
CAVE CLUB

The Cave Club at VPI is devoted to unifying and collaborating the efforts of those individuals interested in furthering the exploration and study of caves and cave life. Through the organization a greater degree of safety, exploration, knowledge, and good fellowship is possible. The club also encourages the preservation of our subterranean beauties.

FOREST Y CLUB

Composed of students in the forestry and wildlife curriculum, the Forestry Club gives its members a look into different phases of forestry and wildlife. This is accomplished through speakers, films, and field trips.
SOUTHSIDE CLUB OF V. P. I.

The purpose of the Southside Club is to function as a social club.

Membership is composed of students living in Southside, Virginia.

The club sponsors three dances in Southside, Virginia, which are open to the public, and a banquet and picnic for club members only.

THIRD ROW: R. E. Atkinson; T. H. Rash; E. C. Hardy; R. D. Clingenpeel; J. W. Fourquarean.

LUTHERAN STUDENT ASSOCIATION

One of the basic purposes of the Lutheran Student Association is to afford a means whereby its members may deepen and express their Christian faith; and to carry this faith as confessed by the Lutheran Church into the ecumenical ventures of the student world. To this end we plan regular dinner-program meetings—which provide many hours of fellowship and an opportunity to make new friends and acquaintances of the same faith.

Curricular Clubs

These organizations attempt to create interest and enthusiasm in their particular fields of study. Through guest speakers, motion pictures, and research projects, their groups promote participation and work in their curricular outside of the class room.
ASSOCIATION
FOR THE ADVANCEMENT
OF ENGINEERING

OFFICERS

R. S. GRAHAM .......................................................... President
B. L. BOLT ................................................................. Vice-President
C. F. CLEMENS, JR. ..................................................... Secretary

The AAE is responsible for the engineering conference conducted annually. The exposition is broad in scope and execution, extending from a high school science fair to nationally known convocation speakers, engineering symposia, industrial exhibits, and fellowships. An opportunity is afforded for businessmen and practicing engineers to exchange ideas and to examine at close range the engineering training that is afforded by Virginia’s Land Grant College.

Composed entirely of students from the School of Engineering and Architecture, the VPI Association was established as a pioneering venture of its kind in 1949. The purpose of the Association is to promote the advancement of the School of Engineering and Architecture and its student body, to improve the exchange of information to and from industry and VPI, and to represent this student body in its relationships with the administration of the college.

One of three in the nation, the VPI chapter of the AGC is one of the more active clubs on campus. The club, chartered in 1924, is open to Building and Construction students.

Guest speakers brought to the campus give students a better understanding of Building Construction. A few of the activities of the club are two symposiums each year, the Engineering Conference, striving to improve academic standards, and monthly meetings.

AMERICAN SOCIETY OF CIVIL ENGINEERS

The main purpose of the Student Chapter of the A.S.C.E. is to prepare the student for entrance into his professional society once he has graduated. The student becomes familiarized as to what is expected of him as a civil engineer.

The A.S.C.E. sponsors many socials throughout the year where the students and faculty members may become acquainted on an informal basis.

The only membership requirement is that the student be enrolled in Civil Engineering.

The purpose of the IAS is to facilitate by all available means the interchange of technical ideas among aerospace engineers throughout the world and the advancement and dissemination of knowledge of the theory and practice of the aerospace sciences.

Engineers, designers, and technical specialists in all the sciences related to the design and the development of aerospace craft are eligible for membership in the Institute of the Aerospace Sciences.

The object of the Home Economics Club is the development and promotion of our students, and the development and promotion of home economics at VPI. The only requirement for membership is that the student be enrolled in the school of Home Economics.

Programs cover the four majors in the school of Home Economics. These include foods and nutrition; clothing, textiles and related arts; management, housing and family development; and generous home economics.

DAIRY SCIENCE CLUB

In 1921 the Dairy Club was organized, and in 1933 joined the American Dairy Science Association to become the Virginia Tech Chapter of the American Dairy Science Association.

The club sponsors a dairy cattle judging team and dairy products judging team. The "Milky Way" is published annually by the Dairy Club.

The main purpose of the club is to inform its members on the problems in the field of dairying and to bring students and dairymen closer together.

DISTRIBUTIVE EDUCATION CLUB

Our organization is open to all students enrolled in the Distributive Education curriculum. It is our purpose to train future teachers of Distribution Education to be proficient in conducting and advising D.E.C.A Chapters. We make it our goal to meet the ever increasing demand for Distributive Education majors throughout the United States.

AMERICAN SOCIETY OF AGRICULTURAL ENGINEERS

The purpose of the A.S.A.E. is to promote the interests and fellowship of the students in Agricultural Engineering. Our society contains honorary and associate members. To become a member one must be enrolled in the Agricultural Engineering Curriculum, as well as be an active participant in club projects.
V. P. I. CHEMISTRY CLUB, A.C.S.

The VPI Chemistry Club promotes interest in the chemical sciences and gives students in the chemical sciences an opportunity to become acquainted with this field. Any student who is interested in the chemical sciences may become a member.

POULTRY SCIENCE CLUB

The purpose of the Poultry Science Club is to promote better student-faculty relationships and to help bring recognition to the department of Poultry Husbandry.
PHI BETA LAMBDA

Phi Beta Lambda is a national business organization open to students enrolled in the School of Business. There are 90 Phi Beta Lambda chapters in the United States today, and all are sponsored by The United Business Education.

A. I. Ch. E.

The membership is composed of undergraduate and graduate chemical engineering students and the faculty. The only membership requirement is that the student must be currently enrolled in Ch. E.
AGRICULTURAL ECONOMICS CLUB

The purpose of the Agricultural club is to foster interest in Agricultural Economics, to develop fellowship among the students in Agricultural Economics, and to promote a better professional bond between students and faculty.

Membership includes students of VPI interested in Agricultural Economics and all faculty members of the Agricultural Economics Dept.

AMERICAN SOCIETY FOR METALS

The American Society for Metals chapter at VPI consists of undergraduate and graduate students enrolled in Metallurgical Engineering. Faculty members and members from local metal industries complete the membership.

The purpose of the chapter is to promote the arts and sciences connected with the manufacture and treatment of metals.
BIOLOGICAL SCIENCE CLUB

The purpose of this club is to bring undergraduates together in an effort to promote further interest in biological and related sciences and to gain a better acquaintance with the developments in these fields. Any student in Biology, General Sciences, and associated curricula are eligible for membership.

AMERICAN ROADBUILDERS ASSOCIATION

The ARBA helps promote interest in Highway Engineering. It also illustrates and makes known to the students the new developments in this field. Membership in the club is composed of junior and senior students in Civil Engineering who are interested in highway development.

