IN THE BEGINNING ....
THERE WAS AN IDEA.
AND IT WAS WITHOUT FORM AND VOID ....
LET THERE BE LIGHT, AND THERE WAS LIGHT . . .
AND THERE WAS SET ASIDE A PLACE FOR LEARNING ...
BE FRUITFUL AND MULTIPLY AND FILL THESE HALLS OF KNOWLEDGE SO TO HAVE DOMINION OVER THE EARTH....
AND IT WAS GOOD ....
AND WHEN IT WAS FINISHED, THERE WAS NO REST FOR WORK WAS YET TO BE DONE . . . .

"The streets of our country are in turmoil. The universities are filled with students rebelling and rioting. Communists are seeking to destroy our country. Russia is threatening us with her might and the republic is in danger. Yes, danger from within and without. We need law and order."

Adolf Hitler 1932
O God, give us serenity to accept what cannot be changed, courage to change what should be changed, and wisdom to distinguish the one from the other.
Reinhold Niebuhr
V. P. I. AS IT WAS WHEN OPENED (1872)
Seal of the Virginia Agricultural and Mechanical College, 1872-96
Clockwise, from top: Preston and Olin Building, the only building on campus when Virginia Agricultural and Mechanical College opened its doors in 1872; Governor Gilbert C. Walker's appointment of Harvey Black to the first Board of Visitors; William A. Caldwell of Sinking Creek, Craig County, the first student to enroll at V.A.M.C.
Right: the Preston and Olin Building, built in 1860, housed a Methodist school for male students until becoming the sole building of the new Virginia Agricultural and Mechanical College in 1872; it was located on a hill to the northeast of the present Henderson Infirmary, where the dual portion of Main Street now meets College Avenue. The building, later used for shops, burned down in 1913. Below, left: An 1878 diploma of V.A.M.C., certifying a student's graduation from the three-year agricultural program. Four-year degrees were not awarded until 1883.

Above: the campus in 1880 had grown to include the First and Second Academic Buildings (on hill where Brodie and Rasche now stand) and several other buildings at right: the Pavilion, Machine Shop, President's Home (now part of the Infirmary), and the original Preston and Olin Building (extreme right).
Left: J. Marion Brown of Rural Retreat, Va., was typical of many early V.A.M.C. cadets. He entered the college in 1874 and became a cadet sergeant; member of Pi Kappa Alpha, social fraternity; and a debater in the Maury Literary Society. He left the college in 1878 and attended medical school in Baltimore, receiving the M.D. degree. He later became a prominent Nebraska physician and state senator, forming a close personal friendship with William Jennings Bryan. He died in 1913. Below, left: an engraving of the campus in 1880.

