Record Group 1 - Board of Visitors

History: The legislation that created Virginia Agricultural and Mechanical College (now Virginia Polytechnic Institute and State University) provided for the establishment of a board of visitors as a governing body. Consisting of both appointed and ex-officio members, the board was empowered to select the president and faculty, determine salaries, handle all matters of discipline and student life, and be responsible for all property of the College.

Governor Gilbert C. Walker appointed the first board on March 19, 1872, the day he signed the bill creating the college, and the first meeting was held March 25 and 26 in Richmond. Board appointments are still made by the governor and subject to confirmation by the Virginia Senate. Since its inception, the board has been chaired by a Rector.

Various changes have occurred throughout the years concerning the composition of the board, primarily relating to number and qualifications of appointees and offices to be represented ex-officio. The first board was composed of nine appointed members, with the president of the State Agricultural Society and members of the State Board of Education serving ex-officio. The next year, the makeup was changed so only the State Superintendent of Public Instruction and the president of the Agricultural Society served ex-officio. Later, the president of the Agricultural Society was eliminated as an ex-officio member, but the State Superintendent of Public Instruction remained until 1966. The president of the Board of Agriculture and Immigration (now Consumer Services) became an ex-officio member after 1902, now being the only ex-officio member serving with thirteen appointed members. Four non-voting members have been added to represent the faculty, staff, graduate students, and undergraduate students.

Selected topics: May include Bylaws; Citations for Meritorious Service [see also RG 6/4/3a]; William H. Ruffner Medal [see also RG 5/6/4; RG 5/2/5a]

RG 8/4 - Corps of Cadets / Commandant of Cadets
See also RG 8/4/2a.

History: Two cadet companies were organized in 1872-1873, but the Corps of Cadets was not officially established until 1891-1892. The first Commandant of Cadets was General J.H. Lane, appointed in 1872. Commandants have been appointed by the Board of Visitors since that time, except for 1880-1881 when the Board failed to appoint either a Commandant or a president, so the acting president appointed a senior cadet as acting Commandant. In 1966, this post was put under the Dean of Students (later Vice President of Student Affairs) [RG 8].

From 1908 to 1964, a president of the Corps was elected each year. This individual's primary responsibility was to serve as chairman of the Cadet Senate. The first constitution of the Corps was adopted in 1908. Both civilian and cadet units served under this single constitution until 1916 when a Unified Student Body was formed (now the Student Government Association) [RG 31/16].

Selected topics: May include R.O.T.C.; Air R.O.T.C.; Armistice Day; Cadet Honor Court; Campus Man of the Year, 1960; Coat of Arms; Color Guard; Commissions; Student organizations and publications: Angel Flight; Army Blades; Arnold Air Society [see also RG 31/5]; Association of the U. S. Army; Conrad Cavalry; Eagle Scout Association; Gregory Guard; Military Recruiting; Military Uniforms; Navy Sailing Team; Navy Seam Preparatory Team; Raiders Platoon; Rat Parade [see also Historical Photograph Collection]; Regimental Band (Highty Tighties); Recruiting Outstanding Cadets (ROC); Rifle Team; Society of Military Engineers; Sash and Sabre Society; Scabbard and Blade (honorary military society); Skipper Crew; Sword (Ceremonial, VPI-VMI Game); Veterans Day events; Foster Parent Plan; U.S. Presidential Inauguration; Memorial Day Parade; Skydiving Club [see also RG 31/15]; John E. Record Group 10 - Department of Athletics
See also RG 8/6/1 for Sports Medicine.

History: While some sports were played in the early days of the College, the first formal effort to organize campus sports was in 1891 with the formation of the Athletic Association. In 1901, the president appointed a faculty committee to administer the expanding athletic program. Then, a reorganization plan entrusted control of athletics to three committees: an advisory council, executive committee, and a faculty committee on athletics.

In 1904, the general manager position was created, along with an Athletic Council to control college athletics. The Athletic Council governed the body of athletics, and the Athletic Association was the operating organization and a non-stock corporation under state law until 1990. In 1990, Virginia Tech athletics were reorganized and put under the direct control of the university.

