A Year of Ups and Downs for The Gobblers

1967 was a year of ups and downs for the Hokie gridmen, a year of seven wins and three losses. The Gobblers went into the season with one goal "BEAT MIAMI!" and when that goal was not met, the season was over. On way to the Miami rematch, the Techmen picked up seven consecutive wins, but come November 4 the winning skein broke.

A 13-3 win over Tampa University had kicked off the season for the Gobblers. The defense was already in its top-notch form, while the offense was trying to build an attack. Next came an easy 31-7 victory against William & Mary. Then three close ones: Kansas State 15-3, Villanova 3-0, and Kentucky 24-14.

The Techmen finally generated an offensive attack in the sixth game of the year—Richmond. The "Galloping Greek from Chesapeake," George Constantinides, scored 26 points, four touchdowns and one two-point conversion, leading Tech's 45-14 stomping of the Spiders. A 20-7 win over WVU at Morgantown brought the Gobblers undefeated streak to seven.

Victories came no more in Hokie Land. Miami repeated its 1966 Liberty Bowl performance with another 14-7 win over tech. Florida State revenged last year's game with an impressive 38-15 win. Even VMI got some revenge by humiliating the Gobblers 12-10 on Thanksgiving Day.
Foutakis breaks up pass.

Kincaid fakes handoff.

Loria changes directions.

Barefoot awaits pass.
Tech    7 0 0 6-13
Tampa   0 3 0 0-3

In the season opener against Tampa, the all-new Tech backfield started off by driving 70 yards in 10 plays with the opening kickoff to spark the Gobblers to a 13-3 win. The defense set the pace for the rest of the season by intercepting 5 Tampa passes. Jon Utin collected 7 points on two field goals and an extra point. Terry Smoot was the leading ground gainer with 67 yards in 10 carries.

The Virginia Tech Gobblers opened their home season with a resounding 31-7 thrashing of the Indians of William and Mary. Again, pass interceptions were the key plays as the Techmen picked off three enemy aerials. Clarence Culpepper ran an interception back 87 yards late in the second half to stake the Hokies to a 10-0 lead. Ron Davidson ran another wayward aerial back 54 yards to set up another touchdown.

Kansas State and Villanova Two Squeakers for Tech

Next, the Virginia Tech Gobblers journied to Manhattan, Kansas, where they downed the fired-up Kansas State Wildcats 15-3. This game was a defensive struggle from start to finish. After the Wildcats took a 3-0 lead late in the first quarter, the Hokies mounted the only sustained drive of the game, traveling 53 yards for a 6-3 lead. Then after Tech stopped Kansas State on the Gobbler 44-yard line, Ken Edwards rambled 40 yards to set up Utin's field goal. Late in the game, George Fousikes forced an errant Wildcat pass that fell into the hands of Mike Widger who ran 8 yards into the endzone for the last Gobbler score.

On their return to Blacksburg, the Hokies were greeted by cold rainy weather in which to play the Wildcats of Villanova. The game, won by Tech 3-0 on Jon Utin's field goal, was one of frustration for both teams. The most excitement came at the end as a Villanova field goal attempt hit the crossbar and fell back on the field.

Villanova defense surrounds Constantines.
Kentucky and Richmond Extend Streak To Six

Next the Gobblers traveled to Lexington, Kentucky where they pounded the Wildcats of Kentucky 24-14. After a scoreless first quarter highlighted by Gene Fisher's punting, the Techmen took charge. The running of Ken Edwards, Terry Smoot, and Rick Piland enabled the Hokies to amass a 21-0 halftime lead. Frank Loria's punt return, a pass interference call and Ron Davidson's kickoff recovery were highlights of the three drives. After Kentucky came back in the third quarter to trim the Gobbler lead 21-14, George Constantinides took over for the injured Smoot and paved the way for Utin's field goal.

The "Galloping Greek from Chesapeake," George Constantinides, scored 26 points and gained 117 yards to lead the Gobblers over Richmond 45-14. More than 27,000 fans piled into Lane Stadium to watch Virginia Tech in action in its Homecoming game and they all went away impressed. The Tech defense again intercepted four passes to put the season total at 18. Two of the thefts came late in the game and were returned for touchdowns. Chris Collins took the first one 12 yards to paydirt while Randy Treadwell took the last one 25 yards for the game's final touchdown.
Constantinides starts 76-yard jaunt.

Wrenn attacks Richmond quarterback.

Loria runs for opening.
Miami Ends Hopes For An Undefeated Season

Against archrival West Virginia, Tech ran its season record to 7-0 by downing the Mountaineers 20-7. The name of the game was kicking as Utin kicked two field goals and two extra points, and Fisher consistently backed West Virginia up into its own territory. Fisher had one punt of 78 yards. Jimmy Richards blocked one field goal attempt and barely missed blocking another. Kincaid was 7 for 8 in the air. Constantinides and Longerbeam were the leading ground gainers for the Gobblers. The lone WVU touchdown was the first scored on the ground against the Tech defense this season. Ron Davidson returned a punt 73 yards to the WVU 3-yard line to set up the first Hokies touchdown.

Before 35,000 fans, Tech and Miami held a rematch of last year's Liberty Bowl and again the Gobblers lost 14-7. The loss to Miami snapped the nation's longest regular-season winning streak at 14. The Hokies played valiantly, but the breaks in the game all went to the Hurricanes. A pass interference call on Davidson in the end zone gave Miami the ball on the one from which they scored to lead 7-0. Following several series of downs, Loria fielded a Collins punt on his own 5-yard line and raced 95 yards untouched to tie the score 7-7. The ensuing kickoff was fumbled and Bocko recovered on the Miami 25. A clipping...
penalty nullified a first down and set the Gobblers back to the 45 line. Kincaid fumbled and Miami took less than 20 seconds to score. The touchdown came on a pass-lateral play to Cox with Acuff getting the score. The second half provided no more scoring.
Kincaid caught in backfield.

Florida State and VMI Both Smash Hokies
Season Ends With Three Consecutive Losses

The Techmen, still shaken up by a rough Miami game, journeyed down to Tallahassee to suffer a 38-15 loss to the Florida State Seminoles. FSU’s All-American passing combination of quarterback Kim Hammond and flanker Ron Sellers was just too much for the Hokie defenses. The Gobblers yielded 390 yards passing, 229 of them were Sellers’, on way to suffering their worst defeat of the season.

Thanksgiving Day turned out to be the most tragic day for the ’67 Gobbler gridmen, Tech scored in the second quarter on a Jon Utin field goal, and held a 3-0 lead at halftime. The Keydets scored a TD in the third to pull ahead 6-3. Dickie Longerbeam sprinted 20 yards in the final quarter to bring back a lead for the Gobblers. But the stubborn Keydet team came back and scored another touchdown with 2:31 left and won the contest 12-10. The season was over... It ended in a bad way for Virginia Tech.

Frank Loria Becomes Tech's First Consensus All-American

Frank Loria, senior defensive back of the 1967 Gobblers, became the first Consensus All-American in Tech's history. In order to make the Consensus All-America team, an athlete must be named to the first team on at least four of the seven officially recognized teams: Frank Loria made it on all seven teams. Loria also represented Virginia Tech on nation-wide television four times. He was on the Bob Hope Show as a member of the Football Writers' All-America team and the Ed Sullivan Show as a member of the football coaches' team. His other two appearances were as a player on All-Star teams. He played in the East-West Shrine Bowl in San Francisco and in the Hula Bowl in Honolulu. In addition to all his honors on the football field, Loria also made the Academic All-America team.

On February 28, 1968, a day which was officially proclaimed "Frank Loria Day," Loria was honored by the students. A special award was presented to Loria at halftime of the Bowling Green basketball game from the Student Publications Board and the Student Government. The award was inscribed in the following manner: "FRANK LORIA . . . We, the students of Virginia Tech, thank you for bringing honors and recognition to our University." Prior to receiving the award at the game, Loria was honored at a banquet. The picture to the right was taken at the banquet. In it are Ray Yount, Publications Board Chairman, Bill Coulbourne, SGA President, Frank Loria, Lucy Minogue, The Virginia Tech News Editor, and Don Todora, The Virginia Tech Sports Editor.
Gobbets Beat Only VMI While Compiling a 1-5 Record

The 1967 edition of the Gobbets compiled a 1-5 record, their only win being a 28-22 victory over the Rats of VMI, which is a season in itself. Defeats came at the hands of powerful teams like Kentucky, Navy, and UVa. In their only two home games, the Baby Techmen were outclassed by Maryland and West Virginia. One of the bright spots of the team was the place-kicking of Jack Simcsak. He booted a 48-yard field goal against Navy.

Wayne Humphries follows his blocker.

Ivanac throws a pass.
Cheerleaders Add Spirit and Enthusiasm To The Game

The Virginia Tech Varsity Cheerleaders work hard throughout the year coordinating pep rallies and leading the student body in supporting the football and basketball teams. When the team falls behind and the fans become somewhat apathetic, it is the cheerleaders who must rally the students.

Cheerleaders were present at all 10 varsity football games this year and attended the majority of all the basketball games. These unofficial ambassadors from Virginia Tech have represented our University admirably throughout the year.

This year an effort was made to modernize the cheerleading squad by the acquisition of new sweaters and pom poms, and by putting more gymnastics into the cheers. The cheerleaders sometimes do not receive the recognition they deserve for their efforts.

The Freshman Cheerleaders are a small but dedicated group who avidly support Tech's freshman teams at home and away. Since the freshman football and basketball teams failed to gain a good winning record, their job has been especially difficult.
Soccer Club Posts A Strong 3-5 Record

The 1967 Tech Soccer Club experienced a frustrating season, losing five matches by one goal, and in only one game were the Hokies obviously outplayed.

The Tech team opened its season with a tough 2-1 loss at UVa., but came right back with a strong 4-1 win at home over VMI. Following a 3-1 victory over Morris-Harvey at Blacksburg, the Tech kickers traveled to Roanoke College and Eastern Mennonite, losing both games by 2-3 and 1-2 respectively. Returning home, the Gobblers lost a tough match to Washington and Lee on a penalty kick. After losing away to a strong Randolph Macon team, 1-0, the Hokies closed out with their first win ever over a Lynchburg Soccer team, 2-1.

The team’s record was misleading as to the team’s real strength. Inexperience and some bad breaks hurt the club this season, but with only two starters not returning, the 1968 team should have a better season, led by two-time All-State Selection Ron Evans, who scored 12 goals last season.

In addition to Evans, honorable mention was extended to Barry Baum, Tom Ramsey, Dave Sieg, and Price van der Swaag. The team is coached by Dr. Tom Martin.

Techman outmaneuvers opposing team member and heads toward goal.
Bench Deficiency and Road Games Obstacles for Techmen

The 1967-68 season was a trying one for the Virginia Tech Gobblers; one in which they were faced with two major problems: an inexperienced bench and a punishing schedule. The Techmen had a 26-game schedule: 16 road games and only 10 home games. And then, if that was not enough, the depletion of the squad during the course of the year added to the bench problems. Three players who were on the team opening day were not on the team at the season's end. One of these three, Ken Talley, left school after the first four games, leaving Tech without a starting center, but Dan Wetzel came off the bench to fill the vacancy. The other two left due to injury. Number six man Stan Kerrick injured his ankle midway through the season and was lost for the concluding nine games, and starting guard Chris Ellis sustained an injured foot in the Phillips exhibition and did not finish the campaign. At the end of the schedule only seven experienced Techmen were available for duty.

Three seniors were the core of the 67-68 edition of the Gobblers. Glen Combs, Ted Ware, and Wayne Mallard each supplied their own kind of leadership for Virginia Tech. Combs was the point man for the Hokies. From anywhere past the midcourt line, Combs was deadly. Ted Ware was the tower of strength for Tech under both the offensive and defensive boards. His timely layups and rebounding broke up several games. And Wayne Mallard was the scrambler of the team. Ball handling, scoring, and rebounding all were tools in Mallard's arsenal.

Tech Wins Only Three While Losing Six in December

Three road games resulting in three defeats opened the season for the Gobblers. A December 1, Friday-night game against Duke at Greensboro started the year for Tech, but Tech was not a team that night. Only Glen Combs had a good game as he scored a strong 32 points. The Gobblers led most of the way through the game and contained the Blue Devils until the final few minutes of play. Duke converted several late game one-and-one fouls and pulled ahead to win 74-66. The next night the Gobblers journeyed to Chapel Hill to suffer their second defeat. Again it was about the same story. Tech had a substantial lead throughout the game and lost it in the concluding minutes. Three Gobblers were hot from the field on this night. Combs ended the game with 27 points, Ellis with 19, and Mallard with 21. Larry Miller led his Tar Heels to the 89-76 victory by scoring 30 points. The tired, traveling Techmen then went on down to Alabama and were soundly stomped 92-70. The first victory came in the first home game. The Gobblers welcomed the friendly Coliseum court by defeating Wake Forest 71-67. The Christmas break and holiday tournament play brought more losses to Virginia Tech. The first loss was the departure of Ken Talley from school. The other losses were 90-77 to Yale at Charlottesville; and 97-64 to Brigham Young and 76-61 to Auburn in the All College Tournament in Oklahoma City. NYU fell 75-59 in the consolation of the Virginia-Virginia Tech Tournament at Blacksburg, and Tech also beat Idaho State 103-76 in the opening round of the All College.

Combs shoots from 25 feet out against Duke.

Tally screens for Ware.
Gobblers Open 1968 With

Combs shoots over Wm. & Mary's Sherwood.

Ware lays in two against Eastern.

Ware takes short jumper.
Six Consecutive Wins

After suffering through a bleak December, the Gobblers rallied for six consecutive wins opening the year of 1968. The first victim of the Tech New Year revival was Ohio University. In a game played on a cold January evening in Athens, Ohio, a balanced scoring attack led the Hokies to a 74-65 win. Next came the 84-82 victory over Virginia at Charlottesville. Again Tech had a balanced scoring attack with the top point man being reliever Stan Kerrick with 17. The Virginia Tech basketball team then journeyed to a strange place for Gobbler basketballers, the Tech Coliseum in Blacksburg. The Techmen were nearing the midpoint of the season with only two home games played. The Coliseum proved a welcome sight for Tech as they reeled off a 90-70 win over the William & Mary Indians. This win put Tech at the .500 mark for the first time of the season. The 80-71 win over the Spiders in Richmond jolted the Gobbler record to the winning side. Now Tech had seven wins and six losses, and they were riding a four-game winning streak. The starting five, Glen Combs and Chris Ellis, guards, Ted Ware and Wayne Mallard, forwards, and Dan Wetzel, center, were finally playing as a unit. Even the bench, Stan Kerrick, W. R. Deskins, Ron Wagner, and Dale Manuel, was developing. Next in line came an easy one for the Gobblers, Loyola of Baltimore. When the scoreboard stopped Tech had an easy 92-54 victory. The entire twelve-man Gobbler squad saw action in this contest with nine of them scoring. The sixth victory in the streak was over an extremely tough Eastern Kentucky team. Tech out-rebounded the then best rebounding team in the nation to gain this 84-74 victory. They also contained the Number One rebounder, Garfield Smith, on the way to the win.

Ware throws in two against outclassed Loyola.

Wetzel hooks for two over Maroon defender.