Above: The entire Class of 1880 poses for its graduation photo.
Above: Student rowdiness began to get out of hand in the late 1870's and continued into the 1880's as this photo of the Preston and Olin Building in 1883 shows. On the facing page are campus scenes from 1879 (top) and 1882 (bottom).
Top: the college forge shop in 1898. Bottom left: Entomology laboratory in 1898; right, combined shops and dormitory in 1880.
Top: the football team in 1896. V.A.M.C. began playing intercollegiate football in 1892, winning its first game against St. Alban's Lutheran Boys' School of Radford by a 14-10 score in a game played in Blacksburg. Bottom: the college's first formally organized baseball team was fielded in 1892 and poses for their photo. In 1877, a team of V.A.M.C. students and Blacksburg townspeople played Roanoke College and beat them by a record score of 53-13.
Top: cadet officers in 1893. The commandant, Col. J.A. Harmon, is at left on bottom row; standing next to Harmon is the ranking cadet officer, Cadet Major R.E. Wright. The Corps of Cadets, as a formal organization, was established in the 1891-92 session as a Battalion; it became a Regiment in 1922. Below: the first formal drama organization at the college was the Thespian Club, formed in 1892. The photo shows the members in 1896.
Below: the Corps' Battalion in 1899 and (bottom) 1898 on the drillfield. Right: a cadet officer in 1886 poses in his dress uniform.
Top, left: Photo of intersection of Main Street and College Avenue in 1907 shows the alterations that were made to the original Preston and Olin Building over the years. The building burned down six years later and, still later, the dual portion of Main Street was cut through the site. Top, right: sketch from the 1902 Bugle by Walter Biggs '03, later a nationally known magazine illustrator. Bottom, left: old Science Hall after it burned in 1905.
Top: Map of the campus in 1905. Bottom: the old Huckleberry railroad station stood on the site of the present Municipal Building. Rail travel came to Blacksburg via the Virginia Anthracite and Coal Co.
Top, left: within three years after V.A.M.C. had opened, enrollment had grown but facilities had failed to keep pace, resulting in three-man rooms with make-shift triple deck beds.
Bottom, left: snow scene of the campus in 1907. Bottom, right: downtown Blacksburg in 1907.
Above: Hunter Carpenter, Tech's only football player to be elected to the National Football Hall of Fame, poses in his uniform in 1901. Right, top: the original "Gobblers" of 1909. Center: the 1894 football team. Bottom: the 1905 team, winner of nine games, the most any Tech team has won.
Facing page, top: the cadet band in 1893, the year it became an integral part of the cadet Battalion. The band's nickname, "Highty-Tighty," was derived from an off-color company yell composed in 1919, not from a parade spectator's remark in 1921 as is often supposed. Facing page, bottom: artillery practice in 1906. Immediate left: "Rat Parade" through downtown Blacksburg in 1916. Below: Corps on parade in front of the old library and Field House in 1917. Both buildings were destroyed by fire.
Facing page, top: old Alumni Gateway in 1914 stood at the intersection of College and Main Streets. Bottom: German Club dance decorations in Commencement Hall in 1918. Above: Women were first admitted as students in 1921, and four years later these five Tech coeds had degrees. Mary Brumfield, a transfer student (at left), received her B.S. in 1923 and her M.S. with the first four-year graduating class in 1925.
Tune: That Old Girl Of Mine

In the field the Poly-techs are bravely fighting.
This ball game they're going to win,
(V.M.I.'s) fondest hopes are blighted,
They haven't a look in.
Play ball and win this game,
For the sake of V.P.I.
And when night-time comes a'falling in old Blacksburg
Orange and Maroon will wave on high.

Tune: On the Trail of the Lonesome Pine

Oh, the Poly-technics of Virginia,
On the trail of the Championship;
On the hot gridiron our men are fine,
We keep our rivals far behind.
Oh, Tech, with your punts and your kicks,
You're the best
In the South Atlantic.
Oh, the Polytechnics of Virginia,
On the trail of the Championship.

Tune: Grand Old Flag

You're a grand old team and in football a dream,
You're the best ever punted a ball;
Making scores you're great, kicking goal's your fate,
Winning games to you's nothing at all.
You're the best beyond a doubt, and for you we will shout,
We will win, or I don't know why.
Should old acquaintance be forgot?
Keep your eyes on old V.P.I.

One, Two, Three, Four

One, two, three, four,
Two, four, three, four;
Who in the hell are we for?
V.P.I.

From top left, clockwise: getting ready for rifle inspection, 1924; a “Rat Parade” in 1924; cadet pep parade in 1926; “at ease” in barracks, 1924.
Top: Company E at formation in 1921.
Center: the Corps at Norfolk, 1926.
Bottom: the Corps at Lynchburg, 1921.
Top: Corps Minstrel end men in 1922. The Minstrel was changed to a Corps Variety Show in 1964, and “blackface” routines were discontinued, a bow to more enlightened times. Center: the “Rats” do a maypole dance for upperclassmen in 1925. Below: the all-male cast of a student Play in 1927. Until the ’thirties, cadets would not allow coeds to participate in their “recognized” extra-curricular activities.
Cadets eat their “growley” in old Commencement Hall in 1930.

Facing page: construction of the Mall in 1950, looking toward Main Street (top) and the campus (bottom). Immediate left: a cadet company salutes the World War I Memorial as it passes in review in 1943. Below: wartime student-soldiers, part of the Army Specialized Training Program, take calisthenics on the drillfield in 1943. Almost 2,300 Techmen were under arms in World War I, while about 7,300 served in World War II.
Right: old McBryde Hall, completed in 1917, was Tech's first building designed in the neo-Gothic style. It was torn down in 1966 to make way for the new McBryde Hall. Below: the old Library, completed in 1905, stood on the site of the present Carol M. Newman Library. Tech's first intercollegiate basketball game was played there in 1909. The building was burned down in 1953 after being vacated. Facing page, top: Tech coeds prepare dinner at the Home Management House in 1954. Facing page, bottom: cadets get their crew cuts in the barber shop in old Squires Hall in 1957.