FUTURE FARMERS OF AMERICA

This is a curricular and social club for students in Agriculture Education and past members of the F.F.A. Membership requirements are an interest in farming and a vote of the membership. Membership is open to students in all agriculture curriculums.

THE ACCOUNTING SOCIETY
OF V. P. I.

The purpose of the Accounting Society is to promote fellowship among members, to learn more about the accounting profession, and to promote an understanding of and interest in accounting.

Membership is composed of students in the senior accounting class.
AMERICAN INSTITUTE OF PHYSICS

The Physics Club at VPI is a student chapter of the American Institute of Physics. The local club provides programs for its members and other students. The local club engaged in several projects this year, such as orienting members and students in radioactive fallout and precautions to be taken in the event of fallout. Members are invited to attend graduate seminars.

AMERICAN INSTITUTE OF ARCHITECTS

The main purpose of the Student Chapter of A.I.A. is to bring to the student of architecture a closer realization of activities of the profession through the activities of the state and national A.I.A. and to bring members of the profession as guest critics and lecturers. Membership is composed of all classes in architecture and architectural engineering.

AMERICAN CERAMIC SOCIETY

Membership in the ACS is restricted to those students enrolled in Ceramic Engineering and its teaching staff.

The purpose of the ACS is to promote the ceramic arts and sciences, to build good will and fellowship among all members of the student branch of the American Ceramic Society, and to aid new students in becoming acclimated to college life.

BURKHART MINING SOCIETY

The purpose of the Burkhart Mining Society is to advance mining engineering as a science and to provide a friendly working atmosphere for mining engineering students.

Students registered in Mining Engineering Curriculum, both graduate and undergraduate, make up the membership.
HORTICULTURE CLUB

The purpose shall be to promote good fellowship and further the interest of horticulture by uniting those having a common interest in the field.

Any student interested in horticulture or any closely related field may become an active member of the Student Horticulture Club upon payment of dues.

AMERICAN INSTITUTE OF INDUSTRIAL ENGINEERS

The major accomplishment of the AIE during the year has been the conducting of a Regional Student AIE Conference. This is the first such conference to be held in the Southeastern U. S. and only the third to be held nationally by students. Schools from all the Southeastern U. S. colleges which have Industrial Engineering are to be represented.

The social fraternity movement at Tech made great advances this year. The fraternal and social fellowship offered by these groups is also a part of the Virginia Tech story.
The Inter-Fraternity Council was formed in May, 1961, by Delta Kappa Sigma, Delta Pi Zeta, Sigma Lambda, Tau Epsilon Kappa social fraternities.

The first officers of the I.F.C. were Phil Underwood of Delta Kappa Sigma, who was elected Chairman, and George Cheshire of Sigma Lambda who was elected to the office of secretary-treasurer.

The purpose of the I.F.C. is to act as a coordinating body between the member social fraternities and the school administration to keep each fraternity informed of the actions of other fraternities and to promote and foster high social and academic standards among the member fraternities.

In the fall quarter of 1961, the I.F.C. ratified its constitution, passed its by-laws, and was ready to go to work. The representatives of each of the member fraternities attend the bi-weekly meetings of the I.F.C. with the intent not only of pursuing their own fraternity's interests, but also to promote good relations between the fraternities.

It is hoped that in the years to come that the I.F.C. will prove to be an organization which will be well worth the pride and faith that its founders have put into it.
Pi Kappa

Pi Kappa Fraternity was organized in the Spring of 1995. All through the summer, the brothers worked on the street projects, maintaining our frat house, and, of course, spending a lot of time in our Homecoming Buffet Dinner. The brothers worked hard to maintain the house and do all the general renovations of our Homecoming Buffet Dinner. The brothers worked tirelessly during the whole year.

Our thanks go to our seniors for their help in making this a wonderful first year. Best wishes to all our brothers.

The float, sponsored by the BUGLE and Delta Pi Zeta, which won the Homecoming Parade.
1. TEKS set out to have some fun. 2. Scrapbook time at the Zeta house. 3. TEK faculty adviser and friend join the fun. 4. Pledges relax during a hard pledge period. 5. Brothers relax during the night of study. 6. Zetas fix up their prize-winning Homecoming float. 7. TEKS gather with their faculty adviser for a song festival at home.
For titles do not reflect honor on men, but rather men on their titles.
—Machiavelli

THE CORPS
THE COMMANDANT

We, the student body and especially the Corps of Cadets of the Virginia Polytechnic Institute, are proud to have as our new Commandant of Cadets, Brigadier General M. W. Schewe. The general was last assigned to the Pentagon, Washington, D. C. before coming to V. P. I. in the summer of 1961.

These are his thoughts of V. P. I. and the Corps of Cadets.

The world of today requires the highest standards of leadership with no time for "second-rate" results. This scholastic year the Corps numbered approximately 2,000 cadets. These cadets are in attendance at VPI with a basic purpose of obtaining a superior education together with opportunities to promote leadership, develop a strong and purposeful character, moulded into high ideals. As one of its primary objectives, the Corps maintains that each member be inspired to do his optimum in all that he does.

The Corps recognizes that the majority of students entering Tech do not plan to pursue a full military career as a lifetime profession, although many graduates do just that. However, membership in the Corps not only assists the serious student in obtaining a well-rounded education, but while living in a military atmosphere under fair, firm and conscientious military rules and regulations, he is afforded an opportunity to develop his full potential as a student, as a citizen and as a leader. The importance of responsibility is and must be constantly stressed.

There are four major objectives which the cadet student has while a member of the Cadet Corps. These are:

1. To foster dignity and integrity.
2. An understanding and appreciation of good order and discipline for the good of the whole rather than for the good of any one individual.
4. To be kept mentally alert to the problems of modern society and the part that they as individuals play in this society both here on campus and after graduation.

Membership in the Corps demands honesty, integrity, devotion to fellow students, the school, the community, and the nation—of which all are important. Every member of the Corps of Cadets must be ever alert to develop the following personal characteristics: Ability to do things well; to be loyal; to exercise tact; to demand justice; courage to think straight, to live up to correct principles and concepts; to be straightforward and modest; to be truthful by word and deed in all that he does; and to be firm and consistent but never obstinate.

By fostering and encouraging the concepts stated herein, the Corps of Cadets marches forward in playing its part in the total Virginia Tech picture. The Corps has not in the past shirked its responsibilities nor will it do so in the years to come. It is a real pleasure to be associated with such a splendid organization.

M. W. SCHewe
Brigadier General, U. S. Army (Ret.)
Commandant of Cadets

An organization can be only as strong as the hand that guides it. Today the Virginia Tech Corps of Cadets is outstanding, and tomorrow holds no limit.