Kerrick pops in jumper.
After the good Eastern Kentucky win, the Techmen carried their six-game winning streak to Villanova, Pennsylvania, to tangle with a group of Wildcats who were also riding a six-game winning streak. When it was all over Tech was on the short end of a 78-61 score. A clamping Wildcat defense proved to be impenetrable for the Gobblers; in the second half, Guards Combs and Ellis scored 38 of Tech's points. Clemson, S.C., was a foul place for the Gobblers next game. In the 40 minutes of the basketball contest, 56 personal fouls were called, 29 of them on Tech. With four Hokies fouling out and another being injured, Tech had to play the concluding 4:42 without having a spare man on the bench. The Gobblers were accurate in their shooting at Clemson: they converted 35 of 39 free throws and 33 of 64 field goals to gain a 101-78 win. Davidson at Charlotte was the best shooting performance for the 67-68 Techmen. Tech had a 70.3 field goal percentage in the first half (19 for 27) and a 62.0 percentage at the end of the game (31 for 50); but they lost 81-76. Davidson's Rodney Knowles came off the bench to score 20 second-half points to lead his team to the come-from-behind victory. The traveling Techmen returned to Blacksburg to play their two big home games of the season: Toledo and North Carolina. A brilliant, unbelievable game by Gobbler guard Chris Ellis paced his team 76-65 over the Toledo Rockets. Ellis ended up leading the Tech team with 23 points and 10 rebounds. UNC, led by All American Larry Miller's 32 points, defeated Tech 80-70 in the game of the year. The game was not as close as the score, UNC had complete control.
A near block for Toledo's Mix.

Mallard concludes a fast break.

Ellis for a twisting two.

Watson goes up high against North Carolina.
Richmond and William & Mary Wins

Once again it's Ted Ware.

Combs battles Dixon for the ball.

Ware pulls down a rebound.
Give Tech State Title

The Gobblers did manage to salvage something out of the 67-68 season by winning the state title with a perfect 5-0 in-state record. A 91-71 win over Richmond and a 78-72 overtime win over William & Mary brought Tech this title. This was the eighth time in the last decade that Virginia Tech won the "Big Five" title. The Richmond game was one of those rare home appearances for the Hokies, 27 points by Combs, 24 by Ellis, 17 by Ware, and 14 by Mallard were enough to stop the Spiders; the rest of the team chipped in another eight points. The William & Mary game was played at Fort Eustis, and Tech had to go into an overtime period before they could stop the Indians. Combs was high man again with 30 points. The Phillips Oilers beat Tech 73-63 in an exhibition. In this loss Ellis got injured. Next came a home win over NCAA-bound Bowling Green. Combs pumped in a big 35 points on the way to the 77-71 win. And then came the Houston game and Elvin Hayes. The Cougars soundly defeated Tech 120-79 and Hayes had 51 points and 27 rebounds. The season finally ended at New Orleans against Tulane.
Just a flick of the wrist for Combs.

Ellis takes a twenty-footer.

Wetzel dumps in two at Duke.

BASKETBALL RESULTS
Houston and Tulane Losses End 14-11 Season For Tech

Toledo was big underneath.

Combs comes down with rebound.

Ellis drives down baseline.

The Techmen tore up Loyola.
Gobblets Upset West Virginia and Virginia in 4-6 Season

Coach Jim Hartbarger in his first year as freshman coach led the Gobblets to a surprisingly good 4-6 record. The Gobblets had a small team which was built around the shooting and scoring of 6-1 guard Lloyd King. Of their four wins, the Gobblets had two major upsets: West Virginia and Virginia. The first upset came midway through the season on a neutral court in Beckley, West Virginia. King led all scorers with 20 points while receiving support from Barker 17, Lockett 16, and Llaneza 16. The most satisfying win came 67-55 over Virginia at Blacksburg. Earlier in the season, the Cavayealings defeated the Gobblets 83-59 at Charlottesville. The other two wins were 52-49 over William & Mary and 60-58 over Richmond, both home games. The only team to defeat the Gobblets in Blacksburg was Wake Forest. The other defeats came to Duke, William & Mary (away), Richmond (away), and Davidson.
Lloyd King led Gobbler scoring.

Gobblers beat Virginia in Coliseum.

William & Mary is first win for the Gobblers.

King takes the long jumper.
1968 Wrestling

The Hokie wrestling team was perhaps one of the finest ever produced at Tech. Playing one of the toughest schedules in recent years, the Gobbler matmen fought to an 8-4 record. Newcomers to the Tech schedule included Tough Wisconsin, Iowa, and Duke. The remaining meets were rounded out by W.Va., UNC, Ohio, and Navy.

The Tech team was led by several individual standout. Leading the way to victory was senior co-captain Mickey Jarrell. Jarrell, a fast, strong lightweight, is noted for his fast pins. He finished the regular season with nine pins and a 12-0 record.

Another senior, Lonny Gallagher, finished the season with 9-1-2 record. Lonny, who is also a co-captain, won the New York Athletic Association Christmas Tournament and placed second in the Wilkes Open Tournament. These achievements qualified Lonny for the Olympic trials.

The Hokie matmen trounced UNC 31-6, while overwhelming Duke, Auburn and Ga. Tech. Tech lost a hard-fought contest to powerful Navy where Jarrell and junior Jack Stover posted Tech’s only wins. Stover also had an 8-2 season record. Perhaps one of the most satisfying victories came at the hands of W.Va., 24-71. The match featured Mickey Jarrell beating Cavalier standout John Shurberg 3-0.

The Hokies finished the season with a strong showing through hard work and effort. Tech's future looks bright as the B team posted a 6-1 record. Tech's outstanding freshman, John Friede, finished the season with a 7-2-1 record in varsity play.
Swimming Team

The 1968 Tech Swimmers came up against some stiff competition and lost a battle with the flu while compiling a 4-4 record. Despite the record, numerous school and individual records were set. VMI and Old Dominion College were among the opponents downed. On the other side, Tennessee, South Carolina and East Carolina, led by their All-Americans defeated the Gallant Gobblers.
Gymnastics Club

Gymnastics may have originated with the ancient Greeks, for records of their civilization show they placed great emphasis on gymnastic activity. The first gymnastics competition took place in Switzerland in the 1850's. The sport has steadily progressed since that time and in its modern form consists of competition in seven distinct activities: high bar, parallel bars, still rings, side horse, floor exercise, long horse vaulting, and trampolining.

During the Winter of 1966, a group of interested students under the supervision of Al Long, an instructor in the Department of Physical Education, organized the Virginia Tech Gymnastics Club. In two seasons of intercollegiate competition, the team has compiled a record of 6 wins and 3 losses, and in 1967 won the unofficial Virginia State Championship by defeating every major college in the state. In addition to competition, the team has presented exhibitions at half-times of regionally televised Tech basketball games and also at several area high schools. It can be truly said that Virginia Tech Gymnastics Club is an outstanding representative of the University.

Working out on the horse.

First Row: Kathy Miller, Debby Lough, Maggie Pybas, Casey Ham.
Third Row: Assistant Coach Bob Holland, Gray Greiner.

Track and Cross Country

The 1967 Spring Track Team opened with a disappointing showing in the S. Carolina Relays, followed by fine showings in the Colonial, Tennessee, and W.Va Relays (Tech lead all scorers). After winning its first two dual meets with Wake Forest and VMI, Tech lost to East Carolina, beat Marshall, and finished second to W & M in the state meet. During the season, Randy DeHart set a new mile record of 4 min., 12 sec., and Chris Nicholson tied the high hurdles mark at 14.08 seconds.

The Cross Country team enjoyed its third straight winning season, opening with a 22-36 victory over Kentucky, losing to East Carolina, 20-36, routing Marshall, 16-46, downing Wake Forest 24-37, trampling Old Dominion, 15-50, beating UVa, losing to Tennessee, 17-48, and beating archrival VMI, 17-44. High points of the season were a strong 3rd-place showing in the NCAA Regionals at W & M and a 2nd place in the state meet at Richmond.

The Indoor Track Team opened with a warm-up meet, the Chesterfield Relays, and followed with a fine showing in the VMI Winter Relays. Tech beat VMI in a dual meet, 62-50 (first time ever), and finished second to W & M in the state meet. Highlight of the season was a first place in the Chattanooga Relays by the Two-Mile relay team.

Cross country runners prepare for the start.

Cross country meets run on campus.

Gobbler hurdler clears hurdle with ease.

Techman readies for pole vault.
Virginia Tech baseball fans saw an excellent baseball team last spring in the 1967 edition of the Gobblers. The Hokies’ record of 14-11 does not truly reflect their ability. After some close early-season losses to such powerhouses as Georgia Southern, Florida State, and Alabama, the Techmen came on to win 10 games in a row in the middle of the season. Cold, rainy weather hampered practice and forced the postponement or cancellation of several late-season games. One highlight of the season was the back-to-back thrashings of 21-0 and 15-5 the Gobblers gave Castleton State. Sophomore Dean Hahn led Tech with his excellent pitching and timely hitting, including a grand slam home run in the bottom of the 9th inning to down Alabama 6-5. Outfielder Dick Shroy collected two of his many homeruns in successive innings, both with two men on base, in the 21-0 rout of Castleton State. Third baseman Tom Childress provided some thrills with his long-ball hitting. Catcher Johnny Oates was the best all-around player on the team. Not only did he hit home runs but he collected several perfect bunts and ran the basepaths like they belonged only to him. His defensive play was always aggressive. Oates signed to play with a pro team after only two years of college ball. He will be missed next year.
Hahn congratulated at mound following win.

1967 Golf

A well-balanced 1967 golf team from Virginia Tech won its unprecedented fourth straight Virginia Intercollegiate golf championship while compiling an outstanding 9-1-1 record. A loss to a very strong Ohio State team and a tie with powerhouse UNC were the only blemishes on the golfers' record. The team got outstanding performances from all of its members at various times, an indication of a team with great skill and depth.

The past three years, Virginia Tech's Golf Team has been led by All-American Tim Collins. In 1965 he made Third-Team All-American and in 1967 he made Second-Team. Collins compiled a fantastic 27-3-1 record in dual meets while leading Tech to three Virginia Intercollegiate Championships.

In 1967, Tim was tied for 5th in NCAA competition. The USGA team selected Collins as a member three years running. Coach Buchanan said of Collins, "He carried me for three years." What else can a coach say of one of his boys?
1967 Tennis

The 1967 raquetees of Virginia Tech compiled an unimpressive 5-7 record. But when you look further you discover why. Four of the defeats were by teams that were unbeaten. Jay Collins, our number-one player, was red-shirted so he would be able to play with an upcoming freshman next year. 1967 was a rebuilding year at Tech for tennis and a 5-7 record is very encouraging. The highlight of the season was that the number-one doubles combination of Lu Merritt and Preble Ware was undefeated. Next year the VPI netmen should win 80% of their outings. So a rebuilding year isn't all in vain, even if it does cost the team a winning record.

STUDENT LIFE

by

SPARKY HARCOURT
MARY GLOVER
Registration '68

Registration '68 presented the usual problems of long lines, canceled classes, empty pockets, and general confusion. This year, as in all years past, the freshman class grew as the largest class yet to enter Tech presented itself for registration. The freshmen weren't the only ones with problems; the upper classmen with their experience can't out-guess Mr. I.B.M.
This is the most painful part.

A coed meets Mr. I.B.M.

A mug shot and it's over.
Skipper sounds the Indians' retreat.

Governor Godwin.

The Spirit of Tech and the South.
Student Government weekend got off to a rousing start Thursday evening as returning students cheered the V.P.I. Gobblers on to victory. Friday night was highlighted by the Y.M.C.A. concert. Saturday afternoon found 23,000 spectators in Lane Stadium to watch the Hokies beat the Indians of William and Mary 31 to 7. The highlight of the day was the presence of Governor Mills E. Godwin and his party. Governor Godwin addressed the students and visitors at half-time and then crowned Anne Pepmeier Miss VPI 1968.

Student Government Weekend
And a soggy Band Day it was from start to finish. Marvin Gaye and Tammy Terrell warmed things up a bit Friday night only to have the situation return to its cold and wet beginning Saturday. Loyal Techmen looked on Saturday afternoon as Tech's finest fought Villanova and won 3-0. Techmen have long liked to be thanked for a job well-done, but the opponents had a strange way of congratulating Tech at the game's end.

It Was a Soggy Soggy Band Day
Soggy students watch a soggy game.

The scoreboard doesn't always tell the story.

Frank who?
Jim announces the queen and court.

Sheri accepts the role as queen.

A tribute to Tech from R Squadron.

From '72 to '68 the Spirit is the same.
Homecoming 1968

Tech's Homecoming for '68 promised to be a great one from the beginning. Soul singer Wilson Picket was on hand for the Friday night festivities. His inspiring soul sound drove its way into the souls of Techmen as they danced everywhere but in the streets.

Adding to the excitement of the concert was the crowning of the Homecoming Queen, Shari Baldwin, a cute, brainy sophomore who really dug the soul sound of that wicked Mr. Picket.
“A University Comes of Age”

A traditional part of the Homecoming festivities is the parade and the dorm displays. The weatherman cooperated in giving us a beautiful, clear October day. The famed Tech tractor force towed the floats down the Mall and around the Drill Field, displaying to students, faculty, and alumni that Tech has indeed come of age.
A football player takes shape as...

Students get the feeling as Wilson spills out the soul.

...Snoopy gets his nose.
Two couples plan as they dance.

Ned Guthrie made "Falling In Love" easy with his good music.

Burt Memphis entertained Colliers.

That special girl, good music, and any Taehman would be in Heaven.
Fall Formals at Tech for 1967 weren’t the same. The first night there was the usual formal dancing to the sounds of Burt Massengale for Cotillions and Ned Guthrie for Germans. But Saturday night things were different. The Swingin’ Medallions gave out with the sound of “You Drive Me Out Of My Mind” and Bill Deal and the Rhondels of Virginia Beach gave Techmen a taste of Tidewater soul sounds. When the dust had settled the solitude and dignity of Friday night had all but vanished. No one can say that Fall Formals, 1967 was a stereotype of past formals.

Fall Formals Provided Variety

“Tina” AUGH!

“Never, Trust A HICKER”

“Amen!”

“The Swingin’ Medallions” gave everyone a “Double Shot” at Cotillions.
Coeds On Campus

Up until 1967 we weren't large in number, but we've always been large in spirit. And now, with our increased numbers, the women of V.P.I. are able to play an even larger role than ever before in the campus activities.

There have always been girls interested in Engineering, Agriculture, Architecture, as well as Home Ec. and the Arts and Sciences, but now our numbers in the "unusual" professions have reached noticeable proportions.

In just about everything on campus you'll find a girl as an active, interested participant. And since we all know that girls sit in dorms, this section is designed to depict girls as they participate in classes, work, and extracurricular activities.

Marsha, Sandy and Carolyn Practice fashion design.

Katie Epley's designs are usually electrical circuits (and boys?).

Debbie Hammond's designs are of a different sort.
Ellen Brown works in the Dairy lab.

Sandy Smith—an active VPI coed.

Gretchen, Mary, and Brenda hold class at the barns.
Techmen voice their protest of chow.

Hurt!

High-flying Hokie.
Most students on the Tech campus usually find something that is extracurricular in which to involve themselves. Some exuberant students are already active participants in many things by the end of the first quarter of their freshman year. Others are not joiners by nature and join only one or two activities. But whether Technicians participate or spectate, they are always interested in what's happening on campus. Campus clubs range in variety from the Association of Married Students to the YMCA. Just about every interest, from clothes to mining, is covered by a group of people who have gotten together because they had similar interest and ideas, and formed clubs, societies, and groups. And their reasons for getting together range from the desire for more knowledge to the relaxation of social gatherings.
Vocal Organizations On Campus

In its second year of organization the University Choir once again gave Tech something to be proud of. At the Christmas concert they displayed not only their imagination but also their voices. They have appeared in several concerts including an Easter Sunrise Service at Natural Bridge. The choir was the first musical group on campus to use coeds in their group and to good advantage.

Not to be forgotten or left out is the Varsity Glee Club governed by the Tech Sirs. The Glee Club has to its credit, record albums, concerts by the score, and a victory over U. Va. in a "Battle of the Voices."