Facing page: the "Highty-Tighties" march by President John F. Kennedy's reviewing stand at the 1961 inauguration in Washington, the day they won their third consecutive first place trophy in inaugural parade competition.
TECH TRIUMPH

TECHMEN, WE'RE TECHMEN WITH SPIRIT TRUE AND FAITHFUL,
BACKING UP OUR TEAMS WITH HOPE'S UNDYING.
TECHMEN, O TECHMEN, WE'RE OUT TO WIN TODAY,
SHOWING PEP AND LIFE WITH WHICH WE'RE TRYING.
VP. OLE VP., YOU KNOW OUR HEARTS ARE WITH YOU
IN OUR LUCK THAT NEVER SEEMS TO DIE.
WIN OR LOSE, WE GREET YOU WITH A GLAD RETURNING—
YOU'RE THE PRIDE OF VT.

JUST WATCH OUR MEN, SO BIG AND ACTIVE,
SUPPORT THE ORANGE AND MAROON, LET'S GO TECH
WE KNOW OUR ENDS AND BACKS ARE STRONGER
WITH WINNING HOLES WE FEAR DEFEAT NO LONGER
TO SEE OUR TEAM FLOW THROUGH THE LINE, BOYS
DETERMINED NOW TO WIN OR DIE: SO GIVE A
HOKIE, HOKIE, HOKIE, HI—
RAE RA, OLD VA.
VA. TECH ALMA MATER

Sing praise to Alma Mater dear
For VPI we'll always cheer,
Come lift your voices, swell the song
Our loyal ties to her belong.
So stand and sing all hail to thee
VT all hail to thee.

The orange and maroon you see
Is fighting on to victory,
Our strife will not be long this day
For glory lies within this fray,
So stand and sing all hail to thee
VT all hail to thee.

All loyal sons of VPI
We raise our banner to the sky,
Our motto brings a spirit true
That we may ever serve for you.
So stand and sing all hail to thee
VT all hail to thee.

ALPHA PHI OMEGA
Professor Marion Buford Blair  
20 January 1898 — 8 February 1972

This man, Professor Marion Buford Blair, is the man we here honor as we celebrate our Silver Anniversary. To his memory, and to the memory of the Great strides in Leadership, Friendship, and Service which he stimulated over the years, we dedicate this, our first twenty-five years and the beginning of our second twenty-five years of Zeta Beta Chapter.

"For my money he has always been a leader that has stood out as 'Mr. APO'. This stems back to the time when Sections were first formed in Alpha Phi Omega. I hope Alpha Phi Omega will always be able to attract sincere and worthy Chapter Advisors like the 'APO Dynamo' with the name of Bu Blair."

Tom T. Galt, M.C.  
(APO National President 1964-66)

For Twenty-Five years, the Zeta Beta Chapter of Alpha Phi Omega, has been giving of itself to the University with many thousands of service hours. Upholding the guiding principles of Leadership, Friendship, and Service, the chapter has been given the impetus to truly excel in its endeavors. Many men, and many leaders, have passed through the doors of opportunity that the Chapter offers, yet only one can be credited with total unselfish service. Be it he, our beloved founder and brother, Marion Buford Blair. May he live in us all, who believe in giving of ourselves, to others.

NEWPORT NEWS.
WE'VE LAUNCHED MORE THAN 500 SHIPS.

But wait 'til you see our encore. When we started out in 1886, we were just a small ship repair yard. We named the company Newport News. Because we were proud to be doing business here.

Today we're the largest shipyard in the world. And we're still proud to call ourselves Newport News Shipbuilding and Dry Dock Company. Because a lot of the people who helped put us where we are today come from right here on the Virginia Peninsula.

With their help, Newport News has become an important asset to our community, our state and our nation.

Sure, launching over 500 ships in little more than 80 years is a pretty impressive achievement. But we're not standing still for that. We're constantly looking to the future.

Today a major component of Tenneco Inc, the shipyard retains its identity and its unexcelled reputation for fine ships.

Watch our encore.

A class prophecy

Ten years from now, when you pick up this annual, you will have access to at least 15 new electric appliances that don't even exist today!