ROBERT E. RUSSELL .................................................. Sergeant-at-Arms

Virginia Polytechnic Institute, one of the seven essentially military colleges remaining in the United States, takes pride in its Corps of Cadets. The object of the Corps is to contribute to the general educational development of its members by helping prepare them to take their places as useful citizens of their country. It has been producing outstanding Armed Forces' officers since 1872.

The Cadet Corps, now numbering some 2000, is a self-governing organization. Its Senate, Honor Court, and Executive Committee work diligently toward the betterment of the Corps and VPI.

The Cadet Corps’ marching band, the “Highty Tighties,” and expert drill team, the “Pershing Rifles,” have contributed greatly to the fame and distinction of the Corps, and have brought national recognition to VPI.

With the VPI motto—“That We May Serve”—ever before it, the Virginia Tech Corps of Cadets aspires to continue its contributions to the unique and rich heritage of VPI.
CADET HONOR COURT

SEATED REAR: J. D. Miller, Associate Judge; W. D. Flint, Judge; S. L. Lionberger, Associate Judge.

Our Honor System is one of the oldest and most cherished traditions at VPI. It is a function of student government and is wholly administered by the students. Our Honor System is a system of, by, and for the Corps of Cadets. It instills into each cadet moral integrity and strength of character in proportion to the loyalty with which he follows its precepts and teachings. The purpose of our Honor System is to benefit the student so that when he graduates from college his integrity and character will be above reproach. Offering incentive to truth, honesty and honorable conduct, it will not tolerate deception and fraud. Our system is based on three beliefs: To trust a man is to make him worthy of that trust; No gentleman will lie, cheat, or steal; Every cadet is a gentleman.

JURY

The Cadet Jury is composed of twelve permanent members and four alternates, four men elected by and from each academic class. The jury tries all cases, weighing impartially all evidence presented during the trial.

The Cadet Senate is the Legislative and governing body which adopts the rules and regulations of the Corps. It is composed of Senators elected at the beginning of the school year. One Senator is elected from each class of each company and squadron. The officers are the same as those elected for the Corps.
CADET EXECUTIVE COMMITTEE

WALSON R. KERNS ........................................... Chairman
EDWARD L. MOREY ........................................... Vice-Chairman
D. BRUCE CAHILLY ........................................... Secretary

The Cadet Executive Committee is a vital part of the student government organization of the Corps of Cadets. It is the guardian of the reputation of the Corps, and is charged with assisting the Commandant in establishing and maintaining high standards of conduct among Corps members. It does not concern itself with minor infractions of discipline, but does have a direct interest in any actions or omissions by a cadet that might bring discredit upon the Corps.

The Virginia Polytechnic Institute Pershing Rifles, Company C-15, is a National Honorary Military Society and one of the most respected on our campus. Its qualifications include a high scholastic average and outstanding aptitude of military science, in addition to outstanding drill and leadership ability. Its purpose is to recognize those individuals enrolled in basic R.O.T.C., who have met the above qualifications.

In the past, the Pershing Rifles' many accomplishments have included six first place finishes in the Apple Blossom Festival in Winchester, Virginia, participation in the past two presidential inaugural parades, and numerous first place awards at the Regimental Drill meets at College Park, Maryland.

The Pershing Rifles have had a very busy and successful fall quarter this year. They were a familiar sight at the Tech football games as they performed pre-game shows for such schools as V.M.I. at the Thanksgiving Day game and Florida State at the Homecoming Game. Included in these performances was the noted “Get Lost” sequence and many new ones which added to the reputation of this already famous precision trick drill team.

DIRECTOR OF STUDENT AFFAIRS

Dr. Dean was born in McKeesport, Pennsylvania. He attended the University of Pittsburgh, Grove City College, Bucknell University, and Pennsylvania State University, obtaining a Ph.D. from Pennsylvania State University. As a Major in the U.S. Air Force during World War II, he served with the famed "Flying Tigers" in the China Theatre receiving the Silver Star, five Distinguished Flying Crosses, five Air Medals, and two Purple Hearts.

Dr. Dean's constant efforts in helping the Honor Court, the Student Governments, and other campus organizations are of great value to these organizations. His devotion for VPI is shown in his constant effort for the welfare of every student.

VPI is certainly fortunate in having a man of the character, rank, and caliber of Dr. Dean.

Dr. James W. Dean came to VPI in 1959 with a varied and extensive background. Since coming to VPI Dr. Dean has gained the respect and the admiration of both faculty and students. Dr. Dean is a man of keen insight and perception and no problem is too small or too large to take to him. His talent for administration is paralleled only by his frank honesty and friendship to each student.
ASSISTANT DIRECTOR OF STUDENT AFFAIRS

AL. CRAWFORD

STUDENT DORMITORY COUNSELORS

CIVILIAN STUDENT BODY

The Civilian Student Body is composed of all the civilian students attending VPI. The officers of the C. S. B. are elected each spring and serve during the following school year. The president of the C. S. B. is responsible for the general operation of the Civilian Student Body government; the vice-president is the president of the Senate; the secretary is responsible for the taking of minutes at the Senate meetings; and it is the treasurer's duty to conduct the financial affairs of the C. S. B.

The purpose of the Civilian Student Body as defined by its Constitution is... "To form an organized student body, to establish executive, legislative, and judicial bodies for the government of such students, and to promote better cooperation among all students at Virginia Polytechnic Institute..." This is the duty and responsibility of each civilian student, and only with the aid and cooperation of each civilian will this purpose be accomplished.

LEFT TO RIGHT: Robert Rogers, Treasurer; R. Sidney Barrett, President; William Daughtrey, Vice-President; Rita Sutherland, Secretary.
SENATE

The Civilian Student Body Senate is an outgrowth of the Civilian Student Body. The C.S.B. Senate's function is to improve the general welfare of VPI and her students. The senators are the representatives of the entire Civilian Student Body.

The election of senators is held in the fall of each year. Senators represent both civilian dormitory students and civilian town students. One senator is elected for every fifty civilian students.

The Senate is democratic in nature, and serves as the legislative body of the Civilian Student Body Government. The scope of its activities vary from sponsoring pep rallies to improving relations with the Corps of Cadets; from investigating the conditions in the college dining hall to improving relations with Radford College.

This year's Senate under the capable leadership of Bill Daughtrey has worked hard and deserves a great deal of credit for its work and for its accomplishments.
CIVILIAN HONOR COURT

The honor system at Virginia Tech is one of the most workable for a school of its size. One of the reasons for this is the Civilian Honor Court. It is the duty of the Civilian Honor Court to determine if there has been a violation of the Honor Code, and if there is evidence of a violation, to bring action against the student who is thought to be guilty.