And now Tech has a new addition to its musical family, the University Orchestra, which has rehearsed diligently all year to reach the musical level of the choir and glee club.
The Tech Sire—the ruling body of the Varsity Glee Club.

The UNIVERSITY CHOIR, performing at its second Christmas convocation, mix religious and secular songs to the delight of Tech men and women.
A mixed vocal group starts off the University Choir's Christmas convocation.

University Orchestra and Choir

Intense concentration and split-second timing are rehearsed to provide beautiful music for the audience.

Shakespeare said that life is the stage where each man must play his part. In "The Marriage of Mr. Mississippi" some of the audience saw themselves too closely revealed while others saw not enough. Mr. Mississippi's ideals were such that he found that he could not live with them, at least not in this world. High ideals are a necessary part of life but if they go beyond it they can destroy the living. All this was portrayed in the play and provided an entertaining as well as a philosophical evening.
Mr. Mississippi.

Affection.

Brotherly love.

A hangman's greeting.
Winter Formals

Winter Formals were not as boring as these pictures might depict. The weather was cold, but the entertainment was hot. The Counts of South Carolina and the Contours gave those who attended second-night Cotillions a blast and a half as they rocked out with the greatest sounds of soul. Carla Thomas sang to the delight of those who attended second-night Germans. Again both social clubs followed the trend set Fall Quarter by having a romantic dance band Friday night and a swinging band Saturday night to set the pace up. Formals again gave Hokies some on-campus entertainment that filled an otherwise void weekend.
Tech and Culture

The culture available to Va. Tech this past year could be described as the widest variety yet to be presented to the V.P.I. campus. The newly formed Chamber Music Group sponsored the Early Music Quartet, who delighted their audience with classical playing and singing. Ferrante and Teicher played in Burruss Hall to a full house of enthusiastic listeners. They played such a wide variety of music, from classical to movie themes, that everyone found something of particular interest to them.

Another form of culture concerned the controversial political figures that appeared on campus. David Brinkley expounded on the U.S. and world situation with truthful, caustic comments backed up by a dry, humorous wit. Ex-Governor George Wallace visited Tech and spoke to the largest single group of Techman ever to assemble for a political speech. George Wallace was either agreed with or disagreed with, as so often happens when politics comes to V.P.I.
Goldwater speaks at Conflict.

Six inches of solid bone!
More Of Military Weekend

It's only a camera.

Hey what are those two doing?

Visiting cadet and date admire displays.
Military Weekend—that certain weekend of winter quarter where the many civilians take a backseat to the outnumbered cadets. But though the cadets are small in number, they are large in spirit. While most big weekends last from Friday evening to Sunday, the cadets get started on Thursday and are finished by Sunday. Thursday is "Rat Day" where the rats play upperclassmen for a day, Friday night is the Corps Variety Show—sometimes called the greatest gross-out next to the Gag Rag. But it has plenty of good talent and the jokes are all in fun. After the Variety Show there’s the Brawl where everyone drinks cokes and dances (Right!). Saturday night is Military Ball with the Queen of Military Ball being announced, And the Ball closes with fireworks and Silver Taps. Sunday everyone relaxes with that special girl before she leaves and the weekend comes to a close.
Sheep-shearing . . . the most back-breaking job in the world.

Jim Benson clips a steer's head as part of his classwork.

Susan whispers sweet nothings in a masculine ear?

Agriculture has long been a part of Virginia Tech, ever since its founding in 1872. Tech's "Aggies" come from Animal Science, Dairy Science, Poultry Science, and Agronomy departments. The "Aggies" learn the latest methods and skills in management, production, and disease control of livestock. The "Aggies" learn to fit and show cattle, sheep, and hogs, as well as how to raise them. The scenes on these pages show the preparation of an animal for the ultimate goal, winning the show. From practice and study they learn the knowledge and skills that will enable them to produce the food we will eat in the future.
Preparations end in the show ring.
Spring quarter has many events which in the past have been excluded due to time. Among these events is Tech Festival. This weekend hosted the exhibits and displays of companies in the state and organizations on campus, as well as a livestock show. In the past years the exhibits have come from the U.S. Army, N.A.S.A., shipyards and railroads, to name a few. These exhibits give students an insight as to the workings of these companies.
Tech Festival

Davis and the Grand Champion of the Little International.
A senior's last fling.
Warm Weather At Tech

Spring quarter means many things to many people. But to all of us it means warm weather, beer parties and the annual move of Hokies to the great outdoors. There are picnics and wiener roast. It's change of rank day and trips to the duckpond for that favorite upperclassmen or that special dorm daddy. Spring Quarter means Mountain Lake, New River and Cascades where Hokies can relax, enjoy the sun, that special girl and "what ever your name happens to be" beer. Or if you can't stand the taste of beer there are harder beverages on hand (like coke?—Sure!). Yes, Spring Quarter is the quarter Hokies tend to forget the serious side of college and indulge in the more mundane things of life.
SUPPORT STUDENT GOVERNMENT Boycott?
The Spring Goes On

A portion of Spring quarter, 1967 was devoted to a demonstration of student feelings on certain practices on campus. However, the parties that be don't seem to have responded to these activities. On the lighter side, Tech has added another to their "finest," a Rugby team which met Norfolk in a friendly match. Meanwhile, among all the goings-on, the Beach Boys and the Association gave performances which were enthusiastically received. All this went into Spring quarter, 1967.
Spring Quarter, 1967 brought a new type of entertainment to the Tech Campus. It took the form of the C.I.C. Olympics. Some students may think that C.I.C. stands for Civilian Interdormitory Council. Actually it stands for Con Innocent Coeds. Remember coeds, how you kicked, scratched, and bled for your favorite male dorm? But the spectators almost got more than they bargained for in the form of a rolling pin throwing coed with a wild side swing. But the boys gave as good as they took. Who could forget the gallant boys that helped their entry in the sack race by watering down the competition—with a water gun in the face of teams who were ahead of their favorites? But it was really a lot of fun and will be long remembered by those who participated.

1968 Ring Dance-The Best Ever

Ring Dance! These words have held a magic meaning for each VPI class since the first Ring Dance was held on April 27, 1934, by the class of 1935. After three years of anticipation of this "Greatest Weekend Ever," Sixty-Eight's moment arrived. Thousands of man-hours and thousands of dollars produced the most beautiful, sparkling, glittering decorations ever to grace the War Memorial Hall. A rich tradition of such top musicians as Skitch Henderson, Les Brown, Benny Goodman, and Larry Elgart was culminated on May 5 and 6, 1967, by Count Basie and his Orchestra.
1968 Ring Dance

Ring Dance is specially meaningful to members of the Corps of Cadets. In addition to receiving their rings, they also receive their sabres and wear the senior uniform for the first time.

Here we see a cadet and his date framed in the giant perfect replica of the ring. Opposite, cadets forming the sabre arch wonder if the right girl will stop in front of them, and below, well ...
 Civilians enter the gymnasium...

... and form their figure.
The Count's outstanding music was relayed through a complex network of electronic equipment.

Virginia Tech Corps of Cadets

The Virginia Tech Corps of Cadets consists of approximately 1300 men destined to be the military and civilian leaders of the future. Through the training and responsibilities of cadet life, a young man learns to work for people as well as with them. By beginning his cadet life as a freshman "rat" at the bottom of the ladder, the cadet learns to perform what is expected of him in his best possible manner. As he matures, in the academic world as well as in the military, he is assigned more and more responsibilities. By the time a cadet has reached his senior year in the Corps of Cadets, he is perfectly capable of handling his senior course requirements as well as performing an important and usually time-consuming position in the Corps. This ability to take on several different tasks at once and perform them all satisfactorily is what makes the cadet a well-rounded person and potential leader of the future.

The Corps is controlled exclusively by cadets with the only outside supervision being provided by the Commandant and his functional staff. The military organization of the Corps is actually one of a regiment and is thus controlled by a Cadet Colonel. The regiment is made up of two groups and two battalions. Each group is commanded by a Cadet Lieutenant Colonel and his staff and has four squadrons in it. The battalions consist of four companies each and are also commanded by a Cadet Lieutenant Colonel and his staff. These sixteen units, plus the athletic company and the Regimental Band, make up the framework of the Virginia Tech Corps of Cadets—a truly efficient military organization.
The Commandant of Cadets

The Commandant at work.

Major General F. T. Pachler.

The Commandant of Cadets, Major General F. T. Pachler, is a 1931 graduate of West Point. Among his many accomplishments are: Commanding General of the Seventh Division; Deputy Commandant of the National War College; and Chief of Staff U.S. Army Europe. For these and many other services he has received the Distinguished Service Medal, the Silver Star, the Bronze Star, oak leaf cluster Legion of Merit, and Commendation Ribbon. He has also been decorated by France with the Legion of Honor, Korea and the Philippines.

General Pachler certainly has shown his fine caliber and leadership capabilities as Commandant this year. He is a dedicated man who plans a bright future for the Corps and who has the determination to carry it through.

The crowning of the queen at Military Ball.
Color Guard

Each year the Corps of Cadets presents many colorful reviews and other various parades and formations. An integral part of these functions is the Color Guard. The Color Guard consists of five color corporals, who are chosen on the basis of their proficiency in military bearing. The Color Guard is made up of the sharpest junior cadets in the Corps, and it is quite an honor to be chosen for this position.

Regimental Staff

The Virginia Tech Corps of Cadets is organized into one regiment of approximately 1300 men. The Corps is entirely run within its own organization and therefore needs able leadership to meet the problems which present themselves throughout the year. This year the position of Regimental Commander was held by Ralph W. Mullins, an able military leader as well as a leader in university-wide activities. Second-in-Command was Raymond H. Barker, who performed the duties of Executive Officer on the regimental level. All of the officers who made up the Regimental Staff this year were of the highest caliber. Consequently, the Corps experienced many new changes throughout this year which improved its organization and maintenance.
Regimental Special Staff

Regimental Special Staff is composed of the Commandant's Aide, Scholastics Officer, Chief Justice of the Honor Court, Honor Council Chairman, Defense Attorney, and Prosecuting Attorney. These positions are part of a separate staff where each member can operate independently and mutually benefit the Corps of Cadets. The members of the staff carry out those tasks which are subsidiary to Regimental Staff and are essential to the operation of the Corps.

Special Staff is just a few years old, but the existence of such a unit is necessary so that the independent tasks of the staff can be more effectively performed.
The honor and respect of the Virginia Tech Corps of Cadets is maintained by the Executive Committee. The Executive Committee is made up of representatives from each class in the Corps, the freshman class also being represented. Throughout the year the Executive Committee conducts investigations and inquiries in order to maintain the image which the Corps of Cadets puts forth. This year, as always, the Executive Committee remained a dominant influence on the bearing of the Corps.
The finest anywhere they go.

Highly-Tightly

Hightly-Tightly

We are mighty.

Victory!
Known for precision marching?

Since its birth, the Virginia Tech Regimental Band has had a very proud history and has brought many honors to itself and VPI. In 1953, the Highty-Tighties won their first Presidential Inaugural Parade. This victory led to the unbelievable winning streak of three which has never been matched by another band. In President Johnson’s parade in 1965, the Highty-Tighties marched as retired champions since the parade is no longer judged.

Since VPI has no music department, the band is largely self-sufficient. The fact that the band has no paid musicians as do some schools is possibly more of an asset than a liability. The band is composed of people who know and enjoy music and who take great pride in working to make the Highty-Tighties the best band in the land.

Wait until tomorrow!
Squadron A

One of the first two units formed in 1872, "Flying A's" many achievements and distinctions have brought fame to the university. Two of these distinctions came from former captains of the unit. One, Captain Lloyds W. Williams, '07, coined our motto, "Retreat? Hell no! We just got here," in reply to an order to retreat at Chateau Thiery. The other Captain was the first Virginian to win the Congressional Medal of Honor. He also did this in World War I.

We became know as Squadron A in 1957 when the Corps was divided into Army and Air Force Units. Squadron A has lived, and will always live, up to its motto, "Retreat? Hell no! We just got here."

CHARLES E. ANDERSON, JR.
Commander

The lovely queen candidate from A.

The unit has always stood by its motto of "Deeds not Words," but this year the men of "B" are living it. This will be a harvest year for "B" with all sights aimed upon that elusive Gold Cord. Up until this year about all that "B" could claim with pride was the winning of the school Intermural Championship for the years of '65, '66, '67. Now, all the units in the Corps are taking note of our progress and watching it closely.

Over the year the men of "B" have accomplished many things, but the most outstanding development has been the race to get married in the Senior class. Within the next six months over fifty per cent of the class will tie the knot—"Deeds not Words!"

John Borden strikes!
Squadron C

Squadron C was first organized into an infantry company in 1887 but was changed during the 1956-1957 session, and Company C became Squadron C, its present title. Throughout the years Squadron C has excelled in all phases of Cadet life and has produced many outstanding units and men. During the past few years Squadron C has been cited as the most scholastic Air Force unit, the best all-around Air Force Unit, and was presented the Beverly S. Parrish Memorial Award. Squadron C has become a consistent winner in Group and Corps competitions and has placed first in the 1st Group for the past few years in succession. Squadron C will continue to carry on the traditions of the past and its members will continue to earn the right to be truly known as the "Tigers of C."

Dwight L. James
Commander

An old Corps tradition before Turkey Day.

"Praebate Exemplum" (Set the Example) is the motto of D Squadron and since its reactivation in 1948 that is just what "D" has done. D Squadron has a reputation of being rough on rats, but all the men of "D" are proud to have made it through a freshman year that was just a little bit harder. Our only humiliation is having to march in the wake of our next-door neighbors, the "little men" of "C".

Winning the Kohler Cup in 1967 as the best marching unit in the Corps, we will strive to do so again and also to win the Group Cord as we have many times in the past.

Second Battalion Staff

OFFICERS
Battalion Commander... Cadet Lt. Colonel E. Ray Yount
Battalion Executive Officer... Cadet Major Robert B. Hollett
Battalion S-1... Cadet Captain Fred E. Zepf
Battalion S-3... Cadet Captain Charles A. Gibbens

Thou shall not hear?

E. RAY YOUNT
Commander

Duck Walk
Organized in 1893 as the first battery in the Corps, Company E continues in tradition and spirit. This year they are wearing the Battalion Cord for the third consecutive year. Under the leadership of William G. Ferguson, they are out to do the same again next year.

"Ole E," as they have been called in the past, leads the Corps in other phases of cadet life, too. They usually place in graded reviews and lead the Corps in Hat Tricks at Football games. The men of "E" are always up to something and Regimental Staff is Always in Rasche, but then their motto "Illegitimus non Carbo-rundum" seems to rise to the occasion.

WILLIAM G. FERGUSON
Commander

The aftermath of RAT DAY.

In looking over the past years, we of the Company fondly known as F Fraternity, F Troop and anything else the "F" stands for (friendly, maybe) remember the Homecoming displays won and the Corps Variety Shows won; but most of all we remember the Hell-Raising parties.

In the course of our short life we have faced many a hardship and trying time, and even threats of disbandment of our beloved company, but "F" had endured and will continue to endure. With a sad heart and fond memories the present Company F sees the departure of its distinguished leaders: Mother, Bad, Poof, Spanish, Gillipus, Daddy, Big John, Tongue and Hairy.

ROBERT DICKENSON
Commander

Company G

This year's Senior class is the first class to go through four years in the Corps under the voluntary system. In connection with this system, the Seniors in "G" this year have worked up a system to utilize all the personnel in the unit to carry out the functions of the company. A report on our sophomore system was submitted to the Commandant and received a commendation of excellent.

