bulge, a. Of, resembling, or adorned with the color of bugles. See bugle, n.

bulge, n. 1. A metallic wind-instrument, a horn or trumpet, with or without keys or valves.

Above the hum of the multitude and the roll of the drums, rose the clear and ringing blasts of the cavalry bugles.

2. A huntmen's horn, 3. [Dial, Eng.] A.

One blast upon his bugle-horn were worth a thousand.
Registration: The Same Old Story . . .

Though in years past registration has generally been "bad news", this year registration seemed for many to be the worst ever. Lines stretched from Burruss to the Upper Quad and from the War Memorial Gym to the Continuing Education Center. A student could stand in line for hours at Burruss only to be given the opportunity to stand again at the gym. Trips to course advisors were also frequent; many students found themselves waiting in the offices two and three times.

Foot fatigue, thirst, and mixed-up IBM schedules constituted just a fraction of the mass confusion registration presented.
What a way to spend a nice, warm afternoon . . .

... A Study In Frustration

Are you sure this line leads to Burruss Hall?

Head 'em up, move 'em out!
First Concert, First Game Pass Soulfully, Sorrowfully

When Dixie is played, the crowd goes wild.

On October 9 Tech's newly created Student Union presented its first concert, featuring Martha Reeves and the Vandellas in the Coliseum. A good time was had by everyone as this well-known group "lit the fire" for many concerts yet to come.

The next Saturday, October 17, Tech got ready for its first home game of the season. Anticipation was high, but spirits were dealt a dampening blow as the Gobblers were nudged out of a victory by Kansas State 13-7.
President Hahn shakes Mr. Constantinides' hand during half-time of Dad's Day.

Martha sings another melody.

Tech defense stops the Wildcats cold.
Crackling flames, drizzling rain, warm strains of Dixie, and victory cheers around the bonfire opened Homecoming '68. In spite of the uncooperative weather, a large crowd joined the Highty-Tighties for Thursday night's pep rally.

On Friday, October 11, Tech students were entertained by the "sweet soul sounds" of Sam and Dave. At intermission the queen, Miss Nancy Abt, and her court were presented.

On Saturday a military review and parade of the Homecoming Court and floats preceded the Wake Forest-VPI football game. Saturday night the Gobbler's 7-6 conquest over the Deacons was celebrated at the Monogram Club dance held in the gym.
The cheerleaders, wearing their new "mod" uniforms, build spirit for the afternoon's contest.

The highlight of halftime is the crowning of our Homecoming queen.

Nancy Abt and her court are presented at halftime.
Happiness is Homecoming—Hokie Style
Les Langhans chauffeurs Tech’s lovely Homecoming princesses during the parade.

We sure did “sawk” it to ‘em.

Color Guard leads the way for the parade.
Twangs of the 1910 Fruit Gum Company’s electric guitars, insanities by the Pickle Brothers, and the surfing sound of the Beach Boys launched Student Government Weekend on October 25. On Saturday, at the Governor’s Day game, Judy Warren was crowned “Miss VPI” by Virginia Governor Mills E. Godwin, Jr. The weekend was highlighted by Tech’s 27-12 romp over West Virginia.
Governor Mills Godwin, the day's honored guest, stands with his possible successor.

Cadets cheer Governor Godwin after he pardons all military demerits.

Beach Boys whip out another surfing hit.
Happiness is a warm blanket.

No Pal, not all of these trophies are mine.
November 9 was marked this year by a great invasion — an invasion by parents and high school students. Parents were welcomed to Tech on the annual Parents' Day and were special guests at the V.P.I — Richmond Game. Afterwards they were honored by a reception in the Coliseum. The students who visited were members of area high school bands which came to participate in Tech’s annual Band Day. The Highty-Tighties really had some stiff competition during the half-time show of the Richmond game.

Band Day, Parents Day —

The Great Invasion
Spider Turner, Showmen Entertain

Stacy Henry and his boys liven up the German's Formal dance.
Fall Formals '68 proved to be a great way to start off the new school year. The Cotillion Club presented the theme "Camelot" with Burt Massingale and his Orchestra Friday night, and with the Showmen following on Saturday. Not to be outdone, the German Club featured Stacy Henry and the Majestics in the theme "Magic Memories" with Spider Turner performing for the swinging Saturday night dance. German Club members went all out for this fall's big weekend because it marked the club's 75th anniversary. This celebration didn't dampen the fun at Cotillion's, however, and everyone had fun. But let's not mention that Monday after the weekend before . . .
Guest Speakers—
Cultural Highlights to Tech Life

Arthur Clarke, author of *2001: A Space Odyssey*, speaks to Tech students.

Actor John Carradine presents reading from Shakespeare, Carroll, and Twain.
Dr. Ralph Bunche, U.N. Under-Secretary-General, spoke on current world problems.

Walter H. Judd, an expert on China and Southeast Asia, asks Techmen "Where in the world are we going?"

State Senator Henry Howell asks for student involvement in Virginia politics.
A Techman’s Favorite

“What’s that floating in my glass?”

“Hey, the Coke machine is actually working.”

“What did you say I was eating?”
Time of the Day . . . Mealtime!

What part of this fine institution do Techmen hold most dear to their hearts? Obviously, the answer to this question is the university dining halls. Where else can one get such delicious food, prompt service, and uncommon courtesy? And there is always superb entertainment provided to make your meal even more enjoyable — glass pyramids, clattering along the conveyor belt, the latest in country music droning over intellectual dinner conversations, and of course the trained animals always eager for one tiny morsel of the day’s mystery meat. And in case you forget your I.D., you can always try a few dog tricks . . .
Studying is a favorite Sunday afternoon pastime.

Coeds enjoy decorating the date parlor for Christmas.

“Let’s see it my way.”

“All this trouble and now he’s gone to Radford.”
Coed Dorm Life—An Interesting Experience

"Do you think we can trust this koofer to hit on the exam?"

Coeds plotting strategy to raid Pritchard Hall.
Winter Formals Feature Tams, Rhondels

When winter quarter arrived at Virginia Tech, all knowing Techmen prepared for a long dreary hibernation. But in spite of the snowy Saturday night, Winter Formals succeeded in getting quite a few Hokies out of their dens for a memorable weekend. Cotillions went psychedelic in their decorations and provided some soul-satisfying music with the Tams on Saturday night and Artie Tompkins and his Orchestra on the traditionally formal Friday night dance. The "Winter Magic" theme prevailed at the German's big weekend. The Embers put on a worthwhile show on Friday night, and Bill Deal and the Rhondels sounded out the full weekend with the Saturday dance.

"Which dance did you say this was?"

The Tams add to the psychedelic mood of the Cotillion's Saturday dance.
"Personally, I like the one in the red."

The Embers provide a cool mood for the Friday night Germans.

When the drinks get low, the tables get deserted.
A couple takes advantage of a warm sunny day.

Sometimes it even snows!

Crisp, cold, below-freezing weather brings out ice skaters.
Weather At Tech—
Definitely Different

A Beautiful Tech sunset forecasts good weather.

Some days it doesn't pay to get out of bed in the morning.

The only ones who like rain seem to be the ducks.
Military Weekend—
A Corps Highlight

Although outnumbered by the civilians, the cadets went all out for Military Weekend to show them how to do a big weekend at Tech. As usual, the corps festivities got off to an early start with “Rat Day,” Thursday, February 20. The freshmen’s reprieve was short-lived, however, as the upperclassmen regained their cool the next day—until the Corps Variety Show Friday night, that is! Following the show the cadets and their dates went over to Christiansburg for an informal dance, which featured the Seventh Street Blues. Man, were those cokes good... Everybody straightened up on Saturday, however, for the long-awaited Military Ball. The crowning of Miss Karen Krouch as Military Ball Queen preceded the traditional fireworks and taps on the freshly snow-covered drillfield. Although all gala weekends seem to last for only a fleeting moment, the memories of Military Weekend ’69 will remain with the corps for quite a while to come.
“Otto and Snarf” entertain at the Variety Show.

O Squadron is well represented at the show.

Dancers swing to the beat of “Stacy Henry and the Majestics.”
The performance on Friday, February 28 by the Lettermen highlighted Winter Quarter events, and marked the first night of a special weekend which included the Tech-Houston basketball victory on Saturday afternoon. The world-renowned trio presented a variety of group and solo renditions of their most popular hits, including "Goin' Out of My Head," "I Believe," "Theme From 'A Summer Place'" and many more. A capacity crowd in the Tech Coliseum responded warmly to the showmanship and enthusiasm of the group, sponsored by the V.P.I. Student Union in its concert series.
“Computer Technology at VPI” was last spring’s theme for Tech’s annual Festival. Activities ranging from art exhibits to sports events were planned to help celebrate the end of a long hibernation. Tech’s campus really came alive with the German and Cotillion Clubs’ concert featuring Percy Sledge and Johnny Rivers; and who could have resisted the chicken-que on the lawn between the gym and Eggleston Hall? However, the main purpose of the weekend was to bring students, faculty, the public, businessmen, and industry together in a closer relationship. These groups set up all types of unique exhibitions. The main exhibit, in relation to the computer theme, was furnished by IBM. Another weekend highlight was “Secondary School Day” when over 1,000 high school students invaded the campus. All in all, the entire Festival proved to be one of the best yet. Chicken-que, anyone?
A view of several exhibits presented at Tech Festival.

"Will you hit the nail this time?"

"Listen, I'm not that heavy!"
We as Tech students are constantly being told to "get involved" in the things and events around us. We are told that being a college student at VPI involves much more than studying from books. We should take a decided interest in the current issues, events, and problems in the world today. This was the purpose of "Conflict '68", the third annual seminar on contemporary problems. Prominent American leaders got together with students to discuss such fields as religion, labor, music, and government. The problems focused on by "Conflict '68" were the draft, student power, changing moral values, and the changing South. This program was designed to give the student deeper insight into the problems facing our modern society.

Carl Oglesby: "The Gentlemanly Revolutionary" in the forefront of the protest movement in America.

American Ballet Theater Performs in Burruss Hall

On Wednesday, March 5, 1969, The American Ballet Theatre presented a three part performance at Virginia Tech. The first part was Grand Pas-Glazounov from Act III of Raymonda. The second half depicted the American migration West, with a portrayal of the life of Billy the Kid. This portion was in eleven scenes. It was a drama, using only pantomime and conventional movements to show the outlaw’s life. The third segment was supplied by Tchaikovsky. Here, the ballet went into a complicated arrangement to express visibly the music of the great composers.

The program was presented by the Concert and Lecture Committee of the VPI Union, which is composed of students, faculty, and staff whose purpose is to enrich the cultural life of the University community. Student activity fees and ticket sales to the public help to support the programs.
Tech Is One Of Twelve Schools To Receive Diplomat

This year Virginia Tech was one of only twelve universities in the U.S. to be given a Diplomat in Residence by the Department of State. Dr. Maurice Taylor, a Senior Foreign Service officer, came to V.P.I. in a lecture-study capacity for the 1968-69 academic year.

Dr. Taylor's varied experience enabled him to contribute much to campus discussions on international relations and political science. After serving in the Army during World War II, Mr. Taylor served as the U.S. Treasury Representative at the Embassies in Rome, Brussels, and Luxemburg. From 1955-1957 he served as the Foreign Member of the Currency Committee of the Bank of Greece, before joining the State Department in 1957. His foreign posts include Tehran, Manila, and Santo Domingo. Dr. Taylor returned from the Dominican Republic in August to become a temporary member of the V.P.I. academic community. In addition to speaking to students, faculty, and the local community, Dr. Taylor taught a seminar course in national security policy.

RING DANCE

EDITED BY:
CURTIS GARNER
CAROL CLORE
"Rhapsody"

Rings have long held significance for everyone since the beginning of time. A token of love, an heirloom, or an ornament, all have decked the hands of many men and women.

Of particular significance to all Techmen and women is the class ring, celebrated with a formal dance in the spring of their junior year. May third and fourth, nineteen hundred and sixty-eight will remain in the memories of those members of the Class of 1969 as they waltzed, dreamed, laughed, and caressed amidst the romantic strains of Duke Ellington.

"Rhapsody", the 1969 Ring Dance theme, provided the atmosphere for Techmen to display the traditional figures representative of V.P.I.

Saturday afternoon held lighter moments for those Techmen who joined the Showmen for a soul session.

Saturday night brought a return to entertainment through "Rhapsody" as each member of the Class of 1969 bid a closing to his weekend held fondly in his heart by the ring on his hand.
A view of the fountain through the unusual ornate screen was the introduction to the magnificent ballroom.
The Cadets
and Civilians Form Traditional Figures
Duke Ellington and his Orchestra set the tone for Ring Dance.

The Excitement of That First Dance
The gleaming bursts of fireworks probably came close to describing the excitement and pride of each junior for his classmates and his ring. They signal the end of the first tradition-filled night of Ring Dance, Class of 1969. Though the rockets of color will die quickly, the memories of each junior's most glorious college weekend will linger forever.

Tech Seniors Make Return to Liberty Bowl

Smoot was Tech's top ground gainer.

Bama Wins Opener 14-7

Football, 1968, the year the Gobblers return to the Liberty Bowl, the year of the big surprises. Preseason the polls picked the Gobblers to post a 4-6 record in a rebuilding year; little did they suspect that it would only take Tech five games to rebuild. After dropping three of their first five games, the Hokies rallied for five consecutive wins including upsets of West Virginia, 27-12, Florida State, 40-22, and South Carolina, 17-6. The 7-3 record was enough to get the Gobblers a return trip to the Liberty Bowl; the seniors on the '68 squad were sophomores on the 1966 Liberty Bowl team.

Opening game for the Techmen gave the indications that the Hokies did have a capable football team. Going into the Alabama game, played in Birmingham, Tech was a four touchdown underdog; but the Hokies were not to be denied. The Gobblers ended the game only one touchdown short of the Crimson Tide 14-7. 'Bama's winning TD came on a lucky turn-of-events. Flankerback George Ranager caught a pass that was deflected by a Hokie defenseman and carried the ball 75 yards for the score; if the ball hadn't been deflected, Tech would have had an interception. The Gobbler touchdown came when Jud Brownell recovered a punt blocked by Larry Creekmore in the 'Bama endzone.

derson, C. Collins, J. Ivanic.
In the second game of the season, the Gobblers unveiled a new speciality team: the fourth-down "Punt Punchers" unit. Looking for their initial victory, the Techmen journeyed to Williamsburg to face an always rugged William & Mary eleven. The game was a virtual standstill until the famed fourth-down unit went to work.

The punt-punchers waited until 11:12 remaining in the third quarter to strike with Tech linebacker Mike Widger slicing his way through the Indian line to block a Morton punt. The stray ball then found its way into the W&M endzone where it was recovered by Edwards for the TD. Simcsak added the PAT. Four plays later Ken Edwards blocked another punt through the endzone for a safety. Simcsak's third quarter field goal gave the Gobblers their first win of the season, 12-0 over William & Mary.

Next for the Gobblers came a speedy Kansas State team. The quick-footed Wildcats were just too much for the Techmen to handle in the Lane Stadium season's opener. Led by Mack Herron, KSU smashed the Hokies 34-19. Herron, a 9.3 sprinter in the 100, scored touchdowns on a 77-yard run from scrimmage and a 99-yard kickoff return. He also threw a seven-yard TD pass and set up another score on a 38-yard pass reception. Highlight for Tech was Mike Widger's 46-yard touchdown run following his stealing of the ball out of a KSU's runner's hands.
Green blocks as Smoot completes pass.

One of the five Hurricane injuries.