Electrical innovations will "make the scene" (as we say in 1973) to benefit health, education, industry and our social lives. You'll also see in the next decade more electronic equipment to purify, filter, recycle and generally clean up America.

Electricity is doing a lot of things for you now. It's going to do a lot more tomorrow. Our prediction: Life will keep on getting better — electrically.

Aerofin has all kinds of problem solvers

Aerofin extended surface coils have proven high-performance records for a wide variety of heat transfer requirements. Special coils to heat air/gas... cool air/gas... condense water vapors from air, chemical vapors from air or gasses and recover solvents... coils to preheat or reheat... coils to absorb contraction and expansion.

Select from standard or custom coil sizes, arrangements, headers and tube materials. Specify your coil application problem, whether multiple coils for job-site-assembly or a single replacement. You'll get what you want, when you want it, without compromise —whether it's for industry, commerce, institutional or energy system design.

Aerofin coils come in many types, many configurations.

This year, I have tried to change the yearbook into one that the students can get involved with. I have tried new techniques and a entirely different approach. To do this, I needed much help and this I received from a great staff. Without Bucky Hodges, we would not have paid for the book. Special credit goes to the section editors who co-ordinated the layouts. I especially want to thank Linda Wilt and Wanda Jean Candeo for seeing me through deadline days; I might have gone crazy without them. My sponsor, Jenks Robertson, got me anything I asked for in preparation of the book. Without him, the Centennial Section and others might not have been possible. Credit also goes to NASA for their picture on the fold-out. Extra credit goes to our photographers, who worked those late nights for me. This has been a rewarding year and I hope you the students can get a reflection of this year from the CENTENNIAL BUGLE.

The World is a beautiful place
to be born into
if you don't mind a touch of hell
now and then
just when everything is fine
because even in heaven
they don't sing all the time
The world is a beautiful place
to be born into
if you don't mind people dying
all the time
or maybe only starving
some of the time
which isn't half so bad
if it isn't you
Oh the world is a beautiful place
to be born into
if you don't much mind
a few dead minds
in the higher places
or a bomb or two
now and then
in your upturned faces
or such other improprieties
as our Native Brand society
is prone to
with its men of distinction
and its men of reclusion
and its priests
and other priests
and its various segregated
and communal organizations
and other constipations
this our lost flesh
is made to
Yet the world is the best place of all
for a lot of such things as
making the fun scene
and making the love scene
and making the sad scene
and singing low songs and having inspirations
and walking around
looking at everything
and sifting flowers
and gazing statues
and even thinking
and kissing people
making babies and wearing pants
and waving hats and
dancing
and going swimming in rivers
on picnics
in the middle of the summer
and (as generally)
by the sea.
Yes
but there right in the middle of it

GENESIS — LAST CHAPTER

In the end there was earth, and it was with form and beauty. And man walked upon the lands of the Earth, the meadows and trees, and he said, "Let us build our dwellings in this place of beauty." And he built cities and covered the Earth with concrete and steel. And the meadows were gone. And man said, "It is good."

On the second day, man looked upon the waters of the Earth. And man said, "Let us put our wastes in the waters of the Earth, and the dirt will be washed away." And man did. And the waters became polluted and foul in their smell. And man said, "It is good."

On the third day, man looked upon the forests of the Earth and saw they were beautiful. And man said, "Let us take the timber for our homes and grind the wood into flour." And man did. And the lands became barren and the trees were gone. And man said, "It is good."

On the fourth day, man saw that animals were in abundance on the fields and played in the sun. And man said, "Let us capture these animals for our amusement and kill them for our sport." And man did. And there were no more animals on the face of the Earth. And man said, "It is good."

On the fifth day, man breathed the air of the Earth. And man said, "Let us put our wastes into the air so the winds shall blow them away. And man did. And the earth became filled with the smoke and the fumes could not be blown away, and the air became heavy with dust and choked and burned. And man said, "It is good."

On the sixth day, man saw himself and seeing the mark of man, and thought, he feared and hated. And man said, "Let us build great machines and destroy the as we destroy us." And man built great machines and the Earth was fired with rage of great wars. And man said, "It is good."

On the seventh day, man rested from his labors and the Earth was still, and man no longer dwelt upon the Earth. And it was good.