Of course no program can be implemented without quality personnel to carry it out and a combination of discipline and cooperation has made "G" the most military company in the Corps.

Commander

Change of rank day.
"I" Company was founded in 1927 with the organization of the Third Battalion in the Corps of Cadets. In 1933 Company I became Battery I and was designated a coastal artillery defense unit. In 1948 the Corps was again reorganized and Battery I was once again a company.

"I" has won many awards since its founding. The Beverly S. Parish Memorial Award, first given in 1956, is presented annually to the best drilled and informed unit in the Corps. "I" won this award two consecutive years, in 1964 and 1965. In 1966 the Army R.O.T.C. Department first presented an award to the Army company achieving the highest combined score on the P.C.P.T. test and the obstacle course. "I" has been the only company to receive this award.

Company K

With the organization of the Third Battalion of the Corps of Cadets in 1927, Company K first came into existence. "Golden K" has a long, distinguished history as being one of the top companies in the Corps. One of the most outstanding achievements of the Company is the winning of the Beverly S. Parrish Award four times. This award is given to the best drilled and informed unit each year, and is the highest award made in the VTCC. It has been awarded since 1956, and during this time no other unit has won it more than twice.

Now commanded by Cadet Captain Paul K. Mattingly and Cadet First Lieutenant James P. May, Company K has only one goal; "Onward and Upward."

PAUL K. MATTINGLY
Commander

Company L

The caliber of the graduating classes in the past has demonstrated that "Company L's" interpretation of the regulations of the Corps will produce spirited, competent, and intellectual military leaders and civilians. Under the leadership of Patrick V. Terranova, Company L. is once again showing its adeptness in athletics, foresight in leadership, and fulfillment of academic qualifications. This is typified by our many night field training exercises in the area of "Big Baldwin's." Let no one say we don't present a unified effort in all fields of endeavor.

Patrick V. Terranova
Commander

Since its founding in 1928, Company M has a history of high achievement and tremendous pride. Big Mike not only produces men of high caliber with good leadership qualities, but also has an atmosphere conducive to academic excellence. Company M is continuously represented among the honors of the best units. This was shown last year when Big Mike won Eager Squad and Kohler Cup within the Third Battalion competition. Big Mike, through ambition, spirit and cooperation, will live up to their motto "All The Way" by coming out on top in 1968, their 40th anniversary.

RICHARD G. KEEFER
Commander

Fourth Group Staff

OFFICERS
Group Commander: Cadet Lt. Colonel Oscar B. Taliaferro
Group Executive Officer: Cadet Major John H. Howell
Group S-1: Cadet Captain Wallace F. Pickard
Group S-3: Cadet Captain James B. Tapp

VPI Fire Department

OSCAR B. TALIAFERRO
Commander.

A familiar sight.
This year under the able leadership of William C. Tienken and an unusually militarily-oriented senior class, N Squadron moved rapidly in its backward surge to oblivion. Actually, although "N" it not known for its marching abilities, or any military abilities for that matter, its members learn other valuable lessons. The freshman system, one of the stiffest in the Corps, teaches self-discipline and gives the participants a feeling of accomplishment. Even if it does not give its members a full military education, "N" does help to create well-rounded individuals, this embodying one of the main goals of a college education.

WILLIAM C. TIENKEN
Commander

Squadron O

Today’s Corps combines the comradship and tradition that is a perpetual part of military societies with a flexible contemporary outlook necessary in an academic environment. More than any other unit, “O” Squadron has mastered the complexities of change and since her conception in 1950 has continued to lead the Corps. “O” Squadron places high in all fields of endeavor. “O”’s performances on Homecoming displays and Corps Variety Shows are equaled only by her triumphs on the intramural and academic field. Latest winner of the Gold Citation Cord and presently guided by the leadership and enthusiasm of her four classes, “O” pursues the Gold once more.

CLEMENT E. PEED
Commander

Upperclassmen play the role on Rat Day.

R Squadron was founded in 1962, making it the youngest and newest unit in the Corps. This factor, however, has not deterred this unit from compiling a record of awards and honors befitting the finest unit in the Corps. In six years of existence, "R" has won the coveted Kohler Cup twice, two group citation cords, and came within two points of winning best unit in the Corps in 1965. It has also contributed three award-winning Homecoming displays, including the best in the University.

This small but spirited unit, although not rich in history, has contributed much to advance the Corps with many capable leaders, and, most of all, it has supplied, as does the entire Corps, the world with confident leaders, officers and gentlemen.

WILLIAM H. SNODDY
Commander

Squadron S

Squadron S, although organized only nine years ago in 1957, has established itself as being one of the most closely knit and best-drilled units in the Corps. Displaying an extraordinary amount of team effort, S Squadron succeeded in winning the Homecoming display for three consecutive years, in 1960, 1961, and again in 1962. Consequently, in 1963 they were presented the "Esprit de Corps" award. Demonstrating superior knowledge of drill techniques, the Squadron was awarded the "AFROTC Best Drilled Trophy" for 1964. The pinnacle of success was attained when S Squadron won the Kohler Cup in the Spring of 1964. Squadron S, fielding superior sophomore flights, won Sophomore Flight Competition in the Fourth Group in the fall of 1965 and again in 1966.

Company T

T Company was formed in 1962 along with A Squadron in the 4th Group. It replaced H Company as the Corps athletic unit, with H subsequently joining the 2nd Battalion. This year, led by star defensive back Jimmy Richards, the "T"-men proudly represented VPI on the athletic, drill, and academic fields.

JAMES B. RICHARDS
Commander

Ranger Company

To Learn, To Fight, To Win

These few words embody the single, unified effort of the VPI Ranger Company: the creation of competent combat officers. To attain this goal the sixty-four-member unit undergoes intensive training in the military arts. Classroom instruction, emphasized by practical application, is given almost entirely by members who have become proficient in the skills they teach. Included in the training schedules are the following courses: physical fitness, repelling, hand-to-hand combat, small unit tactics, guerrilla and counter-guerrilla warfare, logistics, land navigation, communications, and military history. The Wearers of the Black Beret are proud of themselves, their unit and their country at a time when spirit and patriotism seem to be going out of style.

The organization which handles and represents the interest of the BUGLE, the "Virginia Tech," "WUVT," and the "Maelstrom" is the Publications Board. Its primary function is to promote, supervise, and coordinate all the recognized student publications at VPI.

The Board is composed of the editors-in-chief, business managers, and faculty advisors of the four publications, a financial advisor, and the representatives from the Student Government, Pi Delta Epsilon (honorary journalism fraternity), and the administration.

This year the Publications Board has been coordinating its activities with the Student Board and has helped "WUVT" purchase a new control board.
1968 Bugle

Under the leadership of Ray Yount, the 1968 BUGLE marked its seventy-second publishing. The BUGLE, or BUNGLE, as it is known by the staff members, encountered and overcame many minor obstacles before it was completed. Problems of redoing pages several times and coming up thirty-five pages short one week before the deadline were typical. Even then the BUGLE had been completely revised to include five full-color foldouts.

Finally after numerous late nights and Sunday afternoons for Ray Yount, John Tressler, Gary Gross, and the many editors and staff members, another BUGLE was sent to the presses before the final deadline so that the students could have a complete story of campus life in pictures.

Judy Swecker, Administration Editor
The Virginia Tech

This year marks the second year that The Virginia Tech is situated in the old elementary school building. It is also the second successful year for the bi-weekly issue.

This year there has been marked improvement in the quality of the newspaper despite a shortage of staff members. The Virginia Tech has become more involved with student life, controversial issues and the administration. This involvement is due to the writers who feel that they must express themselves on the issues of today.

This fine staff deserves a mark of distinction for the excellent work they are performing for the students and the school.
The Feature staff is preparing articles for the next edition.

"Maelstrom", Va. Tech's literary magazine, has emerged as a different outlet in the area of publications on campus. This literary magazine encompasses the contributions from the students, faculty members, and alumni, and outside contributors. It is a sixty-four page magazine with a broad sampling of prose, poetry, and art work. "Maelstrom" also contains special sections donated to guest contributors. This cultural ambassador for Va. Tech is completely instigated and edited by students. It welcomes prose, poetry, essays, book reviews, short stories, photography, and graphic arts.
WUVT

Virginia Tech Radio Station, WUVT, celebrated its twentieth year of broadcasting during the school year 1967-1968. The station’s control room was completely redecorated by adding everything from wall-to-wall carpeting to a new control board.

WUVT became one of seven college stations in the country to be granted full affiliation with the Mutual Broadcasting System, which supplies Tech students with live news and sports from around the world hourly. A second fully-equipped studio was constructed for production work, thus allowing WUVT the ability to broadcast twenty-four hours a day, seven days a week.

WUVT has emerged and established itself as one of the country’s finest college radio stations due to its General Manager, Jim Camicia, and its Business Manager Bob Ridle.

The Arnold Air Society is composed of cadets enrolled in advanced AFROTC who have distinguished themselves by their academic, military, and leadership achievements. The Society is dedicated to the advancement of air power and the furthering the ideal of the U.S. Air Force.

The Society is named after General H. H. Arnold, Commander of Allied Air Forces in World War II and a five star general in the U.S. Air Force.

The Squadron was formed in January of 1949 and was designated Squadron A-2 because it was the second such squadron to be formed in the nation.

Gamma Lambda Chapter of Beta Alpha Psi is Virginia's only chapter of this national honorary and professional Accounting fraternity. Virginia Tech's chapter was established in the spring of 1967. The Fraternity has been active in bringing outside speakers in Accountancy to the campus; also the members are active in presenting programs on Accountancy. Both student and faculty are members of the Fraternity. The student membership is restricted to juniors, seniors, and graduate students who have achieved a high degree of academic performance in the field of Accountancy.

Alpha Pi Mu

Alpha Pi Mu is the National Honorary Industrial Engineering Society. It is composed of Juniors in the upper one-fifth of the class and of Seniors in the upper one-third of the class.

As one of Tech's most active organizations, Alpha Pi Mu sponsored a departmental teacher evaluation program, and a highly successful student-faculty discussion panel where faculty and students could ask questions and air complaints. In addition to this, the Fraternity also helped with a Homecoming float and was instrumental in the preparation for the regional A.I.I.E. Conference held at Tech this year.
Block and Bridle Club

The Block and Bridle Club is composed of any student who has expressed an interest in some phase of Animal Husbandry. The Club's objectives are to promote a higher scholastic standing among students in Animal Husbandry and bring about a closer relationship among Techmen who are interested in the field. It supports the V.P.I. Student Livestock and Meat Judging Teams and holds a Livestock and Meat Judging Contest. The highlight of the year is the Little International, a student livestock show at Tech Festival.
Garnet and Gold

The Garnet and Gold is one of Tech's newest honoraries. It was first established in 1966 to promote and maintain the academic honor of all women. It also encourages high scholastic achievement and significant service contributions to campus life.

Membership is composed of outstanding coeds who have maintained a 3.7 overall average in their freshman year, a 3.4 in their sophomore year, or are in the upper 25% of the Junior and Senior class and have at least a 3.0 average.

Activities this year included the second annual Homecoming Breakfast at the University Club honoring Miss Maud E. Wallace, first recipient of the society's "Torch Award."
Eta Kappa Nu

Eta Kappa Nu is the National Honorary Fraternity of outstanding Electrical Engineers and was founded at the University of Illinois in 1904 and Tech's Beta Lambda chapter was formed in 1940. Eta Kappa's purpose is to foster a spirit of liberal culture among the members and to distinguish those who have conferred honor upon VPI by distinguished scholarship leadership, and superb character; and to aid these students in progress through association with alumni and faculty.
The purpose of Omicron Delta Kappa is to recognize achievement and leadership in all phases of student life. Membership is composed of those who show exemplary character, leadership, and service. Through recognition of these qualities, ODK brings together members of the student body and the faculty in a cooperative effort of service and leadership.
Monogram Club

Membership in the Va. Tech Monogram Club is awarded to those male students who have been awarded a monogram by the Athletic Council. The purpose of the club is to maintain a close bond of fellowship among varsity athletes, to foster and promote athletics and to contribute to the general welfare of the student body.

The club also sponsored dances after the Homecoming game and after several of the basketball games. It also works with the Blackburg J.C.'s in the sandlot baseball, basketball, and football programs, and has a picnic for members and guests in the spring.

The Gregory Guard

The Gregory Guard is the most outstanding and best-known military honor society on campus. It is named in honor of Sergeant Earl D. Gregory, Virginia Tech's Sergeant York. A graduate of VPI, Sergeant Gregory was the first Virginian to receive the Congressional Medal of Honor.

The Guard is composed of members of the Virginia Tech Corps of Cadets who excel in scholastic and leadership ability, and possess excellent character.

The many activities of the Gregory Guard include participation at Homecoming, Armed Forces Day parades, and Military Weekend. It also participates in the Azalea, Apple Blossom, Cherry Blossom, and Dogwood Festivals.

Phi Kappa Phi

The purpose of Phi Kappa Phi is to recognize scholarship and character in the thoughts of college students. Its membership is composed of elected Juniors in the top five per cent of the class and Seniors in the top twelve-and-one-half per cent. The Society offers each year a $3,000 national fellowship and a local chapter award to the top-ranking Senior in each college of the University. Quarterly congratulations are mailed to each resident student in the University the first time his name appears in the Honors List.
Kappa Theta Epsilon

The Co-Operative Engineering Society was founded to promote public interest in the cooperative program and to recognize those co-op students who have distinguished themselves through their scholarship, integrity, breadth of interest and adaptability.

The membership requirements are Junior or Senior standing and a 3.0 average or better. The program includes the following curricula: Aerospace, Chemical, Civil, Electrical, Industrial, Mechanical, Mining, Metallurgical Engineering, Engineering Mechanics, Forestry and Wildlife, Mathematics, Physics, Accounting, and General Business.

Alpha Zeta

Alpha Zeta is the National Agricultural Honorary, Tech's chapter was founded on May 24, 1932, to promote high standards of scholarship in the Agricultural curricula. Membership is open to students in the upper two-fifths of the class who are of outstanding character. The Fraternity operates a book exchange board and holds the champion trophy at the Little International.

Chi Epsilon

The purpose of the Chi Epsilon Fraternity is to contribute to the improvement of the Civil Engineering profession as an instrument for the betterment of society. It also strives to recognize the fundamental characteristics of the successful Civil Engineer and to aid in the development of those characteristics, and to encourage any movement which will advance the interests of Civil Engineering.

The activities of the Fraternity included a successful Homecoming candidate and several banquets for the induction of new members. To be eligible for membership the student must have completed one-half of the work required for the Bachelors Degree in Civil Engineering and rank in the upper one-third of his class.
The Association of the United States Army is an honorary organization of Senior ROTC Cadets. The VPI Company, which was formed in 1958, is composed of those who show a sincere and lasting interest in supporting the role of the U.S. Army in our national defense.

The purposes of the A.U.S.A. are to contribute its full resources and capabilities to advance the security of the United States, to find incentives for increasing military skills, to increase general Army background, and to provide for the exchange of information and ideas.
Phi Eta Sigma

Phi Eta Sigma is a national honorary fraternity of freshman men. The Tech Chapter was formed in May of 1966 and now has a total membership of well over 300 members. The purpose of the fraternity is to reward scholarship and to promote student achievement. A 3.5 Q.C.A. is required for membership.

The Fraternity is an active one, sponsoring student tutoring and presenting incoming freshmen with study guides. The local chapter gave $150 in scholarships this year and each member becomes eligible for a $350 national scholarship upon his graduation.

Included in Phi Eta's honorary membership are: Deans Brown, Dean, Hill, and Mangus who is the faculty advisor. Also included is Dr. Hahn, Dr. Brant, and six academic Deans.
Sash and Sabre Society

Outstanding members of the Virginia Tech Corps of Cadets with at least a 2.00 grade average, who are of good military standing and reflect credit on the corps and hold no ROTC contract, are members of the Sash and Sabre Society.