Hokies Hurt Hurricanes

Tech closed out the first half of the season with a slim 7-6 Homecoming win over Wake Forest and a 13-8 loss at Miami. The Gobbler defense was responsible for the win over the Deacons. Paced by sophomore Lenny Smith's three interceptions and Mike Widger's one interception, the Hokie defenders had complete control of the game. Tech's offense managed only one sustained drive: a 10-play, 77-yard drive ending with a three-yard Smoot touchdown run in the first period. From then on, the defense contained the Deacons. Wake did manage to score in the closing period on a two-yard run by Clymer after a 13 play, 51 yard drive. The Deacons elected to go for the two-point conversion and the win; but they failed as Smith broke up the pass.

At Miami, Tech had to play without the services of quarterback Al Kincaid who injured his shoulder against Wake. Sophomores Wayne Humphries and Gil Schwabe shared the signal-calling duties in Kincaid's absence. The defense intercepted two passes and recovered two fumbles setting up numerous scoring opportunities. Larry Creekmore returned an interception 57 yards to the Miami five, but the offense could not score. The only offensive score came late in the game when Schwabe directed his team downfield for a Kushner TD run. Schwabe then completed a two-point conversion pass to Dickie Longerbeam.
Ken Edwards Brings Life

Green and Constantinides block for a Kincaid pass.

WVU Thrashed 27-12

After the Miami game, the Virginia Tech coaching staff decided a change was needed to help the offense—they decided on moving linebacker Ken Edwards to fullback. This move was all the offense needed to come alive. Against the Mountaineers, Edwards rushed for 74 yards on nine carries. Teammate Terry Smoot gained 122 yards on 30 carries. The addition of Edwards to the Hokie backfield also helped bolster the Tech blocking. The offensive line as well as the running backs were opening several holes for Edwards and Smoot.

The Tech defense also played another of their great games. Mike Widger scored another touchdown as he returned an interception 74 yards putting the Gobblers ahead early in the first half of play. Simcsak added a PAT and Tech was in command of the game. Other Tech scoring in the game came on short TD runs by Smoot and Edwards, two PAT’s by Simcsak, and two field goals by Simcsak. The Gobblers had their first big win of the year, a 27-12 upset over West Virginia.
FSU Trampled 40-22

Florida State found out quick that the new Tech offense was not a fluke. Going into the game a decisive underdog, the Gobbler were given no chance to win. Everyone thought that Ron Sellers would kill Virginia Tech; he didn't. The Hokies unleashed one of the best offensive and defensive combinations ever seen in collegiate football as they trampled the Seminoles of Florida State 40-22, and held the great Sellers to only 56 yards on four receptions. And the Tech defense also intercepted six Seminole passes.

For the offense, the combination of Ken Edwards and Terry Smoot led the way. Edwards in his second game at fullback carried the ball 17 times gaining 197 yards and Smoot carried the ball 22 times for 94 yards. Long run of the game was an 88-yard touchdown run by Edwards in the second quarter.

The win brought the Hokie fans to life again. Immediately following the game a spontaneous pep rally broke out on campus; and when the victorious Techmen returned to campus the next morning a huge throng of students were on hand to greet them.

Tech Wins Final Five to Post 7-3 Record

The Gobblers closed out their regular 1968 season in fine fashion; the wins over Richmond, South Carolina, and VMI were enough to give the Techmen another Liberty Bowl invitation. The big win of the three was the 17-6 upset of South Carolina. The Hokie running trio of Terry Smoot, Ken Edwards, and Al Kincaid gained 163, 95, and 54 yards, respectively, were too much for the USC defense to handle. And the Tech defense did a good job in containing USC’s record-setting quarterback, Tommy Suggs. Carolina’s only TD came on a completion of a deflected pass.

The two in-state games of Richmond and VMI were no contest for the hard-hitting Hokies. The only thing that the Southern Conference foes had going for them was the SC officiating. Against the Spiders, Tech was assessed 168 yards in penalties and against the Keydets, 160 yards. The trio: Smoot, Edwards, and Kincaid gained 123, 77, and 57 yards, respectively, against Richmond.

The VMI game saw sophomore Wayne Humphries at the quarterback berth filling in for Kincaid. Humphries did a respectable job throwing three TD passes leading his team in a revenge battle against VMI. Edwards also threw a TD pass and set up another with a long pass completion.

Widger and Ripley cause Keydet fumble.
Tech Only In 1968 Liberty Bowl For One Quarter

The Gobblers struck early in the 1968 Liberty Bowl game with an assortment of trick plays, powerful running, and defensive maneuvers to build a 17-0 lead over Mississippi before the first quarter ended — but that was all the scoring for the Techmen for that cold December afternoon in Memphis. The Rebels of Mississippi came from behind to beat the Hokies 34-17 before the largest crowd ever to view a Liberty Bowl contest (46,000).

Tech's first score came on the second offensive play of the game, a special play worked out by Coach Claiborne. It was a no-huddle play which saw quarterback Kincaid walk limpingly away from his teammates who were standing at the left side of the field. As Kincaid neared the ball he pitched it back to Ken Edwards who ran 58 yards for the touchdown. The trick play caught the Mississippi defenders in a huddle on the opposite side of the field.

On the first Mississippi play following the Tech kickoff, Steve Bocko recovered an Archie Manning fumble knocked loose by Joe Tucker. Four plays later Terry Smoot carried the ball into the Mississippi endzone for the Gobblers' second TD. Jack Simcsak's second successful PAT gave Tech a 14-0 lead at 12:43 remaining in the first quarter. This was enough points to give Tech a Liberty Bowl record for most points scored in the opening period. A Simcsak field goal at 1:49 added on to this record.

Mississippi took control of the game the rest of the way and won easily 34-17.

Gobbet Football Program Features Aerial Game

As the Virginia Tech freshmen opened their 1968 football season against arch-rival Virginia, they showed a talented offense and a weak defensive line. Tech lost 28-20, as the new $40,000 scoreboard was initiated.

Facing West Virginia in Bluefield, the young Hokies' rally fell short as they lost 36-26. Tech won the last three quarters, but WVU scored 22 of their 36 points in the first period to put the Gobblin's way behind in the beginning. While on the road, the young Hokies gained their first win by defeating Maryland 35-0.

To preclude the traditional contest between Tech and VMI, the freshmen teams met in the 18th Annual Shrine Bowl, profits from which go to crippled children's hospitals. The Gobblin's put on an aerial show to fly by VMI's rats 34-7. The young Hokies went to the air as no other Tech team has done. They gave hope for future Tech varsities.

Once again at home, the Tech freshmen put on a scoring exhibition to amaze the home fans and end their season with a 3-2 record. This was by a 53-20 win over the Kentucky freshmen. Don Strock, Bob German, and Ed Tennis threw for a total of five touchdown passes and 388 yards.

With other standouts such as end Tom Counter, fullback Vince Russo, halfback Rich Matijevich, the future is looking bright for the Virginia Tech football career.
Patty Tate cheers on her freshmen.

Pom Poms and boots on parade.

Love that scoreboard.
Cheerleaders Bring New Color Into Tech Athletics

The Virginia Tech Varsity Cheerleaders came on strong this year with a new mod look in football as well as in basketball. Colorful new uniforms for the men and women were used this year, and they brought much attention from the many fans who were used to seeing the "traditional" dull garb.

The varsity cheerleaders traveled to all ten regular football games of the 1968 season and also attended the Liberty Bowl in Memphis. For several of the football games the cheerleaders made their appearance in full force, twelve strong. They also attended all of the home basketball games and some of the away ones.

The cheerleaders are the ones responsible for creating the great Tech Spirit of the Gobblers football and basketball games. Their enthusiasm generates the Tech student body into a massive, thunderous throng pushing the Gobblers onward and upward to victory. The cheerleaders started building up the support for the football games with Thursday night pep rallies.

Determination, dedication, and hard work are all trademarks of the cheerleaders. Regardless of how little recognition and appreciation received, they still strive to instill spirit and enthusiasm into a sometimes apathetic student body. They are one of the forces behind victory.
Soccer Club Ends Season With Consecutive Wins

The Soccer Club of Virginia Tech closed its season on a positive note with consecutive wins over Appalachian State and Madison College. The Techmen blanked Appalachian State by the score of 1-0. The Tech defense used a strong blitz to hold the foe scoreless. Preble Ware scored the lone point for Tech to secure the win.

In the final game of the season the Gobblers, playing on their home field, shut out Madison College 2-0. Dave Sieg scored the first goal for Tech during the first half. The score remained at 1-0 for the majority of the second half before late in the fourth quarter Tech's Ron Evans headed the ball into Madison's net to insure the victory for Tech. Coach Hills said that there was a great future for the world's largest sport here at Tech.
Tech steps in to steal ball from two opposing players.

Gobbler heads ball toward opponent's goal.
Lack of Bench Strength Hurts '68-'69 Gobblers

The 1968-69 Virginia Tech basketball team had one major problem: the lack of an adequate bench. With starters Chris Ellis, Dan Wetzel, Stan Kerrick, Ron Wagner, and Loyd King, the Gobblers were equal to most teams on their schedule in opening strength. But when these five started to get into foul trouble or tired, only Walt Deskins and Dale Manuel could adequately fill in.

The Tech bench received a severe jolting after the first seven games of the season when Wayne Lockett became an academic casualty. Near the end of the season big John Blessing began to show some signs of potential. The Techmen just did not have enough to have a great year, though they did manage to have another good season.

A 74-68 upset win over Houston in the final game of the year gave the Gobblers a 14-12 record; this was the 13th consecutive winning season for the Techmen.

Ellis sinks layup at Carolina.

Shannon discusses strategy with team.
Tech Wins Big Five Tourney

All five starters in the Gobbler lineup averaged better than ten points per game led by Ellis, who averaged nearly twenty. Dan Wetzel led the team in rebounding, averaging slightly under ten per game.

The Hokies got off to a good start after the first two games of the season. Following the losses to Duke and West Virginia, the Techmen returned home to begin a streak which saw them win eight of the next nine games. A 77-74 upset victory over Florida State brought the Hokies to life.

A Big Five Tournament victory was next in line for Virginia Tech. An 85-74 win over Virginia at Salem brought this championship. Tech then journeyed to Greenville, N. C., to play in the East Carolina Classic. The Gobblers came home from East Carolina with a third place, losing only to Baylor 66-63 in the semi-finals. The Techmen then beat in-state rivals William & Mary and Richmond before losing at UNC.
Ellis leads Deskins down court.

Confederate flag brings student spirit into Tech Coliseum.
Hokies Lose The Three Big Games In January

Deskins battles for the ball.

Kerrick tips away rebound.

Manuel takes a short jump shot.

A Wetzel layup is nearly blocked.
The lack of adequate bench strength became evident in the Tech-UNC game played in Chapel Hill. The Gobblers played even with Carolina for the first half of play. The lead never was greater than five for either team and the lead changed hands several times. At the halftime point the Gobblers trailed by only one point, 43-42. But when the second half came it was a different story ... Carolina came alive.

Carolina pulled away from the Gobblers and won by a twenty-point margin, 99-77. The closest Tech was in the second half came at the beginning buzzer. The Hokies had some players in foul trouble playing and some playing tired; whereas Carolina was continually shifting players in-and-out, avoiding foul trouble and resting their starters. This was only one of the several losses suffered by Tech in this manner.

The Gobblers suffered two more losses in January, losing to Villanova 70-57 and Eastern Kentucky 73-65. The loss to Villanova was a homecourt loss before 8,800 fans in the Coliseum.

Big Dan Wetzel began to play the best ball of his career in the middle of January and looked like an All-American on several occasions in his rebounding, shooting, and defensive play. Chris Ellis complemented Wetzel’s play with his fancy ball-handling. Stealing the ball and setting up plays became a specialty for Chris Ellis.
Gobblers Win State Big Five Title Again in '68-'69

Gobbledt Basketballers Show Help For Next Year

Freshmen basketball took up at the point where freshmen football ended... winning. The 1968-69 edition of the Gobbledt roundball team may be known as the best ever at Virginia Tech. Coaches Shannon and Hartbarger assembled a fine team which will be helpful to next year’s varsity.

Seven outstanding players did the bulk of the work for the Gobbledts. Bill McNeer led the Gobbledts in scoring in the early part of the season, and then Darwin Pippin and Randy Minnix began netting the hoop. Rebounding was handled by Mike McKelvy early in the year; then Charlie Lipscomb established himself as the team rebounding leader.

The Gobbledts were plagued with injury problems throughout the season. Tom Trice got a foot injury after the first few games and was lost for the season. Later McKelvy got hurt.

Another quality exhibited by the Gobbledts was the ability to come back. After being humiliated by the Carolina frosh, 91-59 at Chapel Hill, the Gobbledts did not give up.

They came back to winning. The insertion of Mike Blalock into the starting lineup gave the Gobbledts some field leadership. The Gobbledts had back-to-back upsets over Lees-McRae Junior College and the Davidson frosh. In the Davidson game, Tech came from six behind to ten ahead in the closing eight minutes to win 84-74.

You should see the picture we didn’t run.
The Virginia Tech Wrestlers had a rebuilding year in the 1969 season. Ralph Hawthorne wrestled in the 123 class for the Techmen, John Friede in the 130 class, Russ Reid in the 137 class, Jack Stover in the 145 class, and Bill Tucker in the 152 class. In the upper divisions Luther Blair wrestled in the 160 class, Dave Post in the 167 class, Larry Harrell in the 177 class, and Gray Coyner in the unlimited. Hugh Winstead also wrestled in the 137 class.

Gobbler Matmen Rebuild in 1969 Season

Sophomore Doug Adams Paces Gobbler Swimmers

Sophomore Doug Adams paced the 1968-69 Tech swimmers. Adams was a steady winner in the 200-yard butterfly and the 200-yard breaststroke. Wertman and Kellett swam in the 1000-yard freestyle. Taylor and Huffman were in the 200-yard freestyle. The 50-yard freestyle was handled by Heflin and McCorkle. Singleton was in the 200-yard individual medley. Greiner was the Gobbler diver. LeMay was also in the 200-yard butterfly. Heflin was the 100-yard freestyle swimmer. Kellett and Pharis were the Hokie 200-yard backstroke men.

Bill Harris, Captain.

Gray Greiner, Diver.
The 1969 season marked the third year of intercollegiate competition for the Tech Gymnastics team. During the season, the Tech gymnasts were presented with an expanded schedule and higher caliber competition than had been encountered in their two previous years of competition. The 1969 schedule included ten dual meets with such teams as Brockport University of New York, Furman University, Old Dominion College, University of Louisville, William & Mary, University of North Carolina, University of Virginia, and West Virginia University.

This year's team was led by all-around performers Ray Gatti and Doug Feuerbach along with four-event man David Throckmorton. Bill Glover, an outstanding performer and vital team member was unable to compete this year because of injury.

In addition to intercollegiate competition, the Gobbler gymnasts have represented the University with exhibitions at half-time of regionally televised basketball games and demonstrations at area high schools.
Trockmorton on the parallel bars.

Niederlehner on the side horse.
Outdoor Track Team Undefeated in Dual Meets

The 1968 outdoor track team was undefeated in dual meets, showed up well in all the big relay meets, and placed 2nd at the state meet. Highlighting the spring season, the Gobblers upset strong ECU 88-56. Records were set by Joe Painter in the 2 mile at 9:17.8 min., Will Carroll in the high jump at 6'6 1/4"", Jerry Gaines in the broad jump at 23'6 1/2"", the 2-mile relay at 7:37.6 min., the 440 relay at 42.5 sec., the mile relay at 3:17.8 min., the distance medley at 10:11 min., and Wilton Staples in the triple jump at 48'-1".