WHO's Who in the Civilian Student Body are civilian senior students who the C.S.B. Senate feels are outstanding. They are selected by the Senate during the fall quarter. This selection is based on their outstanding service to the entire student body of Virginia Polytechnic Institute.

R. W. ELLIS
S. OTHMER
MISS V. P. I.

This year Miss VPI is Lucy Selden. Lucy is a junior at VPI from Ellerson, Virginia and is majoring in home economics. Lucy was selected as Miss VPI early in the fall quarter. As Miss VPI Lucy represented VPI as a princess at the Harvest Bowl Festival in Roanoke, Virginia. Lucy, along with girls from other colleges, rode on a float in the Harvest Bowl parade and at halftime at the Harvest Bowl game between VPI and the University of Virginia. We congratulate Lucy on being selected Miss VPI.

Delta Sigma Chi is one of the most active fraternal organizations on campus.
Our goal and purpose has always been the promotion of a well rounded college life. By encouraging and promoting participation in extra-curricular activities, we attempt to fill the social needs of the student.
The fraternal relationship which is developed among our members during their life here at Tech will result in fond memories in the future. By sharing our work, play, and life together we feel we will become better citizens and have a clearer insight of the cares and problems of those around us. To this end, and to the betterment of the Civilian Student Body and a greater Virginia Tech, we dedicate our work, our hopes and ourselves.

C. S. B. BALL

The annual C.S.B. Ball was held on March 4, 1961, in the S.A.B. ballroom. The theme of the dance was "A Night in Koolsville." The music was furnished by the Divots. Miss Shirley Nelson of Richmond, Virginia reigned over the dance as queen. The C.S.B. Senate sponsored the election of the queen.

Walt Erwin, chairman of the dance committee, and his committee did an excellent job in planning the dance. The real neat pad—from beatnicks to wine bottles on the tables—added greatly to the atmosphere of the dance. Everyone who attended had a real kool time.
It is only through labor and prayerful effort, by grim energy and resolute courage that we move on to better things.

—F. D. Roosevelt

ATHLETICS
ATHLETIC DIRECTOR

It was a bright day for VPI when Frank Moseley came to town. Since he arrived on the scene in 1951 Moseley has brought Tech up the ladder of success in all sports.

During his first ten years of service, Moseley served as both athletic director and head football coach. However, as Tech's horizons began to expand, the two jobs became too much for any one man. So Moseley gave up the job of head coach after compiling a record of 55 wins, 42 losses and three ties in ten years.

That he has done a fine job as athletic director can be evidenced by the caliber of teams that Tech now competes against with great success. When and if Tech leaves the Southern Conference and joins one more befitting its abilities, it will be due to the tireless efforts of Athletic Director Frank O. Moseley.

FRANK O. MOSELEY

FOOTBALL

WON 4, LOST 5

New headcoach, Jerry Claiborne, made his debut at Tech an auspicious one by producing one of the hardest hitting Tech teams in years. The Gobblers four wins included big ones over Florida State 10-7, and the University of Virginia 20-0.

The Hokies were erratic all year. They looked great in some games and like a high school team in others. However, this band of Gobblers never quit fighting and left a bright hope for the future. Next year promises to be an exciting one for Tech fans.
Tech opened its season in fine fashion with a 20-6 victory over the slightly favored Indians of William and Mary. After a hard fought first half, the Gobblers went to the dressing room on the short end of a 6-0 score. William and Mary scored when ace half-back Roger Hale crossed Tech's goal in the second quarter.

The Techman's offense, bottled up through most of the first half, finally exploded in the third quarter. In a period of less than four minutes the 6-0 deficit was turned into a 20-6 lead. Terry Strock started the fireworks with a short run which culminated a long Tech drive. After receiving a William and Mary punt following the kick-off, the Techmen wasted no time in scoring their second touchdown. On the first play, Warren Price smacked through the middle of the Indian line and raced 77 yards to make the score 13-7. William and Mary fumbled the following kick-off and Tech recovered on the William and Mary 16. Again the Techmen wasted no time and on the first play Buddy Perry galloped into the end zone for the final Tech score. Aster Sizemore converted twice to pad the victory margin.

Gobbler standouts were many, Joe Moss and Gene Breen led Tech's vicious line play. Price, Strock, Perry, and Art Pruett stood out in the backfield.
Following a three week layoff the Techmen swung back into action against the West Virginia Mountaineers at Morgantown. The outmanned Hokies fought hard all day before succumbing to the Mountaineers strength.

The Mounties broke an eighteen game losing streak in the process of burying the Gobblers. Sophomore quarterback Fred "Colt" Colvard was the brightest spark for the Mounties whose whole team looked like a bunch of stars.

Tech showed occasional flashes of offensive strength, but every time the Gobblers threatened the WVA goal, they were repulsed by the strong Mounties defense. The Gobblers got good performances from Warren Price and Terry Strock, but in the final analysis there was just too much West Virginia.
After taking a first half lead of 7-6, the Gobblers made two costly mistakes in the second half and the Tulane Green Wave defeated the Techmen 27-14.

Tulane took the opening kickoff and marched 82 yards in 14 plays to score. Tech halfback Buddy Perry blocked the extra point attempt and the Green Wave led 6-0.

The Gobblers came roaring back and moved to Tulane's three where quarterback Warren Price plunged over for the score. Aster Sizemore converted and Tech led 7-6.

In the second half, the Gobblers drove into Tulane territory only to lose a costly fumble. The fired up Green Wave moved the ball back into Gobbler territory and scored on a seven yard pass play.

After another Tulane score, Tech began a scoring drive which was climaxed by a pass from Price to Strock for the score. Sizemore again converted and the Gobblers trailed 20-14.

Tech then tried an onside kick which traveled only one yard and set up the final Tulane score. The game ended with Tech once more threatening near the Tulane goal line.
Sparked by the play of quarterback Warren Price, the Tech offense rolled over the University of Virginia to an impressive 20-0 victory.

After only 2:25 had elapsed from the opening kickoff, Tech led 7-0 through the running and passing of Price.

The two teams then traded the ball several times in play which featured some great punting by Gobbler halfback Terry Strock. Virginia managed to fumble and several plays later Tech scored again on a pass from Price to Buddy Perry. As the quarter ended, Tech led 13-0.

Terry Strock took the second half kickoff and returned it 96 electrifying yards for a touchdown. After the conversion, Tech led 20-0.

The Virginia Cavaliers threatened twice in the second half, once moving the ball to the Gobblers' three but failed to score.

Quarterback Price was selected the game’s outstanding player. Tech sophomore fullback Gerald Bobbitte was the game’s leading ground-gainer with 59 yards in five carries for an average of 11.4 yards per carry.