The Society purpose is to provide a common bond between its members, to provide them with incentive to improve the corps and VPI, and to stimulate interest in the armed forces of the United States.

Alpha Kappa Psi

Alpha Kappa Psi is a national professional Fraternity in Commerce and Business. The Beta Xi Chapter was installed at VPI on February 18, 1939. The aims of the Fraternity are to "... further the individual welfare of its members; to foster scientific research in the fields of Commerce, Accounting, and Finance; to educate the public to appreciate and demand higher ideals therein; and to promote and advance in institutions of college rank, courses leading to degrees in Business Administration."

William Anderson  David Fairhurst  Preston Harrison

Douglas Hough  Amos Irwin  William Matek  William Penoe

Alpha Sigma Mu

Alpha Sigma Mu was founded at Michigan College of Mining and Technology in 1932, by the faculty of the department of Metallurgical Engineering, to recognize those students in metallurgy and/or metallurgical engineering who have attained high rank in scholarship and who possess exemplary character. The Tech chapter was formed in 1941.

Membership in Alpha Sigma Mu is highly coveted and requirements are quite stringent. A student must be in the top one-third of the engineering college and in the upper one-fourth of the students in metallurgical engineering. The prospective member must also possess leadership, be of excellent integrity and show strong initiative.

First Row: B. Kuhn, III; Vice-President; J. Hammond, III; President; R. Haasbauer, Secretary-Treasurer. Second Row: P. F. Brad, N. Coats, II; T. Carroll, S. J. Depkins.

Sigma Gamma Tau

Sigma Gamma Tau is a National Aerospace Engineering Honor Society. It was founded at Purdue in 1953 to honor and recognize those who have, through scholarship, integrity or achievement, been a credit to the profession. The Society seeks to “foster a high standard of ethics and professional practices and to create a spirit of loyalty and fellowship.”
Sigma Mu Sigma is a national service Fraternity. Tech's chapter is one of six chapters. The Fraternity's purpose is to promote among its members an adherence to high standards of honesty and integrity, a feeling of brotherhood and fellowship, and a reverence for God by promoting the ideals and philosophy expressed in the Declaration of Principles. Membership is open to any person who is recommended by a brother and acceptable to the pledge committee.

Chartered in 1957 the VPI Post of S.A.M.E. is an honorary society for cadets enrolled in Engineering, Physics, Chemistry, Architecture, or Forestry. The cadet must have a 2.25 overall Q.C.A. and must have demonstrated an interest and ability in Engineering and the Corps of Cadets. The purpose of the Society is to advance the knowledge of the science of military engineering, and to develop cooperation among military and civilian engineers.

This year’s activities included Spring and Fall initiations, two banquets following pledge week, and the sponsoring of a film and speakers from the Army Corps of Engineers and industry in general. The highlight of the year was the winning of the “Distinguished Post Award of 1967.”
Delta Sigma Pi

Delta Sigma Pi is a national professional Business Administration fraternity. Membership is restricted to those undergraduates in the College of Business with a 2.1 Q.C.A., or greater who show an outstanding interest in Business. The purpose of the Fraternity is to help students become associated with the business world. The Fraternity's activities include several speakers from the business world and a field trip to Shenandoah Life.

Pi Delta Epsilon

Pi Delta Epsilon, the oldest national collegiate journalism fraternity, was founded at Syracuse University in 1909. The Virginia Polytechnic Institute chapter was established in 1930, making it the second-oldest fraternity on campus. The local chapter was instrumental in establishing the ODK leadership fraternity on campus in 1933, and has many worthwhile projects to its credit.

Students considered for membership must have worked for a student publication for at least three quarters, be at least a third-quarter sophomore, and must have made significant contributions to their respective publications. To those students who sacrifice the lighter pleasures of college life to produce Tech's fine publications, the student body owes much, and it is a reward to those student workers that they become members of Pi Delta Epsilon.
Pi Tau Sigma

Pi Tau Sigma is the national honorary Mechanical Engineering Fraternity. It was founded to establish a closer bond of fellowship, which will result in mutual benefit, among those men studying Mechanical Engineering.

Membership is given to those elected individuals who have demonstrated by their academics or practical achievements a real interest and marked ability in their chosen field. They must also rank in the upper 35% of their Mechanical Engineering class.

In November of 1961, Phi Sigma Xi, Forestry Honorary Society at VPI, petitioned Xi Sigma Pi for a charter authorizing establishment of a chapter of the National Fraternity at VPI.

This charter was granted and Pi Sigma Xi was taken into the National Fraternity as the Chi Chapter of Xi Sigma Pi on October 26, 1962.

The purpose of Xi Sigma Pi is to secure a high standard of scholarship in Forestry Education, to work for the building of interest in Forestry, and to promote fraternal relations among the members.
Sigma Gamma Epsilon

The membership of Sigma Gamma Epsilon is composed of students in the earth-science field. Earth-science includes Mining, Geology, Metallurgy, and Ceramics. It is devoted to uphold high standards of scholarship and leadership, its activities include sponsoring lectures by outstanding men in the earth-science field.

First Row: A. Raugh, Corresponding Secretary; P. Reed, President; G. Feigens, Secretary-Treasurer. Second Row: J. Hannon, B. Kuhn, III, T. Bell, R. Heiberle, Jr.

Sigma Lambda Chi

Sigma Lambda Chi is the Beta Chapter of the National Fraternity of Light Construction Engineers and Building Material Merchandisers. This fraternity seeks to develop and promote leadership, character, scholarship, and fraternal relations among its members.

Membership in Sigma Lambda Chi is awarded to juniors and seniors who have exhibited outstanding scholarship in Building Construction. To meet the requirements for membership, one must have a Q.C.A. of 2.5 or above.

Names of the new members of Sigma Lambda Chi will appear on a plaque in the new Architectural Building.

Members: G. Deming, E. Babcock, R. Williams, Prof. W. Favero, Prof. R. Larimor, R. Dehart, C. Belt.
Scabbard and Blade

Scabbard and Blade, A National Military Society, was organized at VPI in May of 1938. Company L, 7th Regiment, as the Company is designated, seeks to promote ideals that contribute to the development of those qualities necessary in an officer and gentleman.

The society's most valuable service on campus is its sponsorship of one of the highlights of winter quarter, the Military Ball. In addition, Scabbard and Blade chooses an outstanding sophomore, outstanding junior, and an outstanding senior NCO for recognition by the Corps, and it engages in a military exercise in the spring and fall.

Tau Beta Pi

Engineering students are not eligible for membership in the nation's "leading" honorary, Phi Beta Kappa. Therefore, Tau Beta Pi was established to honor outstanding engineering students. Tau Beta Pi is one of the most respected honoraries in the country today and holds prestige that is equaled by none.

To be eligible for membership, one must be in the upper one-fifth of his senior class or upper one-eighth of his junior class. Women are not eligible but may be awarded the "Woman's Badge" in recognition of outstanding achievement. The purpose of Tau Beta Pi is to recognize those who have conferred honor upon their Alma Mater by distinguished scholarship and exemplary character.
CURRICULAR CLUBS

by
JAMES GWATKIN III
MARIE CHRISTINE NOBLE
Society of Co-ops

Students enrolled in the cooperative education program found assistance in the Co-op Society. While working in industry, students were mailed copies of the Virginia Tech and a special co-op newsletter prepared by the members. They also sent Ring Dance information to juniors in industry.

The society exists to act as a liaison between the administration and the co-op students, to promote fellowship within the society, to aid students in adjustment to college life, and to promote public interest in the cooperative education program.

Students in classes also sponsored social activities and a detailed study on the possibility of a co-op dormitory.

Unlike other students, co-ops were only subjected to registration twice a year.
The American Society of Agricultural Engineers promotes its professional practice and ethics in mechanical engineering by encouraging research, engineering education, advances in engineering, and a high level of practice. To encourage these goals, the club has active programs: they have sponsored trips to the Celanese Corporation, the Radford Arsenal, and Smith Mountain Dam. While they participated in the 1967 Regional Conference at Myrtle Beach, South Carolina, they won four awards, among which were the first and fourth places for technical papers presented by V.P.I. students. Membership in the A.S.M.E. is open to any student in good standing in any approved engineering curriculum.

The American Society of Mechanical Engineers promotes its professional practice and ethics in mechanical engineering by encouraging research, engineering education, advances in engineering, and a high level of practice. To encourage these goals, the club has active programs: they have sponsored trips to the Celanese Corporation, the Radford Arsenal, and Smith Mountain Dam. Membership in the A.S.M.E. is open to any student in good standing in any approved engineering curriculum.
The aims of the American Institute of Aeronautics and Astronautics are to promote the ideals and concepts in aerospace engineering and to acquaint students with the aerospace profession. To achieve these goals, this year, the AIAA has sponsored film forums and various industrial speakers; several members of the club have attended the Regional Conference in Atlanta. This organization offers membership to all Aerospace Engineering students as well as other related engineering curricula students.

First Row: C. Thomas, T. R. Rai, Special Committee Chairman; P. C. Ramsey, Publicity Chairman; J. A. Vaughan, Membership Chairman; S. J. Chowney, Treasurer; C. Roes, Jr., Vice-President; T. R. Twiddale, President; T. M. Miller, Secretary; E. C. Wilkinson, Jr., Program Chairman; C. E. Morris, Jr., G. E. M. Committee Chairman; J. M. Betts, Jr.
American Society of Civil Engineers

The American Society of Civil Engineers is composed of mostly juniors and seniors in civil engineering, although open to all classes. They work to acquaint students with the many opportunities of civil engineering, to offer the opportunity for the beginning of professional associations, to promote conformity to a code of ethics, and to develop attitudes intrinsic to the profession. Membership in the club also offers the student the opportunity to take part in the activities carried on by future leaders of the profession and relates the professional development of the students to the achievements of the A.S.C.E.

Activities included conventions, field trips, movie days, symposiums, a homecoming float, a Tech Festival exhibit and the successful sponsorship of Sherry Baldwin for Homecoming Queen.
Institute of Electrical and Electronic Engineers

First Row: Aaron Soleske, David Kroop, Charles Butler, Secretary; Arthur Reilly, Vice-President; Stan Connell, President; Edward Kuebert, Treasurer; Dennis Newell, Donald Johnson, Warren Soleske.

Promoting professional interest on the part of students pursuing an electrical engineering degree, the members of the Institute of Electrical and Electronic Engineers were active.

They brought guest lecturers from the National Aeronautics and Space Administration, General Electric, Westinghouse and General Dynamics for programs, and went on a field trip to IBM. They also sponsored a student-faculty dinner and dance and a Tech Festival Project.

American Institute of Chemical Engineers

First Row: Gene Rudd, Junior Class Representative; Paul Latour, Secretary; Lawrence Wilson, Treasurer; Ralph Herbert, President; Robert Luckner, Vice-President; Barry Fein, Senior Representative; Lowell M. Golub, Senior Representative and Publicity. Second Row: R. Caudill, Walter Brand, William Herkins, James McConnell, Steven G. Williamson, Peter Bolach, Boyd Unterman. Third Row: Ed Nuemmbs, Ralph Grizel, Andrew Thompson, Andrew Rhodes, Tom Hensley, Jerry Russell, Yan Pui To, AAE Representative.

Striving for the advancement of Chemical Engineering theory and practice, and the maintenance of high professional standards, the members of the American Institute of Chemical Engineers are active in a number of ways. They participate in Homecoming weekend and have active interests in Tech Festival. The club also holds special seminars for chemical engineering students and an annual spring quarter banquet.
Members of the American Institute of Industrial Engineers strive to extend the industrial engineer's knowledge in his field of study and his relation to society as a whole. There were joint meetings with the senior chapter of AIIE as well as regular meetings in which guests from industry spoke.

For homecoming, they sponsored Jackie Davis for Homecoming Queen candidate, entered a float and held a coffee for Industrial Engineering Alumni.

Plans were also made for the 1968 National AIIE conference held at Tech in March. Also held were a fall picnic and a "Faculty-Senior" football game.

Those in the Engineering Mechanics curriculum make up the Engineering Mechanics Society. Members sought to increase their technical knowledge through films and lectures. Among the activities were a fall and a spring picnic, a student-faculty football game in October, and a banquet at Landy's restaurant in which the outstanding professor award was given to Dr. H. F. Brinson.

Lectures included "The Shape of Things to Come in Engineering" by Professor Robert Whitelaw from the Mechanical Engineering Department and "The Nuclear Engineering Department at Tech" by Dr. A. Robeson.
The Association for the Advancement of Engineering works to act as an engineering sounding board and to work with the Dean of Engineering. The club is made up of one junior and one senior from each of the engineering curricula.

Some of the year’s activities included the sponsorship of the Visiting Scholar Program in Engineering, exhibit committees for Tech Festival Weekend, and meetings with the engineering faculty and administration on problems concerning problems of engineering students.
American Institute of Architects

The American Institute of Architects at Virginia Polytechnic Institute is a student chapter of the National American Institute of Architects. It strives to promote fellowship among its student members, the faculty, and professional people from related fields. AIA membership is open to all students enrolled in the College of Architecture in good scholastic standing. To accomplish its goals, this organization has sponsored several lectures and a Spring trip to Chicago.

Second Row: R. Hackney, D. S. Ehrman, President; W. A. Bryant, Treasurer; J. F. Foulton, Advisor; R. S. Scott, W. L. Ashley. Seated: M. J. Lewis, Secretary.

Student Society of Architectural Engineers

Seeking to broaden the student's scope of understanding and appreciation of Architectural Engineering, the thirteen members of the Student Society of Architectural Engineers are active. They also worked to promote fellowship among the faculty and students and to represent the students of Architectural Engineering collectively in all extra-curricular activities.

Membership is open to any student regularly enrolled in Architectural Engineering, in good scholastic standing, and who is a candidate for a bachelor's or higher degree in Architectural Engineering.
The Building Construction Club provides opportunities for members to become acquainted with the construction industry, encourages members to maintain a high scholastic standing, and provides organized social functions. Membership consists of Building Construction students from freshmen through seniors.

In addition to a homecoming float and a Tech Festival exhibit, they also sponsored a fall dance and a spring seminar.
Through speeches given by important members of the mining industry, the Burkhart Mining Society seeks to encourage and to enlighten students to all phases of the mining industry. Some of this year's speakers have been: Mr. L. N. Thomas, Vice-President of the Kentucky Carbon Coal Company; Mr. Dave Eecger, General Manager of the Beth-Elkhorne Coal Company, speaking on "Pike No. 26 Mine"; and Mr. Robert H. Quenon, Manager of Mine Operation of the Humble Oil and Refining Company, speaking on the "Importance of Coal in the Oil Industry." Membership in the Burkhart Mining Society is limited to mining engineers, from freshmen through graduate students, who are in good academic standing.

The American Society of Metals exists to provide members and interested parties with stimulating programs in the field of metallurgy. They also work to bring recognition to the field of metallurgy as well as to provide projects and service to the school, department, and students in the field. Activities include a spring picnic and a Tech Festival exhibit.
The V.P.I. Chapter of the Virginia Home Economics Association is made up of students in the College of Home Economics and others with an interest in the field. They strive to augment interest, to further develop an understanding of the profession, and to adequately represent and interpret home economics to faculty and students.