Beating ODC, VMI, and UVa and losing to ECU in dual meets, the cross-country team placed 4th in the NCAA regionals. The outstanding runners were Randy Dehart, Barry Shiflet, and Joe Painter, who placed 7th in the NCAA regionals.

Indoors the track team beat VMI for the 1st time in 12 years, and the 2-mile relay — Lee, Dehart, Evenson and Vasvary — were AAU Champions with a time of 7:25 min. The track team captained by John Vasvary and Randy Dehart was dominated by freshmen and sophomores and called the best team ever by Coach Marty Pushkin.

Start of the half-mile race.

Painter collects more string.

Carroll sets high jump record.
Tech Baseballers Post 17-9-1 Record in 1968

Although Tech opened its 1968 baseball season with a 4-4 record during a trip south, their record was one of the best in recent years. While down at Georgia Southern and Clemson, Pitchers Wayne Groseclose and Steve Pittman got off to a good start pitching their first wins of the season.

The next ten games, all at home, produced a 8-2 record. During this series, Pittman, Groseclose, and Dean Hahn led Tech with their great pitching ability. A 5-3-1 record was the result of the last nine games of the season.

Besides having good strength in the pitching department, Jimmy Dean, Dean Hahn, Steve Pittman, Eddy Oates, and Bob Elwell led in hitting with batting averages of .378, .350, .333, .306, and .305, respectively. Other than having high batting averages, Hahn, Dean, and Tommy Childress helped out with 5, 4, and 4 homeruns, respectively. The hitting was well rounded out by six other players batting .250 or better.

At the season’s end, pitchers Pittman and Groseclose had won-lost records of 5-2 and 6-2, respectively, and ERA of 1.90 and 1.42, respectively. Also, the team had a 17-9-1 record for the season.
Hahn fires from the mound.

Dean stretches for the putout.

Front Row: Wayne Javins, Dean Hahn, Tommy Childress, Jimmy Dean, Wayne Groseclose, Buster Ellis, Steve Pittman, Bobby Settle, Jerry Vinson, Vic Sprenger. Back Row: Coach Red Laird,

Herbert Paces Golfers

Another successful season was turned in by the Gobbler golfers in the spring of 1968. Paced by the outstanding play of junior Billy Herbert, the Techmen posted a strong ten win and five loss campaign. Individually, Herbert, the Number One golfer, had a fine 73.8 average in his fifteen matches. Herbert had only one loss and one tie in his matches throughout the year. As a team, the Gobblers carded some fine scores in the two Invitationals which they participated in. In their opening action for the year, Tech finished fifth in the Red Fox Invitational. Later in the season, the Gobblers came in second, two strokes off the pace, in the State Intercollegiate Tournament. In the state tourney, Herbert was the tri-medalist with a total of 152. The dual match season got off to a slow start for Tech due to lack of practice caused by inclimate weather; but after dropping three of the first four, the Hokie golfers rallied to have a respectable season in 1968.
Record Year In Tennis

The 1968 edition of the Virginia Tech tennis team turned out to be the winningest team in the University's history. Led by Number One man Jay Collins and Number Two man Jackie Burrows, the racket squad posted an impressive 13-5 won-lost record; and of the five losses, four were merely 4-5 defeats. The season started out with a Southern trip to Jefferson State, Samford, Furman, and Georgia Southern. Of these opening five matches, only Samford and Furman managed to score off the Tech netters. The Gobbiers then ran their winning streak to six before bowing to Kentucky 6-3. Individually Collins was 14-3 in his singles matches, Burrows 17-1, captain Preble Ware 13-5, Bobby Burleson 12-6, Kent James 13-5, Chuck Samuels 4-6, and Zip McDonald 3-6. In Doubles, the Number One team of Collins-Burrows went 17-0, undefeated in both match and set play. The Number Two team of Ware-Burleson were 13-2.

The Publications Board

The Publications Board is the administrative body governing all the recognized publications at Virginia Tech. The purpose of the board is to govern the major policies of each publication, to direct and coordinate their activities, and to select the publications heads each year.

The BUGLE, THE VIRGINIA TECH, WUVT, and the MAELSTROM are all represented by this body. The yearbook, newspaper, radio station, and literary magazine all facilitate communication and student expression.

The Publications Board is an instigating force behind Tech's communications network. The board is composed of editors-in-chief, business managers, faculty advisors of the four publications. In addition, the president of the senior class, an administrative financial advisor, a member of Pi Delta Epsilon, a representative of the Student Activities Committee, and two representatives from Student Government serve on the Publications Board.
1969 Bugle

Founded in 1896, the BUGLE enters its seventy-second publication at Virginia Polytechnic Institute. The Purpose of this yearbook is to reveal the many facets of college life. This encompasses all phases of life at Tech ranging from the excitement of sports to such social functions as Ring Dance, and from dormitory living to classroom activity; these and many more aspects comprise the total outlook presented by the BUGLE. This year, John Tressler, assisted by many staff members presents a dynamic book. With a new publishing company, Hunter Publishing Company of Winston-Salem, North Carolina, the BUGLE plans a more efficient operation. Color is also an emphasis. This emphasis is on better quality of color pictures such as in sports — football, baseball, and basketball. New divider pages also stress color. Thus, another BUGLE fulfills its purpose, a pictorial history of college life at Virginia Polytechnic Institute.
E. A. Hancock, Advisor.

Sectional Co-editors: Mary Convery and Nancy Lankford.

Junior Co-editors: Brenda Kibler and Sandy Kulina.

1969 Bugle

Sports Staff: Robert Leonard; Don Todora, Editor; Chris Naczkowski, and Bill Harrell.

Senior Staff: Sharen Gridley and Kathy Robertson, Editor.
Sponsored by the Athletic Association, The Virginia Tech was organized in 1903 as a weekly paper. The student body assumed its publication in the spring of 1931. Because of the war, there were bi-monthly issues except for an 18-month press halt. The following year, Freda Polansky became the first woman editor. In 1966, The Virginia Tech became a biweekly paper. Presently, the circulation numbers 12,000.

"Here is the place to put those literary talents to work, while contributing service to the entire student body through the improvement of communication." This quotation states the aim of the campus newspaper. In 1968, Lucy Minogue became the second woman editor. Definitely, this publication is by, for, and of the students of Virginia Polytechnic Institute.

MAELSTROM

Jennifer Minogue, Editor

Since its founding in 1964, the Maelstrom has sought "to publish the finest creative and critical work." It was organized in 1964-65 by Robert S. Gilmore and Jim C. Michie III. The first issue, under the editorship of Peter D. Trelogan, appeared in the Spring Quarter of 1966.

The Maelstrom is a magazine which encompasses the fields of literature, graphic arts, and photography. The main literary works published are prose, poetry, essays, book reviews, and short stories. At first the magazine ran forty pages, which was later extended to sixty-four pages. The Maelstrom receives the literary talents of students, faculty, alumni of Va.Tech, and also from guest contributors. It is financed by sales and patron donations. In 1968-69, the Maelstrom continues to provide encouragement of the literary and art talents of the students at Virginia Polytechnic Institute.

Geoff Hougland, Business Manager
In the past few years, WUVT has undergone many changes. This new expansion dates from 1964, with the purchase of a cartridge machine. Later, in 1966, the station moved from the old Student Union Building; another move is planned to more spacious accommodations in the New Student Union Building. In 1967, a solid-state audio console was added. In addition, last year WUVT became an affiliate of the Mutual Broadcasting System. This year, the station plans to operate an FM station. Along with the new sound, WUVT offers many opportunities for amateur D.J.'s, copywriters, engineers, business and advertising personnel. Truly WUVT has emerged as one of the country's finest student radio stations.

WUVT, the student radio voice of Virginia Tech, was organized in September, 1947. Its first broadcast originated from the War Memorial Gym on April 1, 1948. After fire destroyed the studios in August, 1951, WUVT set up its headquarters in the old Student Activities Building, Squires Hall. Returning to the air in November, 1952, the student radio station has broadcasted almost uninterruptedly except for a brief period in 1953 and 1954.

Phi Kappa Phi

Phi Kappa Phi was the first honor society to recognize superior scholarship in all fields of study and to take into membership the highest ranking students from any branch of learning.

The VPI Chapter of Phi Kappa Phi was started in November, 1921, with fourteen charter members and has grown to a present one hundred and fifty members. Its membership is composed of elected juniors in the top five percent of the class and seniors in the top twelve percent. Each year the Society offers a $3,000 national fellowship and a local chapter award to the top-ranking senior in each college of the University.

Omicron Delta Kappa

Omicron Delta Kappa, national leadership honor society for college men, was founded on December 3, 1914, and the Alpha Omicron Circle at VPI received its charter on June 2, 1923.

The society was formed to bring together those students whose extreme interest and leadership ability have been guiding stones for the development of college life throughout the nation.

The members are chosen from the top third of the junior and senior classes at Tech.

Alpha Kappa Psi

Seated: Michael Waltz, President; Dr. Carl W. Allen, Faculty Advisor; David B. Fairhurst, Vice-President. Standing: John W. Milks, Secretary; Mac H. Johnson, Master of Rituals; Russell E. Shipe, Treasurer.
Alpha Kappa Psi has a National Efficiency Rating that ranks the different chapters according to how they perform throughout the year. Mike Waltz, President, receives the twentieth consecutive Award of Achievement from advisor Dr. Carl Allen. Beta Xi Chapter leads all of the 145 chapters in the nation — essentially earning the rank of being the "Best in the Nation." The efficiency rating is based on Professional Activities, Scholarship, Membership, Finances, and General Administration.

**Beta Xi Chapter**

Alpha Kappa Psi, the oldest professional business fraternity in the nation, was founded at New York University on October 5, 1904. Beta Xi Chapter at Virginia Tech was founded on February 18, 1939, by four business professors — Col. R. L. Humbert, Prof. W.S. Gay, Mr. E.P. Ellison, and the late Prof. B.O. Miller.

The objects of Alpha Kappa Psi are "to further the individual welfare of its members; to foster scientific research in the fields of commerce, accounts, and finance; to educate the public to appreciate and demand higher ideals therein; and to promote and advance in institutions of collegiate rank, courses leading to degrees in business."

Initiates must have attained at least a 2.5 overall and be a member of the sophomore, junior, or senior class before he has the opportunity to pledge. Pledges undergo a five week pledge period before being eligible to be initiated as a brother. There are also faculty members here at VPI that are associated with Alpha Kappa Psi.

Room 128 in Commerce Hall serves the Alpha Kappa Psi brothers as their meeting room. The entire furnishings of the room were purchased by Beta Xi Chapter to serve its brothers and the faculty. The room also serves as a "trophy room" for the many awards given to Beta Xi over the past 30 years.

Professional activities are a major portion of the overall efforts of the fraternity. Regularly, the brothers invite speakers from business and industry to tell of the fast changing business world. Mr. L.J. "Jack" Smith (left), from Burlington Industries spoke to the brothers on "What a Recruiter Looks for in an Interview." Speakers from IBM, Allstate, Bank of Virginia and many others also spoke during the year. Also, the fraternity has field trips into industry. The Times-World Corp., Shenandoah Life, and Corning Glass are among those visited in the past year.

Alpha Kappa Psi has two pledge periods each academic year. The pledges are taught the history of the fraternity and its many rituals and traditions. This past fall quarter there were eighteen pledges while winter quarter had eleven. The Winter Pledge Class (right): First Row: Pledges Shuey, Eanes, Holland, Baker, and Meyers. Second Row: Pledges Hardwick, Hopkins, Ridgeway, McCormick, Barker, and Walczak. The high point to each pledge period is Honor Court night during which the pledges are reviewed and questioned by faculty members of Alpha Kappa Psi.
Alpha Pi Mu is the national honorary recognizing outstanding students in Industrial Engineering. It is composed of juniors in the upper one-fifth of their class and of seniors in the upper one-third of their class. Members must also display leadership, breadth of interest, ethicability, and sociability.

Alpha Zeta

First Row: W. Hyde, R. Breeden, Recording Secretary; W. Wilkins, Vice-President; J. Stanfield, Corresponding Secretary; M. Lindsey, Treasurer; D. Garber. Second Row: S. W. Powell, Faculty Advisor; A. Etue, D. Stegall, V. Daniel, S. Draper, M. Korman.

Alpha Zeta is the national agricultural honorary at VPI. Its purpose is to recognize and promote high standards of leadership, scholarship, character, and fellowship in the College of Agriculture. A member must be in the upper two-fifths of his class, be at least a third quarter sophomore and possess outstanding qualities of leadership, scholarship and character.
Chi Epsilon

Chi Epsilon is a national professional fraternity limited to those students in Civil Engineering who have completed at least one-half of the work required for their Bachelor's Degree and rank in the upper one-third of their class. Chi Epsilon strives to recognize the fundamental characteristics of the successful Civil Engineer and to aid in the development of those characteristics, and to encourage any movement which will advance the interests of Civil Engineering.
Arnold Air Society

The Arnold Air Society is composed of cadets enrolled in advanced AFROTC who have distinguished themselves by their academic, military, and leadership achievements. The Society is dedicated to the advancement of air power and furthering the ideal of the U.S. Air Force.

The Society is named after General H.H. Arnold, Commander of Allied Air Forces in World War II and a five star general in the U.S. Air Force. The Squadron was formed in January of 1949 and was designated Squadron A-2 because it was the second such squadron to be formed in the nation.

Angel Flight

The Angel Flight is an honorary organization of dedicated college women who have the interests of the United States Air Force, the Arnold Air Society and their university at heart. Since the first Angel Flight was founded at the University of Omaha in 1952, it has grown into 153 nationally affiliated Angel Flights. The Flight this past year has assisted the Bloodmobile, the Campus Cleanup Campaign and the Air Force Art Exhibit and served as hostesses during Military Ball Weekend.

The Association of the United States Army is an honorary organization of senior ROTC Cadets. The VPI Company, which was formed in 1958 is composed of those who show a sincere and lasting interest in supporting the role of the U.S. Army in our national defense.

The purposes of the A.U.S.A. are to contribute its full resources and capabilities to advance the security of the United States, to find incentives for increasing military skills, to increase general Army background, and to provide for the exchange of information and ideas.

Delta Sigma Pi

Delta Sigma Pi is a professional business fraternity whose objectives are centered upon the ideas of scholarship, social activity and the association of students for their mutual advancement by research and practice. Zeta Upsilon Chapter, formed at VPI in Fall, 1966, has sponsored speakers, taken tours through business and industry and carried out social activities. Through these activities the fraternity has been able to fulfill national objectives while developing a strong brotherhood. The Rose Dance was held this year to honor the Fraternity Sweetheart, Miss Cathy Hutchison, who was chosen by the brothers. Annually Delta Sigma Pi awards to the senior in the College of Business with the highest scholastic average its Scholarship Award. Membership in Delta Sigma Pi is restricted to those undergraduates in the College of Business with a 2.1 Q.C.A., or greater, who have shown outstanding interest in business.
The purpose of Eta Kappa Nu is to honor those students in Electrical Engineering who have conferred honor upon VPI by distinguished scholarship, activities, leadership, and exemplary character. Beta Lambda Chapter, formed at VPI in 1940, is composed of juniors and seniors in the top one-third and one-fourth, respectively, of their classes.

Garnet and Gold

Garnet and Gold is the only honorary on the VPI campus that is made up of exclusively women students. The society was conceived in 1966 to promote and maintain the academic honor of all women students. Membership is composed of outstanding coeds who have maintained a 3.7 overall average in their freshman year, a 3.4 in their sophomore year, or are in the upper 25% of the junior and senior class and have at least a 3.0.
The Gregory Guard

The Gregory Guard is the most outstanding and best-known military honor society on the VPI campus. It is named in honor of Sergeant Earl D. Gregory, Virginia Tech's Sergeant York. A graduate of VPI, Sergeant Gregory was the first Virginian to receive the Congressional Medal of Honor.