Virginia Tech 20 - U. Va. 0
Before a Homecoming crowd of 15,000 persons, the VPI Gobblers gained a 10-7 upset victory over the highly touted Seminoles of Florida State University. On the second play of the game, the Techmen recovered a fumble and moved to the FSU 11. At this point the Seminoles dug in to halt the advance. But halfback Aster Sizemore kicked a field goal from the 18 and Tech led 3-0.

The game then developed into a bruising battle between the two teams with the Gobblers repeatedly getting out of trouble through the brilliant punting of halfback Terry Strock. The Seminoles, whose offense appeared sluggish against the Tech defense, finally bulled their way to the Gobblers' 33. Five plays later FSU scored on a fake field goal attempt. When the half ended FSU led 7-3.

In the second half, the offenses of both teams improved. Midway through the third quarter the Techmen, led by the passing of quarterback Warren Price, moved to the FSU 45. Halfback Buddy Perry then advanced the ball to the 31 on two runs. Price passed to end Dick Goode who was thoroughly covered by two Seminoles who hatted the pass up in the air. Sophomore halfback Buddy Wehbe caught the ball at the 10 and went over for the score. Sizemore converted and VPI led 10-7 with 22 minutes left in the game.

FSU took the kickoff and with a series of quick passes and power sweeps moved to the Gobblers' 17. But here fullback Herb Bowling recovered a FSU fumble. The rest of the game turned out to be a grim defensive battle with the Techmen fighting to hold their lead. FSU threatened several times to score, but the Techmen took over the ball and began to run out the clock. However, the Gobblers were forced to punt with 60 seconds left. FSU began passing long, but an interception halted the advance on the last play of the game.

Virginia Tech 10 – F. S. U. 7
After their impressive win over Florida State, the Hokies traveled to Richmond to help the Spiders celebrate their homecoming. The Richmonders had a happy homecoming as their hard charging line beat the Techmen into submission.

After a scoreless first quarter marked by furious line play by both teams, the Spiders broke the scoring ice on an extended drive culminated by a one yard plunge. This score with ten seconds remaining in the half gave Richmond a 6-0 lead at intermission.

Tech blew two scoring chances in the first half on a combination of a weak offense and several back-breaking penalties. The first drive was set up when Ronnie Hawkins intercepted a Spider pass and returned it to the Richmond 45. Sparked by Warren Price, the Gobblers showed a brief spurt of offensive life and drove inside the ten yard line. There a fifteen yard penalty set the Techmen back and a fourth down field goal attempt went awry. Later in the quarter, a personal foul gave the Gobblers possession on the Spider eighteen. Again the Techmen were held and another field goal attempt was missed.

The second half was dominated by defense, but the Spiders managed a safety and a field goal to make the final score read 11-0.
Virginia Tech 15 - W. Forest 24

VPI dropped its second game in a row and the fourth of the season to Wake Forest's Demon Deacons at Bowman Gray Stadium in Winston-Salem, North Carolina. It might be more correct to say that Tech gave this one away. The Gobblers lost three fumbles deep in their own territory and had two costly interference calls go against them. Wake's first two touchdowns were set up by the interference calls.

The Gobbler offense was potent all afternoon, but once again penalties proved costly. One touchdown was called back and several drives were stopped by these miscues. The Hokies' first touchdown was scored by Leon Tumblin on a sixteen yard pass from Warren Price. This touchdown cut the Deacon's lead to 9-7, but another interference call gave the Deacs possession of the ball on the Tech five, from where they proceeded to score with 22 seconds left in the half.

After a scoreless third quarter, the Gobblers got a break early in the fourth quarter recovering a fumble on the Wake Forest 31. The Gobblers drove to the six and scored on the next play when Price broke loose around end. However, the play was called back by a penalty and the Hokies lost possession on a missed field goal attempt on fourth down. The Techmen scored once more later in the game to cut the final score to 24-15.
Virginia Tech rebounded against the George Washington Colonials to break a two game losing streak. For the first three quarters on this dreary Friday afternoon, it looked like the Gobblers were going to lose for the third time in a row. However a late spurt in the fourth quarter netted two touchdowns and the victory.

The first half was a hard fought defensive battle featuring the bruising running of George Washington's all-conference half-back, Dick Drummond and Tech's "Red" Bobbitte. A field goal late in the second quarter was the difference as the Colonials went to the dressing room with a 3-0 lead.

The Techmen came back after intermission and threatened throughout the third quarter without crossing the George Washington goal. The Gobblers got a break early in the fourth quarter when George Washington was charged with an interference penalty on a punt giving Tech possession on the Colonial 29. The hard charging Bobbitte, who gained 86 yards in 23 carries, capped this drive with a two yard plunge to put Tech on the scoreboard with 7 points.

After the kick-off, Buddy Perry intercepted a Colonial pass to put the Gobblers in motion again. On the first play from scrimmage, the same Perry raced 61 yards to put the ball on the George Washington 2. After three unsuccessful tries, the Gobblers scored on a three yard pass from Mike Cahill to Leon Tomblin to make the final score 14-3, Tech.
An incredible passing attack by VMI in a sea of mud and a driving downpour led to the Keydets victory in the Thanksgiving classic at Victory Stadium in Roanoke.

VMI started moving early in the game but was stopped at the Tech 28. After both teams punted several times, VMI started moving once again and scored on a wobbly pass which turned out to be the only score of the game. Late in the first half, Tech halfback Buddy Weihe intercepted a pass and ran it back to the VMI 36. Tech then advanced to the 32, but was held in a fourth down. In the first half, the Keydets got nine first-downs and VPI none. The Techmen were held to minus one yard gained.

In the second half, the Gobblers outplayed the Keydets but were unable to push across a score. The majority of the second half, the ball stayed in Tech territory, but the Gobbler defense stopped four deep VMI drives.

Virginia Tech 0 - V. M. I. 6
FRESHMAN FOOTBALL

Tech's potential laden freshmen completed their 1961 schedule with 2 wins and 3 losses. The record is in no way indicative of the talent of this ball club. The losses were to powerful freshman teams from Navy and West Virginia and a one point squeaker to Virginia. The Goblets beat Furman and won the big one from the VMI Rats. This team should provide plenty of help for the varsity next year.

SECOND ROW: Johnny Franklin, Bob Churchill, Be Lane, Kenny Ridenour, George Clear, Derald Bailey, Bob Schweickert, Dick Kelly.

The Virginia Tech Monogram Club is composed of men who have been awarded a monogram in one of the varsity sports. Letters and sweaters are given to the members by the club in recognition of their achievement in sports. The purpose of the organization is to maintain a close bond of fellowship among varsity athletes at Virginia Tech, to foster and promote athletics at Virginia Tech in every way possible, and to encourage athletes of good character to attend this institution.