Numerous activities include a "big sister-little sister" program, tutoring services for home economics students, social activities at intervals for students and faculty. There is also a spring banquet where scholarships are awarded and outstanding members recognized, and a state workshop and convention. Members also serve with the Dean on her Dean's Committee.
Horticulture Club

First Row: M. Stephenson, John H. Dean, Lucy Minogue, Historian; Fred Duis, Vice President; William W. Pinkham, President; Linda Finley, Secretary; Fred Tomlinson, Treasurer; Barbara Hills, Don Anderson. Second Row: Susan Van Lear, Bucky Mitchell, Bill McCranham, Bobby N. Evans, Jeffrey B. Miller, Chris Watt, Byron Water, Jr., Rodney Dowty, Libby Hodges.

Striving to unite those with an interest in horticulture, the 35 members of the Student Horticulture Club were active in a number of ways. First was a sale of mums for homecoming, a Christmas tree decorated with carnations for the library, and the development of a nature trail at the Horticultural Research Farm. Later students traveled to the Virginia Nurseryman's Convention, while others helped at editing the club's newsletter. Finally, the Horticulture Awards Banquet in the spring honored outstanding students and the outstanding horticulturist in Virginia.

Agricultural Economics Club

First Row: Paul H. Hoyner, Advisor; Albert L. Smith, Ill., Treasurer; Holmes Walsh, President; Thomas Snider, Advisor; Bruce Holland. Second Row: John Hudnall, H. Dean Jones, Larry Tucker, Tony Grove.

Early this fall, the Agricultural Economics Club held a get-acquainted picnic to introduce the new students to the faculty and upperclassmen in the department. The club planned to start a study of the Stock Market by personal experience in the buying and selling of stocks. The club also sponsored an entry in the Tech Festival. These activities exemplify the Agricultural Economics Club's purpose: to foster student interest in agricultural economics and to develop fellowship among its members. These members are those students who have shown a professied interest in the future of this club.
The Poultry Science Club strives to broaden the students' college experience by bringing the undergraduate, graduate, and faculty members together, and by introducing the students to the development within the poultry industry.

Members who are interested in Poultry, work to promote interest in all phases of poultry research and production.

Activities include several "chick-n-ques."

Future Farmers of America

Since its establishment in 1934, the Collegiate Chapter of the Future Farmers of America seeks to prepare students who plan to teach agriculture in high school to be advisors to FFA chapters. This organization is composed of male students enrolled in agricultural education or anyone interested in agriculture and the FFA. Some of the student chapter's activities this year have been: a Fall picnic, a Homecoming float, publication of the yearbook, and the Spring Bar-B-Que.

During the past year the Virginia Tech Chapter of the American Dairy Association has acquainted the students of dairy science with the dairy industry in the nation and the state through its activities.

The club has participated in a cheese sale, a dairy show, and the ADSA convention. Its members have also sponsored the publication of The Milky Way, the Dairy Science Annual, and the Awards Banquet. Its membership includes all dairy students, undergraduate and graduate, and any other person with an interest in dairying.
Members of the Virginia Tech Pre-Veterinary Students Club exist to acquaint interested students with the practice of veterinary medicine, and to help students with information concerning application to veterinary school.

Meetings are held twice a month throughout the year with guest speakers and movies pertaining to veterinary medicine on alternate meeting dates.

The club's activities are climaxed in their picnic held late in the spring.

While promoting opportunities for service and fellowship, the VPI 4-H Club brings together many alumni of the 4-H program. These former 4-Hers are honorary members who have been active in their local clubs before entering college. This organization performs many services for the Virginia Co-operative Extension Service. This year, some of the members assisted the local 4-H clubs in planning various projects. Additional activities for the year included the club's participation in the Annual Mid-Winter 4-H All Star Conference, a dance during Spring Quarter, and an exhibit for Tech Festival.
Forestry and Wildlife students found an active outlet for their curricular interests in the Forestry Club. There was a fall field day, which featured contests of physical strength and skill in woodsmanship, an initiation ceremony for the secret "Order of the Possum," a float in the homecoming parade, and a slide show describing summer jobs. Winter activities included a cabin party, a dance, and a number of guest speakers at the regular meetings.

In the spring, members were busy on such projects as a spring picnic and their Tech Festival exhibit, as well as a trip to the Association of Southern Forestry Clubs Conclave.

**Accounting Society**

The Accounting Society of V.P.I. is a student organization that strives in a spirit of fellowship to learn about the accounting profession and to promote an understanding of and interest in accounting. Some of the club’s activities are: providing various speakers from the accounting profession and sponsoring a candidate for queen of Tech Festival. The Accounting Society is composed of graduate and undergraduate students in the College of Business, who are in good academic standing with Virginia Polytechnic Institute.
VPI Collegiate Chapter of the American Marketing Association

Through its affiliation to the American Marketing Association, the V.P.I. Collegiate Chapter seeks to study the professional growth and advancement of science in marketing. The club has sponsored field trips to Washington, D.C., and other cities on the East coast. They have presented guest speakers from various companies around the nation. To study especially the science of marketing, this organization is one of the clubs engaged in the Marketing Simulation Game played through Michigan State University. Any student in good academic standing and interested in marketing and business, regardless of curriculum or class, is eligible to join the V.P.I. Collegiate chapter of the American Marketing Association.
RELIGION AND SERVICE

by
KATHERINE A. EPLEY
Chi Delta Alpha

Although fairly new to the Tech campus, Chi Delta Alpha is nevertheless active in its many services to Tech and the community. Included in its activities are a car wash with proceeds contributed to Shohater Memorial Hospital, ushering at several campus functions, helping with the Christiansburg Community Center, and working on the decorations for formals and Ring Dance.

First Row: Joan Robinson, Judy Pratt, Judy Pratt, Judy Sereduck, Vice-President; Carole Noble, President; Ginger Lemay, Secretary; Christine Noble, Martha Schmitz, Melinda Lewis. Second Row: Fran Coyle, Evelyn Loope, Libby Hodges, Linda Cooper, Lynn Lankous, Susan Van Lear, Judy Rains, Ann Reaugh, Peggy Pickett, Judy Hurley, Lynn White.

The Newman Club

To provide guidance and help to all Catholic students at Virginia Tech, and to perform charitable works throughout the community are the goals of the Newman Club. In an effort to accomplish the former, the club has dinners, dances, parties on the social side and for guidance has speakers regularly and folk masses at church. Among the community, the club has provided aid to underprivileged families in the area and visited St. Joseph's orphanage in Roanoke.

VA Tech Life Saving Corps

The Virginia Tech Life Saving Corps serves Tech by providing life guards for the VPI swimming pool. They also provide instructors for aquatics classes, first aid assistance, and serve as members of the Virginia Association of Rescue Squads. They promote water safety and first aid classes. Each member must hold an American Red Cross Senior Life Saving Certificate and Standard First Aid Certificate.

Officers: Dan Pharr, Quartermaster; Charles Heath, Captain; George Olde, Yeoman; John Hill, First Mate; Dan Cleary, Second Mate; Glenn Miller, Purser.
Fellowship of Christian Athletes

In an effort to confront athletes, coaches, and through them, the youth of the nation with the challenge and adventure of following Christ, the fellowship of Christian Athletes has supported several important activities on the Tech Campus and in the community. The members have spoken in local schools, churches and civic groups, and have given talks for the American Cancer Society in all local secondary and primary schools for discouraging smoking.

Chuck Beale demonstrates his dexterity.

First Row: Ray Womack, Coach Jerry Clairborne, Advisor-Thomas Martin, Advisor; John Maxwell, Publicity; Jeff Barkley, Secretary-Treasurer, Randy Treadwell, Vice-President; Jon Utin, Publicity; Bill McCall, Mike Magruder, Frank Teske, Advisor. Second Row: Richard Johnson, Ronnie Bell, Kemper Lear, Bev Fitzpatrick, Denny Cogan, Joseph Painter, Joe Tucker, Buzz Geiger, Dave Robinson, Don Richardson, Doug Adams, Clinton Felts. Absent: Stewart Huston, President; Coach Lee Royer, Advisor; Glenn Combs, W. R. Deskins, George Pousette, Gene Fisher, Doug Gronberg, Al Kincaid.
The Lutheran Student Association

In its endeavor to serve Tech and the community, Circle K, an international service fraternity associated with the Kiwanis, has worked on many outstanding and varied activities. Some of their projects during the year include work on the Christiansburg Community Center, ushering for Blacksburg Community Concert, assisting the Alumni Association at Homecoming, and publication of a monthly newsletter, "The Orbit." The purpose of this fine organization is to develop leadership for tomorrow while creating a better university for today.

First Row: Ed Vigen, Vicki Wetherington, Beth Sandy, Devotions Chairman; Al Shochet, Treasurer; Jay Hanger, President; Douglas Harry, Vice-President; A. Clifton Gray, Advisor. Second Row: Tom Phelps, Donna Farris, Pam Gunston, Ruth Sabo, Fred Zepf, Steve Knappik. Third Row: Kermit Sanders, Janan Byers, John Lowe, Donald Major, Ray Kirby.

Alpha Phi Omega

Alpha Phi Omega is an assembly of college men in the fellowship of the Scout Oath and Law, dedicated to the purpose of developing leadership, promoting friendship, and providing service to humanity. In striving towards these high goals, the organization has maintained the War Memorial Chapel on several weekends, helped with Bloodmobiles, aided local churches and youth clubs in various ways, and run a candidate for Homecoming Queen. All male students who have a desire to serve are welcome as members, but one membership requirement is twenty hours of service to the school or community, which shows the desire of this group to serve.

Officers—First Row: John Pratt, Corresponding Secretary; Ronald Phillips, 1st Vice President; Harrison Armstrong, President; Stephen E. Lickey, 2nd Vice President; Pete Dunavant, Past President. Second Row: W. H. Lane, Advisor; John Stearn, Sergeant at Arms; Robert Stearn, Historian; G. C. Grindell, Advisor.
The Christian Science Organization opens its doors to all students, faculty members and persons associated with V.P.I. who are interested in Christian Science. Fall Quarter, the organization sponsored a workshop with Harvy Schick, and will also sponsor a lecture Spring Quarter with Herbert Reicke, on campus.

First Row: Bob Stevenson, Advisor; Kay Deason, President; Laura Decker, Secretary-Treasurer; Bruce Whitney. Second Row: Art Gruver, Jim Weller, Bill Crump.

VPI Student Human Relations Council
The many sides of our Religious and Service organizations.
The Wesley Foundation

The Wesley Foundation is the Methodist-affiliated student group, but its membership is open to all. Wesley activities for this year have included the Back Stairs Coffee House, two art shows, support of a resident speaker program, Sunday night suppers, co-sponsorship of Film Forums, plus additional opportunities for worship, study, and service.
The YMCA on campus seeks to attract and unite in active fellowship and service, persons of all Christian confessions, adherents of other faiths, and those who affirm no religious beliefs. In an effort to achieve these goals, the YMCA has sponsored concerts, Freshman Camp, Conflict, a Big Sister-Little Sister program, Freshman Orientation Week, a Freshman Talent Show, U.N. Seminar, The Bishop's Players, and a Homecoming Mum sale. Membership in the Virginia Tech YMCA is open to students of any or no religion, male or female, and regardless of race or nationality; provided they subscribe to the YMCA purpose and will seek to become active participants in the Y program.
Tech Festival Association

Each year, every college in the University is responsible for the selection of members of the Tech Festival Association. Each college is represented by: a senior and junior faculty advisor; one vice-president, and six committee members. The purpose of the Association is to plan and coordinate the Tech Festival, which is held each spring quarter on the third weekend in April. The group's aim is to make the events an interesting experience for all of the students. Some of the activities it plans are: the exhibits, convocations, a concert, a Tech Festival Queen Contest, a Maroon Mask production, and a Military Review.

Preparing for the Little International animal show.

Students learn from the various exhibits.
SECTIONAL CLUBS

by

GAIL E. GORDON
ELIZABETH D. CALDWELL
Highlights of Virginia Tech—1968
The major purpose of the Capital Club is to combine the students from the greater Washington, D.C., area into a highly respected social organization at Virginia Tech.

Through their activities at home and at school, the club hopes to achieve its purpose. The annual Turkey Day dance was presented over Thanksgiving, while the Christmas vacation gave way to "Blow Your Mind . . . II" on New Year's Eve. Spring fever culminated in a spring break party. To uphold this purpose at school, a dance was held at the Stowaway in Blacksburg.

Students from Washington, D.C., and the surrounding areas are encouraged to join, as location is the only requirement for membership.

Officers: C. Walstrom, L. Cooper, M. Miller, F. Boland.

Capital Club
Interestingly so, the Shenandoah Valley Club is composed not only of students from the Shenandoah Valley and surrounding areas, but also the faculty from those same areas. Other than residence, there is no membership requirement.

The purpose of the Shenandoah Valley Club is to provide a social club for the students of that area attending Virginia Tech. Fall Quarter brought "Hokie's Blast... I," which was followed by a Christmas dance over the holidays. Another "Hokie's Blast" was planned for early spring, and the year closed with banquet plans and arrangements having been made for an early summer outdoor party.

Shenandoah Valley Club

Southside Club

Raising a scholarship fund is one of the major activities of the Southside Club. Parties for the members are also held in the Southside area during vacations. Any student wishing to participate in this club must be from the Southside area, and must be invited to join by a previous member. The main goal of the club is to provide a friendly atmosphere for Southside students both on and off campus.
Richmond Club

Being the largest of Tech's regional clubs, the Richmond Club's purposes are slightly different from those of other regional clubs. It does plan social functions for its members, but these are planned so that the members may get to know each other better, and to facilitate transportation for its members to and from the university. Parties over Thanksgiving, and during the Christmas break allowed the members to get together to better acquaint themselves with other members. During Winter and Spring Quarters the friendships grew on campus and at the dances held in the Blacksburg area. A banquet during the spring for Richmond Club members only finished the activities of the school year.

The one hundred and fifty members of the Richmond Club were selected only on the basis of place of home residence, that being the Greater Richmond area.
From the Greater Roanoke Valley area came the students who comprise the members of Tech's Roanoke Club. Other than being from this area, the only membership requirement is to have an interest in the activities of the Roanoke Club.

Members of the Roanoke Club have an advantage over members of other regional clubs in that their proximity to the university permits them to have their functions at home. For this reason, numerous social gatherings may be held throughout the year. After big weekends at Tech, many members were able to go to the Roanoke Club's parties and dances to add an even more special touch to the weekend. Homecoming, Thanksgiving, and Easter were but a few of the weekends Roanokers could enjoy in this special spirit. In addition to the plans made for the nine-month school year, the members of the Roanoke Club were able to plan several summer functions.

Besides the promotion of a better social life, the Roanoke Club promotes scholasticism by offering a scholarship every year, to an incoming freshman.
Apple Club

The students at Virginia Polytechnic Institute from the eleven counties of the northern Shenandoah Valley compose the Apple Club. Being from this area is the only membership requirement.

To promote fellowship among the members of the Apple Club and to raise the social and civic interest of the campus are the primary purposes of this regional organization. The members found relief from their studies at the Thanksgiving dance during Fall Quarter. A dance was given over the Christmas break for the Tech Apple Clubbers. Again, over a quarter break, the members got together to enjoy their vacations. In service to the school, the Apple Club's most important function is to sponsor Tech's representative to the Apple Blossom Festival held in Winchester, Va.

Eastern Shore Anchor Club

To provide a scholarship to a deserving freshman is one of the major objectives of the Eastern Shore's Anchor Club. The other major objective is to provide a more exciting social life for the members of the club, both at school and on the Eastern Shore. Members and their guests began this year's activities with a buffet-style dinner dance. To brighten Winter Quarter, the Anchor Club presented a steak dinner, as well as several informal parties to help its members hold their own against the pressures of school. Spring fever and Shadow Lake provide the background for spring parties.

To become a member of the Anchor Club, one must hail from the Eastern Shore, and as a freshman, one must be invited by a current member to join.
Danville Club

Contained in the agenda for this year's Danville Club activities are various social functions during school breaks and a spring outing.