The Guard is composed of members of the Virginia Tech Corps of Cadets who excel in scholastic and leadership ability, and possess excellent character. One must have at least a 2.25 QCA, at least a B average in ROTC, and have completed at least 2 quarters as a member of the Corps of Cadets to be eligible for membership.

The many activities of the Gregory Guard include participation at Homecoming, Military Ball and the Memorial Day Parade. It also participates in the Cherry Blossom Festival, Apple Blossom Parade and Dogwood Festival, as well as at VPI home games.
Phi Eta Sigma

Phi Eta Sigma Fraternity, organized on the Virginia Tech campus in 1965, is a national honor society for freshman men. It was founded at the University of Illinois in 1923. The purpose of Phi Eta Sigma is to encourage and reward scholarships among freshman students. The founders were impressed with the fact that freshman men were encouraged to participate in all types of campus activities but there was no comparable incentive for good scholarship.

To be eligible for membership in Phi Eta Sigma, a freshman must have a 3.5 or above Q.C.A. There were 129 male freshmen on the VPI campus as of winter quarter who had the necessary qualifications to be eligible for membership.
Pi Delta Epsilon

Pi Delta Epsilon was founded at Syracuse University in 1909, and takes great pride in being the oldest honorary collegiate journalism fraternity in the nation. The VPI Chapter was established in 1930, making it the second-oldest fraternity on campus.

Students considered for membership by Pi Delta Epsilon must be at least third-quarter sophomores and have worked on publications for three quarters, during which time they demonstrated outstanding journalistic abilities.

The objectives of the fraternity center upon the promotion of student interest and participation in undergraduate publications and journalism.
The Sash and Saber Society is a military society composed of outstanding and enthusiastic members of the Corps of Cadets. The purpose of the Society is to unite under common interest outstanding cadets and to provide them the incentive to take a more active part in today’s society which will be beneficial to VPI, the Corps of Cadets, and themselves.

Membership in the Sash and Saber Society is limited to senior and third-quarter junior cadets who are not enrolled in ROTC.
Scabbard and Blade recognizes those cadet officers who have demonstrated superior leadership in the Corps of Cadets at VPI. Members must have obtained a high leadership position in the Corps as well as an acceptable academic average. Scabbard and Blade is responsible for sponsoring the Military Ball each winter quarter, one of the few and popular events given by the Corps during the academic year. An important purpose has been to develop in each member individual characteristics which have made him a gentleman and an outstanding officer.
Sigma Gamma Tau

Sigma Gamma Tau is the honorary society for aerospace engineers. Membership is open to outstanding juniors and seniors in the curriculum who have achieved a high scholastic average in the aerospace field. It was founded at Purdue in 1953 to honor and recognize those who have, through scholarship, integrity or achievement, been a credit to the profession.

Sigma Lambda Chi is the Beta Chapter of Light Construction Engineers and Building Material Merchandizers. Membership in Sigma Lambda Chi is awarded to juniors and seniors who have exhibited outstanding scholarship in Building Construction. One must have a 2.5 QCA or better to be eligible for membership.

Seated: Wilson Nobles, Edward Babcock, Secretary-Treasurer; Randy DeHart, President; R. M. Larimer. Standing: Robert Burleson, Meade Pratall, Richard Caldwell.
Tau Beta Pi

Tau Beta Pi is a national engineering honor society that was formed to recognize outstanding students in engineering, since Phi Beta Kappa does not include engineering students. To be eligible for membership, one must be in the upper one-eighth of his junior class or upper one-fifth of his senior class. The Fraternity's purpose is to recognize those who have conferred honor upon this University by distinguished scholarship and exemplary character; and to broaden the intellectual horizons of its members and all engineers by fostering a spirit of liberal culture in engineering schools.

Women are not eligible for membership, but may be awarded the 'Women's Badge' in recognition of outstanding achievement. Annually an award is given to the outstanding freshman in the engineering curricula based upon his academic average.

Since its installation in 1933, the Virginia Beta Chapter has consistently worked to promote the ideals of the University and its Association.
The VPI Post of the Society of American Military Engineers, is an honorary society for cadets, which was chartered in 1957. The purpose of the Society is to advance the knowledge of the science of military engineering, and to develop cooperation among military and civilian engineers. In order to qualify for membership, the cadet must show an active interest in engineering and the Corps of Cadets. He must be enrolled in Engineering, Architecture, Chemistry, Forestry, or Physics and maintain a 2.25 overall QCA.

The year’s activities include several field trips to the Radford Arsenal and one to Fort Belvoir, fall and spring initiations including formal initiation banquet following each pledge period, bridge building projects, participation in Tech Festival, providing fireworks display on Military Weekend, and sponsoring films and speakers at meetings.
Omicron Delta Epsilon

Omicron Delta Epsilon, the national honor society in economics, was founded on January 1, 1963, as a result of the merger of Omicron Delta Gamma, Order of Artus (established at the University of Wisconsin in 1915) and Omicron Chi Epsilon (established at the City College of New York in 1956). The Epsilon chapter at Virginia Tech was organized in the fall of 1968, and meets on the second Tuesday of each month. Guest lecturers are invited to each meeting to speak on some topic of economics which the members would not generally find in their academic course work. The requirements for undergraduate membership are: junior class standing; 18 hours of economics with a grade average of 3.0 or above; an overall grade average of at least 3.0.

CURRICULAR CLUBS

EDITED BY:
HUNTER POLLITT
ALICE NICHOLSON
Agricultural Economics Club

Dedicated to fostering student interest in agricultural economics and developing fellowship among members and faculty, the Agricultural Economics club participates in a wide variety of activities. Beginning with a faculty-student picnic in the fall, the program includes participation in the buying and selling of stocks, sponsorship of an exhibit during Tech Festival, a series of guest speakers, and selection of an Outstanding Club Member. Membership is open to any student interested in Agricultural Economics.

Accounting Society

To develop an understanding of and interest in accounting and to promote pride in the accounting profession are the main objectives of the Accounting Society. Several speakers during each quarter provide opportunities for interested students to learn more about the field and to be able to ask questions of professionals in the field. The Accounting Society is composed of graduate and undergraduate students in the College of Business.
Agronomy Club

The VPI Student Section of the American Society of Agronomy was formed to encourage fellowship, cooperation, and leadership among those interested in agronomy; to provide educational programs in the agricultural sciences; and to encourage closer professional and social relationships between students and faculty. The club is well-known for its exhibits at Tech Festival and float entries in the Homecoming Parade. A banquet held during spring honors outstanding members.

American Institute of Aeronautics and Astronautics

Students in all curricula with an interest in the aerospace field are eligible to belong to the American Institute of Aeronautics and Astronautics. A major project was to finish designs on an award winning glider. Plans include the testing of the model and its eventual construction. Several students also attended the Regional Conference in Huntsville, Alabama, where they submitted technical papers in competition. One member, Pat Artis, won a third place in the 1968 conference in Atlanta, Georgia. Programs include films and speakers from such companies as McDonald-Douglas and Langley Research.

Seated: S. Fariss, Recording Secretary; J. Belshan, President; A. Ritchie, Corresponding Secretary; D. Irby, Vice President. Standing: G. Harrison, F. Byrum, Treasurer; M. Torrence, P. Rupp, E. Carson, Faculty Advisor.
American Institute of Architects

The American Institute of Architects promotes the fields of architectural services. In its quest to bring the purposes of the architect to the public's attention the unit sponsors film forums and contests in such areas as photography and graphics. Annual spring field trips in the past have taken members to such places as Montreal, New York, and New England. This organization, open to all students in Architecture, offers each member the chance to work and socialize with students with similar interests.

Officers: George Grigg, President; Richard Atwood, Corresponding Secretary; Michael Raphael, Business Secretary; James Fagelson, Treasurer.

American Institute of Chemical Engineers

The VPI chapter of the American Institute of Chemical Engineers was formed to promote the professional development of its members and to contribute to the advancement of chemical engineering through student-faculty activities. Members are kept informed of current events in their field by special speakers, field trips, and films. AIChE membership is open to all students enrolled in chemical engineering. Eligibility is granted to students in related engineering and scientific courses under specified conditions.

American Marketing Association

Field trips to Washington, D. C., and other Eastern cities, guest speakers from various companies throughout the nation, and participation in Michigan State University's Marketing Management Simulation computerized games — these were a few projects of the VPI Collegiate Chapter of the American Marketing Association. The society's main purpose in these activities is to stimulate interest and encourage scholarship of students in the marketing curriculum. Membership is open to any student in good academic standing.

American Institute of Industrial Engineers

Membership in the American Institute of Industrial Engineers enables a student to extend his knowledge of his field to understand better his relation to society as a whole. Joint meetings with the senior chapter of AIIE supplement the regular program of guest speakers from industry. Homecoming weekend each year finds the club sponsoring a candidate for Queen, entering a float in the parade, and holding a coffee for Industrial Engineering Alumni. Other social highlights are a fall picnic and a "Faculty-Senior" football game.

Seated: W. Roper, Secretary; S. Mann, Vice President; L. Simmons, President; C. Johnson, J. Jeffress, Treasurer; P. Wischkaemper, Faculty Advisor. Standing: H. Teague, Jr., M. Arthur, S. Simmons, B. Newman, M. Gilbert, J. James, D. Richardson.

American Society of Civil Engineers

In 1922, the Virginia Tech chapter of The American Society of Civil Engineers was chartered, making it one of the oldest student chapters in the nation. Membership is open to all students in the civil engineering curriculum. The main purpose of the VPI student chapter of the ASCE is to enable the civil engineering student to enrich his college career throughcontacts with the professional civil engineering field. Membership in this organization also provides a professional and social outlet for the many members of the University's civil engineering curriculum.

American Society of Agricultural Engineers

The American Society of Agricultural Engineers is open to all students enrolled in agricultural engineering. Through its many activities here at VPI, the ASAE seeks to promote interest and fellowship among Agricultural Engineering students. Last year the ASAE placed second in Tech Festival exhibits. This win speaks very highly of the student chapter of ASAE and typifies the activity of the Society at VPI.
American Society of Metals

Education is the major goal of the American Society of Metals. Through a series of monthly meetings, they provide interested metallurgical engineering students with stimulating programs in the field. Other activities include a spring picnic and participation in Tech Festival activities. This year, for the first time, the group sponsored a society banquet to create more meaningful fellowship between professors, upperclassmen, and underclassmen.

American Society of Mechanical Engineers

The American Society of Mechanical Engineers' active program includes guest speakers from industry, a quarterly field trip, and annual participation in the Regional Conference, at which time student papers are presented. Through its activities, the ASME hopes to advance knowledge of the theory and practice of mechanical engineering, to present a proper perspective of engineering work, and to offer the opportunity to become acquainted with students with similar interests. Membership is open to any student in good standing in any approved engineering curriculum.
The Biology Pre-Med Club is one of the newer organizations on campus, but during the past year it has been quite active. Programs featuring guest speakers in the biological fields provide opportunities for expanded knowledge in the subject. Other trips and activities are also planned throughout the year. The club is open to any student with an interest in biology or the medical profession.
Building
Construction
Club

Providing opportunities for members to become better acquainted with the construction industry, the Building Construction Club encourages high scholastic standing. Membership is open to all Building Construction students. The club provides a variety of social functions. In the past these activities have included a homecoming float, a Tech Festival exhibit, a fall dance, and a spring seminar.

Burkhart
Mining
Society

The Burkhart Mining Society seeks to make students more familiar with the mining industry and to develop a social fellowship among the students and faculty of mining engineering. Monthly meetings are highlighted by industrial guest speakers. The society served as co-host to the national convention of the American Institute of Mining, Metallurgical, and Petroleum Engineers. Trips to mining locations and an annual club picnic further accomplish the goals of the Burkhart Mining Society.

First Row: R. Larimer, Faculty Advisor; R. Caldwell, Treasurer; T. Nelson, Vice President; D. Zurek.
Third Row: R. Ayers, G. Hall, A. Waddell, T. Campbell.
Fourth Row: M. Pratall, B. Burleson, B. Sedwick, L. Langhans.

First Row: R. Harris, Secretary; D. Byrd, R. Malcolm, J. Grubb, President; S. Regal, H. Lee, E. Kilbourne.
Second Row: S. Suboleski, Faculty Advisor; C. Shelton, Faculty Advisor; R. Matthews, Treasurer; P. Goad, Vice President; P. Guilli, R. Lucas, Faculty Advisor; W. Foreman, Faculty Advisor; R. A. Daughtry, R. Stimpson, T. McKenzie.
Dairy Club

Activities of the Dairy Club have as their objective the familiarization of students with the dairy industry, on both a state and nationwide basis. Past projects include a cheese sale, a dairy show, the ADSA convention, an Awards Banquet, and publication of the Milky Way, the Dairy Science annual. All undergraduate and graduate dairy students and any other person interested in dairying may become a member.

Block and Bridle Club

The Block and Bridle Club encompasses those students of VPI who have been pursuing a career in some phase of animal husbandry, and who have at the same time maintained a good scholastic average. The club seeks to bring about a closer relationship among the students themselves and with the professional men of the animal industry of the state. A diversity of activities during the academic year include sponsorship of candidates for Homecoming Queen and Tech Festival Queen, intramural livestock judging, and departmental outings for both students and faculty.
Work on the Tech Festival float continues on into the night . . . and finally, the finished product rolls toward the Parade.

The freshman picnic enables members to get acquainted with incoming Animal Science students, as well as enjoy the good food. Voted the outstanding Block and Bridle member of the year, John Crowegey chats with members of the faculty who attended.

At the annual Little International Livestock Show, Dr. Kelly displays his cooking proficiency during a barbecue following the livestock competition.
Future Farmers of America

Dating from 1934, the Collegiate Chapter of the Future Farmers of America continuously strives to prepare prospective high school agriculture teachers to be advisors to FFA chapters. The organization is composed primarily of male students enrolled in agricultural education, although anyone else interested in agriculture or the FFA may also join. Picnics, bar-bques, and participation in Homecoming festivities highlight the year.

Forestry Club

Students in Forestry and Wildlife curriculum found much activity in the Forestry Club. A Fall Field Day featured contests of strength and skill in woodsman ship. Winter witnessed a "Timber Beast" dance, in which everyone dressed in woodsman’s costume.

In the Spring, members were busy on such projects as a Spring picnic and their Tech Festival exhibit, as well as a trip to the Association of Southern Forestry Clubs Conclave.
Anyone active in 4-H work prior to entering college may join the VPI 4-H Alumni Club. Educational programs presented twice monthly strengthen the club's goal to promote opportunities of service and fellowship while continuing physical, mental, social, and religious development. Members assist local 4-H clubs and younger 4-Hers with projects, participate in the Annual Mid-Winter All Star Conference, select an Outstanding Club Member, and participate in the National 4-H Club Congress in Chicago. They also perform many services for the Virginia Cooperative Extension Service.

VPI Collegiate Chapter of VHEA

For any student enrolled in the College of Home Economics, the VPI Chapter of the Virginia Home Economics Association provides a chance to further develop an understanding of the profession, to serve the departments, college, and university through group effort, and to represent adequately and interpret home economics at its finest to faculty and students. During the past year members sold tickets for Valentine's Day gifts and operated a boutique in Wallace Hall and at the State Convention. In the fall they sponsored a Halloween Buffet for faculty and students. These activities plus a program of speakers enable each member to keep informed of new developments in home economics and related fields.
Horticulture Club

Open to any student interested in horticulture or a closely-related field, the Horticulture Club started its year with a Chicken-Q to meet new students and faculty. Over 2500 corsages were made for the annual Homecoming mum sale. Decorating the library for Christmas and creating a display for Tech Festival were two projects. Numerous trips provided interest. Besides sponsoring students in national competitions, the club also held its Spring Banquet, which honored deserving students and the outstanding horticulturist in Virginia.