BASKETBALL
1961

The Tech basketballers opened the 61-62 season with hopes of disproving the general attitude that theirs would be a mediocre season. With three sophomores on the starting team, the Gobblers, with being the skinniest team in the nation their only claim to fame, came into their own during the Christmas Holidays by gaining a second place in the Birmingham Classic and capturing the Gator Bowl Championship at Jacksonville, Florida.

Tech’s biggest assets in scoring were veteran Bucky Keller, who is one of the best all-around players in the Southern Conference, and Howard Pardue, a 6-6 sophomore stringbean who averaged 30 points a game as a freshman. Pardue was named the outstanding player in the Birmingham classic with Keller gaining the same honors in the Gator Bowl.

Left-handed veteran Lee Melear later developed into a scoring leader and his sparkling floor play gave a lift to the team’s spirit which was always high. The other two starters were Barry Benfield and Frankie Alvis, both sophomores. Benfield made up for his lack of strength with his determination. Alvis, who was probably the fastest guard in the Conference, turned in some fine floor work as well as an able assist in scoring.

SEATED: Assistant Coach Bill Mathews, Frankie Alvis, Mike Cahill, Bobby Vicars, Bucky Keller, John Fleischman, Captain, B. J. Quisenberry, Lee Melear, Coach Chuck Noe. STANDING: Richard, Equipment Manager, Sam Bingham, Manager, Tommy Meyers, Manager, Bob Barrett, Howard Pardue, Barry Benfield, Jake Adams, Cal Jacobs, Dr. Emory Irwin, Team Physician, Ed “Stud” Motley, Trainer.
Purdue grabs rebound against Richmond.

Keller breaks loose for another impossible shot.

Bobby Joe Quisenberry  John Fleischman  Bucky Keller  Lee Mclear

Howard Pardue  Bobby Vicars  Barry Benfield  Frank Alvis

FEB. 20—Virginia

Tech's swimming team led by captain Steve West encountered one of their roughest schedules in history this year. At press time the Gobblers were over the .500 mark with losses to always powerful N. C. State and North Carolina leaving nothing to be ashamed of. Tech should be one of the leaders at the conference meet this year.

Tech’s track team, 1961 edition, continued to show improvement under head coach, Doug Divers. Since Divers took over the reins of the track squad, the Hokies have risen from the conference basement to a position which draws respect from opponents. Tech’s 1961 record was 4 wins and 3 losses and featured a fourth place finish in the state meet and a sixth place in the conference.

SOCcer

Despite a winless season, nearly non-existent support from both the athletic department and the student body, no coach, scheduling problems, and traveling difficulties, Tech's soccer team finished the season undaunted and looking forward eagerly to next year.

This year marked a first for the Tech campus, as the soccer team played host to King College. Although Tech lost, the team showed fine spirit and convinced many spectators that soccer really is a rough game.

Losing only three men from this year's team, the Gobblers, under co-captains Walter Layman and Joe Savage, should field a representative team next year.
WRESTLING

Beginning the season as defending conference champions, Tech's grapplers had a stroke of bad luck when conference champ Bobby Robinson was injured in pre-season practice. However at press time, the team had put together a 4 and 2 record that included impressive wins over Auburn and Virginia. The Gobblers were unbeaten in the conference and were regarded as the team to beat in the conference tournament.

CHEERLEADERS

VA. TECH LIFE SAVING CORPS

January 3, 1962 marked the long awaited opening of the VPI Coliseum. The Gobblers met Alabama before a record crowd of 7,756. Tech led from the opening tip-off (at right) and went on to trounce the Crimson Tide 91-67.

The Coliseum is a massive structure which is located on the VPI campus south of Miles Stadium. There is seating capacity for over 10,000 spectators. When completed, the Coliseum will house the offices of the entire ath-
letic program at Tech. Facilities for indoor track, wrestling, and a modern swimming pool will also be included.

The Coliseum will be a tremendous aid in increasing the sports stature of not only VPI, but also the entire state of Virginia.

For Athletic Director Frank Moseley, the Coliseum is a dream come true. Sincere congratulations are due him for his efforts in the construction of this magnificent structure.
From contemplation one may become wise, but knowledge comes only from study.

—E. A. Newton
CLASS OFFICERS

The Class of 1962 has had many memorable experiences while at V.P.I., the highlight of which was our ring dance held last May. This marked the silver anniversary of that famous event and was beautifully portrayed in the colonial theme "Some Enchanted Evening." This year our efforts have been directed toward the class gift, senior weekend and graduation. Soon we will leave V.P.I., and our many friends but face the future more confidently because of our associations here.

THE CLASS OF 1963

CLASS OFFICERS

Since its formal organization, the Class of '63 has been working ardently on designing a ring and planning a Ring Dance which will uphold the traditions and high standards distinctive of V.P.I. Appearing on the class ring for the first time is the Great Seal of the United States. The class's highly anticipated junior year will be culminated by Ring Dance featuring the music of the world-famous Stan Kenton Orchestra.

SEATED: Mark Oliver, Advisor; John W. Bates III, Treasurer; David E. Lowe, President; H. Sykes DeHart, Vice-President. STANDING: Millard Binswanger Jr., Civilian Committeeman-at-large; James E. Hill, Cadet Committeeman-at-large; K. Reed Schweickert, Secretary.

COBB III, KENNETH DICKINSON: 2856 South Buchanum Street, Arlington 6, Virginia; Engineering Mechanics; Tau Beta Pi; Engineering Mechanics Society; Association of Married Students; Concert Band; Won Chicago Tribune ROTC Award; Won P. T. Bradley Memorial Scholarship; Won Virginia Polytechnic Institute War Memorial Scholarship; Won I. T. and T. Scholarship; Regimental Band, Sergeant.

COCKEY JR., ALEXANDER MOORE: Purcellville, Virginia; Electrical Engineering; American Institute of Electrical Engineers; Apple Club; Baptist Student Union; B Squadron, 2nd Lieutenant.

COKER III, JOHN A.: 45 Lighthouse Road, Babylon, New York; Industrial Engineering.

COLDEN, WILLIAM HENRY: 1320 Norview Avenue, Norfolk 13, Virginia; Electrical Engineering; American Institute of Electrical Engineers; Institute of Radio Engineers; Vice Chairman of Student Branch.

COLE, KENNETH MARSHALL: 405 Joe Johnson Avenue, Colonial Heights, Virginia; Mechanical Engineering; American Society of Mechanical Engineers; Richmond Club.