The members of the club are students from the Danville area, including past students of the Danville Branch of VPI, now enrolled here.

The club was originated to promote fellowship among Danville area students, to support the activities of the University and the Danville community, and to provide for the social activities of the club members.

Active interest and participation in the club's activities are important requirements for membership.

Peanut Club

The promotion of friendship and social activities both on and off the campus is the objective of the Peanut Club. Through the social gatherings of the club and through the hard work the members do to make these events a success, the Peanut Club strives to reach its goal through a better understanding of people. This past year most of the social gatherings were held over quarter breaks, as, for example, the Christmas Dance and the Spring Dance were. Regular meetings brought a high degree of fellowship among the club's members.

The Peanut Club members hail from the Peanut Capital of the world: the counties of Suffolk, Franklin, Southampton, Nansemond, Isle of Wight, and Surrey. There is no other requirement for membership than residence in that area.
Though this organization is named the Northern Neck Club, its membership is not restricted to students just from Northern Neck proper. Many members also hail from the counties surrounding the Northern Neck.

The members of the Northern Neck Club strive to promote good relations between their home area and VPI. Their numerous social functions are therefore held both in the Northern Neck area and in Blacksburg. As representatives of VPI while at home, the members spend a lot of time talking to students considering to what colleges in the country to make applications, and telling these students about Virginia Tech. As further encouragement to these people from the Northern Neck area about to enter college, the Northern Neck Club offers a scholarship every year to an incoming freshman.

"Tech's Winter Wonderland"
Techwomen: A Necessity To Every Organization
SOCIAL CLUBS

by
BARBARA A. ZERAMBO
As unbelievable as it may seem in Mid-January on the Tech Campus, some students, like Tom Harris, find snow fun and useful.

Not everyone can dig the new dance styles as one couple at formals clearly demonstrates.

Formals mean more than just fun to some hard-working students as they rush to complete decorations before Friday evening.

Bob Cleveland and his Orchestra provided the music for Castilian Club’s Winter Formals, “Hello Dolly.”
The Judo Club

Tech’s Judo Club was formed to spark interest in Judo in the student body and to maintain a Judo Team that would compete with other schools and organizations. Membership is open to any male member of Tech’s student body or faculty who is interested in the sport. This year Tech was host to Georgetown and VMI in the invitational. Tech’s team tallied a score of 55 points against the other two teams with impressive wins on the part of Tech’s Judo Club. Participating in many other competitions, the highlight was the success of the Virginia State Tournament Team. Cam Langley won awards as the outstanding competitor, over-all white belt, and was first in the 176-lb. class. He was supported by John Babbs, who took second in the 205-lb. class, and Paul Hollandsworth with four in the 154-lb. class.

What goes up must come down is what one member of the Judo Club will soon realize.
Since 1911, the Cotillion Club has brought excitement to Tech's social scene in the form of formals and concerts. Open to the male members of the large student body, a bid to join the Cotillion Club has become a prized possession. Wilson Pickett entertained the Homecoming crowd as a result of the combined efforts of the Cotillion and German Clubs. The Swinging Medallions and Burt Messengale played to the theme of "Tickets to Fame" at Cotillion's Fall Formals. Winter brought "Hello Dolly" with Bob Cleveland and the Courts and the Contours. With wishful thoughts Cotillion Club picked "Endless Summer" as the theme for Spring Formals. The Bill Black Combo and Ben E. King provided the music. Other Cotillion Club activities include Privates, After Parties, and Banquets.

**Cotillion Club**

A major part of Formal Dances is the struggle to maneuver your date through a crowded dance floor.

TheContours show "how it's done" to the couples at Saturday-night formals.
German Club Sponsors Formals, Concert

This year following the tradition started with the organization of the Club in 1892, Virginia Tech's German Club presented another fine set of formal dances to the student body. Founded to host Formal Dances for Tech students, members are chosen on their outstanding qualities and their interest in the formal dances. The year began with the Homecoming Concert, a joint effort of German and Cotillion Clubs which brought Wilson Pickett to the Coliseum, "Fall in Love" was an appropriate theme for Fall Formals where Ned Guthrie, featuring Jo Baby and Ray Hines backed by the Rhondels, provided the music for German Club's guests. Dee Roberts and Orchestra and Carla Thomas with The Skylocks and Little Ivey performed with "Alpine Holiday" as a setting for Winter Formals. Looking for the original the German Club portrayed "The Wild, Wild West" at their Spring Formals. The Stylists and The Esquires backed by the Originals entertained the crowd.

With winter came Formals, and German Club's "Alpine Holiday" brought with it the Olde German Inn as part of the decor.

An integral part of Formal Dances is socializing and sore feet. Here, couples experience both.
Cave Club

The Cave Club, officially known as the VPI Grotto of the National Speleological Society, is open to Tech students and alumni and members of the National Speleological Society. Now celebrating their 25th anniversary, the club was founded to promote speleology with emphasis on safety, science and conservation, and fellowship among cavers. Tech's Spelunkers explore and map several of the extensive cave systems in Virginia and West Virginia. Social events of this club consist of a picnic and banquet which are attended by present members and alumni.

Ski Club

Virginia Tech's Ski Club was formed to promote interest in skiing in the student body and to help develop skiing techniques. Ability to ski is not a requirement for membership; only a sincere interest in this winter sport. However, many members are skilled enough to participate in skiing events in competition. During Winter Quarter members of the club make weekend excursions to various skiing resorts in the surrounding area. One highlight of the club's year is their Annual Banquet.
Cosmopolitan Club

Interested in promoting international friendship and understanding throughout the world, the Virginia Tech Cosmopolitan Club welcomes all persons who are interested in their programs. Honorary memberships are also given to students, faculty and members of the community. The club sponsors speakers, panel discussions, and movies throughout the year. International Night and Indian Night were the social highlights of the club's year. Striving to improve the relations which contribute to world peace, the Cosmopolitan Club encourages everyone to take an active interest in its activities.

Debate Club

The Virginia Tech Debate Club serves to promote and develop student interest and skills in debating, the formal structure for conflict in reasoned argument. In contrast to medieval academic dialogues, today's debates are concerned with topics of immediate social, political, and governmental interest. The topic for 1967-1968 was: Resolved, that the federal government should establish a minimum annual cash income to all citizens. The Debate Club provides Tech students with the opportunity to develop logical and speaking skills, and to apply these skills in competitions throughout Virginia and in several interstate meets.
UNRECOGNIZED ORGANIZATIONS

by

BUTCH BOSWELL

1205 N. Main St.

Chartered in the Fall of 1966, the founding brothers were Larry Richardson, and Wayne Stonesifer. The aims of the brotherhood are to promote brotherhood among VPI students, both academically and socially. They participate in various activities during the year such as Faculty Nite, Parents Weekend, competing in all sports, and Christmas benefits for underprivileged children. During the past year they have rebuilt the entire basement bar, stereo system, floor tile, ceiling tile, and wood-paneled "The Cave" dance room. The motto is "Ad Astra"—to the stars.
Founded as a dorm club in 1960, the brotherhood soon found itself too large for the dorm and moved into town. Now located at 107 Turner Street, the club has recently completed remodeling its house. A variety of social activities are offered to supplement academic life, such as parties which include three or more dance weekends a quarter. Homecoming and Miami weekend highlighted Fall Quarter, and a Formal Dinner Dance and Wild West rounded off Winter Quarter. The year is completed in Spring Quarter with an informal dinner dance and I.F.C. weekend.

Providing a strong brotherhood for the members is not the only objective of the club. Among other things, they instill a willingness to work and to better the organization among the brothers.

107 Turner Street

400 Progress Street

Founded in 1961 by eleven V.P.I. undergraduates, their main objective was to gather together students with divergent views and varied social, economic, and geographical backgrounds.

The brotherhood is constantly trying to improve the town and the school by supplying innumerable leaders such as a C.S.B. President, Cadet and Civilian Senators, a Class President, and a Cotillion Club President. Their social life is as varied as the interests of the members. They participate in tutoring local high school students, homecoming-alumni day, Tech Festival Parents Weekend, Christmas party, and Ring Dance beach party.
Dates

Illustrious Brothers
405 Roanoke Street

This brotherhood was formed in 1947 by World War II veterans who realized a need for social life outside of Va. Tech. They held their activities and social events at Shadow Lake until 1958 when they moved to their present address at 405 Roanoke Street.

Aside from regular party weekends, their social life included promoting donorship in Red Cross Blood Program, participating in community charity activities and activities with local civic groups, and giving a Christmas party for under-privileged children.

The purpose of the brotherhood is to provide a well-rounded social atmosphere to alumni, graduate students, and undergraduates of V.P.I.
108 Upland Road

In 1963, they moved into their present address at 108 Upland Road after residing at Shadow Lake for the previous two years. The brotherhood was founded in 1961 to promote social life for its members, friendship, and brotherhood.

The house has wall-to-wall carpeting, totally soundproof basement, bar, air conditioning, and juke box. Most of the improvements and work on the house have been done by the brothers themselves.
Initiations

408 Roanoke Street

The Brotherhood completes its ninth year with continuing success. Formed in October, 1958 by ten members of the corps, it now consists of approximately forty active brothers. The brotherhood is close-knit and success seems to be the result, as was evidenced by its possession of the coveted I.F.C. "Outstanding Trophy." The intramural football team was second-best in the school, indicating the high degree of pride and desire to excel. The brothers are representative of many states, with alumni from Hawaii to Spain, and London to Viet Nam. Instilled with a sense of civic responsibility, they have participated in heart fund drives in the past and in December held their annual Christmas party for the under-privileged children in Blacksburg. The year was marked by the annual cabin party at Homecoming, Parents Weekend, Toga Party, and the annual picnic, all of which are traditions established by the founding brothers. The club continues to grow, with its progress matching the deep feeling of brotherhood among the members.

Sots Support pep rally.
704 North Main Street

Founded in the Fall Quarter of 1963, these brothers have grown academically, socially, and athletically over the last four years. They have the proud distinction of being the only brotherhood on campus to have a branch at Frederick College. The club has been established on the motto of "many into one."

This year they have gone through a renovation period. The addition of new furniture and the decorating of the house have been a welcome improvement.

They enjoy serving the community in any possible way. Their traditional Christmas party is welcomed by community and brotherhood.

Part of their education at Va. Tech, is the development of one's social mobilities. The brotherhood is a great place for one to be motivated.
100 Church Street

This brotherhood originated in the early 1950’s as a dorm club from Femoyer. In 1960 they moved off-campus and took residence at 100 Church Street.

The varied social life of the brotherhood includes Homecoming, Parents Weekend, T parties after Formals, and a Christmas Party for the brothers.

This organization aids in developing well-rounded citizens because the brothers become aware of their duties, obligations, and responsibilities to each other, to VPI and to the community.
Having the unique opportunity of becoming the first women's social organization to exist on the Tech campus was quite an experience for those girls. Founded in the spring of 1966 by six charter members, it soon grew in membership.

In the fall their many activities included a pledge-active party, a slumber party, and aiding other organizations in their contributions of Christmas gifts for underprivileged children.

The sisters feel that their purpose is a strong one with a definite place on the Tech campus—that of encouraging and inspiring sisterly feeling and cooperation and forming unselfish and loyal friendships among its members.

712 South Main Street

The IFC was organized to coordinate the functions and supervise the activities of the various social organizations at Va. Tech. It accomplishes these goals by setting standards, organizing competitions, and conducting projects. Some of the activities of the IFC are the intramember competition for the highest QCA, IFC weekend, publishing a newspaper, organizing members for Tech Sled, and presenting a unified front in the goal of recognition of the member organizations. The member organizations each have one representative in the IFC.
UNIVERSITY
ADMINISTRATION

by

JUDY SWECKER
Dr. T. Marshall Hahn
President

Since 1962, when Dr. T. Marshall Hahn became President of VPI, the university has seen many great changes—rapid construction of new facilities to meet the yearly growth in enrollment, expanded and broadened curricula, and an over-all growth in the prestige of the university.

A native of Lexington, Kentucky, Dr. Hahn received his B.S. in physics from the University of Kentucky in 1945 and his Ph.D. from M.I.T. in 1950. After serving as physicist in the U.S. Naval Ordnance Lab and a research assistant at M.I.T., Dr. Hahn taught physics and was a director of graduate studies at the University of Kentucky. In 1954, he became head of the physics department at Tech; in 1959 he left to become Dean of Arts and Sciences at Kansas State University, where he remained until he became president of VPI.

Besides his duties of president, Dr. Hahn is also a fellow of the American Physics Society, a member of the American Association of Arts and Sciences, American Association of Physics Teachers, Phi Beta Kappa, Sigma Xi, Omicron Delta Kappa, Sigma Pi Sigma, and Pi Mu Epsilon.

Board of Visitors

The Board of Visitors is the governing body of Virginia Polytechnic Institute. The members of the board are appointed by the governor upon recommendation by the Alumni Association and the Administration. The Board meets quarterly to approve budgets and capital outlay and to establish and review the policies that control the university.
Dr. Warren W. Brandt
Vice President
For Academic Affairs

Dr. Warren W. Brandt has been vice president of VPI since 1963. He received his B.S. degree in chemistry from Michigan State University in 1944, his postgraduate degree in 1946, and his Ph.D. from the University of Illinois in 1949. He served as a teaching assistant at Michigan and Illinois. Dr. Brandt has taught at Purdue and was head of the department of chemistry at Kansas State University, where he was also Associate Dean of Arts and Sciences. He went to Oxford as a Guggenheim Fellow in 1958. From 1963-65 he was dean of the Graduate School at VPI.

Dr. Brandt is a member of the American Chemical Society, the American Association of Arts and Sciences, Phi Lambda Upsilon, and Alpha Chi Omega.

Stuart K. Cassell
Vice President
for Administration

Mr. Stuart K. Cassell graduated from VPI in 1932, majoring in animal husbandry and having the highest academic record in his class in the School of Agriculture. He was awarded a fellowship and received his M.S. degree with honors in agricultural economics the following year.

Mr. Cassell worked for the Agricultural Extension Service, starting in 1933 as an assistant county agent. He helped to organize the Agricultural Adjustment Administration in several counties; in 1939 he was appointed State Executive Officer of the AAA.

While working at VPI, Mr. Cassell has served as assistant agricultural economist in the department of agricultural economics. In 1945 he was appointed finance and business manager and held this position until August, 1966, when a major reorganization of the administrative structure of the university made him vice-president for administration.

Mr. Cassell is a member of Alpha Zeta, Phi Kappa Phi, and ODK honoraries.
President and Deans

DR. T. MARSHALL HAHN
President

DR. JAMES W. DEAN
Dean of Students.
MISS MARTHA HARDER
Dean of Women.

MR. J. GORDON BROWN
Dean of Men.

GENERAL F. T. PACHLER
Commandant of Cadets.
The College of Agriculture has perhaps the greatest direct influence on Virginia residents of any school at VPI. Through the Virginia Experiment Station and Extension Service, the college gives technical advice and experimental results to the farmer and homemaker. To the student at Tech, courses in Agricultural Economics, Agricultural Education, Agronomy, Animal Science, Biochemistry and Nutrition, Dairy Science, Entomology, Extension Education, Forestry, Horticulture, Poultry Science, and Plant Pathology and Physiology offer up-to-date training that leads to a variety of vocations in agriculture and its allied industries.