Institute of Electrical and Electronic Engineers

The Institute of Electrical and Electronic Engineers has been working to bring about the acquaintance of the student with electrical engineering in industry. This purpose has been accomplished by taking field trips to industries such as IBM in Gaithersburg, Maryland, and Western Electric in Winston-Salem, North Carolina, and by hearing guest speakers at the regular meetings. Other activities in which members of the IEEE participated were the weekly undergraduate seminars and the athletic contests between the EE students and faculty members.
Poultry Science Club

Striving to broaden the students' college interests, the Poultry Science Club brings together undergraduate, graduate, and faculty members and introduces students to the development within the poultry industry. Members of the club are primarily concerned with promoting interest in all phases of poultry research and production. One of the main activities of the Poultry Science Club consists of sponsoring several "Chick-n-ques."

Pre-Veterinary Club

Focusing on some phase of veterinary medicine, the meetings of the Pre-Veterinary Club usually include a guest speaker or a film. These programs are presented to acquaint interested students with all facets of veterinary medicine. On the social scene, the club holds an annual barbecue, a hayride, and participates in Tech Festival Weekend. Membership in this pre-professional club is open to any person interested in veterinary medicine or a related field.
Society of Co-ops

Serving as a liaison between the administration and students enrolled in the cooperative education program, the Society of Co-ops promotes fellowship within the society, aids students in adjustment to college life, and promotes public interest in the cooperative education program. During the quarters that students are working in industry, they are mailed copies of the Virginia Tech and a special co-op newsletter prepared by the members. Juniors were also kept informed of Ring Dance plans. Many social activities are also conducted by the society.
Everyone's Favorites
RELIGIOUS & SERVICE

EDITED BY:
PRUDY RANK
ROGER McCLURG
The Wesley Foundation

The Wesley Foundation is a place where people meet, eat, and sponsor activities of the church in the world.
Baptist Student Union

Through the BSU there is an interaction of students providing growth and meaning in life from a Christian perspective. This organization is open to all Virginia Tech students. The BSU participates in pre-school retreats, State BSU conventions, Wednesday night Bible Study, Sunday night suppers and programs, summer missions involving student service at home and abroad, local and area BSU choir concerts, and weekend youth revivals.

Hillel Club

Since the nearest synagogue is in Roanoke, the B'nai B'rith Hillel Club provides a "Campus Jewish Community" for Tech and Radford students. Besides promoting religious aspects through weekly Friday evening and special holiday services, the Hillel Club sponsors social and cultural activities. This student-governed organization welcomes visitors to all of its functions.
The Lutheran Student Association attempts to confront its members with Jesus Christ as Lord and Savior, to bear witness in the academic community to His Gospel as confessed by the Lutheran Church, and to afford a means whereby its members may deepen and express their Christian faith. All Lutheran students are considered members of the Lutheran Student Association. Among their many activities is an annual fall picnic-mixer with Radford College, a bi-weekly dinner with a speaker and a discussion, a children’s Halloween Party given with the girls of Radford, a Christmas party with Radford, a spring retreat, a midweek worship with Communion, participation in a community tutoring program, and support of the Tech United Ministries’ activities.

Newman Club

The purpose of the Virginia Tech Newman Club is to produce a religious and social atmosphere for the students of VPI. To provide opportunity for fellowship, the club sponsors dances, dinners, and parties for members. The club has speakers and discussions every two weeks on a wide variety of topics and participates in retreats and folk masses. The Newman House is always open for fellowship, recreation, and studying.
Christian Science Organization

The purpose of the Christian Science Organization is to serve the religious needs of Christian Science students on campus. Membership is open to those who are members of the First Church of Christ Scientist. The members participate in a workshop, meetings with the regional representative, and weekly testimony meetings, in addition to selling the Christian Science Monitor on campus.

Fellowship of Christian Athletes

The Fellowship of Christian Athletes sends representatives to speak in local schools, civic clubs, and churches. The FCA speaks for the American Cancer Society, and participates in a national conference in North Carolina each June. These activities further the purpose of the organization which is to confront athletes, coaches, and the youth of the nation with the challenge of following Jesus Christ in their lives.
The Circle K

The Circle K is a Kiwanis-sponsored service fraternity devoted to developing leadership for tomorrow while creating a better university for today. Its projects include publishing a newsletter called "The Orbit", assisting in the publication of the district bulletin, visiting the nearby orphans' home and nursing home, ushering for Blacksburg Community Concerts, and other service activities.

Chi Delta Alpha

Chi Delta Alpha is dedicated to becoming an organization through which women students at VPI can serve the school. Membership is open to all women students. Chi Delta Alpha extends its services to all student and community organizations requesting it. Its services this year included bake sales for Project Headstart and a party at the Joy Ranch Orphanage.

Sigma Mu Sigma

Sigma Mu Sigma is a national service Fraternity. The Fraternity's purpose is to promote among its members an adherence to high standards of honesty and integrity, a feeling of brotherhood and fellowship and a reverence for God by promoting the ideals and philosophy expressed in the Declaration of Principles. Membership is open to any person recommended by a brother and acceptable to the pledge committee.
Alpha Phi Omega

Alpha Phi Omega is a national Service Fraternity in the fellowship of the principles of the Boy Scouts of America. It strives to develop leadership, to promote friendship, to serve humanity, and to further the freedom that is our national, educational, and intellectual heritage. In attempting to attain these goals, the organization brought the Bloodmobile to the area, worked in the Admissions Office regularly, and kept the War Memorial Chapel open each evening, in addition to performing numerous services around campus.
The Virginia Tech Life Saving Corps works to carry out the objectives of the American Red Cross, to prepare at all times to render first aid assistance in case of emergency; and to promote swimming for health, safety, and recreation. In fulfilling this purpose, the organization provides life guards for the pool and instructors to assist physical education teachers with swimming classes. Members must hold an American Red Cross Senior Life Saving Certificate or Water Safety Instructor Certificate.
The Tech Festival Association plans and coordinates Tech Festival, which is held each Spring quarter. The Tech Festival Association strives to provide interesting events for all students. Some of its activities are: exhibits, convocations, a concert, a Military Review, a Maroon Mask production, and a Tech Festival Queen contest. The Association is comprised of two faculty advisors, a senior and a junior advisor, one vice-president, and six committee members from each college in the university. Each college selects its own representatives.
YMCA

The YMCA at VPI is a part of the Blacksburg Community dedicated to the task of serving both university students and the local community. It tries to present a wide array of programs to interest all parts of the student body, and seeks to confront this campus with major issues and problems of our world. Its activities during the year include Freshman Camp, Freshman Council, CONFLICT '68, Alpha-Omega Players, Film Forum, New Faculty-Staff Orientation Program, and a travel board.

Rho Alpha Mu

The goal of Rho Alpha Mu is to provide a brotherhood of students at VPI for persons formerly enrolled in the School of Engineering and Architecture at Virginia Commonwealth University. The organization communicates with the extension at VCU to help transfers become acquainted with VPI, and sponsors social events for members.
SECTIONAL CLUBS

EDITED BY:
MARY CONVERY
NANCY LANKFORD
Apple Club

The Apple Club consists of VPI students from the eleven counties of the northern Shenandoah Valley.

The purpose of the club is to promote fellowship among the members and to give them a way to meet other students from their own geographical area. The Thanksgiving Dance provided Apple Clubbers with a diversion from studying, and the Christmas Dance gave them a chance to celebrate the holidays.

The club's most important function is to sponsor a representative from Tech to the Apple Blossom Festival in Winchester, Virginia.

Charlottesville Club

This is the first year for the Charlottesville Club, whose membership is open to any Tech student living within the boundaries of Albemarle County. The club's purpose is to promote good-will and fellowship among the Tech students from the Charlottesville area and to promote better relations between these students and the Charlottesville Chapter of the Alumni Association.

Their activities during the academic year included two dances in Charlottesville during Fall quarter, two banquets during Winter quarter, a dance during Spring break, and parties and a beer blast during Spring quarter. The club also plans to have activities in Charlottesville for its members during the summer.

Danville Club

Besides the residence requirement, the most important qualification for members of the Danville Club is an interest in the activities of the club. Members are Tech students from the Danville area plus past students from the Danville Branch of VPI now enrolled here.

The purpose of the club is to promote fellowship among the students from the Danville area by providing them with various social activities, and to support the activities of the University and of the Danville community. The Danville Club provides its members with various social functions at Tech and during breaks. One of the biggest activities is the club's spring outing.

Northern Neck Club

The goal of the Northern Neck Club is to promote good will among Tech students coming from the Northern Neck and its surrounding counties. Residence is the only requirement for membership in the club.

Many social activities are planned by the club in order to achieve its goal. Dances are held during Christmas, Thanksgiving, and Easter breaks and over other holidays also. Last year's events were culminated by a banquet and spring party.

The club encourages people from the Northern Neck area to enter VPI by offering a scholarship every year to a deserving incoming freshman.
The Richmond Club is the largest of Tech's regional clubs. Its only requirement for membership is residence in the Greater Richmond area. The purposes of this club are slightly different from those of the University's other regional clubs. Social activities are planned to allow students of the Richmond area to get to know each other better and to help them keep in touch during vacations. The club also provides an especially good source of rides to and from VPI.

Social activities last year included parties in Richmond during all vacations climaxed by a free Spring Banquet and Beer Party.
Roanoke Club

Members of the Roanoke Club rarely have to worry about what to do over vacation periods. The club provides social entertainment to VPI students from the Roanoke area during the holidays and after big weekends at Tech. The New Year’s Dance, Christmas Dance, and Easter Dance are only a few of the club’s activities designed to add that extra touch to the holiday spirit. In addition to planning social functions for the school year, the club’s president, William Argabright, manages to organize summer get-togethers.

Although the Roanoke Club is primarily a social organization, it also takes interest in scholasticism by providing a scholarship to an incoming freshman each year.

Roanoke Officers: R. Reid, Vice-President; B. Alvis, Treasurer; E. Kirby, Secretary; W. Argabright, President; D. Boles, Advisor.
Peanut Club

The goal of the VPI Peanut Club is to promote friendship among students from the Peanut Capital of the world. In achieving this goal, the club improves social life both on and off campus and helps to unite the student body. Activities held during quarter breaks last year included a Thanksgiving Dance, a Christmas Dance, and a Spring Beer Blast. Also, regular meetings were held throughout the school year.

The only requirement for membership in the Peanut Club is residence in the Peanut Capital of the world: Franklin and Suffolk, Virginia, and the counties of Southampton, Surrey, Nansemond, and Isle of Wight.

Shenandoah Valley Club

The purpose of the Shenandoah Valley Club is a purely social one. The club strives to provide members with a chance to be with their friends from home and to provide them with activities to relieve the monotony of the everyday schedule.

Some of the year’s activities included the “Hokies’ Blasts” given during the Thanksgiving and Christmas holidays, a number of steak banquets held throughout the school year, and the annual Spring Beer Blast. Bi-weekly meetings were held to plan these activities. The only membership requirement is residence in the Shenandoah Valley.

Southside Club

Qualifications for membership in the Southside Club differ from those of the other regional clubs in that Tech students from the Southside area must be invited to join by a club member. The club has various social functions throughout the year including Thanksgiving and Christmas parties, an Easter party and Spring Banquet, and a Spring Beer Party. Parties are also given in the summer to keep club members in touch with each other. Through these activities the club strives to provide a friendly atmosphere for Southside students both at Tech and at home.

One of the most important activities of the Southside Club is raising scholarship funds for deserving students.

Southwest Virginia Club

The Southwest Virginia Club is an organization of and for the students at Virginia Tech from the Southwest Virginia area. The club promotes the unity of the students from this section of Virginia while at Tech and at home, besides enabling them to become better acquainted.

Several times each year over the various holidays, the club sponsors parties for its members and their guests. The Southwest Virginia Club is looking forward to an even more successful year beginning in September.

First Row: J. Childress, M. Bocock, Social Chairman; B. Keen, Secretary; J. Webster, President; R. Ball, Vice-President; M. Guy. Second Row: K. Epling, J. Edmiston, G. Gibson, J. Painter, S. Festa, D. Roe.
Many a Techman has passed this way.

Virginia's answer to Niagara Falls.

Drivers must constantly give way to pedestrians on campus.
Debate Club

The Virginia Tech Debate Club serves to promote and develop student interest and skills in debating, the formal structure for conflict in reasoned argument. In contrast to medieval academic dialogues, today's debates are concerned with topics of immediate social, political, and governmental interest. The topic for the 1968-1969 year was: Resolved that the Federal Government should significantly curtail executive foreign policy decision making. The Debate Club provides Tech Students with the opportunity to develop logic and speaking skills, and to apply these skills in competitions throughout Virginia and in several interstate meets.

First Row: B. Broughton, R. Sarofeen, Vice-President; E. Hancock, Faculty Advisor; J. Asselstine, President. Second Row: B. Owen, B. Rhudy, T. Campbell. Third Row: H. Prescott, D. Stegall.

Amateur Radio Club

The Virginia Tech Amateur Radio Association provides the students with a service which permits messages to be sent free of charge to any place in the country and, if necessary, receive an answer. Every night, members of the club check in to four national traffic networks to send and receive messages.

Special events included the three-day 1968 Tech Festival period in which 800 messages were handled and the National Simulated Emergency Test in January, which was a twenty-four hour message relay. Club members also exchanged teletyped messages with other colleges of the Inter-Collegiate Communications Network.

Having been formed in 1913, a Cotillion Club bid is a prized possession to any male student of the student body who should be lucky enough to receive one. The Cotillion Club has brought many concerts to the Techmen and presented many formals for them. Their purpose was fulfilled with their Fall and Winter Formals this year. “Camelot” was the theme for Fall Formals with Burt Messengale and his Orchestra and the Showmen performing. Winter Formal’s theme was “Psychedelic Soul” with Artie Tompkins and the Tams playing. Other Cotillion activities included Privates, after parties, and banquets.
The VPI German Club celebrated its 75th anniversary this year as the oldest student organization at Tech. The celebrated year was topped off with a formal dinner and dance, cocktail party and other activities at Hotel Roanoke in the fall. Old German Club members from as far back as the class of 1910 attended the ball as three generations of German Club men celebrated the rich heritage of their club. Fall formals, "Magic Memories", saw the swinging sounds of Fantastic Johnny C, Spyder Turner, and Stacy Henry and the Majestics. "Winter Magic" was the theme of Winter Formals as the Club featured Virginia's top band, Bill Deal and the Rhondels, and North Carolina's top band, the Embers. Other activities during the year included the traditional Freshman Dance, from which all proceeds were given to the newest class at Tech. The German Club, founded to host Formal Dances for Tech students, selects its members from male students who have demonstrated outstanding character and an interest in formal dances.
Only those male students who have been awarded a monogram by the Athletic Council may become a member of the Virginia Tech Monogram Club. The varsity athletes' purpose is to maintain a closer bond of fellowship, to foster and promote athletics, and to contribute to the general welfare of the student body.

A member of the Monogram Club can often be seen ushering at home basketball games. Among their other activities includes the Homecoming Dance they sponsor and their picnic in the spring for members and their guests.
The Tech Sirs

Virginia Tech Choral Music Organization

The Varsity Glee Club performs for the President and his family.
Varsity Glee Club

The Virginia Tech Varsity Glee Club, an integral part of the University Choir, is made up of 65 male voices coming from every discipline of the University. It is ruled by the Techsirs, a group of 12 committee chairman elected by the Glee Club members themselves. Since this organization offers no academic credit, it is characterized by the interest and enthusiasm of every member.