The Association founded the student newspaper The Virginia Tech (later the Collegiate Times) [RG 31/17] in 1903 and operated it as their official organ until the student body assumed control in 1931. The Association also owned and operated the College Bookstore from 1911 until 1968 when VPI Facilities, Inc. [RG 6/6], assumed control.

Selected topics: May include Blueprint Committee; Student-Athlete Pylons of Promise, #LOVE Initiative

Record Group 11 - Dean of the College [obsolete, 1949]

**History:**
In 1919, the president reorganized the college. Part of the reorganization was the elimination of the deanships of the general faculty, the graduate department [RG 22], the academic department, and the applied science department. To replace these deanships, the position of Dean of the College was established.

A Dean of Students position [RG 8] was created in 1923 and abolished the next year, when the Dean of the College assumed those responsibilities officially and unofficially shared the responsibilities with the Secretary of the YMCA [RG 31/10/26]. From 1926-1937, the duties of the Registrar [RG 5/2/2] were handled by the Assistant to the Dean of the College.

The position was abolished in 1949.

See also RG 48/3; RG 48/7.

History:  
Music courses were first offered in 1965 and theatre arts courses in 1967. The Cinema program developed in the Department of Communication [RG 48/3], which also moved to CLAHS in 2003. In 2008, the Department of Art and Art History separated to become the School of Visual Arts [RG 14/10] in CAUS. Cinema separated from the Department of Communication and formed the School of Performing Arts and Cinema with the departments of Music and of Theatre Arts. The School was renamed the School of Performing Arts [RG 48/7] in 2013.

Record Group 18 - College of Engineering

History: Engineering courses have been available since the inception of the university in 1872 when a student could follow the "Mechanical" course of study (the same as a department today), which included mechanical drawing, mechanical engineering, machinery, and steam engines. When the first administrative instructional divisions were established in 1903, engineering was one of four academic departments for which a dean was appointed. In 1920, the department became the School of Engineering and then, in 1964, the College of Engineering.

Selected topics: May include Center for Enhancement of Engineering Diversity (CEED); Virginia Tech Network for Engineering Transfer Students program (VT-NETS); Imagination Camp; TechGirls; Energy and Materials Initiative; Virginia Tech Middle East North Africa (VT-MENA); JROTC STEM Leadership Academy camp; Center for Space Science and Engineering Research / Space@VT; The Ware Lab / Joseph F. Ware, Jr. Advanced Engineering Laboratory

Record Group 19 - College of Human Sciences and Education [obsolete, 2003; see RG 48]
See also RG 17; RG 48.

History: The first courses in home economics were offered in 1921, the same year women were first admitted as full-time students to the university. In 1924, the Department of Home Economics was formally established in the School of Agriculture, but was suspended in 1933 due to budget constraints. Four years later, the department was reinstated. From 1944 through 1951, the Virginia General Assembly required students in home economics to spend their first two years at Radford College, the Women’s Division of VPI. However, the Board of Visitors did not authorize a separate department at the Blacksburg campus until 1958. Two years later the Departments at Radford and Blacksburg were merged to become the School of Home Economics. In 1964, the university and Radford College dissolved the merger, and the School became the College of Home Economics. In 1982, it was renamed the College of Human Resources.

Courses in education have been offered in specific programs throughout the history of the university. In 1951, the Board of Visitors approved a Master of Education degree, which was available in vocational academic areas on the Blacksburg campus and other areas on the Women's Division at Radford. A Department of Education [RG 15/29] was founded in the College of Arts and Sciences starting 1965, and the College of Education [RG 17] was established on July 1, 1971.

In 1996, the College of Human Resources and the College of Education [RG 17] merged to become the College of Human Resources and Education. In 2002, it became the College of Human Sciences and Education. In July of the next year, the College dissolved, and most departments joined the College of Liberal Arts and Human Sciences (CLAHS) [RG 48], which formed that same year.