College of Agriculture
College of Architecture

The College of Architecture has increased greatly since its establishment in 1964. Divided into four departments—Architectural Engineering, Architecture, Building Construction, Urban and Regional Planning—the College offers a five-year program designed to provide the foundations for professional work and is accredited by the National Architectural Accrediting Board. Cogill Hall, the new and modern Architectural building, should be finished by June of this year.
The College of Arts and Sciences is one of the fastest-growing Colleges at VPI. To facilitate the growth of this College, the university is in the process of constructing a four-million dollar Arts and Sciences Building. With the addition of more students and new departments, the College is eagerly awaiting the completion of their new building.

Special interest in the College has been shown in the Honors Program, which allows outstanding students to pursue certain subjects in depth. An honors seminar is also offered; in this course the student reads widely and is encouraged to formulate his own views concerning the humanities and social and natural science.

New offerings in the College of Arts and Sciences include the Master of Arts degree in English and History and undergraduate majors in Health-Physical Education, Philosophy, Psychology, Sociology, and Elementary Education.

College of Arts and Sciences

A chemistry lab in the College of Arts and Sciences.
College of Business

To give the student a firm foundation in sound business theory and practices, the College of Business offers broad programs through general education. Virginia Tech has offered degrees in business since 1925. In 1961, the School of Business was formed; in 1964 all schools were designated Colleges and upon accreditation the College of Business had the privilege of forming chapters of two national scholastic honoraries on campus: Beta Gamma Sigma for business students, and Beta Alpha Psi for accounting students. The College consists of departments of Accounting, Business Administration, and Economics, preparing students for successful service in the broad fields of business.
College of Engineering

The College of Engineering at VPI is known throughout the country as an excellent engineering school. Bachelor of Science degrees are offered in twelve engineering curricula including Aerospace, Agricultural, Architectural, Ceramic, Chemical, Electrical, Industrial, Mechanical, Metals and Mining engineering, as well as in Engineering Mechanics and Materials Engineering science. Many engineering students benefit from the cooperative program. This five-year program allows students to alternate quarters of study on campus with quarters of work in industry. The program helps students acquire practical job experience that will be of definite help after graduation.
The College of Home Economics comprises one of the important fields of learning at VPI and furthers the function of the university through its responsibilities in resident instruction, research, extension and other community services. In all aspects of its program the College is concerned with well-being of the home and family as they exist and function in society.

Many advantages to study are available on the campus such as the nursery school and kindergarten for students of child development, as well as the Management House. Students live together in this house for a period of five weeks to gain practical experience in the management of a home.

The College of Home Economics has just recently moved into its new building, Wallace Hall, a modern, three-story, brick structure.

Dr. Laura J. Harper
Dean
The Senate is the Legislative branch of the Student Government of VPI. Both dormitory and town students are represented in the Senate by one elected Senator for every 100 students. The vice-president of the Student Government is the president of the Senate and presides over its weekly meetings.

The SGA Senate is the strongest official link between the student body and the administration. By presenting student problems to the administration, the two groups work together toward a solution.

Of great concern to the Senate is the student social and cultural life. The Senators, through their committees, arrange to present various entertainers on campus and well-known speakers for student convocations.

An integral part of the university, the Senate, along with the entire Student Government Association of Va. Tech, has been an effective advocate of student welfare and self-betterment.

Student Government Association Officers

Bill Coulborne, President

Steve Britt, Sergeant-at-Arms

Ray Smoot, Secretary

Bob Shisler, Vice-President

John Swain, Treasurer

S.G.A. Senate

Traditionally the Honor System is one of VPI's oldest and most respected systems. The Cadet Honor Code is based on three beliefs: To trust a man is to make him worthy of that trust; No gentleman will lie, cheat, or steal; Every cadet is a gentleman. To implement the code, the Cadet Honor Court was established in 1906. Since that time it has undergone several changes. Its present organization is two-bodied and consists of an Investigative Branch and a Judicial Branch. The Investigative Branch is composed of the Attorney, the Chief Prosecuting Attorney, the Honor Council Chairman, and their assistants. The Honor Council decides if an investigated case warrants a trial and if so, passes it on to the Judicial Branch. The Judicial Branch, composed of the Chief Justice, the Associate Justices, the Chief Defense Attorney and his staff, the Chief Prosecuting Attorney and his staff, the secretary and various administrative personnel, is responsible for the conduct of all trials.

The Cadet Honor Court is operated entirely by cadets though its decisions are reviewed by the administration. The Court strongly emphasizes the VPI Honor System throughout the Corps of Cadets and strongly upholds it.
Civilian Honor Court

The university actively supports and upholds the honor system which is set forth under the judicial branch of the constitution of the Student Body. In the Civilian Honor Court, violations are turned in by students and investigated by the Honor Council. If a trial is requested by the prosecution, a jury of twelve students is selected. Defense counsel is present to protect the rights of the student. The council performs numerous administrative functions for the Honor Court. The Honor System has jurisdiction on cases of lying, cheating or stealing committed by students, with the foundation of the student Honor Code resting upon the feeling that it is the duty of each student to report any violations of the Honor Code which he or she might observe.

The Student Activities Committee is a standing committee of the president of the university and serves as a subcommittee of the University Council. This particular group has probably aided and directed student freedoms, organizations, finances, politics, and services more than any other single ingredient within the university. All of its meetings are open to the student body. The Student Activities Committee is composed of three faculty members: Dr. Phillip Martin, Professor Leo Padis, Dr. Wybe Kroontje, president of the Civilian Interdormitory Council, President of the Student Government Association, vice-president of the Student Government Association, president of the Women’s Interdormitory Council, Colonel of the Corps, a representative of the Publications Board, the three class presidents; and the Dean of Men, Dean of Women, and the Commandant of Cadets. Dr. Warren W. Brandt, Vice-President of the university, serves as chairman and may vote only in the event of a tie, while Dr. James W. Dean, Dean of Students, serves as secretary with no vote. Any student group or individual may petition the secretary, in writing, for a place on the agenda to be heard concerning approval of any activity, approved status, or changes in Student Life Policy.

Student Activities Committee
WIC and CIC

The Women's Interdormitory Council was formed this year in response to the growing number of co-eds now on Tech's campus. With nearly a thousand co-eds in the dorms, the women feel the need for their own governing body—one which could better understand and solve their problems. The duties of the WIC are essentially the same as those of the CIC, although broader in scope, in proportion to the greater number of regulations which cover co-eds. The WIC works in co-ordination with the Dean of Women's Office in the governing of co-eds in the dorms, generally being given a free hand in matters directly related to the dorms.

The Civilian Interdormitory Council is the governmental organization within the civilian male residence halls. Each House Council is responsible to the CIC, composed of four officers and the thirteen House Council presidents. In a year of rapid expansion, the CIC provided reference libraries and installed additional televisions in its dormitories, sponsored a Sullins College Lake Day, and continued to invite faculty into the dormitories informally. Koofer files and the Gripe Committee are now integral parts of the program. The Civilian Interdormitory Council provides over 500 student leadership positions each year, in keeping with its slogan, "The CIC works for you, but you make it work."
The Graduating Class of 1968

A scant four years ago we were proud freshmen, who, after days of rigorous competition, had won a seat in Tech's classrooms. Our thirst for knowledge was being realized and the faculty was eager to serve as our guideposts.

The fall quarter came with the football games, dance weekends, pensive walks among the flame-colored autumn trees, food that wasn't quite like that we had been used to, that first fight with a roommate, good days when classes were really fruitful, bad days when it rained, and those plain ordinary days. December came with our first set of college finals. We learned the true meaning of the cliche "midnight oil." We also acquired the practice of existing on vast quantities of coffee and No-Doz. Somehow we survived and we were proud.

Winter quarters brought some extra special Blacksburg weather. We screamed at basketball games, threw snowballs, and braved the drillfield at eight o'clock in the morning. Our Sophomore year brought the all-important election of class officers, and our attention focused on Ring Dance.

And then the long-awaited springs arrived. Suddenly the campus came alive. Afternoons found the drillfield filled with sports fans. And finally the arrival of our own class rings. Ring Dance came and went, but its memories lingered.

We are now seniors and perhaps apprehensive of what is to come after college. Each member of our class has taken the opportunity offered at Virginia Tech and used it to grow in his own individual way. He has developed his intellectual capacity, broadened his social outlook, and found new spiritual insights. As we go forth may the Class of '68 use the knowledge we have acquired at Tech to help us in developing understanding so that we can now explain things that we could not explain before.

THE ROANOKE TIMES
Serves Virginia Tech Students

THE ROANOKE TIMES is the hometown morning newspaper for many students and faculty members at Virginia Tech. This neighboring newspaper is proud to have been a part of the student life of the 1968 graduates and extends them best wishes. THE ROANOKE TIMES is close to Virginia Tech and provides news coverage of its activities. There is complete, detailed coverage of Virginia Tech sports with exclusive, on-the-spot reports by Times sports writers.

HERFF JONES

Our sincere appreciation to Gordon Mapp and the Ring Committee in being chosen to produce one of the world's great ring orders.

Herff Jones Company, 1411 North Capitol Ave., Indianapolis, Indiana 46202
ELECTRICITY: MUSCLE OF INDUSTRY

Behind the great industrial might of America stands a "giant workman" — electric energy. It would require the muscle energy of 70 men working 40 hours a week for one whole year to equal 10,000 kilowatt hours of electricity — less than the average annual consumption of two VePCo residential customers. Yes, electricity is the "muscle" behind our power and prosperity.

How to Get the Temperature Rise (or Drop) You Need — at Today's High Duct Velocities

Don't go to the expense of increasing the area at the exchanger section to slow the air down. Use Aerofin SMOOTH-FIN coils and operate at full duct velocity.

Aerofin coils have the needed extra capacity per sq. ft. of face area. Smooth fins prevent excessive turbulence. Air resistance is normal. You don't need higher blower speed or more power.

Aerofin standard encased units are arranged for quick, economical installation.

AEROFIN CORPORATION
Lynchburg, Virginia 24505

Aerofin is sold only by manufacturers of fan system apparatus. List on request.

CHAP STICK is a Reg. T.M. © 1967 of Chap Stick Company, Lynchburg, Va., a subsidiary of A. H. ROBINS COMPANY.
Today's brand new ocean is creating your brand of engineering career opportunity

...and so is Newport News' $500,000,000 backlog of orders.

Nuclear ship propulsion—marine automation—new naval concepts like the Attack Submarine and the "systems" approach competition for a landing Helicopter Attack fleet—these are just some of the revolutionary developments on and under today's brand new ocean. Some of the reasons the New York Times calls it earth's "last frontier."

You'll find Newport News, world's largest shipbuilding company, a prime mover in that revolution. That's why we have immediate engineering career openings in all the fields listed here. If your training and experience are in or even close to any of them, let us give you details on specific opportunities for you.

Also, let us send our 1967 book, "Blueprint of Your Future" to give you the whole picture of Newport News. Its 80 years of forward thinking, its current achievements in nuclear technology, huge scale automation, computerized systems engineering and work group packaging. It's setting in the heart of Virginia's seashore vacationland where your dollars buy a lot of living—and where superb beaches, boating, fishing, hunting, golf are at your door.

With a half-billion-dollar backlog of contracts, we're bidding for imaginative engineers who can handle tough challenges and personal responsibility. Beyond that, our backlog spells years of career security with no ceiling on your future. Write John J. Gaughan, our Employment Manager. You'll get fast action.

IMMEDIATE CAREER OPENINGS IN THESE NINE DISCIPLINES

- Mechanical Engineering
- Naval Architecture
- Electrical Engineering
- Nuclear Engineering
- Marine Engineering
- Civil Engineering
- Industrial Engineering
- Systems Engineering
- Metallurgical Engineering

Poly-Scientific designs and manufactures critical electro-mechanical devices for guidance systems in aircraft, missiles, outer space vehicles, and marine vessels.

Present applications for Poly-Scientific products include: Posiedon, Minuteman, Sprint, Hound Dog and Bull Pup missiles, and the F-104, F-4H, TFX, A2F, and C5A aircraft for the Defense Department, to name a few. Also under development or in production are components for Apollo, Saturn, OSO, Surveyor, MOL, and Nimbus programs for NASA.

Commercial applications include assemblies for the new jumbo jets, slip rings for color video tape recorders, etc.

Nearly 600 Poly-Scientific employees team together at two Blacksburg locations to make hundreds of different products and models for customers throughout the United States and in several foreign countries.

Virginia Tech graduates play key roles in every phase of the company's success story. Currently, there are ten V.T. graduates on the Poly-Scientific payroll.

A Place To Eat You'll Always Remember

Christiansburg, Va.
If we were happy with the world the way it is, we wouldn't need you.

Kids choke on polluted air. Streets are jammed by cars with no place to go. Italy’s priceless art and libraries are ravaged by floods. This is the way the world is, but it’s not the way it has to be. Air pollution can be prevented. Better transportation can be devised. Something can even be done about the weather. Many people at General Electric are already working on these problems, but we need more. We need help from young engineers and scientists; and we need help from business and liberal arts graduates who understand people and their problems. If you want to help solve important problems, we’d like to talk to you. We’ll be visiting campus soon. Drop by the placement office and arrange for an interview.

THE OUTPOST
EXCITING

is the word for tomorrow

FOR THE CLASS OF '68

College graduates have the responsibility to create and support this excitement by continuing the advancement of state-of-the-Art Technologies in the Sciences and Humanities. The opportunity for this involvement exists right here in Southwest Virginia for VPI and other college graduates. Electro-Tec is involved and growing in the Space Age Technology. Engineers, Scientists, and Business Majors are needed to maintain our leadership in the slip ring industry serving the Aerospace and Defense.

Congratulations to the class of 1968 for giving yourselves the opportunity to participate in the excitement of tomorrow.

CONGRATULATIONS to the
Class of 1968

The staff of the 1968 BUGLE wishes to congratulate the members of the class of 1968 on completion of their work at VPI. We hope that the future will bring the best to each and every member of the class.

THE 1968

BUGLE
A Memorable Year

• Congratulations to the Student Body and Faculty of Virginia Tech upon the completion of another outstanding year of accomplishments.

• The Staff of your annual has worked exceedingly hard to give you a superb book that portrays the highlights of memorable activities. To preserve this excellent literary and photographic record, the best grades of material have been combined with skilled workmanship to provide the finest quality yearbook.

• We are very proud that the 1968 Staff selected us to print and bind the Bugle. We have earnestly endeavored to fulfill the confidence placed in us.

Editor's Wrap-up

Friday, March 8, 1968, 2:30 a.m., and another year of hard work on the BUGLE has drawn to a close. I only wish every person could experience the trials, tribulations, and rewards of being a yearbook editor. It's a fantastic learning experience.

I view the wrapping up of the 1968 BUGLE with mixed emotions. I'm overjoyed that headaches like poor sales, lost negatives, late nights, and sacrificed weekends are gone forever. But at the same time I know that I am going to miss sorely what has been the most rewarding experience of my two years as editor, that of working with people. The feeling one gets from watching people literally knock themselves out in order to produce something the students will be proud of is beyond description.

Last year I refrained from mentioning any students in my wrap-up on the premise that if I started lauding individuals I might inadvertently omit one who deserved an equal amount of credit. But this year there is one person who must be commended.

Gary Gross, in his capacity as Managing Editor, took a tremendous load off my shoulders, allowing me to spend much more time on the creative elements of the book. To enumerate his many feats would be impossible, but I would like to take this opportunity to publicly express my thanks and gratitude.

Once again the cooperation and assistance received from the administration and faculty of VPI, Gentry-Gilbert Photographers, Benson Printing Company, and Mr. W. L. Burton, President of C. W. Warthen Company, have been unbeatable. If my successor experiences the same spirit of cooperation that I have, he can have no complaints, only praise.

As was last year's book, the 1968 BUGLE is designed for the students. If you all enjoy possession of it as much as my staff and I have enjoyed producing it, we will have accomplished our mission.

Thank you,
E. Ray Yount
Editor