COLLIER, FREDERICK MAC; P.O. Box 465, Wise, Virginia; Mining Engineering; Sigma Gamma Epsilon; Burkehill Mining Society, Treasurer; American Institute of Mining Engineers; Lonesome Pine Club.

COLMAN, GLEN WALLACE: 236 Madison Street N.W., Washington 11, D. C.; Electrical Engineering; Phi Delta Epsilon; Virginia Tech Engineer, Editor; American Institute of Electrical Engineers; Institute of Radio Engineers; Chess Club; YMCA.

COMPTON, ALLEN ALBERT: 907 Chalmers, Martinsville, Virginia; Business Administration; Alpha Phi Omega; Delta Kappa Epsilon; Virginia Tech Business Manager; Delta Kappa Sigma, Social Chairman; Seminole Club, Vice President; Cadet Honor Court; Publications Board, Vice Chairman.

COMPTON JR., RALPH O.: 1710 South Quincy Street, Arlington 4, Virginia; Electrical Engineering; Delta Pi Zeta; Association of Married Students; American Institute of Electrical Engineers; Institute of Radio Engineers, Treasurer; Life Saving Corps, Treasurer.

CONNER, LARRY GIBSON: Route 10, Box 100, Roanoke, Virginia; Civil Engineering; Alpha Phi Omega, 1st Vice President; Baptist Student Union; American Society of Civil Engineers.

CONNOR, ROBERT HENRY: 411 Fayston Avenue, Norfolk 5, Virginia; Civil Engineering; Society of American Military Engineers; Association of the United States Army; Scabbard and Blade; YMCA Freshman Council; Norfolk Club; American Society of Civil Engineers; L Company, Captain.

COUCH, WILLIAM PRATHER: Box 3016 Virginia Tech Station, Blacksburg, Virginia; Mechanical Engineering; Pi Tau Sigma, Treasurer; Kappa Theta Epsilon, Treasurer; German Club, Co-Chairman of Dance.

COX JR., JULIAN FRANCIS: 15 Davis Ave., Newport News, Virginia; Mechanical Engineering; German Club; Richmond Div. Business Manager; American Society of Mechanical Engineers; Southern Colonels.

COX, JOHN W.: Timberlake, Lynchburg, Virginia; Civil Engineering; American Society of Civil Engineers; Association of Married Students; Cave Club.

COX, LEWIS WEST: Rt. 1, Box 20, Roanoke, Virginia; Animal Husbandry; Bloch and Bridle.

COX JR., PAUL BURTON: Rt. 5, Box 96-D, Richmond 23, Virginia; Business Administration; Baptist Student Union; Intramurals; Richmond Club; Association of Married Students.

CREA, ERNEST BERLIN; Weyers Cave, Virginia; Animal Husbandry; Bloch and Bridle; Alpha Xi Delta, Treasurer; Delta Kappa Phi, Vice President, President; Agricultural Expedition; 4-H Club.

CRAWFORD, JOHN JAY: 6712 Little River Turnpike, Annandale, Virginia; Biology; Costilhon Club; Delta Kappa Sigma; Capital Club; Newman Club; Biology Club; Intramurals.

CREASY, DAVID FLETCHER: Rt. 1, Box 356, Blacksburg, Virginia; Civil Engineering; Chi Epsilon, Treasurer; Kappa Theta Epsilon; Pershing Rifles; Society of American Military Engineers; American Society of Civil Engineers; Co-Operative Engineering Society; Honor Court Jury; 2 Company, Private.

CRISGER JR., JAMES CAMPBELL: 745 East Monroe, Wytheville, Virginia; Distributive Education; Scabbard and Blade; Arnold Air Society; Distributive Education Club, President; Cross Country; Indoor Track; Outdoor Track; Football; 1st Group Staff, Captain.

CROTTY, ALAN C.: 209½ 5th St., Point Pleasant, West Virginia; Electrical Engineering; Glee Club, Executive Committee.

CROWDER, JOHN CARL: 610 S. 4th St., Wytheville, Virginia; Civil Engineering; Delta Kappa Phi; American Society of Civil Engineers; Southwest Virginia Club; Wrestling, Manager.

CRUTE JR., JOHN SHEPPARD: Rt. 10, Box 276, Roanoke, Virginia; Mechanical Engineering; American Society of Mechanical Engineers.

CULPEPPER, RICHARD GROOM: 2702 Wakefield Dr., Bayside, Virginia; Aerospace Engineering; Virginia Tech Engineer, Business Manager; Institute of the Aerospace Sciences.
CUPP, WAYNE WINE; Sleigh Hill Farm, Buckingham, Virginia; Agricultural Education; Block and Bridge; Future Farmers of America, Secretary, Vice President; Soil Conservation Society, Treasurer; Agricultural Exposition; 4-H Club; Rifle and Pistol Club; Intramurals; Church of the Brethren Student Group; K Company, 2nd Lieutenant.

CURET, HARVEY DONALD; 65 Salem St., Hampton, Virginia; Mechanical Engineering; Senator.

DAIS, GEORGE GUS; 144 Jefferson, Pulaski, Virginia; Business Administration; Alpha Kappa Psi; Pulaski-Va. Tech Student Association; President; Thomas Scholarship Award.

DALE, HARVEY ARLEN; Rt. 1, Box 143, Free Union, Virginia; Agricultural Economics; Agricultural Economics Club, Vice President.

DAUGHTREY JR., WILLIAM HENRY; 703 Draper Rd., Blacksburg, Virginia; Physics Club; Yearbook Staff; German Club, Leader; Roanoke Club; Residence Hall Council; Sigma Iota; Student Body, Vice President; Civilian Senate, President; Basketball; Who's Who in American Colleges and Universities.

DAVIS, ARTHUR LEE; 3910 King St., Portsmouth, Virginia; Civil Engineering; American Society of Civil Engineers.

DAVIS, HOMER ALAN; 217 Eastwood Dr., Danville, Virginia; Business Administration; Accounting Society.

DAVIS, ROBERT LEE; 6011 Pea Ridge Road, Huntington, West Virginia; Mechanical Engineering; Pi Tau Sigma; American Society of Mechanical Engineers; Westminster Fellowship, Service Committee, Outreach Committee; Intramurals.

DAVIS, WILLIAM EUGENE; Gainesboro, Virginia; Agricultural Education; Future Farmers of America.

DAY JR., JAMES SPURGEON; Warsaw, Virginia; Business Administration; Delta Kappa Sigma; The Virginia Tech, News Staff; Northern Neck Club; FEDA; Intramurals; Inter-Dorm Council, Representative.

DEAN, DAVID ODELL; Rt. 1, Box 98, Max Meadows, Virginia; Electrical Engineering; American Institute of Electrical Engineers; Institute of Radio Engineers.