Selected topics: May include Hallie L. Hughes Scholarship; Center for Information Technology Impacts on Children, Youth, and Families; Virginia Federation of Home Demonstration Clubs; Virginia Home Economics Association

Record Group 20 - Virginia-Maryland College of Veterinary Medicine (Vet Med)

**History:** After decades of efforts by various factions to establish a School of Veterinary Medicine in Virginia, the Virginia-Maryland Regional College of Veterinary Medicine finally became a reality in 1980. A dean had been appointed in 1974, using the departments of Veterinary Science at Virginia Tech and the University of Maryland as home bases. In 1978, the State Council of Higher Education for Virginia approved a plan to establish a regional college to offer a Doctor of Veterinary Medicine degree. The agreement was officially ratified by the Virginia and Maryland Governors in 1980.

History: When the university was established, the librarian was a part-time position, which oversaw 500 volumes, primarily gifts from congressmen, publishers, and government agencies. Students supervised the library from 1875 until the first full-time librarian in 1903. The first branch library was established in 1907 in Agriculture Hall (later renamed Price Hall). In 1955, two branch libraries (Agriculture and Engineering) and about twenty departmental collections closed and were integrated into the main collection. Branch libraries also include Geology (established 1972) [RG 23/2], the Northern Virginia Graduate Resource Center in Reston, Virginia [RG 23/4], Art + Architecture Library [RG 23/8], and Special Collections and University Archives [RG 23h/6/1; RG 23/7].

Selected topics: May include Bond Issue, 1977 (educational bonds); Martha Creighton Memorial Library Fund; Matthew Fontaine Maury and Robert E. Lee portraits; Western Americana Library Collection; Library development; Library funding and finances

Record Group 26 - Virginia Cooperative Extension (VCE)

History: Extension work at the university can trace its roots to 1906 when an extension program was established in Virginia. When the Smith-Lever Act of 1914 was passed, overall authority for extension, or demonstration, work was transferred to Virginia Polytechnic Institute (VPI), with Virginia State College (later Virginia State University (VSU)) as a division initially serving Black communities. At that time, it became the Agricultural Extension, also called the Cooperative Extension Service.

In 1966, the Virginia General Assembly established the VPI Extension Division, which combined the Cooperative Extension Service, General Extension Division, State Technical Services, and Continuing Education Center. In 1995, the Division became the Virginia Cooperative Extension and Agricultural Experiment Station Division, often shortened to the Virginia Cooperative Extension (VCE), operated jointly by VT and VSU.

Selected topics: May include State Technical Services; Proposal Writing Institute; Horseman's Short Course; Virginia Master Naturalist program

RG 26/1 - Engineering Extension Division

History: The Engineering Extension Division began in 1923 and its main function was to present technical information in usable form for the public. In 1929, three bureaus were established: the Bureau of Community Development, the Industrial Service Bureau, and the Bureau of Extension Instruction. The bureaus closed in 1937, but their activities continued in the Division.

Directors of the Engineering Extension were R.B.H. Begg (1924-1932), E.B. Norris (1932-1952), and John W. Whittemore (1952-1962). In 1962, the Engineering Extension became simply General Extension and then became part of the University-wide Extension Division in 1966.

Record Group 45 - College of Natural Resources and Environment (CNRE)

History: By the 1930s, Virginia Polytechnic Institute offered its first programs in forestry and wildlife. The Virginia Cooperative Wildlife Research Unit began in 1935, and three years later the Department of Biology started offering the first B.S. in conservation and forestry. In 1959, the Department of Forestry and Wildlife was founded in the College of Agriculture. In 1974, the Department split into the departments of Forestry and Forest Products and of Fisheries and Wildlife Sciences. A year later, the School of Forestry and Wildlife Resources was created within the College of Agriculture.

By 1992, the College of Forestry and Wildlife Resources was established, offering majors and minors to students, although it was not fully phased in until 1994. In 2000, the college changed its name to the College of Natural Resources, and in 2010, it became the College of Natural Resources and Environment.