This year their calendar included 42 programs in 12 different locations. They entertained the President of the United States, his family, and the many spectators at the national Christmas tree-lighting ceremony at the White House. While in Washington, D. C., they also performed at the Old Senate Building and the Department of Agriculture auditorium. Another one of their better known concerts was with the University of Virginia, where they made an excellent showing.

Music is varied and colorful, and the content and length of each concert is tailored to fit the mood and taste of each particular audience. They sing whatever the audience seems to enjoy. Much of the music is specially arranged by the accompanist and staff assistant, Charles C. Thatcher.
University Choir

The University Choir is one of the rare campus organizations with an equal ratio of men to women. Membership is open to the entire academic community: students, faculty, and townspeople. The men of the Tech Varsity Glee Club serve as the nucleus of the 200-voice group. About 15% of the singers are faculty or townspeople and the rest are students. Music performed is oriented towards Christmas and Easter for the annual Christmas and Easter Convocations. For the past two years they have sung at the Easter Sunrise service at Natural Bridge, Virginia. Members are asked only for enthusiasm and a willingness to learn.
The University

One of the musical surprises of last year at Virginia Tech was the appearance of the University Orchestra on five different programs during its first year of organization. Its development towards full symphonic sound this year has been furthered by the addition of many new students and townspeople. Rehearsals are held twice a week, and visitors are always welcome. This open door policy is for the purpose of providing live symphonic music for the campus and community.
Orchestra throughout the year.

The seventy-piece orchestra, conducted by Dr. Donald Grisier, has presented many concerts this past year. These appearances include: the invitational Fall Concert, the Winter Concert, the Spring Concert, and the Christmas Convocation.

The orchestra is a member of The Virginia Federation of Music Clubs, The American Symphony Orchestra League, and the National School Orchestra Association.
Judo Club

The past two years have seen the VPI Judo Club rise from a campus club to one of the top competitive organizations in the state of Virginia and on the East coast. The purpose of this club is to encourage judo as a recreational and competitive sport at VPI. Any male student, graduate or undergraduate, at VPI may be a member of the Judo Club. In past years the team scored impressive wins in competition with various other schools in and out of the state.

This year they engaged in three tournaments, the State Tournament, and classes in self-defense at Radford.

First Row: R. Haden, L. Garber, J. Harris. Second Row: J. Wallace, Treasurer; P. Hollands worth, President; C. Langley, Vice President; S. Jenkins, Secretary. Third Row: E. Vigen, R. Wilson, J. Swank.

Ski Club

VPI's Ski Club was formed to promote interest in skiing in the student body and to help develop skiing techniques. Ability to ski is not a requirement for membership; only a sincere interest in this winter sport. However, many members are skilled enough to participate in skiing events in competition. During winter quarter, members of the Club make weekend excursions to various skiing resorts in the surrounding area. One highlight of the club's year is the Annual Banquet.

The Scuba Club was organized for the purpose of offering, to those interested students, a training program in skin and scuba diving. Not only can those interested in learning this activity become members, but also those persons desiring an organization for those already trained in the sport. The only qualification needed by tentative members is the ability to utilize the basics in swimming. The forty members are trained in the use of underwater breathing apparatus, cameras, salvage equipment and other aspects of undersea technology.

UNRECOGNIZED FRATS

EDITED BY:
JAY GWATKIN
Delta Rho

Organized to inspire sisterly feelings and to form unselfish and loyal friendships among its members, the Delta Rho Society promotes social and cultural opportunities among the women students at V.P.I. as it renders service to the university and community. Among the society's many varied activities were a Homecoming breakfast for alumni, a Christmas party for underprivileged children and a faculty tea.
Sigma Alpha Kappa

Sigma Alpha Kappa is Virginia Tech's only fraternity to reside outside Montgomery County. The hundred year old Civil War mansion is nestled in Willowcroft Valley in Newport, Virginia.

Founded in the winter of 1967 by 27 freshmen and sophomores, the fraternity has now built to 45 strong. Besides the terrific fellowship, these 45 brothers are also able to host some of Va. Tech's largest and most unique parties because of the size of the seventeen-room house located on a 200-acre estate.

As service to the community, Sigma Alpha Kappa has taken charge of the Newport sandlot baseball and football program. The brothers also have been responsible for bringing Newport youngsters to Tech's athletic events.

One of the strong points of SAK is the wide cross section represented in the brotherhood. Brothers include the Student Government president and several class officers who deal directly with campus life, plus avid Forestry & Wildlife majors who spend the best part of their time in the "foothills" of Jefferson National Forest.

Sigma Alpha Kappa has come a long way but still is striving to be better.

SAK Officers: John Hamilton, Sergeant-at-Arms; Larry Byers, Vice-President; John Monacell, Secretary; Ed Babcock, President; Don Post, Tom Seaborn, Treasurer.
Did that sign come from Lane Stadium?

Who's getting the beer?

Another Tech victory celebration.

An SAK gathering.
Tau Sigma Chi

Founded in the fall of 1963 on the principle of strong brotherhood, Tau Sigma Chi has grown to be one of the strongest and most popular fraternities in the I.F.C. Academics, athletics, and social activities are stressed so that the brothers may grow and develop a well-rounded outlook on life. To bridge the present student-faculty gap, the brotherhood sponsors an annual parents' weekend and also each quarter, faculty night. In an effort to help the community, the brotherhood holds an annual Children's Christmas party for underprivileged children of the Blacksburg area. For this philosophy of service and other reasons, Tau Sigma Chi is proud to be called a fraternity in the true significance of the word.
Pi Kappa

Founded in 1961 by eleven V.P.I. undergraduates, the brotherhood holds to the purpose of bringing together outstanding men from all phases of collegiate life to foster high ideals of social leadership. The result has been a strong brotherhood composed of students with divergent views and varied backgrounds—all held together by the realization that we can all benefit by learning, working, and socializing together.

In constantly striving to improve the school and community, the brothers have participated in tutoring local high school students, organizing bloodmobile donations, and an annual Christmas party for under-privileged children. They have also provided numerous campus leaders, including a C.S.B. President, a Class President, Cadet and Civilian Senators, and a Cotillion Club President. At the same time, they have established a tradition of memorable parties: Homecoming alumni weekend, Christmas party, Roaring 20’s Theme party, Parents weekend, Faculty-Student socials, and Ring Dance beach party.
Sigma Lambda

This brotherhood was formed in 1947 by World War II veterans who realized a need for additional social life at Va. Tech. They held their activities and social events at Shadow Lake until 1958 when they moved to their present address at 405 Roanoke Street.

Aside from regular party weekends, their social life includes promoting donorship in the Red Cross Blood Program, participating in community charity activities and activities with local civic groups, and giving a Christmas party for underprivileged children.

The purpose of the brotherhood is to provide a well-rounded social atmosphere to alumni, graduate students, and undergraduates of V.P.I.
This past year the brotherhood celebrated its tenth anniversary with a rousing Homecoming for all alumni. Formed in October, 1958, by ten members of the corps, it now consists of approximately thirty active brothers. The brotherhood is closely knit, and success seems to be the result as is evidenced by the current possession of both the IFC softball and football trophies.

The brothers are representative of many states and nations ranging from Hawaii, Spain, and London to Viet Nam. Instilled with a sense of civic responsibility, they have participated in past Heart Fund drives and Christmas parties for underprivileged children in the Blacksburg area. The year was highlighted by the annual Homecoming cabin party, Parents’ Weekend, Toga Party, and the annual picnic, all of which are traditions established by the founding brothers. The organization continues to grow and prosper due to the deep feeling of brotherhood among the members.
Tau Delta

This brotherhood was founded in 1961 by six brothers at Shadow Lake. Since that time the group has increased to 35 brothers. An annual alumni picnic, a hippie party and a Christmas party for underprivileged children were a few of the activities sponsored by Tau Delta this year.

A serious side to fraternity life.

The Brothers relax.

Christmas at Tau Delta.
Alpha Kappa Epsilon

AKE was formed by thirteen founding brothers in the fall of 1961. The close bond of brotherhood which existed between our founding brothers still exists and grows stronger with the acceptance of each new brother into the fraternity.

Our new house at 118 Turner Street is the center of all of our activities. Major emphasis is placed on "Brotherhood" and its true meaning.

By working together for the benefit of the university as well as the community AKE exhibits its true meaning of brotherhood.
Delta Pi Zeta

Celebrating its tenth anniversary this spring, "Zetas" holds the distinction of being the IFC's outstanding fraternity of the year, a coveted award which demands academic achievement as well as athletic ability.

A variety of social events are offered to supplement academic life. These include dance weekends to coincide with home football games in the fall, a formal dinner dance and Wild West Weekend in the winter, and a spring picnic and IFC Weekend in the spring.

Providing a strong brotherhood for the members is not the only objective of the club. Among other things they instill a willingness to work and to better the organization among the brothers.

A fall gathering at Zetas.
In 1951 TEK's was formed as the Monteleith Dorm Club; then in 1959 they moved into 100 Church Street, which is their present location. Presently TEK's has thirty-five brothers who are actively involved during the year with TEK Weekend, Homecoming, Parents' Weekend, Tech Sled, and all IFC functions.
Alpha Pi Tau

Founded in 1966, Alpha Pi Tau is the newest IFC fraternity and is based on the ideals of true brotherhood, assurance, perseverance, and thoughtfulness. Some of the projects this brotherhood is noted for are their eager support of intramural athletics, their organization of parent’s weekend, and their sponsoring of faculty TV nights.

The colors of Alpha Pi Tau are green and gold.

"Fillerup"
The Interfraternity Council

The IFC was organized to coordinate the functions and to supervise the activities of the various social organizations of Va. Tech. These goals are accomplished by setting standards, organizing competitions, and conducting projects. The activities of the IFC include the intramember competition for the highest OCA, IFC weekend, publishing a newspaper, organizing members for Tech Sled, and presenting a unified front in the goal of recognition of the member organizations.
Groove Phi Groove

The GIG fellowship organization was founded in 1961 at Morgan State College. The aims are to promote a well-rounded individual, both on campus and in the community, and to support college events like concerts and various sports activities. The requirements are that members have a 2.00 QCA and be a sophomore with the required hours. The Fraternity is a mixture of both Black and White students.

EDITOR'S NOTE
The organizations in this section are not recognized by the University, nor is their appearance in the BUGLE intended to give such an impression.
Presenting:
The Virginia Tech Corps of Cadets

Leadership, responsibility, honor, integrity and self-confidence are more than words to Virginia Tech's Corps of Cadets — they describe an honored Corps tradition of 75 years that still dominates the concept of this 1,100 man organization.

Since the founding of the Virginia Tech Corps of Cadets in 1872, under the provisions of the Morrill Land Grant Act, the Corps has dedicated itself to producing tomorrow's leaders.

Sons of the Corps have seen action in every military conflict since the Spanish American War with six former Tech Cadets receiving the nation's highest military award, the Congressional Medal of Honor.

It is the opportunity to develop these much admired and sought after traits of leadership, self-confidence, integrity, and honor that compel many freshmen to become a Virginia Tech cadet. Each entering cadet starts on an equal footing and progresses during his four years at the university to the full limits of his ability. And, although there is a great deal of emphasis on cadet life, academics continue to be the primary objective of the Virginia Tech cadet.

Virginia Tech is one of two universities in the United States that has a Corps of Cadets which is an integral part of the student body. Another unique aspect of the Virginia Tech Corps of Cadets is its distinction of being the only fully self-governing cadet corps in the nation. This system presents a way of life that permits a cadet to constantly participate in roles of leadership and responsibility.

Although the Corps has its own honor court and exclusive societies, Corps members are active in all phases of campus life. Cadets are represented in civilian government organizations and have earned recognition in almost every academic and extra-curricular activity at the university. Thus, the men of the Virginia Tech Corps of Cadets join in the age old tradition of Tech men in asking "Ut Prosim", That I May Serve.
Commandant of Cadets

Retired Major General Francis T. Pachler, a West Point graduate and former Chief of Staff, U. S. Army in Europe, is beginning his second year as Tech’s Commandant of Cadets.

General Pachler and his staff work within the Student Personnel Division to provide guidance and consultation to the cadets, and co-ordinate the activities of the Virginia Tech Corps of Cadets. Assisting General Pachler are his Chief of Staff Colonel James H. McCann, his Intelligence Officer Colonel Robert G. Turner, his Operations Officer Lt. Colonel John D. C. Baldwin, and handling the supply duties is Lt. Colonel David P. Barnett.

These men again have shown their fine caliber and leadership capabilities; they are all dedicated and plan a bright future for the Corps of Cadets.
The Virginia Tech Corps of Cadets is organized into one regiment of approximately 1100 men. The Corps is entirely run within its own organization and therefore needs able men to meet the problems encountered throughout the year. This year the position of Regimental Commander was held by Robert G. Powell, an able leader as proven through his commanding of the Gregory Guard and serving as Captain of the Color Corporals. The position of Second in command on the regimental level was held by John B. Byers.

Since the staff composes the highest echelon of cadet command, the changes and achievements of the Corps of Cadets are centered around these able leaders.
JOHN B. BYERS  
Regimental Executive Officer

RONALD W. CARLISLE  
Regimental S-1

MICHAEL J. GIGUERE  
Regimental S-2

WILLIAM A. STEIGER  
Regimental S-3

JAMES H. PEEPLES  
Regimental S-4
The function of the Special Staff is to assist the Commandant and Regimental Commander in all matters assigned to them. Each member of the staff has a particular function — the General's Aide acts as liaison officer between the General and the Corps, the scholastics officer is responsible to the commandant in all matters concerning academics, the Honor Court Chief Justice presides at all Honor Court trials, investigations for trials rests with the Honor Court Chairman, the Defense Attorney conducts defense proceeding, and the Prosecuting Attorney conducts prosecuting functions for the Honor Court.

Regimental Special Staff

PATRICK A. TUCKER
Commandant's Aide
Corps Executive Committee

To maintain the honor and respect of the Corps of Cadets is the primary purpose of the Executive Committee. The Executive Committee is made up of members of each class in the Corps, the Freshmen also being represented. This committee handles any matters not included under the cadet honor code which brings discredit upon the Corps. If after extensive investigation and consideration by the committee, a man is found guilty of such an offense, his punishment is recommended to the Commandant of Cadets.

Since its founding in 1892, the Virginia Tech Regimental Band has had a very proud history and has brought many honors to itself and to VPI. The band’s nickname, the “Highly-Tighties,” in itself is an honor, for it was acquired while honoring Marshall Foch in Richmond in 1921. The white citation cord worn by all members of the band was presented to them for the unit’s efforts in the Spanish-American War by President Roosevelt in 1936.

Under the leadership of Mr. Thomas M. Dobyns since 1952, the band has marched in the Presidential Inaugural Parade five consecutive times. The unit won the parade in 1953, 1957, and 1961, and in 1965 reigned as retired champions because the parade is no longer judged. In President Nixon’s parade this year, the Highly-Tighties represented the state of Virginia as well as VPI, while continuing to let everyone know that Tech has the best band in the land.

Group Commander ........................................ James C. Rice
Group Executive Officer ................................. Franklin H. Smith
Group S-1 .................................................. Richard H. Sedgley
Group S-3 .................................................. William H. Williford

Squadron A

Formed in 1872 as A Company, she was chosen to represent the Corps in drill competition at the Naval Rendezvous in Norfolk in 1893. The unit's sequence easily topped all competition, and with the $250 prize purchased two cannons. These cannons stood in front of Lane Hall until WW II when the school decided to donate them to the scrap metal drive. Some enterprising seniors dismantled them and hid them until after the war. These cannons are in the process of being reconditioned and will stand again soon on the upper quad.