DEGROOT, JON VIERLING; 5432 Virginia Ave., Falls Church, Virginia; Agricultural Engineering; American Society of Agricultural Engineers, 1st Vice President; Agricultural Exposition; Intramurals; Virginia Tech Engineer; Cadet Senate.

DecHAMS, NICHOLAS HOWARD; 1906 Skipwith Rd., Richmond 29, Virginia; Mechanical Engineering; Pi Tau Sigma; Cooperative Engineering Society; American Society of Mechanical Engineers.

DETTOR, PAUL AUBREY; 2523 Bristol View Dr., Bristol, Virginia; Civil Engineering; Delta Pi Zeta, Social Chairman; American Society of Civil Engineers; Southwest Virginia Club; Kappa Delta Sigma; Inter-Dorm Council.

DICLEMENTE, EUSTACHIO GARY; 551 60th St., West New York, New Jersey; Business Administration; Tau Epsilon Kappa; Wrestling.

DILLARD, WINFORD H.; Northfork, West Virginia; Mechanical Engineering; American Society of Mechanical Engineers; Association of Married Students.

DINSMORE, ROBERT FENTON; Box 87, Falls Church, Virginia; Electrical Engineering; Society of American Military Engineers; The Virginia Tech, Circulation Manager; Senator; B Squadron, 2nd Lieutenant.

DIX JR., CLARIS BROOKS; White stone, Virginia; Disscutive Education; Distributive Education Club; Northern Neck Club, President; Baptist Student Mission Club; Intramurals; Baseball; A Squadron, 2nd Lieutenant.

DIXON, ALVIN MILES; 1310 Terril Rd., Scotch Plains, New Jersey; Civil Engineering; Wesley Foundation; Cave Club; Institute of Industrial Sciences; American Society of Civil Engineers; Virginia Tech Engineer, Business Staff; Cadet Senator; A Squadron, 2nd Lieutenant.

DODSON, AUBREY DAVIS; Rt. 1, Keeling, Virginia; Business Administration; Alpha Kappa Psi; Accounting Society.

DODSON, JUDITH ANN; Rt. 2, Box 270, Lynchburg, Virginia; Chemical Engineering; American Institute of Chemical Engineers; American Society of Women Engineers; YWCA, Treasurer; Wesley Foundation; Lynchburg Club; Virginia Engineer, State Scholarship; Smith-Doak Law Chemical Engineering Scholarship.

DODSON, THOMAS NEAL; Rt. 3, Danville, Virginia; Business Education; Phi Beta Lamba, Secretary (VPI), State Secretary.

DONAVIN III, MATTHEW WATSON; 3632 Sussex Rd., Baltimore 7, Maryland; Mechanical Engineering; Pershing Rifles, 1st Sergeant; Arnold Air Society, Executive Officer; Scabbard and Blade; Society of American Military Engineers; Cadet Club, Dorn Representative; American Society of Mechanical Engineers; Distinguished Military Student; Outstanding Cadet of Flight at Summer Camp; B Squadron, Captain.

DOUTHAT, JAMES LOUIS; 2076 Virginia Avenue, Bluefield, West Virginia; Biology; Biology Club, President; FIE Dorm Club.

DOVEL, MICHAEL RICHARD; 2401 Maiden Lane S.W., Roanoke, Virginia; Geology.

DOWNERY, CHARLES HERBERT; 14 N. Kings Hwy., Alexandria, Virginia; Civil Engineering; Association of United States Army; American Society of Civil Engineers; L Company, Private.

DRAIO, MICHAEL JOHN; Bunn Hill Rd., RD No. 2, Binghamton, New York; Metallurgical Engineering; Newman Club; Virginia Tech; American Society for Metals; American Welding Society.

DRAKE III, JAMES STONEY; 421 Ridgeley Road, Norfolk, Virginia; Business Administration; Norfolk Club; Monogram Club; Rifle and Pistol Club; Assistant Defense Attorney, Civilian Honor Council, and Chief Justice; Advisory Cabinet; Freshman Rifle Team; Rifle Team, Captain; Rifle Team Awards; Second Place Southern Conference Team, 20th ranking individual in National Intercollegiates, member of Virginia All-State Collegiate Team.

ADVERTISEMENTS
Poly-Scientific Extends Its Best Wishes
To the Students and Faculty of V. P. I.

Graduates are invited to investigate career opportunities with one of the nation's leading developers of electro-mechanical components. Poly-Scientific is composed of approximately 400 research specialists, engineers and skilled workers involved in the development and fabrication of components for missile inertial guidance systems and other industrial, military, and space applications. Positions are available for top graduates in the physical sciences, engineering sciences, and business administration.

THE MOON... and beyond!

Bright, new horizons await today's students... new technologies... new medicines... even the moon and whatever lies beyond.

How far today's students go in this space age depends partly on their imagination but primarily on their training. Conquering new horizons will demand more of today's graduates — more knowledge, more skills, more training and more specialization.

Our Free Enterprise system, with its high living standards, gives everyone an opportunity to "shoot for the moon" in any field. Whether or not our target is reached depends on how well trained we are to launch ourselves.

"THE CROSS COUNTRY RIBBON"

Thousands of miles long this ribbon — it covers the width and breadth of our country. Our highways provide the majority of our interstate commercial transportation — the life stream of our economy. Highways enable us to travel for business and pleasure.

Transportation across this system of roads has been made possible through the modern process of asphalt paving. Asphalt paving provides us with swift, convenient travel not only on our highways, but also throughout our cities. Only asphalt paving offers quality road surface at such low cost.

We of Adams Construction Company pledge to you our continued efforts to provide the quality highways which help build a better and stronger America.

TODAY there are more than 100,000
different uses for paper ... and the
search for new uses never ends. That is
why this fast-growing industry is now the
fifth largest in the country ... and why
it needs trained researchers and techni-
cians for future growth.

Our company, a pioneer kraft manu-
facturer, joins with other mills in spon-
soring college scholarships in paper tech-
nology. It also offers scholarships for
study in a subject of the student’s choice.

MORE than ever before, quality has become an important factor in College Annuals.

Everything to express skill, technique, artistry, is revealed in our prints. They are the only material proof of our ability, the only visible evidence of the value of our photographs and workmanship.

A Memorable Year

- Congratulations to the Student Body and Faculty of Virginia Tech upon the completion of another outstanding year of accomplishments.

- The Staff of your annual has worked exceedingly hard to give you a superb book that portrays the highlights of memorable activities. To preserve this excellent literary and photographic record, the best grades of material have been combined with skilled workmanship to provide the finest quality yearbook.

- We are very proud that the 1962 Staff selected us to design, print and bind the Boule. We have earnestly endeavored to fulfill the confidence placed in us.