Whether leading the Corps to drill, a football game, or in a parade, its members are continuing to uphold the traditions of these past cadets.

ERNEST J. LINBERG
Commander

A squadron during a fall review.
The year 1872 saw the birth of VPI, and Company B. During the 1956-1957 session, Company B became Squadron B, its present title. The men of B Squadron share a fierce pride in their past and present, and look forward to many outstanding years in the future.

This year the men of "B" are setting their sights on winning the school Intramural Championship for the fifth straight year, and the elusive Gold Cord. As usual, in striving to achieve these goals, Squadron B will live by its motto — "Deeds not Words."

Every freshman's dream — Rat Day!
"Omnis vir tigris", the "C" Squadron motto, shows that the members of "C" Squadron will always be found in the middle of Corps competition, and doing well, too. Apart from the Corps, the members of the unit form a closely knit brotherhood. The spirit of competition and companionship has made the Squadron one of the top units in the Corps. During the past few years, "C" has been cited as the most scholastic Air Force Unit, the best all-around Air Force Unit, and has been a consistent winner in the first group, winning the cord for the past few years in succession.

Squadron C will continue to carry on the traditions of the past, and with their winning spirit and continue to be the "TIGERS OF C".

C.S. football at its toughest.
Recognized throughout the Corps as the unit most proficient in military activities, Squadron "D" is again the "Unit to beat" in the first group. No one is tougher in competition than is "D" — as symbolized by its command of the "SKIPPER".

Hard discipline and a phenomenal sense of spirit, loyalty, and brotherhood all help make "D" the fine unit which it is — hence the motto: "Probate Exemplum" — "Set the Example".

Squadron D, the Skipper’s honor guard.

GREGORY K. WADE
Commander

Second Battalion Staff
Organized in 1893 as the first battery in the Corps, Company E continues in tradition and spirit. They have won the Battalion Cord three of the last four years, and under the leadership of James L. Mead, they are out to win the Cord again this year.

Spirit is the key word as each year Company E manages the Corps hat tricks. In addition to spirit, E has produced many of the Corps present leaders, including two men on regimental staff, three on battalion staff, and two captains of honorary military societies.

Although E strictly complies with cadet regulations, no one is happier with a keg of beer than the men of E.

JAMES L. MEAD
Commander

Hat tricks, E Company's specialty.
F Company, better known on campus as "F Troop," is very proud of the role it has played in the life of VPI. A very enthusiastic and high spirited company, F Troop has displayed its talents through leadership, marching, Homecoming displays, the Corps Variety Show, athletics, and school spirit.

This year the Seniors, unique in that eighteen out of twenty-one are members of the original "rat class," intend to make F Troop the best in the Corps. With the leadership of the Seniors and the fine potential of the underclassmen, "F" will continue to be an important part of the VTCC.

"F Troop" passes in review.
Company G

Company G, founded in 1922, began the 1968-1969 school year with the Battalion Cord. This cord was won through discipline and unity during the previous year, and these qualities combined with the desire to reach even higher goals will serve to keep the cord in the unit for many years to come.

The key to G Company's success lies in its quality personnel, known for its ability to adjust to the situation through both discipline and cooperation. Be it the spirited fun of a beer party or the spirited competition of a review, the men of Company G can be found together, right on top.

WILLIAM B. WILKINSON, III
Commander

"Can you see her?"
Founded in 1922, H Company was an infantry company of the second regiment. In 1932 the unit became an engineer second, and the title was dropped with a corps reorganization in 1934. At change of rank ceremony in 1952 the unit was reorganized with the new motto — "H forever, hell bent for leather". Since its rebirth, the company has won such awards as best in battalion, Kohler Cup, and made history as the only company to win sophomore drill competition three years in a row. The men of H Company are forever working to add to this heritage and are looking forward to a bright future.

H Company gets a first-aid lesson.
Third Battalion Staff

Battalion S-1 .............................. Jon J. Sugrue, Jr.
Battalion S-3 .............................. John W. Grubb

The pride and excellence of "I" Company has continued since its founding in 1927 with the organization of the Third Battalion. Initiated this year, the Kermit F. Wood Memorial Award, given in memory of an outstanding person and cadet, Kermit F. Wood, Class of 1968, Company I, will be bestowed annually on the most outstanding freshman of each class to enter I Company.

With teamwork and determination, characteristic of Company I, we will strive to live up to the call, "I" will wear the Gold."

ROBERT A. ARCHER
Commander

Turn Day 1968 — New Seniors take command.
Company K came into existence in 1927 with the forming of the Third Battalion. In recent years, the "Golden K" has been the recipient of many honors, including the Kohler Cup for excellence in drill. One of the most outstanding achievements of the unit is the winning of the Beverly S. Parrish Award four times. Given to the best drilled and informed unit, it has been awarded since 1956 and during this time no other unit has won it more than twice.

Through the years, K Company has stood for nothing but academic excellence and the highest military achievements.

"Golden K" all the way
"We're from L, Proud as Hell!" With this cheer the freshmen typify the feelings of each member of Company "L." Based on the idea that the friends we make during these college days will be our friends forever, Company "L" is noted as the closest and proudest unit in the Corps. With these thoughts in mind, the members of "L" have made great strides in all phases of campus life. The type of individual "L" produces is amiable, hell-raising, fun-loving, but most of all academic-minded.

As a result the graduates of "L" make the best military and civilian leaders, and return in large numbers during Homecoming and other major weekends.

JOHN H. FORD
Commander

L Company Seniors take a break.
In 1927 Company M became an integral part of the Virginia Tech Corps of Cadets. Since then "Big Mike" has proved itself time and again by excelling in all fields. Last year it took top honors in the Corps' first review of that year. By winning Kohler Cup and Sophomore Drill Competitions in the Third Battalion, "Mike" once again demonstrated that it was a highly efficient military unit. In M, the cadet's scholastic life is highly stressed through strict study conditions during the appointed hours. The proper application of discipline and cooperation is sure to keep "Big Mike" on top in years to come.

OFFICERS

Fourth Group Staff
Squadron N

N was founded in 1931 as N Battery, but was reorganized as a Squadron in 1946. The unit's able leadership depicted by its motto, Spirit and Unity, has waxed and waned through the years. The freshman system, one of the toughest in the Corps, teaches the freshmen military discipline and instills in them the essential qualities of making able leaders in the military way of life. Although "N" has not won many honors in the past few years, the future leaders are optimistic in establishing a more productive and more organized unit program.

"N" does help create the well-rounded college student at V.P.I. because leaders are not born, they are made.

KENNETH S. BRANUM
Commander

Guard, when the freshmen get rest??
The emergence of the modern Corps of Cadets presents a new and unequaled level of goals and standards to be reached not only by the unit but by the individual. Since her founding in 1950, "O" Squadron has changed along with the Corps, a major reason for her continued success.

The past record of "O" stands by itself as a measure of the caliber of leadership. Her performance in 1967 won her the Outstanding Squadron Award. In it could be said that "O" took the honors by being awarded the best drilled squadron, best scholastic unit, the AFROTC best all-around squadron, and The Beverly S. Parrish award for the second consecutive year.

Guided by the enthusiasm and leadership of her four classes, "O" pursues the Gold once more.

Squadron O

MAHENDRA KAUL
Commander

Homecoming Parade, 1968.
Ever since its birth in 1962, R Squadron has been recognized for its "winning tradition". For the last four years, R has been the unit to beat in the homecoming display competition, placing first in the Corps and the university. During the past four years R has taken either first or second in competition for the coveted "Kohler Cup" as the best marching unit in the corps. Another of her winning traditions is winning eager squad, with two firsts and a second in the last three years.

This fall R has gotten off to a great start by winning sophomore drill competition, a big step towards the Gold Cord.

Taps for Richmond.
"S stands for spirit." Combined with the leadership of the senior class, spirit makes S one of the tightest knit units, with that unique combination of class loyalty and Squadron unity, resulting in a 100% effort militarily, academically, and socially. The flaming VT at every pep rally, signs, and strained voices all indicate the spirit of S. Squadron S is traditionally known for one of the roughest rat systems, for through this are dedicated and spirited upperclasses created.

Founded in 1957, S has received many awards, one of which is the coveted Kohler Cup, in 1964. This is Squadron S: Men dedicated to a common cause, a stronger university, and a stronger Corps.

Squadron S

STEPHEN W. PAVLIK
Commander

S Squadron’s flaming “VT.”
T Company was formed in 1962 along with N Squadron in the Fourth Group. It replaced H Company as the Corps athletic unit, with H joining the Second Battalion. Though rarely participating in Corps functions, the "T"echmen proudly represent VPI on the athletic, drill, and academic fields.

FREDRICK M. MOONEY
Commander

T Company’s Contribution to Tech.
To Learn, To Fight, To Win

These few words embody the single, unified effort of the VPI Ranger Company: the creation of competent combat officers. To attain this goal the eighty member unit undergoes intensive training in the military arts. Classroom instruction, emphasized by practical application, is given almost entirely by members who have become proficient in the skills they teach. Included in the training schedules are the following courses: physical training, rappelling, hand-to-hand combat, small unit tactics, guerrilla and counter-guerrilla warfare, logistics, land navigation, communications, and military history. The Wearers of the Black Beret are proud of themselves, their unit and their country at a time when spirit and patriotism seem to be going out of style.
A Lone Ranger.

What do we do with him now???

Final briefing at the Duck Pond.

GROSSEST RAT
Mr. Toro
During his seven years as President of VPI, Dr. T. Marshall Hahn has lead the expansion which has boosted Tech to prominent university status. Enlarged facilities and innovations in curriculum, administration, and basic policies are only a few of the progressive steps for which both VPI and its President have become well-known.

In 1945, Mr. Hahn obtained a B.S. degree in physics from the University of Kentucky, and, in 1950, received his Ph.D. in physics from the Massachusetts Institute of Technology. His subsequent positions included Director of Graduate Studies at the University of Kentucky, head of the Physics Department at VPI from 1954-1959, and Dean of Arts and Sciences at Kansas State University from 1959-1962. Dr. Hahn's appointment as Va. Tech president in 1962 made him the youngest president of any land-grant university in the United States. Among his honorary affiliations are Phi Beta Kappa, Sigma Xi, Omicron Delta Kappa, Sigma Pi Sigma, Pi Mu Epsilon, and the American Association for the Advancement of Science.
The Board of Visitors

The Board of Visitors serves as the official governing body at VPI. The Alumni Association and the Administration recommend Board members for their formal appointment by the Governor of Virginia. Meeting on a quarterly basis, the Board approves budgets and capital outlay, and establishes and reviews the policies that control the University.

Officers serving the present Board are: Harry C. Wyatt, Rector; Wyatt A. Williams, Vice Rector; Elva D. Redding, Clerk; and Eleanor W. Prescott, Assistant Clerk.

Board of Visitors: Mrs. A. Stuart Bolling, Jr. (Portsmouth), Mr. C. A. Cutchins, III (Norfolk), Mrs. Mavis A. Gibbs (Crewe), Mr. J. E. Givena (Richmond), Mr. Robert O. Goodykoontz (Virginia Beach), Mr. John W. Hancock (Roanoke), Mr. John W. Landis (Lynchburg), Mrs. E. H. Lane, Jr. (Alta Vista), Mr. Waldo G. Miles (Bristol), Mr. C. Eugene Rowe (Greenville, South Carolina), Mr. Wyatt A. Williams (Orange), Mr. Harry C. Wyatt (Roanoke).

Dr. Warren W. Brandt
Executive Vice-President

Dr. Warren Brandt, a native of Lansing, Michigan came to VPI as Vice-President in 1962. In 1965 he was appointed to the position of Vice-President for Academic Affairs. After serving in that capacity for three years, Mr. Brandt was selected to become the first Executive Vice-President.

Dr. Brandt is a graduate of Michigan State University, and holds his Ph.D. from the University of Illinois in chemistry. He is a member of the American Chemical Society, the American Association of Arts and Sciences, Phi Lambda Upsilon, Alpha Chi Omega, and Omicron Delta Kappa.
Stuart K. Cassell  
Vice-President  
For Administration

Mr. Stuart K. Cassell, Vice-President for Administration, assumes the responsibility for the internal operation of VPI; his leadership in the departments of Buildings and Grounds, Security Division, Housing, as well as business and financial operations allow for centralized coordination of these functions.

In 1932, Mr. Cassell received a B.S. degree in animal husbandry from VPI, and in 1933 he attained an M.S. degree with honors in agricultural economics. Prior to his 1966 appointment as Vice-President, Mr. Cassell held the position of finance and business manager at Tech.

His honorary memberships include Alpha Zeta, Phi Kappa Phi, and ODK.

Dr. James W. Dean  
Vice-President  
For Student Affairs

Dr. James W. Dean, the first man to hold the newly created position of Vice-President for Student Affairs, directs the Student Personnel Division including the offices and programs of the Dean of Men and Women and the Commandant of Cadets. For ten years prior to his vice-presidential appointment, Dr. Dean was Dean of Students.

Dr. Dean received his B.A. degree in 1948 from Grove City College, his M.A. degree from Bucknell in 1950, and his Ph.D. from Penn State in 1956.
Dr. Leslie F. Malpass
Vice-President
For Academic Affairs

Dr. Leslie F. Malpass, formerly the Dean of the College of Arts and Sciences, was appointed in November as the Vice-President for Academic Affairs.

Dr. Malpass received both his undergraduate and graduate degrees from the University of Syracuse. After working from 1948 to 1952 as a psychologist in the Onondage County Guidance Center in Syracuse, he went to Southern Illinois University, where he taught for eight years. Then, in 1960, he became chairman of the Behavioral Sciences Division and Director of Sponsored Research at South Florida. Dr. Malpass joined the VPI faculty as dean in 1965.

Dr. William E. Lavery
Vice-President
For Finance

In November Dr. William E. Lavery was appointed to the newly-created position of Vice-President for Finance. Dr. Lavery had formerly served as Director of Administrative in the Extension Division. His position was created in September in the reorganization of the executive structure designed to achieve greater operational efficiency of the university administration.

Dr. Lavery received his B.S. in extension education from Michigan State in 1953, his M.S. from George Washington in 1959, and his Ph.D. in administration from the University of Wisconsin in 1962. In 1956 he joined the Federal Extension Service’s Division of Management Operations and has been involved in Extension work. Dr. Lavery came to VPI in 1966 as a state leader in administration in the Extension Division.
Mr. J. Gordon Brown
Dean Of
Student Services

Dean Brown joined the faculty of VPI in 1964, as Dean of Men. Prior to this appointment he had served as a principal in the Tennessee school system and as Dean of Men at Emory & Henry. In the fall of 1968 he was appointed to the newly-created position of Dean of Student Services. His office is responsible for such diversified areas as: student housing, student union, selective service, international students, off-campus housing, religious affairs, and choral music organizations. In addition, Mr. Brown is secretary of the Student Activities Committee, and administration representative to the Publications Board.

Dean Brown received his B.S. degree from East Tennessee College in 1950. He continued his studies at the University of Tennessee, where he received his M.S. degree in 1957.

Miss Martha Harder
Dean For Men’s And Women’s Residence Halls

Dean Harder joined the faculty of VPI in 1966, as Dean of Women. In the fall of 1968, she was appointed to the position of Dean of Men’s and Women’s Residence Halls.

Miss Harder completed two years of studies at Martin Junior College, and received her B.S. degree from Peabody College. She continued her studies at Austin Peay State College, where she received her master’s degree. Prior to her appointment as Dean of Women, Miss Harder served as Dean of Students at Lander College in Greenville, South Carolina.

Dean Harder is a member of Kappa Delta Pi, Sigma Iota, Iota Tau Tau, Southern College Personnel Association, American Association of University Women, and the South Carolina Association of Women Deans and Counselors.
Dr. Fred W. Bull
Dean Of The
Graduate School

Dr. Fred W. Bull is currently serving Virginia Tech as Dean of the Graduate School, the position to which he was appointed in 1965. Prior to his appointment, he served as Director of the Engineering Experimental Station and Chairman of the Chemical Engineering Department.

Dr. Bull was educated at Tech, receiving his B.S. degree in chemical engineering and ceramic engineering, a master’s degree and a Ph.D. in chemical engineering.

Dean Bull has headed several seminars for the National Science Foundation and the National Academy of Science. He is a member of the American Institute of Chemical Engineers, American Chemical Society, the Virginia Academy of Science, Sigma Xi, Tau Beta Pi, Phi Kappa Phi, Keramos, and Phi Lambda Upsilon.

General F.T. Pachler
Commandant
Of Cadets

Major General Francis Pachler, presently the Commandant of the Corps of Cadets of Virginia Tech, has served a very distinguished military career with the United States Army. He was graduated from West Point, and then served in normal command and staff positions for ten years. He served in the Pacific and the Aleutian Islands during World War II. In 1961, Gen. Pachler was appointed as Deputy Commandant of the National War College, the position he held until his appointment in 1964 as Chief of Staff, U.S. Army in Europe. Gen. Pachler received the Distinguished Service Medal for duty in positions of great responsibility during the period 1954-1967.
The College of Agriculture offers a basically science-oriented program which prepares students for a variety of careers from production and agribusiness organizations to teaching, extension, and research professions. Nine undergraduate majors and preparatory programs for specialized areas adapt to the wide variety of student interests. In addition, through the Virginia Experiment Station and Extension Service, the college offers technical advice and experimental results to the farmer and homemaker.

J. E. Martin
Dean of Agriculture

College of Agriculture

"To the victor go the spoils."
Tension reflected by sheep showmen.

Even animals have a mind of their own.

Sparky shows at Little International.
The program of the College of Architecture is designed to educate students as designers of environment and provide them with a basic general education and a foundation leading to independent practice. Undergraduate five-year programs include architecture and building construction; two-year graduate programs are offered in architectural engineering, environmental systems, urban design, and urban and regional planning. Both programs are accredited by the National Architectural Accrediting Board. This year marked the opening of Cowgill Hall, the modern home of the Architecture Department, including offices, classrooms, and labs.
A semi-completed project by a semi-tired student.

Charles Burchard
Dean of Architecture

Why does this line insist on being curved every time?
College of Arts And Sciences

The College of Arts and Sciences is one of the fastest-growing colleges at VPI. To house the departmental facilities, the university is constructing a four million dollar Arts and Sciences Building, Derring Hall, to be completed in 1969.

All Arts and Science courses are designed to help students in their understanding of man and his universe and of present-day values, with the desired effect of a well-rounded education. Among program offerings are the core curriculum, pre-professional training, combination degrees, Honors programs, and Study Abroad.
"An eyedropper for a jar?"

"Now look, plant, this growing has got to cease."

An entity independent of man.

"Stop reading, guys. All you do is roll a ball down the ramp."
The College of Business is a professional college, combining a general education approach with broad programs in business. The college consists of departments of accounting, business administration, and economics. The various programs prepare the students for successful service in the wide field of business, through training in the fundamentals of sound business theory and practices. The College of Business is an accredited member of the American Association of Collegiate Schools of Business, which entitles the presence of two national scholastic honoraries on campus: Delta Sigma Pi and Alpha Kappa Psi.

The Alpha Kappa Psi room serves many purposes.
Someone is looking for a job.

"Now don't forget that test."

"But, sir, there's something hanging over my shoulder."
Bail point pens don't belong in circuits!

College of Engineering

Willis G. Worcester
Dean of Engineering
Because engineering plays a major part in today's world, the College's Engineering must prepare its students for their future role as engineers as well as for many minor roles by providing the student with a well-rounded background. Thus, while mathematics, physical sciences, and engineering are essential to engineers, they are also well versed in history, the social sciences, and the humanities.

Engineering is a field of endless jobs and educational opportunities, for although the courses may be labeled chemical engineer, agricultural engineer and such, each of these may be broken down into numerous categories dealing with such things as research, development, and sales.

The College of Engineering is not limited to classroom instruction either, for it also offers students the chance to gain experience by means of the co-op program. This is a five year program which enables eligible students to alternate between a quarter of work and a quarter of school.
In all its areas of study, the College of Home Economics is primarily aimed toward aspects of family living and home life as they exist and function in society. The work of the Home Economics course is based on liberal studies and in all parts it deals with people; how they live, what they are interested in, and what their needs are. The students gain an understanding of people with regards to food, clothing, family management, and human relations, and in their training there is an emphasis on the knowledge to be gained in academic fields. Thus, in many ways, the College of Home Economics provides its students with the background necessary to contribute to personal development, preparation for effective citizenship and community participation, preparation for home life and responsibilities in a changing world, and preparations for professions in home economics.
If I push this button, I wonder what will happen.

Always cleaning up!

Sewing is fun, but not for 10 hours straight!

All students at Tech form the membership of the Student Government Association, which speaks as the official voice of the student body. Ray Smoot, S.G.A. president, provided vital leadership to the 1968-69 Association.

Structured into the executive, judicial, and legislative branches, the S.G.A. deals with issues that arise from the complex campus activities. The basic working groups include the Executive Committee, the Honor System, and the Senate.

"Why I'd be more than happy to manage your campaign."
Standing Senate Committees

Constitution: W. Barnes, F. Morton, D. Lemmonds—Chairman, D. Danford, R. Wright.

A subcommittee of the University Council, the Student Activities Committee is a student-faculty-administrative organization. The purpose of this committee is to consider, alter, and implement procedures and policies affecting the life of the students of Virginia Tech. Although the Student Activities Committee makes recommendations, the University Council has the final word in all these matters.

Some of the matters considered by the Committee are student-sponsored activities the revision of Student Life Policies, the chartering of student organizations, and Student Activity Fee allocations. The discussion of these issues is not confined to members of the Student Activities Committee, but is open to all interested students, faculty, and administration.

The Student Budget Board, acting under the Student Activities Committee, was formed in 1967. It functions for the purpose of appropriating the funds from the Student Activity Fee to student organizations for campus functions.

The members of the Student Budget Board are chosen to represent the individual classes, the Student Government Association, the Civilian Interdormitory Council, the Women's Interdormitory Council, the Corps of Cadets, and the faculty. Mr. Albert Crawford, faculty financial advisor, is an invaluable member of this board, integrating the appropriations of the Student Budget Board with the university's finances.
The Student Union operates Squires Hall, the Student Activities Building, and the functions carried on within Squires. The government of the student center and the planning of the Union program are the responsibility of the Student Union Board of Governors, which is composed of twelve students, three faculty members, and the student union director. However, the total operations are conducted by students working with the Union director, a program consultant, and other staff personnel in operating and programming the new community center.

The ultimate goal of the Student Union is to satisfy the many cultural, recreational, social, and educational needs of the students which exist outside of the classroom setting.

Civilian Honor Court

Founded at VPI in 1908, the Honor System is based on the principle that Tech students are mature enough to be trusted. Every student enrolled in VPI is pledged to uphold the Honor System.

The Honor Court is composed of three staffs, which are the Honor Council, the Prosecution staff, and the Defense staff. There is also a clerk who takes care of all correspondence, and there are three associate Justices who assist the Chief Justice in his duties.

The Civilian Honor Court uses the due process of law in incidences of stealing, lying, cheating, and failing to report a violation of the Honor Code to the Honor Council.

Joanne Williams, Chief Clerk; Thomas Fishow, Chief Defense Attorney; Charles Land, Honor Council Chairman; Russell White, Chief Prosecuting Attorney.

Gary D. Crowder, Associate Justice; Stephen K. Bradford, Chief Justice; Frances L. Ropelowski, Associate Justice.
Cadet Honor Court

Taking on the responsibility of investigating all violations of the Cadet Honor Code, the Cadet Honor Court has become an accepted and respected organization in the lives of Cadets at VPI. The Cadet Honor Code and the Cadet Honor Court were set up to supplement the Honor System which is traditional at VPI.

Composed only of cadets, the Cadet Honor Court is separate from the Civilian Honor Court, but both are committed to the same purpose, namely, to make sure anyone who is accused of an Honor Code violation is treated fairly. Basically the same as the Civilian Honor Code, the Cadet Honor Code is based on three assumptions: "to trust a man is to make him worthy of that trust; no gentleman will lie, cheat, or steal; every cadet is a gentleman."
As the only student organization in service to the civilian male at VPI, the Civilian Interdormitory Council has assumed many responsibilities and set up many objectives. Seeking to establish better living conditions within the men's residence halls, the CIC provides students with the opportunity to speak up and be heard.

Although the CIC does not have a seat in the SGA, it is a strong and efficient organization which does have a voice in several other pertinent organizations such as the SGA Executive Committee and the Student Activities Committee. Besides serving on committees, the CIC is served by committees, which initiate projects and which exist for the sole purpose of serving the male civilian students.
The Women's Interdormitory Council, working to promote cooperation and coordination among women students in the residence halls, also acts as the governing body of these halls. The WIC, therefore, works as part of the SGA by coordinating all efforts necessary for promoting unity among the students of the university. This is primarily accomplished by setting up goals which, within the women's residence halls, encourage a desirable attitude toward learning and scholastic achievement. The WIC also affords students the opportunity to assume leadership in a democratic government and group living as well as by serving as a channel of self-expression for student ideas and opinions.
Members of the Class of 1969 have participated in many activities that have been vital parts of the Tech campus these past four years. In September 1965 some came early to school only to drop their luggage and head for orientation at camp in the mountains of Pulaski County. As fall leaves turned, both Rats and civilians prepared for Homecoming. Later came the traditional football game with VMI, and all too soon, exams and bluebooks. Our class trained for roles in publications, sports, dramatics, and countless other extra-curricular events. And dozens, before long, of 69-ers helped Mark Musick and the class officers select the ring, the theme and the decorations, the band, for a successful "Ring Dance" last May. Looking back, the senior class may have a few regrets about our academic development here. But, on the whole, the VPI years were rewarding and rich. It’s been a great four years.
Senior Class Officers — Standing: Barbara Williams, Historian; Tom Tiller, Treasurer; Greg McGhee, Vice President; Judy Warren, Civilian Member-at-Large; Mark Musick, President. Seated: Mary Anne Marshall, Secretary. Not pictured: Pat Tucker, Cadet Member-at-Large.

The College and the Newspaper—Both are Part of a Full Education

The college and the newspaper are brothers in knowledge and partners in the informing of mankind. Both are a part of a full education.

The Roanoke Times serves many students at Virginia Tech as a "living textbook" with the most up-to-date supplementary reading in their education. This newspaper is pleased to have been a part of the student life of this year's graduates and extends them best wishes. The daily newspaper will serve them in the years ahead as their primary source of information.

BLACKSBURG, VIRGINIA
Why make the nation's business yours?

Because you seek a career with challenge. Purpose. You want to help. And you want to get involved.

You'll find opportunity and fulfillment in private business, built on the capitalistic system that has given us the world's highest living standards.

American business continually searches for new and improved products, for better ways to do things, and keep costs down. Wherever there are problems to solve—in our cities, in space, under the sea—private enterprise responds with the talent and resources to bring about efficient, workable solutions.

Your work and achievement in the corporate community can be satisfying and rewarding, your contribution important. Check into opportunities in business enterprise.

How to interview 170 companies in half an hour.

Just talk to the man from General Electric.

He represents 170 separate GE "companies" that deal in everything from space research to electric toothbrushes. And each of these product departments is autonomous. Each has its own management and business objectives.

So a job at General Electric offers the kind of immediate responsibility you might expect to find only in a small business.

Right from the start you get a chance to demonstrate your initiative and capabilities. And the more you show us, the faster you'll move ahead.

As you do, you'll find that you don't necessarily have to spend a lifetime working on the same job in the same place. We have operations all over the world. Chances are you'll get to try your hand at more than one of them.

Our interviewer will be on campus soon. If you're wondering whether it's possible to find challenging work in big business, please arrange to see him. He speaks for 170 "companies."

How to \textit{Get the Temperature Rise (or Drop)}
\textbf{You Need — at Today's High Duct Velocities}

Don't go to the expense of increasing the area at the exchanger section to slow the air down. Use Aerofin \textit{SMOOTH-FIN coils} and operate at full duct velocity.

Aerofin coils have the needed extra capacity per sq. ft. of face area. Smooth fins prevent excessive turbulence. Air resistance is normal. You don't need higher blower speed or more power.

Aerofin standard encased units are arranged for quick, economical installation.

Today's brand new ocean is creating your brand of engineering career opportunity

...and so is Newport News' $300,000,000 backlog of orders.

Nuclear ship propulsion—marine automation—new naval concepts like the Attack Submarine and the "systems" approach competition for a Landing Helicopter Attack Fleet—these are just some of the revolutionary developments on and under today's brand new ocean. Some of the reasons the New York Times calls it earth's "last frontier."

You'll find Newport News, world's largest shipbuilding company, a prime mover in that revolution. That's why we have immediate engineering career openings in all the fields listed here. If your training and experience are in or even close to any of them, let us give you details on specific opportunities for you.

Also, let us send our 1967 book, "Blueprint of Your Future" to give you the whole picture of Newport News. Its 80 years of forward thinking. Its current achievements in nuclear technology, huge scale automation, computerized systems engineering and work group packaging. Its setting in the heart of Virginia's seashore vacationland where your dollars buy a lot of living—and where superb beaches, boating, fishing, hunting, golf are at your door.

With a half-billion-dollar backlog of contracts, we're bidding for imaginative engineers who can handle tough challenges and personal responsibility. Beyond that, our backlog spells years of career security with no ceiling on your future. Write John J. Gaughan, our Employment Manager. You'll get fast action.

Editor's Wrap-Up

March 10, 1969; 4:00 A.M. Now that I have, I hope, beaten the deadline to send off the '69 BUGLE to Hunter Publishing Company, my blurred mind is too tired to write a graceful farewell note. The past twelve months have been the most challenging, and perhaps frustrating, of my life. There have been low spots and high ones — disappointment followed by achievement. Many staff members have burned the midnight oil with me. For some, this was their first experience on a college yearbook, and they should be proud of their steady efforts. Others have chosen to "goof off" and leave their share of the work for us.

This year has been, I feel, a signal year for the BUGLE. Last June we decided to change printers — the first such change in over two decades. Learning the methods of a new printer required extra effort, as I soon found out, but I am now confident that we made the right decision. It has been a pleasure to work with the staff at Hunter, but I would especially like to thank J. B. Edwards and Jim Ellis for their art advice. I would also like to thank Paul Wood, Hunter's representative, for his advice and support.

The members of my staff who have done a good job know who they are. I hesitate to mention any names, but I feel that two members should be commended for their outstanding work. Bill Roper and Don Todora faithfully edited their sections without my help. I would like to thank our advisor, Prof. E. A. Hancock, for assistance in reading copy; and Judy Pratt for her tremendous effort on senior histories and constant secretarial assistance. Finally, I would like to thank Barry Mayberry for seeing that the BUGLE didn't go into the red in spite of my color expenditures, and Gentry-Gilbert Photographers for their continued excellent work.

Sincerely,
John D. Tressler
Editor-in-Chief
